Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

Arnold's Vital Fluid

PURIFIE and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical nonfulfilment of neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1,50	5 lb. Mocha Coffee,	1,00
5 lb. Oolong "	1 75	5 lb. Java "	90
5 lb. Y. Hyson "	2.25	8 lb. good "	1,00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, Aug. 19, 1856. oo6m

Great American and Foreign Office
For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid heretofore by others) will be promised by him in case of failure to obtain a patent, and the withdrawal from him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY, *Solicitor of Patents.*

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most informed and most skillful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

WEDDESDAY, DECEMBER 10, 1856.

For the Chronicle and Phenix.

ELECTION IS OVER—

WHAT NEXT?

The great agony being over, and the public mind ready to take up every-day topics again, wherewithal shall it be occupied? There are many important things to claim their share of attention, but I think there is one, which, in its greatness and importance overshadows most others, and that is the temperance movement.

This movement is of vital importance to the well-being of society. The misery from which it seeks to reclaim, is a far-reaching and terrible misery; a misery into which one does not fall alone, but drags down the innocent with him. The temperance movement would reclaim the inebriate and stop the traffic. The traffic is the Sabastopol of the strongholds of intemperance. Prevent the traffic, and the miseries of drunken husbands and fathers, of their wives and their children, are at once and wholly prevented. Prevent the traffic, and you send peace and enjoyment into many a stricken household. Prevent the traffic, and the drunkard's wife shall bless you and his little ones shall rejoice.

But the public mind needs agitating on this great subject. The recent election has seemed to absorb everything into itself, for the time being, and now it is over, the subject of Temperance should be presented in all its bearings, to the community. There should be a thorough discussion, and people should be made to see that they, each one individually, as far as his influence extends, must be responsible to God for the continuance of this vile traffic in ardent spirits. O, if it could be swept from the land, what a change in the face and character of society! And why can it not be? We call ourselves a self-governed people, and cannot we remove nuisances? And is there a greater nuisance in any community than the rumseller?

Our Law for the suppression of intemperance is said to be an excellent law, just and wise in its provisions. It will shut up the rum-shops if it is executed. Well, is it executed? I can speak only of this vicinity, and here the law at first did do a great deal towards stopping the traffic.—But no law will execute itself, and transgressors have grown bold in their transgressions, till liquors can probably be had in many places in our village. Now what is to be done? Matters are serious. The law is trampled under foot, secretly, and we cannot shut our eyes to the fact. Talk of ferreting out the vile dens, each good citizen wants it done, but had rather not do it himself. He is afraid of the midnight incendiary, or some attempt upon his person or property, if he attempts to put the Law in force. Therefore, offenders run riot, and the law lets them run. What else shall it do but let them run? It cannot execute itself, any more than any other law.

Now what shall be done? Where is there a remedy for this state of affairs?—Something is wrong somewhere, besides in the rum-shop. Let us compare the execution of this Law with the execution of other laws. Are people deterred from searching for and arresting the thief, the burglar, the forger, or the assassin, by the fear that their accomplices will wreak revenge on those who find and seize them? People, and officers, even, sometimes suffer in the discharge of this duty. I recollect seeing recently an account of a case where the sheriff was shot at and killed by the criminal he was endeavoring to seize. But such things are comparatively rare, and do not hinder the seizure of criminals.

Why then should there be such a fear that the seizure and punishment of the rum-seller should bring injury to the persons or property of those engaged in the matter? That such revenge has been taken, cannot be denied. But would this be so, if there was a strong public sentiment against the traffic and those who carry it on? if the weight of public opinion were thrown into the scale against the traffic? This is the case with other crimes. The community regards them with the stern eye of the law, and seconds every attempt to bring them under its power. Let it be so with the Law for the Suppression of Intemperance.—Let a healthy public sentiment uphold the law, and attempts to revenge the execution of it will become rare. Let hot New Hampshire, with a law on her statute-book which is called the best yet enacted for the suppression of the traffic in intoxicating drinks, fail of success through the want of a strong public sentiment to back up the law.

Then let lectures and discussions of this great subject be now the order of the day. Let people become engaged and earnest in the matter. Let the influential and respectable bring all their weight of character to bear on this subject, for if they do not they are verily culpable. They are, in this matter, to a fearful degree of responsibility, their "brother's keepers." Let them not stand aloof, as too many of this class do, but enter heart and hand into the great struggle. For if they do not, ere long, the fiend Intemperance may stalk into their own houses, and their noble and promising sons fall victims to the plausible temptations of this fell destroyer.

Westview, Dec. 4, '56. ELSIE.

NOTE EDITORIAL.

The above letter is seasonable and salutary, suggesting, as it does, a real evil, and proposing the proper remedy. This, in our view, is the renewal and redoubling of Temperance Effort in the Moral Field. The season is favorable—and we would respectfully recommend to every minister throughout the State, of every denomination, to preach a good temperance sermon, on or before New Year;—and to move his church and congregation to renewed effort, renewed pledges, and enlarged operations in the home department. Temperance Societies, also, whether in the form of Sons of Temperance or otherwise, should do what they can.

We need to educate the public mind and the fashion of the day, up to the line of total abstinence on the christian or Pauline principle,—rather than to propose any new legislation, or any new jurisprudence.—The remarks of Elsie, on the dangers feared by some who would wish to see the law enforced, are suggestive of a thought, connected with some facts. No doubt there have been some fires set and some men knocked down, by miscreants who fear the restraint of the law. But where one case of this kind has happened, there have been at least ten fires and twenty knock-downs, caused by the direct action of the rum, without much revenge against anybody.

Every police officer knows that nine tenths of all the petty crimes come directly from rum. Every overseer of the poor knows that three quarters of the paupers are made by it. And every city missionary knows it is *the* cause of nearly all the poverty and privation he is daily called to witness.

Ministers, christians, temperance men, give us a good long strong pull, a pull all together, of moral suasion, which shall last all winter, and all summer too, if possible. Let laws and officers do their work, with the best aid and countenance we can give them:—but above all, let us keep the standard of personal and social temperance as high as possible. Without this, no law can be of much avail. With it, we may make progress, under almost any law, except one which directly encourages the sale and use of liquors by a license.

WOMAN BURNT.—The New Bedford Standard of Dec. 8, gives the following account of a woman offered up as a burnt offering to the worship of rum.

As Mr. John C. Brown was passing down South Water street, about half past 11 o'clock this forenoon, he noticed the reflection of fire upon a shop window, near Griffin street, and looking inside the shop he saw a woman completely enveloped in flames. He tried the door, which was fastened; breaking it in, and taking the woman to the street, he finally succeeded in extinguishing the flames, but not until the woman was burned in a most horrible manner. We think we never saw so pitiable a spectacle as the female presented an hour after the accident, being burned literaly from the "crown of her head to the soles of her feet." She cannot live but a few hours at most. It appears that she is the wife of Joseph King, a Portuguese, and the keeper of the shop. King is absent, and as has been the practice while he chanced to be away, she was accustomed to the immoderate use of intoxicating liquors. The stove was overturned, probably in a freak of drunkenness, and by this means fire was communicated to her clothing. The woman has two children—a boy of thirteen, and a girl of eight years of age.

☞ On Sunday morning about half past 6, the Episcopal Church (St. Paul's) at Dedham, Mass., caught fire, and burnt to the ground. The church was valued at $10,000, on which there is insurance for $5000 in the Norfolk Mutual office. No interruption took place in the religious services of the society, a hall having been engaged for its use immediately after the fire broke out. The other religious societies in the town very kindly proffered the use of their churches to the society. A new stone church will immediately be constructed to take the place of the one destroyed.

☞ Mayor Rice is re-elected in Boston, having 8,000 votes out of 10,000. Mayor Cushing is re-elected in Newburyport by 1,000 votes; Mr. Pike had 800. This vote is larger than the presidential vote.

☞ Hon. Wm. S. Damrell left Boston Dec. 8th for Washington. His health is not fully restored.

THE KNICKERBOCKER GALLERY.

This is one of the most interesting and valuable gift books, and what is more—of books, to be read and enjoyed, which the press offers for the coming holidays. It contains about fifty portraits on steel, of the most distinguished of our American authors; with a piece written by each especially for the volume. The portraits, so far as we know the originals, are perfect as likenesses, and are executed in a high style of art. The literary contributions are amply worthy the reputation of their respective authors; and how much this means, will be understood, when we say that Washington Irving, Bryant, Longfellow, Tuckerman, and Halleck, are of the number. The volume was a labor of love, especially designed as a complimentary tribute to Lewis Gaylord Clark, for twenty-five years editor of the Knickerbocker, in which time he has contributed largely to the pleasure and information of the American public, with very inadequate pecuniary returns. Those, who avail themselves of the opportunity of purchasing the Knickerbocker Gallery, will at once ensure their own personal interest and delight, and aid in rendering his due to one of those literary pioneers, who in opening new fields of thought and instruction to the reading public, are among the choicest benefactors of their country and age.

An agent for the work is now in the city, and will exhibit a specimen copy to our citizens, in the view of obtaining orders for an early delivery. A.

Dr. Orren Smith and his wife, of Montpelier, Vt., were riding in the evening between Williamstown and Barre, when their wagon was upset, throwing the doctor forty feet down a precipice, lodging his wife in a tree that stood part way down the hill, and the wagon in the same tree several feet above her. The horse broke from his harness and tumbled over half a dozen times. Neither the doctor, wife nor horse were injured.

Thirty-four young men who were arrested in South Boston on Saturday evening for being present at games played with dice and cards, were before the police court Saturday, and fined one dollar and a proportionate part of costs each.

STEAMER ACCIDENT. *Cincinnati*, 8th.—On Saturday evening the new steamer Kentucky, lying up the river, burst her steam-pipe, scalding eleven deck hands and firemen and six deck passengers.

Three of the injured died soon after. The others were brought down to the Hospital in this city. They are badly scalded, and four or five more will probably die.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use.* It is call'd "*Doctor Burleigh Smart's Cough Medicine.*" and is for sale by all apothecaries. au27 TuThSS 6m

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any hurtful injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes,—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No 4,631, Post Office, New York City, can have them sent to their respective addresses by return of mail.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

LOCAL.

South Newmarket Lyceum.—We perceive by an item communicated to the Exeter News Letter, that a good course of Lyceum Lectures is in progress at South Newmarket. Prof. J. G. Hoyt of Exeter, Rev. J. Greenwood of Dover, and Rev. Dr. Peabody and Rev. L. Whiting of Portsmouth, have already lectured. The other lecturers announced are Rev. Messrs. Mann of Exeter, Atwater of Salmon Falls, Bradford of Raymond, and Rev. Dr. Lamson of Portsmouth.

It will be seen that three of the eight are ministers of Portsmouth; and this fact suggests the idea that we, in this city, might have these and such as these, equal in interest, perhaps, to the better half of those lecturers whom we bring hither from a great distance at great cost,—and vastly better than the unlucky remainder, who seem to have mistaken their vocation, or location, or both,

Austin's Varieties.—This exhibition,—a new combination of attractions, has been exhibiting at Great Falls. The Advertiser says the Arctic Expedition is vividly portrayed, and the accompanying lecture is highly instructive. Prof. Hayes greatly amuses the audience with his wonderful powers of Ventriloquism, while Mr. Austin does the Comic Songs full justice.

It will be seen that they will exhibit in Portsmouth on Friday evening next.

☞ The first lesson of Mr. H. P. Crane's second Term of Juvenile Singing School, (which has been twice postponed by bad weather) will be given at the Vestry of the Universalist Church, this (Wednesday) afternoon, at three o'clock.

3 DAYS LATER FROM EUROPE.

Sandy Hook, Dec. 9.—The Collins steamship Atlantic, Capt. West, arrived off the light ship at 9 o'clock this forenoon.

She brings Liverpool dates to Nov. 26, four days later than the Arabia's advices.

The Cunard steamship Asia arrived at Liverpool 22d ult., from New York. Her advices had no perceptible effect upon the Liverpool markets, which continued, down to the sailing of the Atlantic, very quiet.

Liverpool Cotton Market.—The market ruled dull, though prices were nominally unchanged.

The total sales of Saturday, Monday and Tuesday, were estimated at 15,000 bales, all of which, except 500 taken by exporters, were to the trade.

CONGRESS.

Monday, Dec. 8.

Senate.—Rev. Mr. Hill, Baptist minister of Washington, was elected Chaplain.

The Senate resumed the debate on the motion to print the President's message.

Mr. Bigler entered largely into a defence of the President. In reply to a question by Mr. Wade, relative to Mr. Buchanan's policy, Mr. Bigler said the people of Kansas must determine the question of slavery for themselves; but he had no doubt that Mr. Buchanan, like most Northern men, would prefer that she should be admitted into the Union as a free State.

House.—The President's Message was read.

Mr. Campbell of Ohio, moved its reference to the committee of the whole on the state of the Union; taking occasion strongly to condemn the assertions of the President relative to the republicans, and charging the democrats with deception of conduct in the late Presidential contest, and succeeding by trickery and duplicity in regard to the Nobraska bill; those in the North give a different interpretation from that held by the South.

Mr. Sherman zealously defended the republicans.

The debate was animated and listened to by crowded galleries. Adjourned.

So it seems both Houses of Congress are in full blast as debating societies on slavery.

This puts us in mind of the hypocritical sanctity and sham patriotism with which Congress a few years ago voted sundry Gag Rules on this very subject.

Cincinnati, Dec. 8.—A train on the Cleveland and Pittsburg road ran into an express train on the Ohio and Pennsylvania road, coming West, at Alliance, O., this evening, killing ten persons and wounding several others. The following are the names of the killed, as far as ascertained: Jacob Rudy of Alliance, John McIntire of do., Dr. Smith and lady of do., J. Atterhopst of New Garden O., Wm Ritchie of do., N. T. Taylor of Philadelphia, John Brooks of New Jersey.

Virginia Politics—Southern Convention.—New York, Dec. 8.—(Herald correspondence.) *Washington*, Dec. 7.—A caucus of the Virginia Congressional delegation was held at Washington on Saturday evening, at which they declared their preference for Mr. Bocock, should Mr. Buchanan think proper to give Virginia a cabinet appointment. Gov. Floyd, who arrived at the seat of government yesterday, strongly disapproves of the action of the Virginia Electoral College.

The Southern Convention meets to-day in the city of Savannah, Ga., to consult on such measures as will best promote the prosperity of the South. The number of delegates to the Convention is very large.

MUSIC—AND FUN.

Perhaps some of our readers may remember a "Rev. Mr. Lucas, of Massachusetts," who delivered a lecture on Church Music, at the Temple in this city, a couple of years since, or so. Well; he seems to be at his old trade yet, and is now down east. He delivered his "lecture," as he calls it, in Brunswick, Me., a few weeks since; and the wide-awake editor of the Telegraph, in that place, uses him up as follows:

The general style and manner of his "talk" reminded us most forcibly and repeatedly of the well known sermon—

"He played on a harp of a thousand strings". His intention, evidently was to prove that Church Music had sadly degenerated "within the last *thirty-three years*," and that the only proper course to be pursued was to introduce "congregational singing" at once. As a broad statement, we deny the truth of the first proposition, and the practicability of the latter.

Church Music *has not* degenerated within the last thirty or forty years. We still have all the old tunes, good, bad, and indifferent, and large numbers of new ones continually being formed, that will equal them in each of these qualities. And we have all these performed in as good style and manner as Church Music has ever been performed since its introduction.

If the general singing in our Churches is less satisfactory now than it was thirty or forty years ago, it is because the masses of the people have a nicer musical discrimination than they had at that time. The man who will deny that the masses of the people have a more critical and correct appreciation of music now than they had forty or even *ten* years ago, must be either ignorant or foolish.

And we might just as well talk about returning to the wooden ploughs, homespun garments, uncushioned seats and bellless, unsteepled churches, as to think of returning to the Church Music of our great-grandfathers. We do not and will not argue present perfection; but we do claim great improvements to have been made since the days of these venerated worthies.

The speaker claimed great intrinsic worth for those "Good Old Tunes" that "we all like to hear." The mere fact that we are delighted or affected by hearing or singing the tunes that we heard long years agone, is of itself no proof of the intrinsic superiority of them over the many new ones constantly being introduced. They come to us like old friends, awakening long slumbering memories of the past, and we yield to the pleasant fascination, forgetting that it is the associations it calls up, and not the merit of the tune that thus charms us.

The speaker seemed to believe that a resort to what is called "Congregational Singing" would immediately result in the happiest effects. *We* do not so believe. So long as a few of the *best* singers in a congregation cannot perform acceptably to common ears, when by themselves, so long may we expect most efforts at congregational singing will be a failure. The time *may* come when it will be practicable, but it is not yet. The masses are not yet educated for it.

After wholesale and reckless denunciations for using "Secular Tunes in the Praise of God," the speaker illustrated the effect of a performance of two old tunes, but unfortunately for his argument, *both of them were Secular tunes;* viz. "Auld Lang Syne," and "Greenville."

By request of the lecturer, the tune of "Old Hundred" was sung by the audience, standing. As a matter of curiosity, we give the words (!) sung by the gentleman himself, as we were careful to listen, and believe we have them nearly as he gave them:

Bee thou wo gau deck saul tid eye,
Yan daz thy gloree feels the sk-yigh—
So late tit bee yon nearth diz plate,
Teel thou wart here a-zthure row bate.

Mutiny Among the Negroes. *Louisville*, 6th.—The negroes in southern Kentucky are in a mutinous state, and a general insurrection is feared. Vigilance committees have been formed in Lafayette, Hopkinsville, and other places.

☞ Joseph Drayton, Esq., the distinguished artist, who accompanied Lieut. Wilkes on his exploring expedition, died in Philadelphia on Friday evening, after a short but severe illness.

☞ The wharf laborers at Savannah have "struck" for an advance in their pay, from $1,50 to $2 per diem; but the merchants refuse to accede to their demand, and are making arrangements to employ slave labor in their stead.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough. Influenza.

SPRINGFIELD, MASS., Feb. 7, 1855.
DECTOR AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL, by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 5, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases in this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily sinking, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Its close his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she was to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELLEY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues. — *Philadelphia Ledger.*

Ayer's Cathartic Pills,

THE sciences of Chemistry and Medicine have combined to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win precedentedly upon the esteem of all men. They are agreeable and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which fomented and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, by diminishing doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of suffering afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Flatulency, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, and Dirtiness and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Barns or Stores. Also, Shop and Box Stoves. Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our stock of stoves comprises the *largest assortment,* of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these Instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Heretofore all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES P. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords clear profit of $100 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a small and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes, are best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine, of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Arnold's Vital Fluid

PURIFIE and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID
Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID
Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID
Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.
This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases
Resulting from Poisons in the Blood,
that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.
VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

TREMONT MILLS.
Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE,—AND ALSO IN SMALL PACKAGES.
E. E. DYER & CO.
(Sign of the Chinaman grinding coffee,)
141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices*. Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum, or Prepared Dandelion Root, &c., &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."
To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ anh ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.
DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.
☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"
☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.
☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Great American and Foreign Office
For Securing Patents for Inventions.
Agency for business with U.S. Patent Office, Washington
R. H. EDDY,
No. 76 State st, oppo. Kilby st, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**
Solicitor of Patents.
Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.
AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.

THURSDAY, DECEMBER 11, 1856.

WASHINGTON NEWS.

With our columns crowded as they are with advertisements, we are compelled to condense the news from Washington into brief items.

The Boston Advertiser's special correspondent, Washington, Dec. 9. states that,—

James D. Harrison has been appointed Judge of Kansas, in place of Judge Lecompte, removed. He is a distinguished lawyer of Lexington, Ky., and ran as a democratic candidate for Congress, in opposition to Hon. Humphrey A. K. Marshall.

In Congress, on the 9th, Mr. Collamer of Vermont, occupied most of the time in the Senate, in animadverting upon the conduct of Congress, and in answer to the charges made by the President against the supporters of Mr. Fremont.

In the House, Mr. Smith of Tennessee, defended the President in a speech at some length. The vote by which the Kansas delegate was rejected, was reconsidered, 112 to 108, and Mr. Whitfield took the requisite oath.—This event is another temporary triumph of the Slavery propagandists, as Whitfield is well known to be delegated by men who voted under the *bogus* Statutes of Kansas, one of which requires a pro slavery oath from every voter. These bogus statutes are the work of border ruffians, and not of settlers. Whitfield is therefore the delegate of Atchison and Stringfellow, rather than of body else.

Our Representatives from New Hampshire, Cragin, Pike, and Tappan, voted *against* him.—Brooks and Herbert, Letcher and Ruffin, Savage and Shorter voted *for* him, and so did Fuller of Maine.

It will be remembered that Whitfield was said to have threatened any member who dared to oppose him.—Of course then, Brooks and Herbert should vote for him,—and every honorable man, every friend of freedom should vote against him. He was admitted, however, by the united vote of the Democratic party and South Americans,—and the vote, 112 to 108, may now be assumed as the test of parties in the House, which stands 108 opposed to slavery extension, to 112 in favor of giving all it asks.

SLAVE INSURRECTION.

While both Houses of Congress are debating slavery in its political aspects, a real, matter of fact trouble is occurring in several slave states in the form of insurrections.

A despatch from Nashville, Dec 8, says: the excitement regarding the attempted insurrection of the negroes continues. Four of the ringleaders have been seized and executed at Dover, Tenn.

The Louisville Journal correspondence says there is great exitement at Franklin, Tennessee, owing to the projected insurrection among the slaves there. 24 muskets and 2 kegs of powder had been found in the possession of a gang of negroes at Columbia, Tennessee. In Perry, Tenn., 15 negroes had been killed by their owners.

The Evansville Journal of the 6th inst, learns that there was much exitement in the neighborhood of Dover, on the Cumberland river, among the negroes. Many of the ringleaders had been arrested, and 11 hung. One white man, disguised as a negro, had been sentenced to 900 lashes, but died before the penalty was fully inflicted.

The whites were arming and organizing for defence.

An opinion prevailed that a general uprising would take place among the negroes during the holidays. Escapes of slave were unusually numerous.

A Mournful Story.—The Troy Times tells a sad story of the destruction of a young and lovely woman by intemperance. A few months since, a young lady of that city was married to a New York merchant, under circumstances most auspicious for the happiness of both. Lately she returned to her home in Troy, discharged by her husband on account of her mania for intoxicating drinks, and in a few weeks died of brain fever, induced by her habits. The father of the young lady has been called upon, within three months, to mourn the death of a wife and daughter by intoxication; and a son, once noble and manly, whose highest nature has been perverted by the same cause.

Parents be Careful.—"Ma, is the portrait of father torn?" asked a little cherub of three summers.

"No, child. Why do you ask?"

"Why, this morning he said 'darn my picture!'"

Marine Items.—A Liverpool, England, item of Nov. 26, says,—It blew a gale on Monday night from N. to N. W., during which, the John Haven, for Calcutta, and the Hiedelberg, from New Orleans, at anchor in the river, drove and got into collision. The John Haven lost main topgallant mast, had her starboard quarter damaged, and subsequently went ashore opposite Woodside pier, but was assisted off yesterday morning's tide. The Hiedelberg's anchors got foul of the moorings of the Woodside steamers, and she had to slip to get into dock.

Ship J. N. Cushing, (of Newburyport) Plummer, left Trapani Sept. 26. Passed Gibraltar Oct. 13. Has been within 24 hour's sail of Boston, since the 20th of Nov.,—and arrived there Dec. 9. Brought home in irons two seamen, named Samuel Warden and Wm. Stephens, charged with refusing to do duty.

A telegraphic despatch from St. Petersburg, Nov. 24, received at London, says—"No hopes of the ships getting away from Cronstadt."

Steamship Atlantic, at New York from Liverpool, passed an island of ice, Dec. 5, Cape Race bearing E.N.E. 20 miles. She experienced very strong winds on the passage.

A fleet of British schooners, chiefly for Boston, during a gale near Annapolis N. S. were wrecked. Several lives were lost.

☞ The Prisoner's Friend for November is received from Charles Spear, proprietor, Boston. The contents are: Imprisonment of Eminent Men, Journeys, Our Labors, Poetry—a Sick Man's Dream, Prison Discipline, Russian Kindness to Prisoners.

Under the head of Journeys, Mr. Spear says:

While lecturing in the Rev. Dr. Hill's Church in Worcester, we remembered to have spoken there, about twenty-five years ago, on Imprisonment for Debt. We could not help contrasting the change in that law. Then there were about seventy five thousand persons confined for debt in the prisons of the United States, if we may credit Edward Everett; and no one is more to be relied on in his statistics. The law allows five hundred dollars, including tools, library, &c., and also a homestead worth eight hundred dollars. On Sunday last, we visited the Boston Jail, where we found one debtor; and he would not have been confined, had he not endeavored to cheat his creditors by concealing his property.* Compare this with the hundreds of poor debtors confined in the same institution a few years ago, many for no other reason than simply their poverty.

After describing his home labors, the editor concludes:

We have thus briefly stated our plans; and they all strictly belong to the great reform on which we have entered. We never depart from that, no matter how pressing the temptation. Our work is with the prisoner. It is to *prevent crime*, not punishment; it is to build up, and not to destroy. In closing, we need only say, that this whole work has thus far been sustained by charity. The State does nothing for the work, though directly benefitted;—for to save a criminal is better than to imprison or hang him, and far cheaper besides. The state pays the Police, the Judge, the Jailor, and the Sheriff, but leaves the Philanthropist unprovided for. Where the State leaves off, let Charity take up the work. 'We must sow beside all waters;' trusting Him who has said that 'he that goeth forth and weepeth, bearing precious seed, shall doubtless come again with rejoicing, bringing his sheaves with him.'

*There were committed to the jails in Massachusetts, in 1833, for debt, 1,346 persons. Of this number, there were confined in Suffolk county, including Boston and Chelsea, 621 persons. The amount of costs and board was $9,586.87.

It is said that at the sale of the Delaware lands in Kansas now going on, two to one of the purchasers are in favor of making Kansas a free State.

The St. Louis Democrat of 27th ult. remarks:

"The southern Kansas emigrants, it seems, are quitting the territory about as numerously as they flocked into it. The steamer E. A. Ogden, which reached the city yesterday, had on board about two hundred of them, all on their way back to their old homes, and most thoroughly disgusted with the country so close to the north pole."

The Chicago Tribune says that the thirty-nine Free State prisoners who recently escaped from Tecumseh, took leave on Saturday evening during a severe snow storm:—

"They marched to Lawrence, which place they reached on Sunday, without interruption. The citizens furnished them with a change of clothing, and gave them other necessaries of which they stood in need. They were in deplorable condition; their treatment had been of the most cruel description; they had suffered intensely from the cold; their food had been scanty in quantity and bad in quality. The pro-slavery ruffians set to guard them had been brutal in their treatment. After obtaining help from the kind people of Lawrence, they pursued their journey beyond the jurisdiction of their persecutors.

A Fixed Character.—The New York Evening Post reports that a Mr. Hart, now between forty and fifty years old, was born in that city, and has never been outside of the corporation, except in a single instance, when he crossed over to Brooklyn in a steamboat, but returned without landing.

Mr. Hart for many years did business as a pawnbroker on Chatham street; he acquired an ample property, and retired from business when about forty years of age. He was formerly one of the heaviest stockholders in the Third Avenue Railroad Company, yet he has never been above the first section of this road, which extends to 61st street.

The most remarkable fact in connection with his history is, that *he has never seen a locomotive;* from which it will be perceived that he has passed his life almost entirely in the lower part of the city. He has never been into the Crystal Palace, and, it is said, has not even been in sight of it.

Bully Brooks's Constitution.—Mr. P. S. Brooks recently delivered a speech to his constituents at Laurens, in which he stated that though he thought Mr. Buchanan "sound on the slavery question," he did not hope anything from his administration for the South. He stated that the only conditions upon which he would agree to a compromise, were:

"That each State shall be permitted to collect its proportionate share of the public revenue under its own laws, and by its own officers. Secondly, that the Representation of each State in the Federal Legislature shall be based upon the *entire* population; so that every slave shall count one, instead of, as now, five slaves counting only three. Thirdly, that the offices of President and Vice-President shall be filled, one from the Northern, and the other from the Southern States, and that no bill shall become a law without the concurrent signatures of both."

A Coltfrom a Mule—A Curiosity.—The following letter to the N. Y. Spirit of the Times, will appear singular to many. That paper says the writer is a gentleman of probity. It says:—

"I have a mule in San Marcos, Texas, that I raised, three years old in June last, that now has a colt by her side. Please say what I must call it. Its ears are not like the mule nor the horse. In other respects it resembles the mule. If any one disputes it, I have the mule and her colt in my lot; the doubting Thomases can see for themselves."

Personal Items.—The Hon. Thomas H. Benton and Col. Fremont will be present at the Dinner of the "New England Society" in New York, on the 22d inst.

Hon. Millard Fillmore is on a visit of business to New York, and will remain only three or four days.

The Rev. Charles G. Finney, of "revival" notoriety, preached in Boston last Sabbath, and contemplates holding a series of meetings there, and also in Charlestown.

A Sentiment.—*The Ladies*—May their virtues excel even the magnitude of their skirts, while their faults are still smaller then their bonnets.—*Lowell Citizen.*

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cure but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuTh&S 6m

A boy named Fairbanks, in Townsend, Vt., fell upon an open knife, last week, the instrument piercing his heart, causing death. He had been at a neighbor's in the evening where frightful stories had been related, and he, it is supposed, being frightened, carried his knife open in his hand to defend himself, and accidenntly fell upon it.

A man named Bill Blake was arrested lately in Angelina, Texas, for the murder of a whole family named Moore, and was immediately taken and executed by a mob. Previous to meeting his doom he made full confession of his heinous crime, and said he was instigated to its commission by others.

In calling the attention of the public to my list of Magazines and Newspapers I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

LOCAL.

☞ On Wednesday afternoon, a small boy, named Athorn, broke through the ice on North Pond, and came near being drowned. While the spectators were engaged in procuring a ladder, a young man, Mr. Robert Henderson, jumped in and rescued him.

☞ On Tuesday night two prisoners confined in Portsmouth Jail, made their escape through the roof, by sawing off some good sized timbers with a case knife. One of these fugitives was Bennett, who assaulted Capt. Eldridge with a hatchet, and who is an old offender. The other was Ha'penny, a petty thief and poor loafer. Two other prisoners in the same cell, thought it not worth while to go out in that fashion.

☞ The Portsmouth Steam Factory Corporation are erecting, upon the site of the waste house which was recently destroyed by fire, a new fire-proof building to be used as a waste house. The roof and sides are slated, and with iron doors and window-shutters, it is intended that the new building shall be perfectly fire-proof, as far at least as external conflagrations are concerned. Mr. Thomas Norton is the builder.

SCH. WM. TELL.—A schooner supposed to be the Wm. Tell, one of the Boston and Dover Packets, anchored off Sandy Beach, Rye, last Friday; and on a change of wind, slipped her chain, made sail and went to sea. One set of the shoremen think she made off in safety and without injury. Another supposes she sunk. One of her chains has been recovered.

☞ A Democratic Banquet came off at the Piscataqua House, in this city, on Wednesday evening.

GREAT SHOOTING.—We learn from the "Alabama (Eutaw) Whig" that Dandridge C. Williams Esq., made a number one shot some days ago. He killed seven grown turkeys and wounded the eight one at one shot—all on the wing at that. The "Whig" says Mr. Williams got his shooting education in Nottaway, Virginia, and thinks Alabama can't beat that.

☞ Hunt's Merchant's Magazine for December, contains three valuable articles, viz. one on the Pacific Railway, another on The Post-office, as it has been, is, and should be; and the third on a Uniform Currency. All these articles are strictly within the usual and proper range of this work:—all of them political in the true sense, yet by no means partizan. The article on the Post office is specially commended to the perusal of every man who pays postage.

CATAEDRAL BURNED.—*Montreal, Dec.* 10. Christ's Church, the Episcopal Cathedral, Notre Dame street, in this city, was destroyed by fire this morning. Loss £30,000. Insured £13,000.

FROM EUROPE, ONE DAY LATER.—The steamer Anglo Saxon, arrived at Portland, brings Liverpool dates one day later, viz. to Nov. 27.—Cotton a little irregular—other news of no great importance.

At the recent laying of the corner stone of Pilgrim church in London, England, a note was read from Mrs. Abbot Lawrence, Boston, enclosing £100 and promising £100 hereafter towards the erection of the building The church was established by suggestion of her late husband while minister in England.

"Tintion!" exclaimed an Irish sergeant to his platoon, "front face, and tend to row! call! As many of ye as is presint will say 'Here!' and as many of ye as is not presint will say 'Absent!'"

"Man," said the Dominie, as he commenced his remarks on ethnology, "is a circumstance, (putting the fore finger of his right hand in the centre of his left palm, as if about establishing a pivot on which to swing an immense argument;) a circumstance in his relation to the world—an effect of a mighty cause; and," he continued, jabbing his finger energetically into his palm, "he is likewise a centrestance,"—looking earnestly at Mrs. Partington, who sat at her knitting, quietly observing him as he spoke; "a centrestance" repeated he, looking at Ike, who was trying to make Lion take a pinch of snuff, which he had abstracted from the old lady's box. Mrs. Partington, thus addressed, thought she was called upon to say something. She put down her knitting and replied, that she hadn't the most distant idee of it in all of her acquaintance with the sect. "A centrestance," he went on, disregarding the interruption, "operating from a a centre, controlling other circumstances." Mrs. Partington resumed knitting, and his words ran in and out the porches of her ears in vain endeavor to find appreciation, while Ike and Lion didn't care a snap whether he meant anything or not.—*Boston Sat. Eve. Gaz.*

PASSUMPSIC RAILROAD COMPANY.—An assignment of the property of this corporation was made last Saturday. A portion of the bonds became due on Monday, Dec. 1, and being unable to pay them, the road was taken possession of, by B. B. Mussey, Esq., of Boston, for the trustees. Geo. A. Merrill is agent of the trustees.—*Vermont Caledonian.*

LIQUOR SENTENCES.—In the Court of Common Pleas at Worcester, on Friday, Joseph Santon of Worcester was fined $50 and sent to the House of Correction for three months; Patrick Dolan was committed for three months, and Peter Doyle of Fitchburg, for twenty days—all for selling liquor.

The new ship Mary Caroline Stevens arrived at Norfolk on Thursday, from Baltimore, to receive on board the emigrants for Liberia; she was to leave Norfolk on Saturday. On Monday, eighty colored persons arrived at Richmond on their way to Norfolk, to go on board the M. C. Stevens.

SOUTHERN CONVENTION.—*Savannah, 8th.*—There are a large number of delegates to the Southern Convention here, among whom the best of feeling prevails.

The Americans carried the city of Mobile at the recent municipal election.

THE SLAVE TRADE.—*Charleston, 9th.*—The Committee of the Legislature on the Governor's recommendation to re-open the slave trade, have asked leave to sit during the recess, and report at the next session.

BURNING OF A CATHOLIC CHURCH.—*Norfolk, 9th.*—The Catholic church in this city was burnt yesterday, together with several adjoining houses.

Letters from Liberia state that the culture of sugar has been carried on so prosperously that several sugar growers are talking about exporting it largely to the United States. One of them, named Richardson, expects to ship two hundred hogsheads of sugar, of his first grinding.

DEATH FROM HANDLING GUANO.—A farmer named Silas Gravel, died in Montgomery County, Pa., a few days since, in consequence of handling guano with his hands, when there was some slight sores upon them. The guano penetrated the sores, and in a day or two after he experienced a sharp pain in one of his arms, which extended rapidly to the shoulder, and from thence to his body, growing more acute, and causing his whole system to become swollen. In this state he lingered about a week, when death relieved him of his sufferings. This case, and others similar to it, which have been recorded, should warn farmers and others not to handle guano if they have even a scratch upon their hands.

IMPORTANT TO THE MERCANTILE COMMUNITY.—The Mayor of Liverpool, the Chairman of the Liverpool Dock Committee, and the Chairman of the Cheshire Quarter Sessions, assembled at the Town Hall, yesterday, at half-past twelve o'clock, to revise the rates payable by vessels not using the Liverpool docks, for lights, buoys, and general harbor charges. It was decided that the rates payable in future should be 50 per cent, off the schedule originally fixed as the act of Parliament, the rates payable during the last three years having been 20 per cent. off the Parliamentary schedule.—*Liverpool Post, Oct. 23d.*

John H. Mears, the companion of the late Mr. Gardner in his frauds on the United States, since he obtained his portion of that plunder has been a wanderer, and lost and squandered all his money. At length he became a trafficker in small wares, and took his goods from one place to another in the various trains of wagons that go through Mexico. A few weeks ago he was accompanying one of these trains from Nieves to Monterey, and on the way they were attacked by savages, and Mears with his family and several other persons were murdered.

A TEMPERANCE QUESTION.—The keeper of the Delavan House at Albany (which has always been conducted on the temperance plan), having announced his intention to sell table wines to all who order them, Mr. Delavan, the proprietor of the hotel, has adressed him a note protesting against what he terms "a breach of covenant agreement." Should the protest be unheeded, Mr. Delavan threatens that litigation as "certain as painful, will follow."

At a meeting of the Geographical Statistical Society of New York, the name of John C. Fremont was added to the list of Honorary Members, where it appears with those of Austin, Henry Layard, Karl Ritter, Baron Alexander Von Humboldt, and many others of the living Peers of Science. Such an honor is well merited by Col. Fremont, as a man distinguished for his scientific knowledge and noble acheivements.

SNOW IN FRANCE.—The foreign papers report that a vast quantity of snow fell in France on the 15th of November, near Paris. The dilligences, wagons, and even the railway trains, were retarded in their progress by the state of the different roads leading to that metropolis. It is remarked that within the memory of the oldest inhabitant there had never been so heavy a fall of snow before the middle of November.

Lucy Stone Blackwell has, we understand, become, within the last few days, one of the mothers of America.

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and delicate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1220, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps. If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

Job and Card Printing.

HAVING recently much increased our facilities for the execution of Job and Card Printing in all its varieties, promptly, and in good style, and being ready to furnish our office still further with the new styles of type and the improvements in this branch of the business, as occasion may render desirable—we would respectfully solicit orders in this line, from our friends and the public, in the city or elsewhere.

In order to devote more attention to this branch of our business, we have engaged the services of Mr. WM. H. FOSTER, the well-known, experienced and tasteful Job Printer, who will have charge of the Job and Card Department; and will run

FOSTER'S CARD PRESS

In a manner that cannot fail to suit gentlemen or ladies who may favor us with their patronage.

Orders by mail or express, promptly answered. Prices to suit the times.

National Monument

TO THE PILGRIM FATHERS,

TO BE ERECTED

AT PLYMOUTH, MASS.

THE Pilgrim Society, of Plymouth, having decided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," desire to announce to the American people, that they have accepted a design presented by the undersigned, and respectfully request all who cherish the memory of those who laid the foundations of the Civil and Religious Liberties of our Country, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BEMPFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGDALE, MASS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTPERY, IL., writes, 26 Jan., 1854: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1855

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was steadily failing, until Dr. Stevens, of this city, where we have gone for advice, recommended a trial of your medicine. Gratitudes his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, or SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and now distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and the certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Digestion of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia, and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove will many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, 1855.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINE HUNDRED THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	6
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are SINGER'S. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis I. M. SINGER & CO.

SARAH PERCIVAL:

OR

The Bride of the "House of Gold."

BY MRS. CAROLINE INGRAHAM.

CHAPTER I.

It was a cold, raw, November day. The air was piercing, and a flurry of snow, that had fallen since morning, gave an aspect of inexpressible dreariness to the mournful scenery around the little village of Montespan, which boasted only one "great house." This was the residence of a retired city merchant, whose lines had "fallen in pleasant places," and who had made his home a perfect dream of beauty. The inhabitants of the village looked up with the greatest respect to "Squire Percival" and his family. His carriage, his horses, his great dinner parties, at which his elegantly dressed and mannered wife greeted her city guests with the dignity of a queen—his house and grounds—nay, even the diamond ring and pin he wore, were objects of wonder and curiosity, to the simple folks who deemed themselves highly honored by his sojourn among them.

As for Kate Percival—the only child and rightful heiress of all this splendor, who had passed most of her life in New York—to dance well, and coquet with a grace, were all the things that she cared for.

While Kate had been absent from her parents, another had been growing up in the house—though not as a daughter to them. Sarah Percival was the daughter of a younger brother of the family, who, dying poor and unfortunate, left his only child to the care of his brother Richard, with the earnest prayer that she might never miss the love and tenderness she had always known. That prayer was heard, but never answered. For Richard Percival, a cold hearted, ambitious man, could not be expected to pet and fondle the lonely child, and his stately wife looked upon her as an interloper, who might one day interfere with the plans and projects of her darling Kate.

Of the mother of this child nothing was known. Mr. Richard Percival only shook his head when any one made inquiries about her, and muttered something about "poor Frank" and an "unfortunate marriage." Rumor had pronounced the lady beautiful and fascinating, and Mrs. Percival trembled in her soul, when she looked at the healthful, animated face of little Sarah, and saw in her brown hair, and large dark eyes, a promise of the loveliness that had won the father's heart.

The high-spirited Sarah chafed inwardly at many a look of dislike and many a taunt from the wife of her benefactor, but the world was wide and cruel, and while her uncle was tacitly kind to her, she dreaded to begin the battle, from which she felt, even then, she could never come out quite unscathed. But while she waited, the inexorable hand of Fate was stretched forth to lead her out into that world from which she shrank, and Destiny accomplished that which she herself might never have had the courage to undertake.

In the very prime of life—strong, healthful and hearty, her uncle, the head of the family, was suddenly cut down. Of the gallant host, the indulgent husband, the dashing man of business, nothing remained but a cold motionless body, with a shrouded face, lying quietly in one of the great chambers of the house. The servants passed that door with suspended breath and a quickened tread the widow in the solitude of her own room wondered if her mourning would become her, and if the will of the dead man had left her mistress of the whole fortune—the daughter wandered disconsolately up and down the handsome parlors, wishing herself back in the gay boarding school she had left; and in the whole house, of all who had flourished on his bounty and shared the shelter of his roof, only one real mourner remained, and that was the daughter of his dead brother, to whom in his life he had never given a caress or a word of praise.

A cold measured voice pronounced Sarah's name, and looking up with a sudden start, she saw her aunt standing beside her, gazing down on the corpse with a collected air.

'What are you doing here, Miss Percival?' she asked, in a freezing voice. 'Why are you not in your room? It is cold enough here to—' she stopped short, glanced at the corpse and shivered slightly.

'I do not mind the cold—I only wanted to see him once more,' said Sarah, dashing away the tears, and rising to go.

'You will pardon me, Miss Percival, if I find no occasion for this violent display of grief on your part.'

'Madam!'

'Oh! don't look at me in that way,' said the lady, drawing herself up in a stately manner. 'I hate hypocrisy, Miss Percival—I hate all crocodile tears.' If she did not exactly add the words, 'and I hate you,' her looks showed it, and Sarah felt it so.

'Madam,' she said, indignantly. 'I am at a loss to know what you mean. I have nothing to gain or lose by my tears for my uncle's death.'

'I am aware of that, but did not know that you might be,' was the sarcastic reply.—'Your uncle's fortune is, of course, all willed to his rightful heirs.'

Sarah looked from her arrogant face to that of the corpse, before she dared to venture a reply. What would the dead man have said to a conversation like this, held over him before he was laid in his coffin?

'You have wronged me,' she said, with dignity,—'yet I cannot feel angry here. The presence of the dead is surely enough to soothe the living.'

Mrs. Percival cast a glance of fear toward the unconscious body of her husband, and taking Sarah by the arm, led her to her dressing room, and shut the door.

'Now, Sarah, if you please, we will sit down here and talk of your future,' said the selfish old iceberg, in a cold and unfeeling voice.

She seated herself on the sofa, and motioned the girl to her side. A silence of some moments ensued. At last Sarah looking up from the floor, found those dark eyes bent upon her with a deep scrutiny, as if they would read her very thoughts.

'Well,' said the lady, leaning towards her, with an indulgent smile.

'I cannot talk of anything I am ignorant of,' was the ambiguous reply. 'My future is a mystery to me.'

'If you prefer staying here, of course we will try to accommodate you. But I must tell you that neither Miss Percival nor myself purpose remaining here long after the funeral. She will return to her school and I shall travel—so you will have no one left but the servants for company.'

The proffer of a home was seemingly made in a kind way, but all the proud blood of the Percivals rushed to Sarah's cheek, at the covert impertinence of the speaker.

'I thank you, Madam,' she answered, stiffly, 'but I will not intrude upon your hospitality any longer. I will make arrangements for a future home, and remove to it at once.'

Mrs. Percival elevated her eyebrows superciliously.

'And pray what do you intend doing, if I may be so impertinent as to ask? Doubtless you are aware that in this plain, every-day world of ours one must either labor or be possessed of sufficient property to support herself?'

'Of course—and I, being without the property, must of course work,' was the spirited reply. 'I can do it, Madam,—it may seem strange and hard at first, but I shall learn after a time. And He 'who tempers the wind to the shorn lamb' will aid me.'

'Very good! very good!'

Mrs. Percival had not the slightest objection to such an arrangement, provided she was not called upon to unloose the strings of her purse in the cause.

She sat a few moments apparently in deep thought, and then turning to Sarah' remarked,

'You are probably aware that a city like New York is a dangerous place for a girl as young as you—and as—' she was going to add 'beautiful,' but checked herself and said 'inexperienced,' instead. 'Why do you not go into some quiet country place and try and support yourself by teaching school or something of that kind? This is almost the only respectable situation in which a young girl can establish herself now-a-days, Miss Percival.'

'I never should make a good teacher—I have not patience and I don't like children, either,' said Sarah.

'Not like children? Dear me, how very shocking!' and the lady applied a richly chased vinaigrette to her nose, as if she would forget the very idea.

'That is'—stammered Sarah, feeling as if she had commited some great crime—'I should not like them around me constantly. And I have made up my mind to try and find some sewing to do in the city.'

'A seamstress! A young lady who has the good fortune to be connected with *my* family—'

'You mistake—it is not yours—but my own,' said Sarah, with flashing eyes.

The lady waved her hand imperiously, and went on—

'It makes little difference. A young lady who has been brought up in my house to turn sewing girl! It is a disgrace and a shame! If you persist, in this determination, Miss Percival, you must not expect me to countenance you in any way. As a teacher, I might have received you into my house—indeed, I think you might have assisted Kate in her music, or something of that kind, for you really play very well, you know—but a sewing girl—laugh!'

'You need not say any more,' said Sarah, rising from her seat, with an angry air. 'You may rest assured that wherever I am, I shall never intrude upon you.' The name of Percival I cannot shake off—I do not wish to, because it was my dear father's. But it can never bring us nearer to each other, Madam. You need not proclaim the relationship that exists between us, and you may rest assured I shall not. But—mark my words, Mrs. Percival—if there is any virtue in honest effort and untiring zeal, you will one day be sorry that you were not kinder to the homeless orphan—you will one day be proud to own me—and in that day, Mrs. Percival, I will not acknowledge *you*.'

She turned to leave the room, but the lady called her back. Perhaps, as she looked upon the proud face of the girl and met her kindling glance, some prophetic fancy dimly shadowed forth what she was one day to be. At least, her voice was kinder when she spoke again.

'You are too quick-tempered, Sarah. I was only showing you these things in a worldly light. Of course, I shall always feel a deep interest in you, and be willing to aid you if I can, but don't you see for yourself that—*as the world goes*—(and we all have to make sacrifices to the world when we live in it, you know)—don't you see that it would never do for me to acknowledge a seamstress as a relative? And Kate—why it might ruin the child's prospects entirely, you know! No rich, influential man would ever marry her—forgive me for saying it—if it was known that she had a cousin who pursued such an extraordinary—to call it nothing worse mode of life.'

The young girl's patience was fast failing her. It was her first conflict with a hard, wordly nature, and she sighed heavily, wondering if all the world's people were like this.

'It is useless to prolong this conversation, I think,' she said, after a short pause, 'You say you are willing to assist me. Will you do so now?'

'Oh, certainly. Though really my daughter is so very extravagant, and her school bill so large, that I cannot give you any great amount. Will twenty dollars do?'

Sarah's cheek colored vividly.

'Put up your money, Mrs. Percival,' she said, drawing back, as the lady held a pill toward her. 'I aid not ask for money. I have enough left of what my uncle gave me on my birth day to take me to the city, and support me for a week or two till I can find employment. I only want you to direct me to some quiet and respectable boarding house where I can have a room to myself.'

Mrs. Percival looked bewildered.

'I am sure I don't know any such place. I dare say there are a great many in the city, but you could not have applied to a more ignorant person. And yet—stay, let me see—I do know one woman who sometimes takes boarders, and if you don't mind living in a small street and among poor people, I can direct you there.'

'Any place—no matter how poor it may be if it is only quiet and respectable.'

Mrs. Percival penciled something on a card and laid it before the girl. It was an obscure address, in an obscure part of the city, where no one would ever be likely to find out the the Miss Percival who did 'slop work' and the Miss Percival who was an acknowledged beauty and belle, were own cousins.

Sarah thanked her, and rose to say good bye. The door opened and Kate Percival lounged past without noticing her, and threw herself on the sofa, beside her mother.

'Oh dear, this house is so gloomy and wretched,' she sighed, 'I have the horrors all the time, mother, and I do wish I was back again in New York.'

'In a few days you will have your wish, my child,' said Mrs. Percival in a tone very different from that which she had used towards Sarah. For she had the one virtue that redeems every woman—she loved her child with a tenderness and unselfishness that was heartful to see.

'Going back again? oh I am so glad!'—and Kate went and stood before the mirror and admired her face and form. 'Do you know, mother, I think my mourning gives me rather a distinguished air. I shall make quite a sensation on Broadway this winter. I am so glad we are not going to be hived up in this musty house any longer.

She began to waltz around the room, and then seeing the shocked look on Sarah's face, exclaimed, 'Oh, I forgot,' and went and sat down by her mother again, with a countenance radiant with pleasure and delight.

'Sarah, will also be in the city, said Mrs. Percivel, blandly.

'With us, mother?' and Kate's large, dark eyes wore a look of angry pride.

'No, you will not see me, Kate, Sarah hastened to say, 'unless indeed you employ me: I am going to be a seamstress.'

A look of mingled scorn and satisfaction swept over her cousin's handsome face. A dangerous rival was well out of the way, and as to the disgrace—no one would know that she was a relative of theirs. So Kate was satisfied.

'It is very proper, I presume,' she said, suspiciously. 'But of course, you cannot expect me to recognize you in such a humble position, even if we should chance to meet, which is not very likely to happen in a city like New York, unless you try to have it so.'

'You need not fear me,' said Sarah, drawing herself up proudly. 'I shall stay here, if your mother will permit it, till the funeral is over, then I start for my city house, Kate, I shall never force myself upon you, although as I have said to your mother, the day will surely come, when you will be proud to recognize me as one of your family.'

She took the card Mrs. Percival had given her from the table, and with a slight bow left the room. Kate Percival gazed after her in silence, and then, turning to her mother said, with a slight laugh—

'Upon my word I think we should be very thankful that we are going to get rid of her so easily. She is really growing too good looking to be suffered in our house. Defend me from a rival by my own hearthstone.'

But Sarah had no thoughts like these. She felt keenly the injustice with which she had been treated. And as she sat alone in her own room, and thought of the struggle so soon to begin, she made a strong and stern resolve—that come what might, her last words to her aunt and cousin should, at no very distant day, prove true.

POST-OFFICE HISTORY.

A valuable article on the Post Office, in Hunt's Merchants' Magazine, furnishes some interesting items, worthy of notice.

In 1791, Timothy Pickering was appointed Postmaster-General, and afterwards Secretary of State, under the administrations of Washington and John Adams. He was a man of great firmness, and not easily discouraged by obstacles. His first communication to Congress made known to that body a formidable difficulty which he had encountered in running the mail through the state of New Jersey. It consisted of an act passed by the Legislature of that state, "for raising a revenue from certain stages, &c.," and as the United States government had contracted to have the mail carried through the State by a line of stages, they were thus subject to taxation.

Mr. Pickering, in his communication to the government, says:—

"If the sums exacted from the proprietors of the stages were expended in extraordinary repairs of the road, no passengers would complain of paying enhanced prices for *safer and easier seats in the stages*; but such an appropriation is not even thought of; the avowed design is to increase the revenues of that State. And thus the citizens of the United States have to *purchase permission* to travel on the highways of New Jersey. At the same time it is remarkable that the express object of one section of the act is 'to *prevent imposition on travelers.*' Having represented this tax, what I conceive it to be, an unwarantable imposition, it is proper to add that, from information I have received, it originated in the voluntary offer of the proprietors of two lines of stages then running, designed thereby to make a monopoly of the business."

This taste for monopoly, and for taxing citizens of other States for purposes of revenue, it would seem, commenced in that State at an early period; and, as is well known to travelers, has not been eradicated even down to the present time.

The fourth Postmaster-General was Gideon Granger, of Connecticut. Very soon after entering upon his duties, he too perceived breakers ahead, which he lost no time in communicating to the Post-Office Committee. This difficulty he characterized as of "too delicate a nature to engraft into a report which may become public, and yet too important to be omitted or passed over."

It related to *employing negroes in carrying the mails*, and is interesting in several points of view, and among them as illustrating some of the dangers which attend the acquisition of knowledge.

"Everything," he says, "which tends to increase their knowlege of natural rights of men and things, or that affords them an opportunity of associating, acquiring, and communicating sentiments, and of establishing a chain or line of intelligence, must increase your hazard, because it increases their means of effecting their object.

"The most active and intelligent are employed as post-riders. These are the most *ready to learn*, and the most *able to execute*. By traveling from day to day, and hourly mixing with the people, they must, they will acquire information. They will learn that a man's rights do not depend upon his color. They will, in time become teachers to their brethren. They become acquainted with each other on the line. Whenever the body, or a portion of them, wish to act, they are an organized corps, circulating our intelligence *openly*, their own *privately*."

This led to the passage of a law which removed all such dangers.

Mrs. Mary E. Cartier, who died a few days since in Albermarle County, Va., liberated a slave woman thirty-two years of age, and left her $200 per annum as a support. The woman having to go North if she accepts her liberty, positively declined and preferred remaining a slave.

Well do we remember an old humbug plea against emancipation, "They will all rush to the north if you free them!" The above story, *if true*, refutes the plea.—But it seems incredible that any Virginia lady should have left $200 *per annum*! to a slave woman who could not take care of herself—much less of so much money.

This part of the story must be bogus.

☞ The School Committee of Boston have expelled the five girls from the Hancock School, whose case has been before the police court for some time, because their conduct "has been highly reprehensible, and calculated to vitiate and corrupt the morals and character of those with whom they may associate, and dangerous to the good morals and well-being of the school."

☞ In Congress, on Wednesday, Dec. 10, both Houses devoted their time to an anti-slavery discussion, quite interesting, but not new.

FIRST CONGRESSIONAL DISTRICT.

NEW HAMPSHIRE.—A gentleman calls our attention to a paragraph in the Courier, relating to the representation of the 1st District of New Hampshire in Congress, which stated that Mr. Pike was not a candidate for re-nomination (1). The authority was drawn from a paper in Mr. Pike's own district. (2) The Portsmouth Chronicle says it never heard of this intimation of the declination of Mr. Pike before it appeared in the Courier. (3) The Chronicle editors had better read the papers in their own state, before they make up their minds with regard to the statements of journals outside of them. (4)—*Boston Courier.*

NOTES.

1.—The statement is not true; Mr. Pike is and no doubt will be a candidate for re-election, with a smart chance of success.

2.—The authority of that paper as to anything about Mr. Pike, is not worth a copper.

3.—The Portsmouth Chronicle never said this, nor anything like it. Here is what we did say in the Morning Chronicle of Dec. 6:

AN ANNOUNCEMENT.—The Boston Courier of Friday says:

"Rev. Mr. Pike has announced that he will not be again a candidate for Congress in the first district" in New Hampshire.

We never saw this announcement until we saw it in the Courier. If true, it is remarkable that Mr. Pike should make that paper his organ for the occasion.—But it is probably a *bogus* report raised by some outside barbarian who would like to see it come true, but may more likely be disappointed.

It is one thing to say that we have not seen a man's *own* announcement that he had declined,—and quite another thing to say we have heard no intimation by *any body* that he had so declared. If the Courier cannot see the difference, we can, very plainly.

4.—We did read them carefully, and on the 25th of November published the following:

The Manchester Mirror states that "Gilman Marston of Exeter, is talked of as candidate for Representative to Congress, in place of Elder Pike, in the first District. He is eminently fit for the place, and deserves a better position." We hear nothing of any such talk, we know nothing of any disposition to change the nominee, this way; and we have no doubt Mr. Pike is much stronger and more popular with his constituents than ever before.—It has not been the fashion in the State of New Hampshire to change a successful candidate at the end of his first term:—we see nothing in Mr. Pike's case or that of the 1st District, which calls for any change at present; and presume none will be made.

We saw through the thin veil in a moment. Somebody, not a supporter of Mr. Pike, nor yet a man who would vote for Mr. Marston if he was nominated, wished to *elbow* Mr. Pike out of a nomination, divide his constituents, and so help Dr. Kittredge or somebody else into Congress. Such *authority* as this, was all the basis the rumor had. A *bogus* rumor, that's all.

COL. TITUS.—A correspondent of the Missouri Democrat thus describes this noted border ruffian, who, it is said, is about to go to "President Walker's" domain with one hundred of his men from Kansas.

Col. Titus has been a filibuster all his life, and was once in Cuba, under the unfortunate Lopez. He sent Walker the first company of men ever sent from the States.

He came to Kansas about the same time Col. Buford did, and ever since he has been identified with the troubles; a pro-slavery man throughout; good looking, a native of New York; emigrated at the age of 21;—married a rich Southern lady; owns slaves, and loves notoriety.

Pains have been taken in some quarters, high and low, to create the belief that the free state emigrants, the *bona fide* settlers, who fought to defend their homes, to recover part of their stolen property, and to break up the nests of thieves, were just about as bad as the robbers themselves.—But here we have a little sketch of Titus, showing him to be an original scoundrel, dyed in the wool—a freebooter by profession—a fit companion, leader or tool, as the case may be, of any gang of marauders, oppressors or murderers, like those who devise the extension of oppression, and the burial of freedom.

☞ On Wednesday morning at 5 o'clock, in Portland, Judge Potter, a fine old gentleman 80 years of age, was assaulted in his bed by robbers, who had broken into the house, and who tried to break the old man's head with a bludgeon. Judge P. and his daughter raised an alarm, and the robbers got off, without booty,—though plunder must have been their object.

ILLINOIS NEGRO LAWS.—The colored race in Illinois are not allowed to testify in the courts of law against white persons, and they not only cannot send their children to the common schools, but they have no share of the school funds, although they pay a school tax.—*Exchange.*

Didn't somebody call Illinois a free State?

☞ It will be seen by the Congressional proceedings, that Whitfield has been admitted to the House, as a delegate from Kansas. This was brought about by the votes of Harrison, Scott, Whitney, Wheeler and Haven, South Americans.

Rev. Dr. Bethune, when lecturing recently in New Jersey, complained of the reporters. Once, when he stated that he was not by birth, but only ecclesiastically a Dutchman, the reporter made him an *ecclesiastical* deduction. At another time he spoke of the Devil as sowing tares, and was astonished to read that he had mentioned the Devil's *sawing trees*. On another occasion he was made to say that the patriarch Abraham taught Cecrops arithmetic. The Doctor also laid down 3 rules—1st, Never contradict a woman; 2d, Never challenge the bill of an hotel keeper; 3d, Never quarrel with an editor.

CINCINNATI, Dec. 10.—A train ran off the track on the Little Hocking Railroad this forenoon, and the baggage master and fireman were instantly killed. The cars were badly smashed.

WISTAR'S BALSAM OF WILD CHERRY.

Cures Bronchial Affections and all Diseases of the Lungs.

From the Boston Evening Traveller, Jan. 6.

"It is perhaps but a simple act of justice to the proprietors of WISTAR'S BALSAM OF WILD CHERRY, for us to say, that our personal experience in the use of this article has impressed us favorably. One of the proprietors of the Traveller was entirely cured of a severe cough of four months' continuance, by the use of this Balsam, and several of our friends and acquaintance, who have tried the article, have found it of great service in relieving them of severe coughs and shortness of breathing, with which they had been afflicted."

None genuine, unless signed I. BUTTS on the wrapper.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has rescued so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. aus*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use.* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. s27 TuT&hS 6m

If you want a GOOD PAPER subscribe for

"THE NATION,"

The most popular Weekly in America, which has immediately upon its issue, sprung into an IMMENSE CIRCULATION.

This rapid success is unexampled in the history of Journalism, and can only be accounted for by the fact that the Proprietors have employed, without regard to expense, the

STAR WRITERS OF AMERICA.

The NATION is the *only* paper which contains the witty, humorous and side-splitting sketches of that comical genius, and UNRIVALLED HUMORIST, KNIGHT RUSS OCKSIDE, M. D., of which series, one sketch alone is worth the whole years subscription.

THE NATION

is edited by
S. M. BIGELOW, AND
MRS. E. D. E. N. SOUTHWORTH,
who is well known as one of the MOST POPULAR WRITERS IN AMERICA.

In addition to the above we have engaged as Contributors:

Clara Moreton, Henry W. Herbert,
Alice Cary, W. W. Fosdick,
Mrs. A. F. Law, C. A. Page,
Mrs. E. F. Ellet, Ben Casseday,
Park Benjamin, W. P. Brannan
and numerous others

TO THE FAIR SEX

we particularly commend our sheet. Their department will be Edited with the utmost care and no expense or labor spared to render the columns devoted to their especial benefit, unusually BRILLIANT, ATTRACTIVE, INSTRUCTIVE AND ORNAMENTAL.

The Farmers' and Planters' Corner

Will contain Practical Suggestions and Agricultural Hints, contributed and culled from sources the most reliable, and containing information which will prove to them in the course of a single year, of almost incalculable benefit.

The other departments of our paper will receive the attention they respectively demand, each being especially and carefully prepared to meet the varied tastes of the several classes of its readers. Among those we may mention

Original Stories and Poems, Editorial Ramblings and Sketchings, Spicy City News, Washington Gossip, New York Chit Chat, the Latest Paris Fashions, Practical Receipts for the Household and Toilet, "The Little One's" Department, Gems from Prose and Poetry, Reader's Guide, Translations, Historical Sketches, &c., &c.

The NATION is issued in Quarto Form, (eight pages,) and each number will contain at least 2 original engravings, thus furnishing our subscribers at the end of the year with a volume containing 416 large size, beautifully printed pages of UNSURPASSED NOVELLETTES, SKETCHES, &c., together with

OVER 100 ORIGINAL ILLUSTRATIONS.

The NATION is sent at the following remarkably low Subscription and Clubbing TERMS: invariably in advance.

Single Copies,	$2 00	per annum
Two "	(to one address,) 3 50	"
Three "	5 00	"
Six "	9 00	"
Ten "	15 00	"

☞ And one copy free to the getter up of the Club of TEN.

All those sending us subscriptions from the British Provinces, must enclose, in addition to the subscription price, 25 cents for each subscriber, as we are compelled to prepay the United States postage.

All letters containing money should be registered, and directed plainly, and they will come at our risk, otherwise we *are not* responsible for them.

Specimen copies will be sent free to Post Masters, Agents, and all who wish to get a club;—to all others, on receipt of four cents in stamps. The expense of registering is only 5 cents. Address

Among hundreds of complimentary notices, we have received from newspapers in every section of the country, we quote the following extracts:

"The Nation appears in clear large type on snow white paper, and is richly adorned with illustrations."—*N. Y. Sun.*

"It will attain a high position in the literary world."—*Philadelphia Daily News.*

"It is one of the best weeklies now published, and we take pleasure in bringing it to the notice of the reading public."—*Harrisburg, Pa. Herald.*

"The talent and energy of the proprietors, its original and refreshing contents, and the beauty of the typography cannot fail to secure for it a general circulation."—*Williamsburg, Pa. Ind. Press.*

"As a literary and family journal, we have no hesitation in pronouncing it the best among our exchanges. We advise the Ladies to procure it without delay."—*Fulton, Pa. Republican.*

"We dislike puffing city emanations, but in this case we are bound to give way to merit. Unlike many city cotemporaries, the Nation is composed of sound substantial and useful matter, and is not filled up with an overdose of flimsy, wishy-washy stuff from the hands of crack brained authority."—*Erie City Dispatch.*

"It has the most beautiful engraved head we ever saw, and are deeply entertaining, truly delicious and soul-absorbing." *Williamsburg, Va., Gaz.*

"There is room for just such a paper, and it has secured two as true heads and hearts to control its columns as the literary and social world holds."—*Wellborough, Pa. Agitator.*

"It will soon become a leading paper at the fireside"—*Boonville, Mo. Observer.*

"We seldom endorse northern papers, but in this instance we are forced to overcome our prejudice, and commend the "Nation" to our readers."—*Troy, Ala. Bulletin.* d13 w4t

☞ The proposed Custom House, Post Office, and U. S. Court Room, may now be considered as finally located on the Hadley, Cotton and Bank lot. The owners of that property have received official notice from Washington, that their offer has been accepted.

In Board of Aldermen, Thursday evening, Dec. 11.—The Committee to whom was referred the subject of a Bell at Christian Shore, reported favorably—which report was accepted an adopted.

The Committee on School Houses to whom was referred the petition of R. Shillaber, jr., and others asking the use of the upper room of the State st. School room for debating, reported it was inexpedient to grant the prayer of the petitioners, and they had leave to withdraw.

☞ Sch. Wm. Tell, Trefethen, of Dover, which slipped her cable at Rye Beach, is reported as having arrived at Eastport.

☞ It is impossible for us to insert the favors of all our advertisers this morning, for want of time and room in our columns.

Washington, Dec. 10.—The President to-day sent in the nomination of J. D. Harrison of Kentucky, to be Judge of Kansas, vice Lecompte removed.

Gen. Houston will soon move an inquiry into the expediency of suspending for two years the duty on sugar and molasses.

Mr. Debois, the late Dutch Minister, near our Government, will not return here, having been accredited to Denmark, an inferior mission. This is presumed to have been in consequence of his Government disapproving of his course when called upon to testify on the Herbert trial. A new Minister will be here in a few days, as successor to Mr. Dubois.

There will be an effort made this winter to impeach a Judge of the District Court of the United States, and the charges, if substantiated, will cause a profound sensation throughout the country. The memorials, it is said, are already before the proper Committee.

There is a rumor that the slavery agitation will again be thrust upon Congress, in connection with a bill for the admission of Utah as a State. Slavery already exists in that territory.

Southern Commercial Convention.—*Savannah, 10th.*—In the Southern Commercial Convention to-day, Mr. Gaulding's resolution relative to the re-opening of the slave trade was discussed.

The editor of the Charleston Standard avowed himself in favor of a renewal of that traffic. The Convention, he said, should not acknowledge the right of Congress to impose restrictions on the slave trade. It should meet the question at once.

Mr. Hunter, of Va., thought the South should ponder long before defying the opinion of the Christian world. The recent message of the Governor of South Carolina had astonished the whole South, and he was not prepared to endorse that message. The subject was one involving tremendous consequences, and time for reflection was necessary.

Mr. Goulding, of Ga., defended the policy of the renewal. Slavery, he said, was derived from God, and he was ready to defend it in all its bearings.

The question was discussed by other gentlemen, including Mr. McLeod of Texas, who pledged his State to the most extreme pro-slavery measures.

The motion to take up the resolution was finally lost—16 to 68.

South Carolina and Texas and a part of Tennessee voted affirmative.

Slave Troubles.—*Nashville* (Tenn.) *Dec.* 10.—There has been rumors current here of an expected insurrection among the slaves, but all is quiet now. There has been no outbreak, and there is no anxiety felt on the subject.

The correspondent of the Louisville (Ky.) Courier, writing from Hopkinsville, says that the people from Hopkinsville despatched a company of men to Lafayette, but they found on their arrival there that the people were more frightened than hurt, and therefore they returned the next day.

Steamer Lyonnais.—*New York Dec.* 10. A letter received from Capt. Peabody, of ship Neptune, hence to Liverpool, states that on his passage he picked up a steamer's boat, well filled with provisions, hams, meats, brandy, wines, two chronometers, $500 in silver, and a spyglass, on which was engraved the name of the steamer Lyonnais.

The Fuss of South Carolina.—Judge Butler said in the Senate:

"When South Carolina makes up her mind, let me inform the Senator, you will hear very little fuss from her."

Whereupon Mr. Wade replied:

"Then she has not made up her mind lately."

Mr. Charles Manegault, of South Carolina, a cripple with a cork leg, was found burnt almost to death, in his bed, on Thursday morning in the upper part of New York city; he expired at evening without pain. He had been ill, and it is supposed set fire to his bed. Mr. M. was 28 years old, belonged to a wealthy family in Charleston, and was connected by marriage with Rev. Dr. Taylor, rector of Grace Church.

False Pretences—and False Hopes.—There have been many pretences, (made by men who knew better) that there have been no great troubles in Kansas, and that the little troubles there were made by free State men. Some simpletons have believed this trash. President Pierce *reasserts* it in his message, and then *contradicts* it all, by dismissing the ruffian Judge Lecompte.—The Boston Telegraph says: "There is really no substantial difference between the cases of Lecompte and Whitfield. Both stood for their justification upon the Border Ruffian Laws enacted by the Missouri invaders. Lecompte was no worse than the laws. If the laws *were* laws, Lecompte's administration of them was in perfect keeping. The President, up to a very recent date at least, held that they *were* laws, to be obeyed, and if not obeyed, to be enforced. Yet Lecompte is removed for enforcing them. Whitfield's title to his seat depended wholly upon the validity of the same laws. If they were void, he was no more the representative of the territory than Mr. Buchanan or Col. Fremont. The House had many times voted that the laws were void, and therefore not laws, but yesterday it admitted Whitfield to a seat.

The new judge Harrison, may consider the admission of Whitfield as an approval by the House, of the laws, and as his warrant for enforcing them. He will be known by his fruits.

There is a still more alarming view of it to the people of the free States. The Congress which has thus admitted Whitfield, will last until the 4th of March. Before that time there may be presented to it a Constitution for Kansas, legalizing and perpetuating slavery there. At the time Whitfield was chosen, the ruffians (the free State men not voting) decided to have a Convention for the formation of a Constitution. That Constitution, when made, will be for slavery. What is to prevent its acceptance by Congress, as the Constitution of the new State? Nothing but another change of opinion or of policy in the House. If Whitfield is the rightful delegate, the laws of Kansas *are* laws, and to be enforced. If they *are* laws, the recent vote in favor of a Constitutional Convention is a valid one, and the Constitution framed by that Convention will be a valid instrument. When it comes before the House, will that body have courage and principle enough to resist it? We fear not."

A curious and important suit in equity is before the Supreme Court of Rhode Island, in relation to the will of Richard C. Derby, late of Newport. His property does not cover the bequests of his will by some $30,000, and the executor asks for such a construction of the will as will distribute the deficiency, and diminish all the bequests in proportion. Those first on the list of heirs, however, insist on receiving the entire amount assigned to them, thus leaving a portion of the heirs destitute of any legacy.

The first on the list must be a set of graceless people, as destitute of law as they are of honesty. The legacies should be paid *pro rata*, unless the will itself establishes a priority, as it probably does not.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," two the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Fancy Goods, Stationery, &c., may be found at the Subscriber's store.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING
Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their perilous flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps. If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,
d8 corner of High and Congress sts.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid,* to Dr. C. L. Cheeseman, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BEMPHIS, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should suppose pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

BIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that time, and is now not a strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us beyond the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE science of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous disease that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Eruptions and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, iron or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the low prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Connecticut Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are:

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's, not to perform substantial work, but to catch the eye, for which purpose his lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis.

SARAH PERCIVAL:
OR
The Bride of the "House of Gold."
Continded.

BY MRS. CAROLINE INGRAHAM.

CHAPTER II.

On the day of the funeral, when the dead body that had been solemnizing the aspect of the 'great house,' was laid in its last long home, a little party assembled in the library to hear the reading of the will. It was all over now—the funeral services—the tears—the prayers—and nothing remained but for the living to divide the spoil. A harsh saying it may be, and yet, with one exception, the group that had assembled in that little room justified it.

By the fire-place, stately and magnificent in her deep mourning, sat Mrs. Percival, leaning her double chin upon her hand, and gazing steadily into the burning coals. At a little distance sat her daughter, playing carelessly with her watch-chain, and wishing with all her heart that the tiresome fuss was over.

Sarah Percival made one of the group.—For her aunt was keenly alive to what the world might say, and thought her presence on this occasion, as one of the family, would silence any remarks that might be made when her change of situation became known. She sat beside the window, looking drearily out upon the familiar landscape so soon to be left behind. But no one spoke to her. Even Dr. Warton, the worthy rector of St. Peter's church, where Mrs. Percival sat out the appointed time every Sunday forenoon and afternoon, only glanced towards her now and then from the depths of his easy chair, and decided that it was useless to take any notice of such a timid, frightened thing. Perhaps could the worthy Doctor have read that young heart, and known the bold plans that young brain was forming, he would have had reason to change his quickly formed opinion.

The solemn stillness of the room was broken by the fussy little lawyer, who, having broken the seals of the oaken cabinet, and taken the important will therefrom, adjusted his spectacles and began to read. To Sarah it was like a message from the dead. The mind that had framed, and the hand that had executed, were gone—whither? She listened like one in a dream to the enumeration of the houses, bank stock, etc., owned by the deceased, till the sound of her own name made her start and look up suddenly. No—she was not mistaken. The lawyer was reading in his dry, business-like voice—

"And I give and devise to my dear niece, Sarah Stanton Percival, the sum of five hundred dollars, as a slight token of the interest I have always felt in my dead brother's child.'

That was all she heard. Some dry, business technicalities followed with which she had no concern. But leaning her head upon her hands, she fed her hungry soul upon those few words of affection—the first she had heard addressed to her since her father died.

She was roused from her pleasant reverie by the cold voice of her aunt, who stood beside her. And looking up she saw that the reading of the will was over, and that the party had broken up and were standing near the fire.

'Well, Miss Percival, I congratulate you with all my heart,' said the widow, tapping her lightly upon the shoulder with her plumed fan. 'Through the kindness of your uncle, you will be spared that disagreeable apprenticeship we were speaking of. I trust you are sincerely grateful.'

'I trust I am,' said Sarah in a low voice.—But she could not speak the thanks she felt, to the portly figure in black, who could well afford to spare the paltry sum of five hundred dollars from her thousands, and who felt rather glad in her heart that the bequest had been made, since it would sound so well when Dr. Warton and the lawyer spoke of it, as they would be sure to do. So the girl was silent, and her aunt called her mentally extremely ungrateful. It seemed to be fated that these two women should never understand each other, even in the slightest action of their lives.

Dr. Warton now bustled up, and took both of Sarah's hands in his warm grasp.

'I give you joy, young lady, I give you joy!' he exclaimed. 'Why, you are quite an heiress, my dear! And what with the fortune and the pretty face, our young men will have to look out for their hearts.'

'I am afraid you will make Miss Percival vain, doctor,' said her aunt with a sneer.—'Sarah, my dear, you must not let his flattery turn your head.'

'Madam, I assure you, I am no flatterer,' said the doctor, with his hand upon his heart; 'but when beauty, talent and grace are before me, I should be less than man if I did not speak the truth.'

His sweeping bow included the three ladies as he spoke. Mrs. Percival colored and smiled—she was not quite proof against a delicately worded compliment, even then. That simple speech secured the worthy doctor many a pleasant dinner and little lady's gift. Taking his arm, she swept out from the library to the parlor, followed by her daughter. And the young "heiress" was left to her own reflections.

CHAPTER III.

'Carriage, ma'am? Cab, ma'am? 'Ire a cab!—St. Nicholas! Astor! Metropolitan! International! Western Hotel!'—

Such was the welcome that awaited Sarah Percival, as she descended from the cars, on the evening of her arrival in New York. Bewildered with the noise and confusion, she shrank timidly behind a burly old gentleman, who had been one of her fellow passengers, and waited till the tumult should subside.—Her face burned with embarrassment and distress, and in her whole attitude so much of timidity and uncertainty was displayed, that a chorus of hackmen surrounded her, and thrust their tickets in her face. In her agony she would have taken them all, had it not been for a tall, fine looking man, with the gallant, open aspect of a sailor, who had been attracted by the evident trepidation of the young girl, and the selfish rudeness of those who surrounded her.

He came and stood beside her, and asked—

'Can I be of any assistance to you, young lady? I am a perfect stranger to you, I know, but at the same time, if you will trust me, I shall be very happy to help you.'

Now Sarah had read and heard much of the danger that always awaits a too confiding heart, and yet, with her first glance into that kind, frank face, all her lessons were forgotten, and she moved nearer to him instinctively, like a frightened child about to claim protection.

'If it is not too much trouble, I shall be very glad if you will assist me in getting a carriage.'

'With the greatest pleasure,' was the reply. 'Is there any particular hotel you wish to go to?'

Sarah produced her little card, blushing for the humble direction as she did so. A carriage was soon obtained, her baggage was strapped upon the boot, and Sarah's kind friend (whom she supposed, from his dress, to be a sailor,) turned to go.

'I must bid you good night, I believe,' he said, looking a little serious. 'I trust you will reach your home safely.'

He held out his hand. Without the least hesitation Sarah laid her's in it, and felt a little heartache as it was released from the firm clasp. Such meetings and partings often thrill us with a sense of pain for which we cannot account, and the faces that have beamed upon us for a moment in kindness, and then vanished—never on earth to return again, are sometimes remembered long after more familiar ones have faded from the tablets of memory. And thus it was that the dreams of Sarah Percival, on the first night of her city life, were haunted by a vision of a graceful figure, with curls of fair hair, clinging to the mast of a sinking vessel—and thus that Ross Neville, captain of the good ship "Snow Squall," wondered a little now and then, as he walked towards his hotel, if ever in his life he should meet the young girl he had befriended, again.

The home, under the shelter of whose roof, these first dreams of Sarah Percival were dreamed, was a humble one enough. It was a small wooden tenement, on a narrow and dirty street, owned and inhabited by a cleanly old Scotch woman, who had been a servant in the house of Mr. Richard Percival's father, in her younger days. She was greatly rejoiced at the young girl's unexpected advent, and bustled around to make her guest comfortable, talking all the while of Mr. Richard and Mr. Frank, in a way that brought tears to her listener's eyes.

'It seemed so strange to hear this woman, tottering on the verge of the grave, relating little anecdotes of the boyish days of the two brothers who had gone before her; and Sarah's heart warmed towards her, as she told how brave and generous and impulsive her own father was in his youth.

"Mr. Richard was more quiet and cautious, and Mr. Frank forever in disgrace," said the old lady warmly; "but for all that, he had a smile that would do your heart good, and a way with him that would charm a bird from a tree."

"Mrs. Bryce, do I look like my father?" asked Sarah, suddenly.

The good woman turned and looked at her quietly, with her clear gray eyes.

"Na, na," said she, shaking her head and flavoring her speech with a strong reminiscence of her native dialect; "ye have a blink of your ee like him, but your face is like your mither's, my bairn."

"Did you know my mother?" asked Sarah eagerly.

Mrs. Bryce's face grew very serious.

"Yes, I knew her. She was a grand lady."

"English, was she not?"

'On the mother's side she was, but by the father she came of as good Scotch blood as ever crossed the border.'

'Mrs. Bryce,' said Sarah, thoughtfully, 'do you think my mother ever loved my father? Mrs. Percival told me she did not; but then she never saw her. You knew her well; now tell me what you think about it.'

The face of the Scotch woman flushed vividly.

'Mrs. Percival! What could she tell you?' she exclaimed angrily. 'And yet, what could she not! Bairn, there is more evil in this world than you have ever dreamed of. Little that woman would have dreamed of sending you to me, if she had known what I know.'

'Tell me.'

'Promise me first that you will not speak of it to her till the time comes. I will tell you then.'

'Yes I promise,' said Sarah impatiently; and I am never going to her again, so it can make little difference.'

'Well, my bairn, that woman loved your father once. He never knew it—no one knew it but a confidential servant of hers, who was privy to the plot. But Mr. Frank never cared for her. And when he went to Europe she married Mr. Richard out of pure vexation. When the news, came of Mr. Frank's marriage, she was in a dreadful way. Your mother, my bairn, was of a high family, and a wealthy one. They were all angry when she married your father; but when she left him all was forgiven. The matter was hushed up, and at his death she married again.'

'She did not love him then?' said Sarah, sadly. She had been accustomed to invest this unseen mother with every possible perfection. And to be told that she was cold, and false, and heartless, was a bitter sting.

'Love!' said the Scotch woman, with a bitter emphasis. 'My bairn it was more than love—it was idolatry, and sinful I suppose.—He was ten years younger than she, but no one would have dreamed it to have seen them together. I saw them two or three times in Paris and once in London. It was before you were born, you know.'

'Yes; but if she loved him so, how could she leave him? If she loved him how could she give me up? I was but a little child—so little as only to have a faint memory of her—when she went away.'

"My bairn, there are some wrongs that will make a proud woman turn against the innocent child she has borne," said the old woman solemnly. "I wondered greatly at it myself, but I cannot now. Mr. Richard's wife, or rather Janet her confidential servant, played her part well. She was a tall ladylike girl, well furnished with money and fine clothes.—She began by sending anonymous letters to Mrs. Frank, who would not show them to her husband. If she had done that, all might have been well. But she only brooded over them; and when Janet came to see her, with a little babe in her arms, and told her it was his bairn, it was enough. All the love she had felt for him seemed changed to hate. She left you both, with a bitter vow that she never would see you again. And so she has kept it—and Mrs. Richard's plan succeeded."

Sarah listened in silence to this strange story.

'But how did you know all this, Mrs. Bryce?' she asked, after a moment's pause.

'I was on the continent with a lady, and saw your father and mother; and more than all that, I knew Janet. She died in my arms a year ago, and told me all.'

"You were a friend of hers, then?'

The features of the Scotchwoman worked convulsively, and she answered, with a burst of honest grief—

'She was my ain bairn—my ain dear bairn! and woe be to them that led the puir lassie astray!'

The young girl was shocked at the effect of her careless question.

'Don't weep so, Mrs. Bryce,' she said soothingly; 'I am very sorry to have pained you so.'

'There—I am better now,' said the woman, wiping her eyes, and smiling steadily. 'It is better for her that she has gone. There is no one in that other country to lead her into wrong—puir lammie! But I will never forget or forgive those who did this wrong!' she added with a vehemence that sparkled in her usually placid eyes like fire.

'I must find my mother,' murmured Sarah, laying her head down on the pillow, from which she had lifted it in the heat of the conversation. 'She will love me when she knows all, and I need some one to care for me. Mrs. Bryce, tell me her maiden name.'

'Margaret Clanmoran, my bairn.'

'Margaret—Margaret—it is a beautiful name. I wish they had called me so.'

'I am sure your own name is bonny enough,' said Mrs. Bryce, kindly. 'Now shut your eyes, my bairn, and go to sleep. I ken well I shall love you for the sake of your mither, who was so kind to puir Janet, in spite of the way in which she came to her.'

With a kind good night, that might almost have been a mother's, so low and gentle was it, Mrs. Bryce left the girl to her rest.

But all night long she was tossed to and fro upon a sea of dreams. Sometimes the fair, sad face of her mother swept before her, and then the gallant figure of the young sailor; and when at last the morning broke, and the first rays of the rising sun came stealing over the house tops, and looked down into her little room, she awoke weary and unrefreshed, and conscious of a dull feeling of homesickness and dreariness, that was almost worse than actual pain.

The above is all of this story that will be published in our columns. The continuation of it can be found only in the New York Ledger, the great family weekly paper, which can be obtained at all the stores throughout the country, where papers are sold. Remember to ask for the New York Ledger of December 20, and you will get the continuation of the story from where it leaves off here. If you cannot get a copy at any news office, the publisher of the Ledger will mail you a copy on the receipt of five cents. FANNY FERN writes only for the New York Ledger; SYLVANUS COBB. Jr., writes only for it; EMERSON BENNETT writes only for it; and nearly all the eminent writers in the country, such as MRS. SIGOURNEY and ALICE CAREY, contribute regularly to its columns. It is mailed to subscribers at $2 a year; or two copies for $3. It is one of the handsomest best family papers in the country, and is characterised dy a high moral tone.

JAIL BREAKING.—The present week for the first time since the erection of the stone jail in this city, (more than twenty yerrs ago,) has a prisoner escaped by breaking out. On Wednesday morning last, it was found that two of the twelve prisoners were missing from one of the cells. One named Happenny, the other Bennett. The latter a desperate fellow, a native of Exeter, and recently from the Charlestown State Prison. It appears on examination that the cell in which they with two others were confined was ceiled overhead with *pine timber*, about a foot square. This was not known to the jailor, who supposed it ceiled with stone, like some of the other cells. Bennett, however, by sounding found the weak place, and hacking a common case knife into a saw, in the course of two or three days sawed off the timber, opening a space of about 12 by 15 inches, through which they ascended into the attic. Taking with them some bed clothes they made a rope by which they descended from a window in the attic on the north side, and at about 1 o'clock departed for parts unknown. Their two fellow prisoners were either too honest to depart in so uncourteous a manner, or were loth to leave their warm quarters and to them cheap board, for a cold world and high rates of living. [Bennett was confined for stealing a barrel of flour, and for an assault with a hatchet on Mr. Eldredge.]

James Howard Bennett and Happenny were caught in Exeter on Thursday evening, the former dressed in female attire. They were returned to Portsmouth jail on Friday. The former is a desperate fellow, and it is well for the community that he is again secured. Happenny was but a light coin, and had he passed off it would have saved our court the trouble of nailing him to the counter.—*Journal*

LYCEUM LECTURES.—A correspondent of the Exeter News-Letter speaks thus of the lectures at South-Newmarket this season:

"The Lyceum Lectures now being delivered at South-Newmarket are of a very high order. Prof. J. G. Hoyt of Exeter, Rev. J. Greenwood of Dover, Rev. Dr. Peabody and Rev. L. Whiting of Portsmouth, have each favored us with their services, to the great admiration and profit of all who heard them. The first three of these gentlemen are well and favorably known, in all this section, as able, interesting lecturers; and of Mr. Whiting, as he has but recently come into the State, it is due to say—and we do confidently and cordially say—that he is one of the best lecturers we have heard. His lecture here on 'Books and Reading' is of the first importance to all classes, especially the young. Where the people in other places avail themselves of the very great advantage of having public lectures, they will do no better than to secure the services of Mr. Whiting as one of the best lecturers that can be had."

OVER-THE-RIVER LYCEUM.—It would be a good idea to have one of our Lyceums located at the east end of Portsmouth Bridge, in Kittery.—We then might find lecturers *from abroad* of known ability who could give better satisfaction than those far-fetched and dear bought. We should only have to send across the bridge to secure those whose services elsewhere are held in the highest estimation, and to whom the compensation bestowed upon Old Bullion would be ample to pay for ten lectures—none inferior to his—and the money would be kept at home for the reward of home industry and talent.—*Journal*

INSTALLATION.—Rev. E. H. Richardson was installed Pastor of the First Congregational Church and Society at Dover, on Wednesday last. Sermon by Prof. Phelps, of Andover, Mass.; Charge to the Pastor by Rev. I. Willey, of Goffstown, N. H.; Right Hand of Fellowship by Rev. A. H. Quint, of Jamaica Plain; Address to the People by Rev. L. Whiting, of Portsmouth; Benediction by the Pastor.

VALUABLE CHRISTMAS PRESENT.—One of our affluent and benevolent citizens has directed Mr. Preston to prepare a large and complete *Medicine Chest*, to be presented to the Missionary at the Isles of Shoals, (who has been a medical student,) for use on the Islands. Its value with contents cannot be much short of $100. The *benefit* in time of need cannot be estimated in money.—*Journal*

We understand that the house of Mr. Herman Remick, on Islington street, which was injured by fire last week, has been sold to Mr. Thomas Wardwell, whose residence adjoins.

FRENCH SPOLIATIONS.—The House Committee on Foreign Relations, it is stated, will soon report a bill for the French spoliations, predicated upon the idea that the information communicated from the Department of State at the last session relieves, in a great measure, the objections raised in the President's veto, and clears the way for the adoption of the proposed measure.

The Newburyport Herald says that no less than six fractures and dislocation of limbs have occurred, all within three months, to citizens of South Danvers, viz.: one clergyman, one merchant, one mechanic, one under graduate of Harvard University, with broken legs; one laborer with dislocation of shoulder; one school boy with broken arm.

The marine losses, during last month, of American shipping, are recorded to be 9 ships, 2 barques, 7 brigs and 8 schooners, valued at $627,000, and cargoes at $948,000 more. Among these are the Rio Grande and Lady Franklin of Bath, Celia of Kennebunk, the barque Octavia of Portland. The valuable cargo of the Lady Franklin is valued at $80,000.

PROSCRIPTION.—The Phila. North American says: We learn from one of our southern exchanges, which mentions the fact approvingly, that a man named George Eason Colson, was recently banished from Madison county, Florida, by a lynch court, for the crime of being opposed to the institution of slavery. He was notified that in case of his return, or refusal to go, he would be treated to thirty-nine lashes, to be repeated in double doses, in case of further refusal. He left, of course, and his family was assisted by the mob to follow him. No act of his was urged against him. He does not appear to have interfered with anybody's negroes; but the paper from which we copy, simply says, that he was proved to be anti-slavery, and confessed it.

MR. FREMONT IN CANADA.—The good people of Ottawa are perhaps not aware that Col. Fremont, the Presidential candidate, was sojourning in their fine city during the days preceding the election. He was so exhausted by the labor of receiving deputations and perhaps so troubled by the awkward questions put to him, that he was obliged to leave home, and knowing no place in the States where he could remain unobserved, he betook himself to Ottawa, where he enjoyed his *incognito* for ten days.—*Toronto Globe.*

SATURDAY, DECEMBER 13, 1856.

BUCHANAN ON DRINKING.

Mr. Buchanan, President elect of the United States, in a speech which he delivered to the students of Franklin and Marshal College, a few days ago, uses the following decisive language.

Mr. Buchanan said he had been a college boy himself, and none of the best of boys, either, being fond of fun, like themselves. There were many little eccentricities in the life of a college student that might be pardoned or overlooked; but there was one habit which, if formed at college or in early youth, would cling to them through after life and blight the fairest prospects. He referred to the *use of intoxicating liquors*, and declared it would be better for that youth who contracted an appetite for strong drink that he were dead or had never been born; for when he saw a young man entering upon such a career, a *fondness for liquor* becoming with him a governing passion, he could see nothing before him but a life of sorrow and a dishonored grave in his old age. Many lads, he was aware, considered this practice a mark of smartness, but he regarded it as an *offence* that cannot be pardoned, especially in a student at college; and he concluded this earnest appeal by expressing the hope and belief that none of the young men of Franklin and Marshal were addicted to this *dangerous practice*.

We invite the reader's special attention to the words we have printed in *italics*. It will be seen that Mr. Buchanan's warnings to the young men do not say a word about *excess* or drunkenness. He warns them against the "use of liquors, the fondness for liquors, the appetite for strong drink," and calls the whole a dangerous practice.

We thank Mr. Buchanan for lifting his warning voice against this evil. His words are truthful, and well put; and we say again that we thank him for giving the weight of his great *influence* in behalf of temperance and sobriety. Let the young everywhere ponder well upon the instructions thus given them by this eminent statesman. "Words fitly spoken are like apples of gold in pictures of silver;" and coming as these words do from a man of experience, of age, and of exalted position, they cannot fail to make a good impression.

We trust Mr. Buchanan will also give the weight of his *example* in the same behalf; which, should he do, it will be a crown to his old age, and a glory to his administration. We hope he will have the moral courage to expel intoxicating liquors from the White House; and never furnish that to his guests which will lead them to a condition in which they shall "see nothing before them *but a life of sorrow and a dishonored grave*."

If Mr. Buchanan will do this, the whole nation without distinction of party may well say, all honor to the sage of Wheatland.

In reading these words, we were led to considerations like the following. If the results of the use of intoxicating liquors are what are here depicted; then why should states and nations license the traffic therein?

According to Mr. Buchanan "it would be better for that youth who contracted an appetite for drink, *that he was dead, or had never been born.*"

This being true, how can any Christian man go for licensing the traffic which tempts to the formation of this appetite? Still, some men, calling themselves Christians and patriots, go for licensing these places where their own sons and the sons of their neighbors form that very appetite which results in all the sad consequences depicted by Mr. Buchanan. Is it not strange? The children of Israel made their children pass through the fire to Moloch; and from what we know of that horrid practice, we are ready to cry out cruel, murderous, wicked. And so indeed it was; but is it any the less cruel, murderous, and wicked, for us in this day of Christian civilization, to license a traffic which tends to the formation of appetites in our children, the results of which Mr. Buchanan so truthfully depicts?

We wish to ask the people of New Hampshire, is Mr. Buchanan *right*? If so, will you go for a traffic which leads our young men to *contract* an appetite for intoxicating liquors?

LATER FROM EUROPE.—The Africa has arrived at New York with three days' later news from Europe. The cotton market had declined at Liverpool, and closed with a depressing influence. The market for breadstuffs maintained its posture generally. The provision market was without change. The money market was in a better position.

Since January 1, this year, 128,755 emigrants have arrived at New York. To the same date last year, 127,234.

OLD FRENCH CLAIMS.

There is a new movement in favor of paying these just and reasonable, but long deferred claims. The Boston Advertiser's Washington Correspondent thinks the chance is poor. So do we. He says:—

The agents in the matter of the French Spoliation Claims are at work again preparing to press that subject upon Congress at the present session, with the idea that if again vetoed by President Pierce, it can be passed over his head by a two-third vote. The Committee on Foreign Relations, both in the Senate and House of Representatives, now have the subject under consideration, and will probably report a bill ere long.

I fear that nothing will be accomplished. The claimants have sustained a serious loss in the death of Mr. Clayton to begin with. This alone will make it more difficult for them to get a two-third vote in the Senate. Again, in the House of Representatives, it is a lamentable fact, that certain members constitute a sort of balance of power, without whose aid a two-third vote would be absolutely impossible, and which cannot be had for any large money measure except through the agency of certain lobbyists with whom they are in league.

Such levies as these ought not be submitted to and cannot be by honorable men. They certainly will not be in the case of the French Spoliation cases, whose managing agents here have steadily refused to employ any outside influence, under any circumstances, but have honestly preferred to lose their case year after year. Such views as this are not grateful, I know, to many of your readers; but it is better that they should *know* the worst, than be deluded by false hopes.

The Canadian papers say, that a movement is on foot in Canada, to secure the passage of an Act of Parliament, by which fugitive slaves may be sent back to the United States. We should suppose that such an act would be be popular in those sections where fugitive slaves most congregate, for it is impossible to conceive of a poorer population. It is rather hard that the poor negroes have no place of rest; but we cannot blame anybody who is clear of them for keeping clear. It was good sense in the free State men of Kansas to determine that they should not go there, free or slave.—*Newburyport Herald.*

It was lack of soul, not good sense. The proposed act will never be a law in Canada, while she remains a British colony.

A DODGE.—In Congress, a day or two since,—

Mr. Morrison said he was once an anti-Nebraska man, but had left that party when he saw it was leading him into Abolitionism.

What party was this? Why, it was almost the whole vote of the free States in the House of Representatives, until the Nebraska blunder was made a test of executive favor. And then,—how refreshing the thought,—the poor man left off opposing a specific piece of political wickedness, lest forsooth he should become an honest man throughout. O, model doe-face!—how old John Randolph's spirit, should he come up now, would point his long finger at you!

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. aug7 TuTh& hS 6m

RAILROAD ACCIDENT AT PORTLAND.—On Wednesday afternoon, as a train on the Grand Trunk Railway was just entering, after it had passed the draw on the back cove bridge, the locomotive from unknown cause left the track, drawing with it the saloon and three freight cars. The engine broke through the bridge, but the saloon car and one of the freight cars were precipitated into the river. Four persons were in the saloon car when it went over. Sylvester D. Gordon, of Gorham, N. H., was drowned. The other three were slightly injured. The engine and saloon car were badly smashed.

PROFITABLE VENTURE.—One day last week a gentleman of New Smyrna, Florida, arrived at Charleston, South Carolina, with 20,000 oranges, which he disposed of at $40 per thousand. These oranges were raised by his own labor, unassisted by any one, and from an orchard of trees only four years old. St. Augustine was formerly celebrated for the abundance of oranges grown in its vicinity, but a few years ago a severe frost killed nearly all the trees, so that the raising of this luscious fruit has been confined to places in the more southern part of the state.

SECTIONAL.—Fremont's majority in New England, says the Providence Journal, will foot up about 130,00. It is easy enough to say that the whole of New England is fanatical, abolition, unpatriotic and sectional, and that South Carolina and Virginia are sound, patriotic and national, but it may not be so easy to make people accept such an explanation.

LOCAL.

New Ship Yard.—We understand the old ship-yard at the south end, near the foot of Pickering street, is to be re-opened under the auspicies of Capt. Daniel Marcy and Wm. Pettigrew, Esq., (late of the firm of Fernald & Pettigrew, of Badger's Island.)

The ship Harriet Rockwell, built by John Mugridge, Esq., was the last ship built at this yard; we think the only one since the beginning of the present century; though in former times it is said that many were launched from thence.

We are glad to hear this, and care not how many more are opened, since it is to ship-building that Portsmouth owes much of its prosperity.

☞ The Journal is down on Gift Concerts, as usual. All well enough—"Every man to his own notion." But it is nothing more than fair to stick to facts—and we have no hesitation in stating that the gift concerts which have been given in Portsmouth, have not been excelled in musical ability and attractiveness, by any other concerts given here during the same time. Amphion could never have built Thebes, had the rocks been as insensible to his music, as is the critic of the Journal to that of Satter, Thompson & Co.; to say nothing of the unapproachable "Seven," who performed at the first gift entertainment. To be sure, Mr. Thompson did win some fame and friends when singing with the Rayner Family, and Mr. Hector, and since as a composer—and is to-day one of the most popular singers in the land; and Mr. Satter holds the first rank as a pianisi—hardly second to any who have visited America. But all this is nothing to the musical critic of the Journal.

One word as to consistency. The same Journal contains an editorial notice, complimenting and recommending the Cosmopolitan Art Association—an enterprise in no wise materially differing from gift concerts. And, besides, the editor of the Journal, annually participates in the printers' lottery, (the drawing for the City printing,) as clearly a "distribution of property by lot" as any other scheme—and perhaps not more necessary or beneficial than some of the others.

Mechanics' Lyceum.—It will be seen that season tickets for the remainder of the course can be obtained for fifty cents. As yet not half the lectures have been delivered, and there are yet to come some of the best of the season. Mr. Tiffany (of Baltimore) is to lecture next Tuesday evening, on "the Industrial Arts of the Chinese;" and on the 30th inst., Mr. Russell (of Cambridge) is to read his celebrated Poem on the Life and Character of George Washington. Among those who have not yet lectured, are our favorite friends, Chapin, King, and Thompson.

The Devil and Spiritualism.—Providence permitting, Elder Miles Grant, of Boston, will preach at the Advent Chapel to-morrow. Subject in the afternoon,—the devil: in the evening,—The Cause of Modern Spiritualism, as viewed from a Bible stand point.

☞ Mr. Wm. S. Chase, the efficient and gentlemanly Chairman of the Directors of the Mercntile Reading Room, and Secretary of the M. L. A., resigned both offices last evening. Mr. Wm. O. Head was elected to the former, and Mr. B. Frank Moses to the Soctetaryship.

New Clipper Ship Charger.—The Boston Journal of Friday evening, says; "The beautiful clipper ship Charger arrived at Boston, Thursday, from Portsmouth, N.H. She is 1400 tons, and was built by E. G. Pierce, Esq., for H. Hastings, Esq., and others of Boston. She is said to be the best and most costly merchant ship of her size ever built in the United States. Captain Charles Pearson, underwriter's agent, superintended her contsruction. She is to be commanded by the well known Capt. L. Hurd of New Orleans, who is part owner. We think her well worthy of a visit from all lovers of good ships."

Lost.—On Thursday, a gold coin.—Please leave it at this office.

Female Tact.—Fanny Horton, a celebrated English actress, being hissed in her youth, had the boldness to come before the audience and ask, "which do you dislike, my playing, or my person?" "The playing! the playing!" was the cry from all sides. "Well, that consoles me," was the answer, "my playing may be bettered, but my person I cannot alter." She soon became the favorite of the public.

Washington, Dec. 11.—(Tribune correspondence.)—It is announced that the head-quarters of Gen. Scott will be again established here, soon after the inauguration, and perhaps at the special invitation of Mr Buchanan.

CONGRESS.

Thursday, Dec. 11.

Senate.—Mr. Cass reiterated his opinions on popular sovereignty, discussing the several questions involved in the debate on the President's message.

Mr. Hale of New Hampshire proclaimed the future intentions of the Republican party, believing they would attain the power in 1860, to apply the principle of exclusion of slavery from the territories.

Mr. Bigler of Pennsylvania and others replied. Mr. Bigler denied that he was a speaker at a Democratic Mass Meeting in favor of Buchanan and Breckenridge and free Kansas, as was expressed in a handbill which Mr. Hale exhibited to the Senate amid general laughter. Adjourned till Monday.

House.—Humphrey Marshall made a speech to show the difference of opinions among the Democrats of the North and South regarding the interpretation of the Nebraska bill, saying their positions were so different there was no finding out where they were.

During his speech, Messrs. Quitman, Keitt and McMullen, the latter speaking for the Virginia delegation, repudiated squatter sovereignty as explained by Mr. Cass.

Mr. Orr repudiated that doctrine, and admitted there were differences of opinion regarding it among the Democracy, saying that Mr. Marshall might make the most of it.

Mr. Letcher essayed to prove that Mr. Giddings and the Republican party had expressed sentiments advocating Northern interference in the institutions of the South, tending to insurrection. Adjourned.

New Cent Pieces.—Congress passed a law authorizing the coinage of the new cent pieces, but has neglected to provide for their issue. The consequence is, that a "heap" of them are at the Philadelphia mint, awaiting the order of Congress to circulate. They are about the size of the half-cent circulated 15 or 16 years ago, and are composed of copper, nickel and zinc.

☞ In Indiana there were 6000 applicants for the post of Messenger, to carry the electorol vote of that State to Washington. Every township but two represented.

Another Dred.—The Wilmington (N. C.) Journal says: "On Friday last a runaway negro camp was discovered on an island in Big Swamp, situated between Balden and Robeson counties. On Saturday morning a company of twelve or fourteen started out to hunt them, and after starting them from their camp, one of the negroes fired at Mr. David C. Lewis, wounding him, from the effects of which he died on Sunday morning. On Friday a man named Taylor was shot at twice from the same place, but missed. The negroes had cleared a place for a garden, had cows, &c., out in the swamp; none arrested. The swamp is about four miles wide, and almost impenetrable.

The Slave Insurrection.—*Nashville, Dec.* 10.—The City Councils of this city have passed a law directing the employment of an additional police force, day and night; forbidding negro schools and negro preaching: forbidding all assemblages of negroes after sundown; authorizing the arrest of free negroes from other counties, and the arrest of free resident negroes if found in suspicious circumstances. A great deal of uneasiness is felt in the city as well as in the country.

Later from Kansas.—*Chicago, Dec.* 11. We have received Kansas dates to the 3d inst. The free State militia, under Capt. Walker, have been disbanded at their own request. Sixteen of the free State prisoners tried for murder in the first degree have been acquitted, and nine are still in trial. A large quantity of clothing received by the last boats has been distributed to the destitute. Navigation was entirely closed.

From the Boston Saturday Evening Gazette

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A Beautiful Complexion may easily be acquired by using the "Balm of a Thousand Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

Shaving Made Easy.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

In calling the attention of the public to my list of Magazines and Newspapers; I would caution all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town. Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen year, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. Cheeseman, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BEMPSFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

DR. AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTERRY, IA., writes, 3d Jan., 1855: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL IS performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBIA, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Possessing human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid the could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, whose we have come for advice, recommended a trial of your medicine. Doubtless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative, which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win universal confidence wherever the human race is found. They are so pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and nurse distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not attestated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Dyspepsia, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Liver Complaints and Cutaneous Disease which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also! Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years.—It having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain. I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with Our Attachment without extra charge.

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have been from time to time received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen: The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	150

IN PIANO CASE:

Five octave Melodeon, from F to F	$100
Six octave Melodeon, " F to F	130
Five octave, double reed, " F to F	150
Organ Melodeon (for churches), 5 octaves, 8 stops, 1½ octave pedals, 4 sets of reeds	350

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity. WE MAKE THE MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's! The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

The new machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

DOESTICKS ON LAGER BEER.

IS LAGER BEER INTOXICATING?

There seems to be a great excitement abroad in the land about the merits of lager beer as a beverage. Our friends of Porter's Spirit of the Times publish a song, music and words, in its honor, and that funny fellow "Doesticks," has been publishing to the world his own experiences of its (the beer's) practical use. We wonder whether this remarkable fluid is or is not intoxicating! Hear "Doesticks" on this *pint:*

Scene.—A lager beer shop.

Present.—Doesticks and his friend Damphool, and a German maiden, awaiting orders,

Damphool gave her a feeble wink, and said 'zwei,' whereupon she brought us with her own fair hands two mugs of the beverage known as Lager, and stood waiting with her own hands on her hips—thought she wanted to enter into conversation, so by way of making myself agreeable, I winked, as Damphool had, and also said 'zwei' —I thought 'zwei' meant 'darling,' and that she had misunderstood me—attempted to explain in the manner following: 'Zwei, zwei,' said I, 'not more beer, but zwei,' after which very lucid explanation she vanished again and brought two more mugs, at which Damphool stopped laughing long enough to tell me that she would keep bringing pint doses of lager as long as I continued to ramble 'zwei,' which he informed me means 'two glasses of lager, and be in a hurry about it;' he also said the reason she didn't go away when she had served us was because she wanted her change; paid her the money, thanked my friend for his gratuitous lesson in German, and began to drink. The first glass seemed like sour strong beer, with a good deal of water in it; the next was not quite so sour, and the succeeding one tasted as if the original beer had been stronger, and they had not diluted it so much. Then we rested, and, as I had drank three pints already, I was willing to stop, but Damphool assured me, 'Lager is'nt intoxicating,' so, after a little settling down, I thought I could hold another glass, and ordered it;—it was brought by a young lady who seemed to me to have four eyes and two noses, pointing in different directions, which unusual effect was undoubtedly caused by smoke. Then I thought I'd have a glass of lager, a liquid known to most of the inhabitants of Manhattan. It was brought by a girl so pretty, that I immediately took more, and kept her waiting for the change each time so that I could look at her—then we had some cheese full of holes—then we had some lager to fill up the holes—then we took a sausage; Damphool suggested that the sausage was made of dog, so we had some lager to drown the dog—then we had some sardines; Damphool said it would be cruel to keep the fishes without a supply of the liquid element, so we had some lager for the fishes to swim in—then we had some bretzels; Damphool said the bretzels were so crooked that they would not pack close, so we had some lager to fill up the chinks—then I made a speech to the company; short, but very much to the point, and received with applause—it was addressed to the whole crowd, and was to this effect—'Gentlemen, let's have some lager.'

By this time, my friend had by some mysterious process become mysteriously multiplied, and there were fifty Damphools, and they all accepted my invitation, and we had the lagers—there were forty glasses, and in trying to make the circuit of the room, touching my glass to every one of theirs, I fell over a table, which very impertinently stopped before me—and as I went down I knocked a small Dutchman into the corner, then I fell over him, then I partially recovered myself, and sat on his head, then I got up and stepped on his stomach, then I demanded an instant apology—then I called for six glasses of lager, and when the girl brought them all in one hand, I tried to take them all in one hand, but I broke three—then I tried to drink out of the remaining three all at once, and in so doing I took an involuntary shower bath—then I tried to pay for the whole fifty glasses and the damage, with a dime and a Spanish quarter, and demanded that he should give me my change in gold dollars —there seemed to be some little difficulty about this, and if I hadn't known that lager beer isn't intoxicating, I should have thought the man was drunk—I was on the point of calling a policeman to arrest him for swindling, when Damphool came and explained the matter, and his thick head at last comprehended that I was right.

Little tamborine girl came along and wanted money for man who was performing with a great deal of skill on a crank outside—felt generous and tried to put Damphool into the tamborine under the impression that he was half a dollar—finally presented the little girl with my compliments, two cigars and a penny, with which she went off satisfied.

Then I thought I'd make love to a pretty girl who had just brought me a glass of lager, (a beverage prevalent in that vicinity, and which does not possess any intoxicating power) so I pressed to my heart for about two minutes what I supposed to be her hand, and didn't find out that it was her petticoat until I tried to kiss it, and got my mouth full of woolen yarn; looked at pretty girl with indignation and asked her what she meant by such conduct—then I had a mug of lager, (a liquid which does not intoxicate, and which is much used by the German population.)

Doesticks, having described a variety of queer adventures, the result of his experiments with the lager, thus concludes—

I was finally captured by four Dutchmen, led on by Damphool, who took off the floor from the piano, where I was trying to pour beer out of an E flat bugle, and was asking the bass drum if it would have another mug. I was supported by the whole strength of the company as far as the door, where Damphool took charge of me. I went along well enough, though why I desired to snuff all the gas with my fingers I don't know; nor can I tell what induced me to make so many ineffectual efforts to open the door with the tail of my coat instead of a latch-key, nor why I seized upon my landlady's night-cap to light me to bed with, in place of a night lamp; it couldn't have been the lager, for that innocent beverage does not intoxicate the partaker thereof. This sketch of my performance is related to me by Damphool, as I lost my memory immediately after the love episode with the waiter. Awoke next day at noon, when my head felt like a patent windlass with a double gang of men at the crank. I laid it to the cheese, and made a strong resolve to eat no more cheese without taking plenty of lager beer (a medicinal preparation of a tonic and diuretic character) to correct its ill effects.

REAL POWER.—It is daily realized by the people that the real power to cure humors, and diseases resulting from them, is in Arnold's Vital Fluid. It is that real telling strength and action which proves capacity, without long waiting for some slight sign of it. The Globules should be taken in connection, in all bad cases, especially of long seated humor. The effect being produced by them all through New England is *enormous.* Wherever they are known they become the family medicine for general use, and their action is safely relied upon.—*Boston Journal.*

Morning Chronicle.

MONDAY, DECEMBER 15, 1856.

NEW HAMPSHIRE. — The Portsmouth Chronicle has something to say with regard to the Courier's mention of the nomination for Congress in the Rockingham and Strafford district. We turn over the dispute to the Winnepissaukie Gazette of Laconia, which we think said that Elder Pike did not find the atmosphere of Congress in consonance with his pure morals and conversation. Some people may think that Mr. Marston is a more fitting candidate for Congress than Mr. Pike, though the expression of such an opinion may be esteemed a heresy among the enlightened citizens who control the vote of the 1st district of New Hampshire.—*Boston Courier.*

The above item is a very poor back-down from one false position into another.

The Courier stated first, that

"Rev. Mr. Pike has announced that he will not be again a candidate for Congress in the first district" in New Hampshire.

We doubted and contradicted it—the Courier quibbled—we made the matter so plain in last Friday's Morning Chronicle, that the Courier must either remain silent, correct its errors, or slide off.—It has chosen the latter course, and now *thinks* some paper up at the lake said something; which something, if said, has nothing in the world to do with the point at issue between the Courier and ourselves, which was simply whether Mr. Pike had himself publicly declined. He certainly has not, though the Courier said he had:—so let it slide.

And now, be it known, that no one has said a word against Mr. Marston's fitness for Congress—nor against his going there, when the time comes—and in the meantime the Portsmouth Journal suggests that Mr. Marston is no rival of Mr. Pike's, but goes for his re-election.

The Courier's pet rumor was a mere outside attempt to create a difficulty,—and a very poor attempt it was.

LETTER FROM KANSAS.

The following brief but interesting letter, has just been received from a young man, whose parents reside in Portsmouth. It was written in a hidden "language," (referred to below,) understood only by the family of the writer.

TOPEKA, K. T., Nov. 23d, 1856.

My Dear Parents;— I hastily write you a few lines, to let you know my position. Last week the Marshal was in town, after me, for participating in the last troubles. He was told I had gone to Nebraska last night. He came again with seventy of the troops, at 2 o'clock; but the alarm was given, and he did not succeed in capturing any one. A man walked out here to let me know about it. I shall be safe enough, so long as I can keep out of sight. But if I am obliged to flee, I shall probably winter in Nebraska.

Last night thirty-nine Free State prisoners made their escape from jail in Tecumseh. They came here bare-footed and bareheaded. They are all safe now.

I will write more when anything new turns up. I wish you would send me twenty-five dollars as soon as possible. In case I shold have to leave, I should need it. Don't direct to me, but to Mrs. H. Write soon, in this language.

I remain your Affect. Son.

SHEET MUSIC.—Russell & Richardson of Boston have just published six sheets of Music, entitled—Regard, a Cluster of Precious Gems. Six instructive pieces, recommended to young scholars: viz. Ruby, Emerald, Garnet, Amethyst, Roselite, and Diamond; for the Piano, by A. Baumbach. We have a specimen of them from J. S. Harvey & Son; and find them beautiful pieces, well played. The same publishers have sent us the Amateur March, composed for the New Bedford Brass Band.

THE MASSACHUSETTS STATE PRISON AND SUFFOLK COUNTY JAIL UNITED.—On Wednesday evening, Solon H. Tenney, Esq., formerly turnkey of Suffolk County Jail, but at present the popular and efficient Warden of the State Prison, in Charlestown, was united in the holy bonds of wedlock to Miss Mary E., third daughter of William S. Bartlett, Esq., the keeper of Suffolk County Jail. The happy couple are now on their wedding tour, and have the wishes of many friends for their uninterrupted happiness through life.

A DAMPER.—Some years ago, the late Emperor Nicholas was visiting Naples, when King Bomba ordered a grand review of his little army. After this ceremony, the King rubbed his hands, saying to the Czar: "Well, sire, is it not a very fine troop?—Could I not march against France with such an army?" "Yes, certainly," replied the Czar, "but the French Custom House officers might not let you pass."

DEATH OF REV. DR. FRENCH.

Died, at his residence in North Hampton, on Saturday, Dec. 13, Rev. Jonathan French, D. D., in the 79th year of his age.

Dr. French was the son of a clergyman; was born at Andover, Mass., August 16, 1778; graduated at Harvard College, in 1798; ordained at North Hampton, Nov. 18, 1801; formally resigned the active duties of his pastorate Nov. 18, 1851; and actually resigned them at the ordination of his colleague, Rev. John Dinsmore, Nov. 18, 1852, when the latter was ordained.

Mr. French had perceived his strength somewhat diminished, before the close of his active ministry;—and since that event, it has gradually failed, till at length he has fallen asleep, as quietly and gently as the infant goes to his repose.

For many years Mr. French was one of the most active, influential, and highly esteemed clergymen in the Piscataqua Association of Congregational Ministers. He was known and had preached in all their congregations; had been called to advise in their churches: and had many friends in all their parishes.

He was, for his day, a very fair scholar; he was a good student, and remained such to three score years and ten; he was a reliable historian, and has left behind him Manuscripts, of whose worth money is no measure. He was an acceptable preacher, a faithful and kind pastor, a good citizen, and a wise man. Above all, he was the good husband, loving and beloved; the good father, honored, and worthy of honor; the good neighbor and friend, welcoming every worthy guest to his board, and in turn welcomed by worthy households everywhere; the humble believer in Jesus, whose precepts he essayed to follow, with as few failures as can often be found in so long a life.

His end was peace. We have before us his half-century discourse, delivered five years ago, from the text, "Behold I die—but God shall be with you,"—and we are disposed now to vary it and another text so as to say—"He is Dead; and his life is hid with Christ in God." Peace to the Memory of a Man of Worth.

The funeral will take place on Tuesday, at 1 o'clock P. M., at the Congregational Meeting House in North Hampton.

RUFFIANS ARRESTED.—A person was arrested Thursday afternoon in the Kennebunk woods, who is supposed to have made the murderous attack on Judge Potter of Portland. His name was registered at a hotel in Biddeford as "Barney Jordan of Lawrence." The police were in pursuit of another suspicious character calling himself Jacob Dresser, and have doubtless captured him before this time. There are many circumstances implicating these two men in the Portland outrage. It is to be hoped that summary justice will be meted out to them.

Judge Potter continues to improve and is considered out of danger.

One of the best jokes of the season occurred in the U. S. House of Representatives on Tuesday. Etheridge, of Tennessee, was speaking of the attachment of the slaves to their masters, and of their happy exemptions from the cares and anxieties which perplex their masters. By way of illustration, the gentleman said, "Now, my slaves would follow me to Boston, and no one could seduce or entice them from me; and while I am lying awake nights to devise ways and means to pay the next execution that shall come against me, my slaves are enjoying the most quiet and undisturbed slumbers." "Stop there," said Day, of Ohio, "your slaves know very well that if you do not pay the executions against you, they must." The gentleman from Tennessee frankly admitted the justice of the correction.

A VETERAN. — The Amherst Cabinet says, Mr. Henry Spaulding, of Francestown, now in his 100th year, rode four miles on the fourth of November to vote for John C. Fremont. He voted for Washington, and has voted at every Presidential election since.

☞ The Newburyport Herald deems the scarcity of hides likely to keep up the price of leather, and to raise the price of shoes. It recommends better tanning, better currying and better shoemakin make the shoes last longer, and be worth the money.

☞ It is said that Mr. George C. Henry has invented a cheap machine, which will spin cotton into yarn on the plantation;—and thus save waste, freight and risk.

☞ Answer to the Charade in the Morning Chronicle of Dec. 9,—Shipboard.

S. J. COURT; LAW TERM.

This Court, just holden at Dover, decided the following cases, arising in Rockingham County, reported in the N. H. Gazette.

Marcellus Bufford *vs.* Abby M. Johnson, Admx.—The plaintiff, a creditor of the estate of Joshua Johnson, neglected to present his claim to the Commissioner of Insolvency until the expiration of the commission. He then applied to the Judge of Probate to extend the commission, for the reasons, that he did not take the newspaper in which the commissioner's notice was published, and had no actual notice of the existence of such commission. The Judge of Probate refused to extend the commission, but this court held the refusal erroneous.

Henry P. Daniel *vs.* Simeon Brown & als. The court held, that one tenant in common may maintain an action of trespass against his co-tenant for taking the goods owned in common, with force and arms. Otherwise, if no force were used. Judgment on the verdict for plaintiff.

Ephraim Abbot *vs.* Town of Fremont. Plff. was an insane and friendless person, and had been many years supported by the town as a pauper. This action was brought to recover the value of his services, which were proved to have been worth to the town, from $50 to $60 a year more than the cost of his support. But the court held, that the action could not be maintained; and that whenever a person is supported by a town as a pauper, he can never be made liable to pay the town for his support, and the town is under no liability to account for his wages. New trial ordered.

State *vs.* Edmund Wade. Indictment under the liquor law. The court held that it is not necessary to set forth in the indictment, that the case was not within the various exceptions recited in the statute. Judgment on verdict of guilty.

RESULT OF INTEMPERANCE.—On Wednesday afternoon a miserable individual named Thomas Hobdell, residing in Charlestown, while laboring under an attack of *delirium tremens*, attempted self destruction by cutting his throat with a table knife. A heroic female witnessed the suicidal act, and succeeded in wresting the weapon from the man, who has since been sentenced as a common drundard to the House of Correction.

SMUGGLING MILK IN THE "ORIGINAL PACKAGES."—It is said that Mr. Secretary Guthrie, in framing his reciprocity tariff with Canada, made the "duty" on milk so high that the farmers on the royal borders, instead of milking their cows at home and sending the milk in cans into the States, find it more economical to drive their cows over, milk them on the American side, and then drive them back again.

THE MARRIAGE OF MILES STANDISH.—In the ancient records of Boston, the marriage of that valiant warrior, Miles Standish, is recorded in the following words: "Myles Standish was married to Sarah Winslow, ye daughter of Mr. John Winslow, ye 19th of July, 1660, by Major Humph Atherton."

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

West Falmouth, Me., Sept. 8, 1848.

DR. W. R. HAYDEN: Sir,—I have sold all the pills I had of your agent, and there is a great call for them in Maine. Send me five or six dollars' worth, as my customers are very anxious for me to have them on hand.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. eu8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no record that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. eu3TuTs&w3 6m

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The torture was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

LOCAL.

HOME SCENES.—Not many days ago, a man from the country, decently but not fashionably attired, came into this city to secure a land warrant, to which he was entitled by military service; we believe in the war of 1812—15. His old fashioned overcoat, hanging down to his heels, after the fashion of 40 years ago, made people look at him. He obtained his warrant and sold it for cash, say $150 net; went somewhere among those valuable institutions the grogshops, and was picked up in the evening drunk, and taken care of by the watch. He then had only about $30, which were safely restored to him on his discharge, next day; and he was standing and sweating about the streets for a brief space, when he disappeared,—a poor drunken patriot, who had been among the land sharks.

Within one week, some ladies, who were making a personal inspection of poor families in their neighborhood, came into a house close by two grogshops, and they found the man of the house dead drunk in the middle of the day. The tenement was bare of provisions, and two children were helping themselves to some cold potatoes from the swill pail of another tenant in the house. The destitution was temporarily relieved,—but the man spends his little earnings for drink, beats his wife and starves his children. What is to be done in such a case?

One of the strongest, hardest, toughest drinkers we have among us, was recently thrown down, in the morning, by a potation too strong for even his head.

What a blessed institution is the grog-shop!—and what a happy man is the drunkard! Hark! we hear somebody say, "he is nobody's enemy but his own!"—But is it so?—Is that man, whose children robbed the swill pail, not *their* enemy?—Not the enemy of his wife! Not the pest of the neighborhood! And whose enemy is the keeper of the den where he gets his drink?

☞The alarm of fire, about 9 o'clock on Sunday evening, was caused by the slight burning of the shoe manufactory of Mr. Thos. S. Nowell, on McDonough Street. Fire was mostly in the basement. The liberal supply of water from the adjacent reservoir on Dover street, saved the building. Cause of fire unknown—incendiaries suspected, as usual.

P. S.—Just before midnight, a second alarm was raised—proceeding from the same building; but there seemed to be altogether more water and mud than fire in that vicinity—and the twice-disturbed firemen and others pronounced the second alarm needless. It was said that half a dozen men who were left to watch the premises, became alarmed at the remains of the fire, and sung out for help without putting their own shoulders to the wheel. The building is insured in the Home Co.

A MAN KILLED IN HOPKINTON, R. I.—Mr. Benjamin Newton of Hopkinton, was killed on Monday in the following singular manner. He wanted to move an ox cart a short distance down the hill, and for that purpose took the tongue upon his shoulder and started to move the cart backward. It went down with greater velocity than he was probably expecting, and one of the wheels coming in contact with a rock, the tongue was drove around so suddenly and with such violence as to knock Mr. Newton down, his head coming in contact with the rock, giving so severe a blow that he lived only about eight hours after.—*Providence Journal.*

The New York Tribune revives an anecdote which the elder portion of the Abolitionists will remember to have heard twenty years ago.

"A Northern member of Congress said to Henry A. Wise—'How does it happen that you Southern gentlemen are so much enraged at what the Abolitionists say about you? How can their abuse affect you? Why not pass it over in silent contempt?'" "Ah!" replied Wise, shrugging his shoulders, "I'll tell you why it is. *It's because what they say is so d—d true!*"

It was not a Northern member of Congress, however, who interrogated Wise, but the notorious B. F. Hallett of Boston, who was then an avowed antislavery man. Hallett told the story himself.—*Antislavery Standard.*

CRANBERRIES.—Elias Needham, Esq., of West Danvers, has a lot of upland, bordering upon the Danvers Railroad, containing five eights of an acre. Upon this some five or six years since he set out craberry plants and has cultivated them with great care. This year he picked 97 bushels of excellent cranberries, which he sold for four dollars per bushel, and besides there were some ten bushels of damaged berries. From trees on the same land he picked fourteen barrels of apples, which he sold for four dollars per barrel—making the gross income from five eights of an acre, four hundred and forty-four dollars! Beat this who can!—*Salem Register.*

CALIFORNIA AND NICARAGUA.

NEW ORLEANS, Dec. 12.—The steamship Texas, with California dates to Nov. 20, and San Juan dates to 5th inst., has arrived here.

The steamship Tennessee left San Juan for New York, with $270,000 in treasure.

The vote of California for President was as follows:

Buchanan,	60,000
Fillmore,	35,000
Fremont,	19,000
Buchanan's majority over both	6,000

The Democrats also obtained a majority in both branches of the State Legislature.

The California markets are generally dull.

The news from Nicaragua is important. Gen. Walker had been successful in a series of battles with the Central Americans.

On the 10th ult., Gen. Hornsby, with 200 men, defeated 1100 of the enemy under the Costa Rican General, Canas. The enemy lost 200, while Hornsby had only 2 killed and 11 wounded.

Four days' fighting at Massaya, ended in the entire defeat of the enemy.

Gen. Walker had returned to Grenada; after giving three days' notice of his intention to allow time for the removal of valuables, *fired* the place, not leaving a vestige of it.

The inhabitants of Grenada had removed with all their effects to Rivas, which will hereafter be the capital of Nicaragua.

A naval battle had taken place between the Nicaragua war schooner Granada, Capt. Payson, and a Costa Rican brig-of-war, three times the size of the Grenada. The Costa Rican vessel was blown up, and all on board of her perished.

It is estimated that the enemy have lost 3000 men in various battles, since October.

CONGRESS.

FRIDAY, Dec. 11.

SENATE.—Not in session.

HOUSE.—The private calendar was taken up and considered.

Mr. Campbell of Ohio, from the Committee of Ways and Means, reported a bill providing for the payment of the legislative, executive and judical expenses.

Mr. Tappan of New Hampshire made an unsuccessful attempt to introduce a bill to repeal the laws of the so-called Legislature of Kansas.

Adjourned till Monday.

PITTSBURG, Dec. 12.—The Coroner's jury in the case of those killed by the railroad accident at Alliance, have found a verdict, attributing the cause of the accident to the Cleveland train, and finding that John Cheney, engineer, was concerned in the perpetration of that outrage. Cheney is still at large, at the headquarters of the Cleveland and Pittsburgh road, but professes his willingness to give himself up if protected from the violence of the people of Alliance.

From the Boston Saturday Evening Gazette

A PERFUMED BREATH.—What lady or gentleman would remain under the curse of a disagreeable breath, when using the "Balm of a Thousand Flowers" as a dentifrice would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate, their friends will never mention it. Pour a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning. A fifty cent bottle will last a year.

A BEAUTIFUL COMPLEXION may easily be acquired by using the "Balm of a Thousan Flowers." It will remove tan, pimples and freckles from the skin, leaving it of a soft and roseate hue. Wet a towel, pour on two or three drops, and wash the face night and morning

SHAVING MADE EASY.—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," run the beard well and it will make a beautiful soft lather, much facilitating the operation of shaving. Price only 50 cents.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by them, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be committed by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in his and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

MacGregor Stoves.

THE subscriber has for sale all sizes of the long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at

Arnold's Vital Fluid

PURIFIES and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stromach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

may be found at the Subscriber's store.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all those, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by **R. N. BODGE,**

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4 531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of those complaints. EBEN ENGQUIST, M.D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, Va., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, Pa., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has rescued several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY E. PARKS, Merchant.

A. A. RAMSEY, M.D., ALTMON, MONROE Co., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cared so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily sinking, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. It has, in his kindness, at we do by your skill, for her recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SPRINGVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear out the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have lent to the utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgative properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and nurse distemper, stimulate sluggish or diseased organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and testimonials of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dyspepsia, Heartburn, Headache arising from a foul Stomach, Sick Headache, Indigestion, Morbid Inactivity of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgic and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

JACOB WENDELL.

Cochecho Mutual Fire Insurance Co.

THE subscriber having been appointed Agent for the above named Company, will receive applications for Insurance of Real or Personal Estate. The risks are divided into Three Classes, viz: 1st, or Farm Class; 2d, or Village Class; 3d, or Union Class. The average assessment in the Farm Class from April 1850 (the time of the Classification) to Jan. 1856, has been less than ¼ of 1 per cent. annually on the amount insured. In the Village Class for the same the average yearly assessment has been less than 1 10-16 of 1 per cent. on the amount insured. In the 3d, or Union Class, from Oct. 1846 to Jan 1856, the yearly average of assessments has been less than 1-5 of 1 per cent. on the amount insured.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves. Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing
Eighty Instruments per Week.
BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **INVERTED SWELL**, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly **NINETEEN THOUSAND.** Volunteering testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from	C to C	$45
Four and a half octave, "	C to F	60

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in durability and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and call for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine, of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.,

TEMPERANCE CAUSE IN MAINE.

There is no denying the fact, (says the Portland Journal) that the temperance cause in this State is at the present moment in a very sad condition. The causes which have led to this state of things are apparent. Under the Maine Law drunkenness was a rare sight in our streets, and though the traffic was carried on to some extent, and though there was some drinking, there was nothing like what we see at present.—it is clear that the repeal of that law is the direct cause of what we now see. The law we now have is of no effect in checking intemperance, and, so far as its practical effect is concerned, we would not be worse off if there were no law. We do not hesitate to affirm that the great increase of intemperance is attributable directly to the repeal of the prohibitory principle, and the substitution therefor the most inoperative and weak law that has ever burdened the statute book of any State or people.

We do not claim for the law of 1853 perfection. Indeed we believe it was faulty and crude in many particulars. The law of 1851 and 1853 was immensely preferable to its substitute of 1855, and without doubt the crudities of this latter statute led to the apparent change in public sentiment, which resulted in the overthrow of the party that passed this law. The Democratic party in the canvass, and by its resolutions, promised to enact a "suitable prohibitory law." Instead of redeeming its pledge, it repudiated it, and gave us this *nondescript* bill, which is generally and almost universally acknowledged to be worse than no law. We think that the mass of the people who are in favor of temperance must soon see, if they do not already see, that the prohibitive principle is indispensable in a law designed to promote temperance.

In the meantime, what is to be done?—Are we to abandon the temperance cause and let the rum demon bear sway, without let or hindrance? Clearly such a policy is madness. We have the pledge, let us use it in our homes, in our societies, our churches, Sabbath-schools, and everywhere that we can make it tell. Let the pulpit speak out, and raise its voice. It cannot fail to be heard. Let the press utter its voice, and stir the people to action. In all these ways a great good can be done. If the law fails us, let us double our diligence to make our moral influence felt. Intemperance, like other vices, must be met with the stern rebukes and denunciations of gospel truth. We see no necessity, because the law is against us, of yielding up the contest, and saying nothing can be done. Work, with such instrumentalities and agencies as are furnished to our hand, and we shall see what can be done. It is proper, also, that we should agitate for the reenactment of the prohibitive principle.—We do not think that this should be made a party question, for the simple reason that men of all parties believe in it. We shall find Republicans, Democrats and Whigs, who are in favor of prohibition; and we shall find, also, Republicans, Democrats and Whigs who are opposed to it.—And in our judgment we shall find a large majority of the people of Maine in favor of prohibition, only show them the way to get at it, aside from party politics. We are in favor of divesting this subject from party politics, and of combining all men who favor the prohibitive principle in an independent movement for its restoration. We throw out this thought for the consideration of the temperance men throughout the State, without at this time suggesting any means or measures for the accomplishment of this end. Without doubt mere partizans will carp at it, and insist that parties shall take ground for and against this law. We make our suggestions to the temperance men, and to those only who are desirous of seeing the prohibitive principle incorporated into the statutes of Maine as a finality, without having it liable to the ups and downs and fluctuations of parties.

The license system which has obtained for two hundred years, is exploded; and though that system has been revived here, it cannot stand. Men like Phineas Barnes and Samuel Wells may imagine that the question is now settled; but they will find that nothing is settled, until it is settled right. The prohibitive policy must be adopted as the only true policy for a Christian State. If these statements are true, and it seems to us that none can deny them, that the only questions for us to determine in Maine are these:—Shall we have a Prohibitory Law? When shall the Law be passed? And how shall it be passed? These are questions which we shall discuss from time to time as occasion requires, and we trust that our people will look at this subject calmly and dispassionately, and be prepared to act at the proper time in a way to promote the good cause.

THE MIRROR ON LIQUOR. — The Manchester Mirror says:

Through the wisdom of our present executive head we have a delectable Maine Law, and never was there so much liquor sold in this State as now. We have the law and the liquor, and the temperance party is satisfied with the former, and the drinkers with the quantity of the latter, though they think the quality has deteriorated strangely. The temperance question, as a political hobby, we are happy to state, is dead and buried.

We copy the above, chiefly to correct the very erroneous statement that "never was so much liquor sold in this state as now." If it had been said, never so much in *Manchester* as now, very likely it would have been true.—But as to the State, it is not true. We happen, as we write this, to have open before us, the book called the New Hampshire Churches: and our eye rests on the account of the little town of North Hampton. We read, that in one year (about 50 years ago) 40 hogsheads of "fiery New England" were sold at one store in that little town of 650 people,—and that besides this, farmers who sold produce elsewhere, often brought home a barrel, and sometimes a hogshead, and put in their cellars.

This was a fair specimen of the country towns from 1801 to 1825. The Mirror cannot produce any thing like it now. The rum of to-day is too much—but it does not begin to compare with the quantity drank 40 years ago, by the like number of people.

The habits of our community are bad enough: Don't paint them any blacker than they are.

We wish for more temperance efforts, as successful as half a dozen we have seen and aided within these 40 years. And we renew our call now, for an earnest effort in lecturing, preaching, and conversing, on the moral, social, and economical evils of dram drinking. Moral suasion has been loudly called in some strange quarters. By all means let us have it.

TUESDAY, DECEMBER 16, 1856.

KANSAS AND WASHINGTON.

A Washington dispatch and letter of the 12th, to the N. Y. Tribune, says:

A messenger arrived yesterday from Kansas, with despatches to Gov. Reeder, embracing petitions to the House of Representatives, from the actual settlers, against the right of Gen. Whitfield as a delegate from Kansas, and in favor of Gov. Reeder. The petitions will be presented to the House.

The same gentleman brings intelligence, that up to Dec. 1 the land sales were progressing orderly, and to the universal satisfaction of the squatters. There is plenty of money in Leavenworth, and squatters without it can easily obtain it.

Col. Titus and his two companies have left Lecompton en route for Nicaragua.

The Whitfield case will probably be reopened soon in the ordinary form of a contested election. The memorial from Kansas on the subject very earnestly protests against the admission of Whitfield as the delegate, upon the distinct ground that he is neither the choice of the people nor legally chosen.

It turns out, upon investigation, that the election under which he claims to have been chosen delegate, and by virtue of which Governor Geary gave him the certificate, was held without authority of law, either valid or invalid; in other words, that there was no law, either federal or territorial, under which the Governor was authorized to call the special election.

Under these circumstances the proclamation for the election was a mere voluntary act, of no vitality, and the election itself is claimed to have no more authority than would have been possessed by an ordinary town meeting. It this is maintained, of course Whitfield must stand before Congress in the precise attitude which Reeder occupied last session—claiming admission as the representative of the people of the territory, although not chosen under due form of law. Reeder's claim on that ground was rejected last year, and, of course, no honest man who voted against him then, can vote to sustain Whitfield now.

Per contra, in part, the Washington correspondent of the Philadelphia Pennsylvanian states that Gov. Geary, in a letter to a friend, speaks in glowing terms of the present condition of the territory of Kansas, and appears confident that no farther cause will be given the country for anxiety and alarm in regard to it.

He says that the actual number of inhabitants in the territory is about 25,000, and those who have no business there, and were present only to take part in the difficulties which recently existed, are rapidly leaving for other parts. The *free State men* who have been figuring in Topeka Conventions, and in supporting Gov. Reeder and Gen. Lane in their revolutionary movements, have by their excesses brought on t[illegible] a condemnation of all settlers who love peace and order, and are consequently in a large *minority*; and Mr. Whitfield, the delegate elect, who was admitted to a seat in the House on Monday last, represents a large majority of the legal votes.—There is a decided sentiment prevailing among the inhabitants throughout the whole territory in *opposition to the introduction of slavery* in their midst, the *mass* of the settlers believing it to be to their interest to have Kansas admitted as a *free State*. This opinion is not entertained alone by those persons who come from the North, but is held generally without regard to sections, and some of the most prominent in advocating it are Southern men.

We have marked several words in *italics*, in this second-hand story from Gov. Geary through Gov. Geary's friend.—We mark them to call the reader's attention to their consistency or inconsistency.

The free state revolutionary men are first, says the letter, in a "*minority*." Against what did they revolt? Why, against the pro-slavery bogus laws, oaths and tests which were imposed by outside ruffians. Nothing else.

Next, says the letter, the free state settlers, *opposed* to slavery, are the "*mass*" of the people,—and this majority, the story pretends, this *mass*, chose Whitfield, who is an out and out pro-slavery man, voted into Congress by Brooks, Herbert, and the whole slavery propaganda.

Credat Judæus.

THE INSURRECTION EXCITEMENT.—A gentleman direct from Tennessee informed the editor of the Evansville Journal on the 9th inst., that in the whole region from Memphis, through Clarksville and Dover on the Cumberland River, the greatest alarm existed in regard to the movements of the negroes. The jails in all the counties were crowded with the arrested blacks. The county courts had assembled in each county, and vigilance committees and patrols had been appointed in each neighborhood and township. Eight more negroes had been hung at Dover, making 19 in all. No overt act had been committed, but the proof against them of insurrectionary designs, it is said, was conclusive.

The Montreal Herald calls the North "a nation of conquered dough faces."

THE SOUTHERN COMMERCIAL CONVENTION, at Savannah, adjourned at nine P. M. on the 12th, after votes of thanks to the officers, citizens, &c. A motion to reconsider the vote in favor of the Pacific Railroad, with a view to affirming the resolution declaring in substance that Congress has power to make a road in the territories, but not in the states, was tabled on motion of Mr. Debow.

The resolution to reopen the slave trade was decidedly rejected; as the motion to take up the resolution submitted by Mr. Goulding, and which looked to the agitation of the entire subject, with a view to some favorable action, was lost by a vote of 16 to 68. The only affirmative votes were South Carolina, Texas and a part of Tennessee,—and then as if to make the whole proceeding ridiculous, the vote was explained by an amendment that the said vote was not actuated by a feeling of deference to the North.

They passed votes that Southern colleges and schools *ought* to have Southern textbooks, and that a committee of distinguished Southern professors *ought* to be appointed to prepare them; and that Southern Legislatures *ought* to recommend their use in Southern institutions of learning. Southern books and periodicals are also recommended to the "patronage" of the Southern people.

But they did not pass any vote, to get rid of slavery, which is after all, the disorder against which they devise such crude remedies,—and they never execute one of them.

A SURPRISE DONATION PARTY.—The Great Falls Advertiser describes a "surprise" given to Rev. Mr. Anthony, the pastor of the Congregational Church in that place, a few evenings since. Some two hundred ladies and gentlemen connected with the Society, assembled at the house of their Pastor, in the temporary absence of the family, and arranged a *surprise* which was a pattern for this kind of visit. The tables were bountifully and temptingly spread. The party waited the return of Mr. and Mrs. A., and then by one of their number presented a china tea set, a tea service of elegant pattern, and some valuable furs.—After a visit pleasantly occupied in social and convivial entertainment, in singing odes and in the interchange of congratulations, the party broke up, leaving beside the elegant presents above named, many valuable articles of substantial service in household economy.

MESSAGE OF THE GOVERNOR OF FLORIDA. The Governor of Florida, in his message to the Legislature, states the debt of that Commonwealth at $163,000. The cost of operations against the Indians, up to the 1st February next, will be $225,000, which will be paid by the United States government. He recommends a return to annual sessions of the Legislature. Railroads in the State are progressing, and when the line is completed, 22 out of 29 counties will be penetrated by the iron horse. In relation to Federal affairs, he says:—

The time has, in my judgment, come when the South should forget her differences and stand as one for the defence of the Constitution and her rights under it.—She should let fanaticism know that she has made her last submission to unconstitutional exactions. Her watchword should be read of all men, Equality in the Union or Independence out of it.

The independence of Florida? Indeed! It sounds like independence of a town pauper, who threatens to leave the alms-house if the people there don't have two dollars a day and roast beef.

☞ On Monday morning, in the chapel of the Massachusetts State Prison, James Magee, an Irish prisoner, killed Mr. Galen C. Wallace, deputy warden, by stabbing him with a shoe-knife under the ear, severing the jugular vein.

At the moment of the wound Mr. Walker grappled with the prisoner, and received also a stab in the groin, and one in the breast. The Chaplain of the prison, Rev. Mr. Hampstead, rushed to the rescue, struck Magee with the chapel Bible, and then seized him by the hair of the head, confining him until the arrival of further aid, when Magee was put in irons and conveyed to a dungeon.

Magee was sentenced to prison in 1851, for 12 years, for assault with intent to kill his wife.

He attempted once to kill a fellow convict, after which he was sent to the Insane Asylum at Taunton, from which he was shortly returned as perfectly sane.

They will probably hang him now.

Mr. Walker leaves a wife and three children to mourn his distressing fate. He was forty-two years of age.

HON. EDMUND BURKE, it is said, is at Washington, with the prospect of obtaining a high and lucrative office—in the Cabinet or as foreign minister. We presume this will be claimed by the Piercedites as an "endorsement of the present administration."—*Manchester American.*

☞ A railroad depot at East Albany, was destroyed by fire, on Sunday morning, with cars and freight worth $150,000, chiefly in butter, cheese, flour, and clover seed. After the fire, two servants of the road, Edward Gallagher and Henry Brown, got into a fight, and Gallagher killed Brown.

☞ The boat of the lost steamer Lyonnais, which has lately been picked up, was one which broke loose from the steamer, and went off without any crew. The people were probably all lost, except the few whose salvation has been recorded.

SPECIAL PROVIDENCES.—The Charlestown (Mass.) Advertiser asks, if it is not "a little singular that when one of 'our magnificent' churches burns down, we never hear that it is a 'wise dispensation of providence.'"

ANOTHER NEW STATE.—It is reported from Washington that the territory of Minnesota, through the delegate, Mr. Rice, will take steps during the present session of Congress for admission into the Union.

☞ Fanny Kemble Butler is reading Shakspeare, at St. Louis, having grown wonderfully fat; her husband, that was, Pierre Butler of Philadelphia, a rich man, has failed.

☞ The report that small cent pieces are coined, and await orders to be issued, is reported from Washington to be erroneous. A bill to that effect was reported at the last session, but did not pass.

INTEMPERANCE IN CANADA.—The Montreal Witness says that "the number of cases of death, through intemperance, in Canada, is fearfully great. We learn from a gentleman recently returned from a journey through Canada West, that intemperance is distressingly prevalent in almost every place which he visited. We may add that the number of otherwise respectable citizens who are seen driving in and out of dram shops in this city is alarming."

A COSTLY MUNICIPAL GOVERNMENT.—According to an article in the N. Y. Tribune, the assessments in the city of New York for the coming year, amount in the aggregate to near eight millions of dollars, or about one hundred and twelve dollars for every voter. A round price to pay for the privilege of being governed by the greatest set of scamps unhung. About fifty of the officials of Gotham, were indicted by the last Grand Jury for official misdemeanors.

ACCIDENT AT HILLSBORO'.—Mr. Isaac Templeton, a workman in J. Mansfield's Bedstead Factory, came near losing his life by an accident last Tuesday. He was tending a circular saw, when a stick flew back and struck him above the eye with so much force as to break his skull.

HAYDEN'S IMPROVED VEGETABLE PURGATIVE PILLS.

West Falmouth, Me., Sept. 8, 1848.

DR. W. R. HAYDEN: Sir,—I have sold all the pills I had of your agent, and there is a great call for them in Maine. Send me five or six dollars' worth, as my customers are very anxious for me to have them on hand.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the throat. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* All diseases of the throat are cured by "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au7 TuT&hS 6m

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

Place Wanted.

A WOMAN, who understands house-work generally, wishes a place in a small family, or to do chamber-work where there is other help.

☞ Apply at the Chronicle Office.

LOCAL.

☞ The fire at the shoe manufactory of Mr. Thos. S. Nowell, on Sunday evening, was much more serious and extensive than the statement which we made on Monday morning, from the representations of persons who had visited the scene. The proprietor of the establishment corrects our statement in several particulars. The fire commenced in a small room used for storing leather, &c.,—in which was also a roll of a couple of hundred old newspapers for wrapping purposes. This room was partitioned off from the building used as a cutting-room, counting-room and storehouse of stock and finished work—but not as a workshop. The flames doubtless originated in the roll of papers; and as there had been no fire or light in the building since Saturday, and none in that room for several weeks—the inference naturally is that the fire must have been the work of an incendiary. This would also appear probable, from the statement of a neighbor—one of the first who visited the spot—that a window of the building was broken in when he arrived.

There is insurance of upwards of $3000, on the buildings and contents, at John S. Harvey & Son's agency of the New York Home Co., — which amount Mr. Nowell thinks will not cover his actual damage by the fire, not to mention the loss by the interruption of his business. He has been for a few years extensively engaged in the manufacture of ladies' shoes; and we regret this misfortune to an industrious and enterprising young man.

As to the second alarm, which many thought was unnecessary—he states that after the firemen had all left, with their tubs, he with the watch discovered fire in the attic, where they could not reach it with buckets; and while he went down town for a tub, the fire increased so much that the watch deemed it advisable to "sound an alarm"—but for which and the timely arrival of an engine, the building must have been entirely consumed. The flames scarcely broke through the building at all, but almost ruined it, with the contents.

It was formerly the custom to give a bounty to the engine company which got their tub to the fire first—and to retain them to watch the premises all night. But of late this custom is done away with, and all go home save a few to keep a look out. An engine should certainly stick by—and the company be paid for it, too.

☞ The great wind of Sunday night and Monday morning was very severe. At the Navy Yard, it tore one of the great doors from one of the ship-houses, hinges and all, and after carrying it fifteen or twenty rods, dashed it to pieces. In our streets it acted the part of a scavenger, clearing off all loose dust, a great part of which was deposited on the clothes and in the eyes of pedestrians. It also took down the wooden awning at the corner of Daniel street.

We hear that a portion of the tin roofing on the Steam Factory was started from its place.

The Ballot says that the barn of Mr. Daniel Odiorne at Gravelly Ridge, containing a horse and cow and a quantity of hay, was blown down and completely demolished. The horse was uninjured, and the cow escaped from the ruins with the loss of a horn. The rafters for the roof of a house in progress of erection by Mr. Allen Greenough, in Islington street, were blown off.

SENTENCED. — Harvey Cables was sentenced in New Bedford, Mass., Saturday morning, for violation of the liquor law in April last, to pay a fine of $50 and costs, and stand committed until sentence is performed, and to be committed to the House of Correction for three months, and give a bond in $1000 not to violate the law one year from his conviction.—*Boston Tel.*

CATHOLICISM IN IRELAND.—According to Archbishop Cullen, the Roman Church in Ireland is passing through a perilous crisis. 'Eighteen institutions,' he says, 'are founded in Dublin, with the impious design of destroying the faith and morals of the poor Catholics;' and 'at least five thousand every year succumb to their influences:' and the eighteen establishments, 'to all appearance make up but a third or fourth part of the organizations formed for the same purpose.'

NORTH CAROLINA.—A property qualification has hitherto been required in North Carolina to enable citizens to vote for state Senators, and it may be considered singular that in close contests in that state the Whigs generally carried the *really* popular branch, while the Democrats would triumph in the election of Senators. The present Legislature has repealed this feature of the Constitution, and has sent its amendment to the people for their acceptance at the polls.—*Boston Courier.*

CONGRESS.

In the House on Wednesday, Mr. Tappan of New Hampshire presented the memorial of John Salter of Portsmouth, New Hampshire, in reference to the basin and railway in connection with the dock in California.

THE PULPIT.—The Rev. D. A. Tyng, of Philadelphia, the Episcopalian clergyman who was dismissed from his pulpit in the Church of the Epiphany for preaching anti-slavery politics, has set up on his own hook, and on Sunday, 7th inst., began his independent ministrations in the National Hall, before a large congregation.—A new Church was talked of, in which Mr. T. will preach,—and some subscriptions are made towards its erection.

☞ The New York Musical World states that the very ordinary tune, Yankee Doodle, was adopted during the Revolution as a national air, from its having been played by a country fifer as a quickstep during the march of a small detachment of gallant countrymen to the battle Bunker's Hill—a glorious title to distinction, and far superior to that of the composition Hail Columbia, which has superseded it among the fashionable society of America.

BARNEY JORDAN, the robber who entered Judge Potter's house in Portland and assaulted the old Judge in his bed, has been examined and held to bail in $1000 on this charge—also in $1000 more for entering John Perry's house, and assaulting Mrs. Perry with a pistol.—The evidence is strong against him—he must go to the State Prison.

JOHN BURNS, one of the Portland incendiaries, has just been convicted of setting fire to Mr. Libby's barn in Scarborough.

☞ A man met a daughter of Edmund Dorr in one of the streets of Albany, on Saturday evening, and attempted to place his hand over her mouth, but she turned her head and screamed, and the villian fled, leaving a plaster on her cheek of such strength that its removel brought the skin with it.

☞ Burden's celebrated Pressed Boat, Ship, and Countersunk Railroad spikes are the best now offered in the market. They are for sale by Blodget, Brown & Co., 80 and 82 Pearl street, Boston.

NO FAMILY
Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

Arnold's Vital Fluid
PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away whatever clogs and thickens the blood.
ARNOLD'S VITAL FLUID
Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*
ARNOLD'S VITAL FLUID
Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.
ARNOLD'S VITAL FLUID
Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause,* by freeing the blood from impediments to its proper fulfilment of its life-giving functions.
This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases
Resulting from Poisons in the Blood,
that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*
VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.
If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.
The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING
Gas Lamp!
PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.
THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.
SOME OF ITS GOOD QUALITIES.
It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months.
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.
☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.
All Fluid and Oil Lamps altered to Gas Lamps.
If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BERNFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. REEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAL, IA., writes, 3d Jan., 1856; "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKE, Merchant.

A. A. RAMSEY, M. D., AUBURN, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. Possibly his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us testify to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous disease that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of suffering, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Mortid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Open Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment,* of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly FIFTEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING,
of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machine has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the first THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

CAUSE OF INSURRECTION.

The very general discussion of the question of slavery in Slave States, in the late canvass, has imparted some vague ideas to the blacks, of a change to be effected by a political revolution, which has rendered them restless and insubordinate.—*Evansville (Ky.) Journal.*

And in consequence of their restlessness all Kentucky and Tennessee have for the last few days shaken with undisguised terror. The contemplated insurrection may suggest to the wisdom of those States that there is something wrong in the institution they cherish so devotedly. Whether they observe or not on what shifting sands their society rests, the fact still remains.—Despotism is not a safe thing. Human nature is reactionary, retributive. Oppress it too fast and too far, it will rebound even in a slave. That is both logic and law. And it will go hard with whatever States or men gainsay it.

A correspondent of the New York Courier des Etas Unis, writing from Clarksville, Tenn., and giving an account of the slave insurrection excitement in that region, says:

They (the slaves) imagine that Col. Fremont with a large army, is waiting at the mouth of the River Cumberland until the night of the 23d or 24th of December.—Then all this army will help to deliver the slaves. They have been struck by the sudden swelling of the river, and attribute this circumstance to the great assemblage of men and ships at its mouth. Certain slaves are so greatly imbued with this fable, that I have seen them smile while they are being whipped, and have heard them say that "Fremont and his men can bear the blows they receive."

This writer states that iron works along the Cumberland river have suspended operations, in consequence of the panic. These iron works were carried on chiefly by slaves, superintended by white men; and some 800 slaves, owned by one man, are employed in an iron mine in the neighborhood. It is likely that the slaves took this strange notion of Col. Fremont from the talk about him among their masters and others. The mad denunciations of the Republican party which have been so prevalent in the slave States, have furnished abundant material for exciting the imagination of the ignorant negroes to stranger dreams than this. It does not appear that they have harmed anybody. Meanwhile it is evident that the slaveholders, frightened nearly out of their wits, have greatly exaggerated the matter. In more ways than one, "men are led by their imagination." This excitement furnishes a very significant commentary on that Southern "Sociology" (so they call it) in behalf of which the southern press is so constantly denouncing free society.

To the above remarks, which we extract from the Boston Telegraph and Chronicle, we append a few more from the Boston Journal:

We see no reason to doubt that the insurrectionary movements among the slaves in the Cumberland valley may be traced to the recent agitation of the question of slavery in the Presidential campaign. Democratic orators at the South, have misrepresented the purpose of the Fremont movement at the North, and have led the slaves to believe, if they have not succeeded in convincing their masters, that the Republicans were abolitionists, whose ulterior purpose was the emancipation of the slaves and the abolition of slavery. We should not be surprised to learn that a very general belief prevailed among the slaves at the South, that the question of emancipation was involved in the recent election, and that the North was prepared to send an army into the South to effect this.

Now, who is to blame for this state of things? Certainly not those who in the interests of humanity are resisting the aggressive policy of the slave power. It is idle to say that the North must quietly submit to the extension of slavery over new Territories, lest agitation should weaken the bonds between master and slave. That is a consideration which the slaveholders should entertain. They should have thought of this when they foolishly accepted the glittering bait held out to them by Northern demagogues—when they became willing parties to the repeal of the Missouri Compromise.—At the door of the authors of this iniquitous act must be laid the responsibility for the slavery agitation, and for all the evil results which that agitation has produced or may hereafter produce at the South.

TITUS AND MITCHELL.

FROM KANSAS.—Letters from Kansas, dated on the 3d inst., and received at Chicago, state that the Free State militia, under Capt. Walker, having been disbanded at their own request. Sixteen of the Free State prisoners, tried for murder in the first degree, have been acquitted, and nine are still on trial. A large quantity of clothing, received by the last boats, has been distributed to the destitute. Navigation was entirely closed.

A letter from Lawrence, dated Nov. 28th, gives the following account of the chivalric bearing of Col. Titus.

"Among the prisoners who escaped this last time is Capt. Mitchell of Topeka. The readers of the Tribune will remember that Capt. Mitchell was lawlessly arrested by a mob, in Weston, Mo., some weeks ago. He was carried to the city of Leavenworth, where he was kept by the ruffians for two weeks, and was finally sent to the prison at Lecompton, where he was thrust amongst the other prisoners. Up to that time there was no writ, nor anything on record against him. If there is now, he has neither seen nor heard of it. I have just seen him. His hands are horribly bruised and cut by the cruel treatment he received while in prison. About a week ago, Col. Titus and his militia, for some reason or other, undertook to count the prisoners. For this purpose they were formed into a line. While forming the line, Col. Titus turned to Mitchell and said—

'Captain, fall into line.'

'I did not know,' replied Mitchell, 'that there was any captains among us prisoners.'

On this, Titus rudely seized him by the collar and dragged him into line, the attendant guards, with muskets, bayonets and sabres, being there to sustain him. Capt. Mitchell was indignant, and Col. Titus knows his opinion of him. Enraged, Titus undertook to inflict personal chastisement on the prisoner, when Mitchell seized him by the beard, and the heroic Floridian was rapidly getting the worst of it, when the guard interfered. Col. Titus immediately ordered the prisoner to be bound, when his hands were tied behind him with the cruel, cutting cords that have so bruised and mangled them. Thus secured, the gallant Titus approached him to strike him, when Capt. Hampton, who had charge of the convicts, and who appeared to have rather more manhood, interfered, and, stepping between them, told Titus that he must not strike that man. Thus prevented, Col. Titus vented his spleen against the bound prisoner in abuse, calling him all the opprobrious names his fancy could suggest, and threatening to gag, whip and shoot him.

'Col. Titus,' said the calm and heroic Free State prisoner, 'you may tie me and whip me, or kill me, for I am in your power; but you cannot make me beg as pitifully for mercy as you did in Lawrence.' Incensed at this, Titus ordered the prisoner to be gagged; and thus brutally and shamefully bound and gagged, the captain was kept for thirteen hours."

Morning Chronicle.

WEDNESDAY, DECEMBER 17, 1856.

NEW YORK.—The Boston Telegraph says: Judge Capron, at the Union Tempetance Meeting, held in the Tabernacle, on Thursday, the 11th inst., states that in New York city there are 15,000 dram shops, and 400,000 drunkards; at the very least calculation, each of these drink two gills of intoxicating liquors every day, being equal to 800,000 gills, or 806 barrels per day; 300,000 barrels in a year. This quantity would make a reservoir 9000 feet long, 80 feet wide, and 52 feet deep, equal to 3744 cubic feet, and could float four large ships in full sail. At $30 per barrel it amounts to 9,000,000. 60,000 children never enter the school. During the last year 60,000 arrests have been made, and 42,000 convictions. At the Special Sessions during the last year, 6000 cases were tried, of which there were 4200 convictions. Not more than 94 of the subjects of these trials were sober when arrested. Not more than 194 who were habitually sober persons. Paupers cost the city $2,000,000 a year. The entire population of the city, over 15 years of age is hardly 400,000.

The receipts of the New York Temperance Society for the past year, from donations, amounting to $13,018. Five persons—Erastus Corning and E. Delavan, of Albany; Charles Butler, of New York; Gerrit Smith, of Madison county; and Dr. Nott, of Schenectady, gave $1000 each.—The whole amount was expended in the publication of Temperance papers and other documents

☞ The funeral of Rev. Dr. French was attended on Tuesday P. M., at the Congregational Meeting House in North Hampton, which was filled with a congregation of mourners and sympathizing friends. About twenty ministers were present, of whom the following took part in the services.—Rev. J. Cummings of Exeter offered the invocation and read the Scriptures;—Rev. Asa Mann of Exeter made the prayer introductory to the Sermon; Rev. Alvan Tobey of Durham preached from Matthew 25: 21. "Well done, good and faithful servant; thou hast been faithful over a few things: I will make thee ruler over many things: enter thou into the joy of the Lord." Rev. Lyman Whiting of Portsmouth offered the funeral prayer; and Rev. Messrs. Otis of Rye and Fifield of South New-Market read hymns, which were sung by a large choir.

The services were affecting and appropriate throughout.—The sermon was biographical and laudatory, doing justice to the deceased and credit to the preacher, who faithfully and favorably sketched the character of one he knew and honored, while the auditors realized the truth, "it is better to go to the house of mourning than to the house of feasting."

DEATH OF A "VETERAN."—Mr. James A. Ellis, a member of the Amoskeag Veterans, died in Manchester, last week. Agreeably to his desire, his funeral was under the direction of the Veterans. His request to be buried with his military suit on, was complied with. He was a harness maker; and was esteemed as a member of the company, and much respected as a citizen. His funeral took place from the Unitarian Church. The ceremonies were solemn and impressive. The Veterans, and Massabesic Fire Co. No. 4, of which organizations he was a member, received his remains at his residence; marching with slow and solemn pace, while the Cornet Band played a sweet but melancholy dirge. The sermon was preached by Rev. Mr. Tillotson, the chaplain of the Veterans.

☞ Rev. G. G. Brooks, a native of this city, has recently delivered a lecture in Boston, on Hugh Latimer, the English Martyr,—of which lecture the Boston Trumpet says:

The character and attainments of Latimer were delineated by Mr. Brooks with insight and discrimination. The masculine nature of the martyr, his sturdy principle, and unflagging perseverance in the cause of truth, were attested in language, plain, manly and pointed. The lecture, as a whole, was written with a lucidity and directness, and delivered with a simple fervor seldom displayed in either the church or the lecture room.

APPOINTMENTS.—At the late session of Governor and Council, at Concord, the following appointments for the County were made:

Samuel D. Wingate of Exeter, Register of Probate for Rockingham County.

Joseph Perkins, George O. Dearborn, John L. Lovering, Benjamin F. Field, all of Exeter, Justices of the Peace for the County of Rockingham.

CONGRESS.

WASHINGTON, Dec, 15.

SENATE.—On motion of Mr. Jones of Iowa, the Committee on Commerce was directed to inquire into the expediency of making a further appropriation of $30,000, for the enlargement of the Custom House and Post-office at Dubuque.

On the motion, also, of Mr. Jones, the credentials of Mr. James Harlan, Senator from Iowa, with the protest of the Senate of that state relative thereto, was taken up for consideration.

The subject was referred to the Committee on the Judiciary—yeas 31, nays 13.

HOUSE.—Mr. Etheridge of Tennessee submitted the following resolution which was read for information:—

Resolved, That the House regard all suggestions or propositions, of every kind, by whomsoever made, for a revival of the slave trade, as shocking to the moral sentiments of the enlightened portion of mankind, and that any act on the part of Congress, legislating or conniving at, or legalizing that horrid and inhuman traffic, would justly subject the United States to the reproach and execration of all civilized and Christian people throughout the world.

Objections were made to the introduction of the resolution.

Mr. Etheridge moved the suspension of the rules.

Mr. Campbell of Ohio demanded the yeas and nays.

Mr. Walker of Alabama asked whether, if the House suspended the rules, it was the purpose of Mr. Etheridge to move the previous question on the adoption of the resolution, in order to cut off debate.

Mr. Etheridge replied that the resolution contained a self-evident proposition. He presumed that every gentleman had an opinion on the subject. He would not discuss it but move the previous question.

Mr. Jones of Tennessee wanted Mr. Etheridge to leave out the argument in the resolution, saying he was as much opposed to the opening of the African slave trade as his colleague.

He was here called to order by the Speaker, who said that debate was inadmissible at this time.

Mr Jones said he would not be *gagged*, neither by the Speaker or any one else.

Mr. Orr of South Carolina ineffectually strove to substitute simply, "Resolved, It is inexpedient to repeal the laws prohibiting the African slave trade."

Mr. Etheridge's motion to suspend the rules, to enable him to introduce his resolution, was carried. Yeas 140, nays 53.

Messrs. Greenwood, McMullen, Smith of Virginia, Zollicoffer, Burnett, Barksdale, and Phelps, severally gave their reasons for voting No, to the effect that while they opposed the re-opening of the slave trade they thought the resolution out of character and ill-timed.

Mr. Phelps of Missouri said he was against abstractions, Gov. Adams' message not being before the House.

Messrs. *Keitt* and Garnett remarked, had they been present, they would have voted in the *negative*.

Further explanations from the Democratic side were objected to by many members, amid cries of "Order, order."

The demand for the previous question was sustained by 36 majority, and the main question ordered by 41 majority.

Mr. McQueen moved to lay the resolutions on the table. Lost by yeas 71, nays 137.

Mr. Etheridge's resolution was then adopted by yeas 152, nays 57.

Mr. Orr of South Carolina, under a suspension of the rules, submitted a resolution,—that it is *inexpedient*, unwise and contrary to the settled policy of the United States to repeal the laws prohibiting the African slave trade.

The resolution was adopted by yeas 183, nays 8. Nays—Messrs. Barksdale, Bennett of Mississippi, Brooks, Keitt, Shorter, Walker, Wright of Mississippi.

Mr. Washburne of Maine asked leave to offer a resolution, calling on the President to communicate a statement of the amounts of money paid and liabilities secured for the pay and support of persons called into the service of the United States, either under the designation of militia, in Kansas, or as *posse comitatus*, by the civil officers in that territory since the date of its establishment; and for witnesses and arrest, detention and trial of persons charged with treason against the United States, or with violation of the so called laws of that territory.

WASHINGTON NEWS.—The Boston Advertiser's Washington Correspondent, of Monday evening says:

"Mr. Etheridge's resolution relative to the slave trade, introduced into the House to-day, caused unusually great excitement. Messrs Orr, Jones of Tennessee, and many other Southerners strove hard to evade a direct vote against the trade on the ground of humanity, but wanted to declare the trade impolitic only. Throughout the struggle the greatest excitement prevailed, which was evinced more in looks and manner than words. Mr. Cadwallader and other Northern democrats protested bitterly against the compulsory dose. Several Southerners, despite the rules against debating the question, persisted amid vehement calls to order, in apologizing for their votes against the resolution, by declaring it ill-treatment. A comparison of the yeas and nays (not yet received) will show that many Northern men voted with the South on every preliminary question, although forced to vote for the resolution when brought to the rack. Many on both sides dodged the vote."

WASHINGTON, Dec. 15.—The Committee of Ways and Means of the House will soon report a bill, giving to each branch of Congress entire control of its contingent fund, in effect making the audital by the Committee of Accounts final, without interference by the first Comptroller of the Treasury, who, by virtue of his office, claims a supervisory power as heretofore, and which the Committee resist.

The friends of the French Spoliation Bill claim that the prospects for its passage are favorable. The aggregate amount of claims is $10,000,000, but one-half of that sum only is proposed as a settlement.

FROM NICARAGUA.

NEW YORK, Dec. 15.

The steamship Tennessee arrived this morning from Nicaragua via Key West.

The Tennessee brought upwards of $260,000 in specie and 400 passengers.

She left in the harbor of San Juan a large British naval force.

The accounts brought by her of Walker's movements are substantially the same as those telegraphed from Charleston on Saturday. We have no papers, and our intelligence is furnished by the purser of the steamer.

Gen Walker had fought several successful battles since the departure of the last steamer. He had, however, on account of sickness prevailing at Granada, found it necessary to evacuate and burn that city, having removed his sick and wounded to Ometepew. He was at Virgin Bay, awaiting the arrival of reinforcements, when he would make an attack on Rivas.

The naval engagement, before reported, took place in the harbor of San Juan, between the Nicaraguan schooner Granada, of two six pounders and 28 men, and the Costa Rican brig "Eleventh of April," of 6 nine pounders and 114 men. The latter was blown up; 40 of her crew were rescued by the Granada. The brig had on board a large supply of stores, ammunition and specie for the allied army.

The following detailed account of Gen. Walker's movements in Nicaragua has been furnished by Mr. G. H. Rozet, United States Inspector of Customs at San Juan del Sud:

Nov. 7, 3 o'clock P. M.—The Costa Rican army, under Gen. Cana, numbering about 500, entered San Juan del Sud, and took possession of the town. They encamped four miles out on the mountains, where they erected strong barricades in well selected positions. On the 8th they were reinforced by about 300 Guatemalians. On the 9th Gen. Hornsby, who was stationed at Virgin Bay, attacked the first barricade, from which he drove them by a flank movement. He had about 250 men with him, and, had he followed up his success, I think he could have driven them all before him. But his orders to keep possession of Virgin Bay, it is said, were imperative, and he had to return to that place, fearing an attack in his absence from other portions of the enemy stationed in that vicinity. The number of the enemy killed in this fight was about 50.

On the 12th Gen. Walker arrived at Virgin Bay from Granada, and with 250 men drove the Costa Ricans from their barricades to San Juan del Sud, whence they fled to Rivas. Few of the Costa Ricans were killed in this fight. They fled on Walker's approach with but little resistance.

On the morning of the 13th, General Walker returned to Virgin Bay, leaving 175 men to garrison San Juan del Sud.—On the 15th, Walker marched from Granada to Massaya. When in the vicinity of Massaya, he received intelligence that Herez had left for Rivas, at the head of 700 men.

Col. Jacques, at the head of 250 men, was immediately despatched to protect the Isthmus, which was deemed in danger. On his arrival at Virgin Bay he immediately threw up barricades around the town, made from wood cut for the use of the Company's steamers.

After two and a half days fighting, Walker abandoned Massaya, his force not being sufficient to take the place. He retired upon Granada. He left on the 19th for Virgin Bay with his staff, sending most of the sick with the women and children to the island of Ometepew for safety, having determined to burn and destroy Granada. He left the first Rifles and Second Infantry to accomplish this purpose, and the result had not been heard in Virgin Bay when the steamer left for San Juan del Sud.

Gen. Walker was anxiously awaiting recruits to attack Rivas.

The persons rescued from the Costa Rican brig were by orders of Gen. Walker sent as prisoners to Virgin Bay and liberated.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person, who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, and of a nature perfectly harmless, was the cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough it will not cure, unless the patient is past all hope, nor a man aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuThsS 6m

GIFT CONCERTS & OYSTER SALOONS:

LOTTERIES AND TIPPLING SHOPS.

Messrs. Editors:—I cannot see another "Splendid Gift Concert" hold out its allurements to ensnare the unwary, without desiring to utter my protest against it.—May I be permitted to do this through your columns? I would also express my sincere thanks to every other individual who speaks early and decidedly to warn the young and unsuspecting of the snares that beset their way. I wish that every young person in our community was ready to listen to the warning voice, and turn a deaf ear to those pretended friends, whose devices are *surely* leading them from the straight and narrow way of plain, honest, honorable dealing.

When I see advertised a Splendid Gift Concert, I am reminded of a Splendid Oyster Saloon, fitted up in attractive style, to entice the more respectable portion of our youth into a splendid tippling-shop. Who does not know that many a youth, who would not, for any consideration, incur the disgrace of visiting a grog shop, does not for a moment hesitate to sip the fashionable glass at one of these places of temptation? They feel quite safe in doing only what other respectable people do; and so, before they are aware of the danger, habits of confirmed tippling are formed, in those very places to which they resorted merely to take a dish of oysters with a friend.—Now we have a public sentiment—thanks to the faithful advocates of total abstinence—which we hope will save our youth from the destroying influence of the grog shop; and what we have most to fear is the splendid oyster saloon.

We have also a public sentiment which closes the lottery offices, and treats the seller of lottery tickets as a criminal; and what we have now to fear, is this new form of the evil, under the title—"Splendid Gift Concert."

I hope that every well-wisher to the morals of the community, will stay away himself, and urge others to do the same.—Let us have concerts of the right kind—such as will elevate and purify public sentiment—as many as the community feel able to sustain; but do not let us countenance vice under the name of virtue.

J. N.

We publish the above, because we glory in free speech and the free expression of every man's opinion. As to the tippling habits referred to—those with whom rests the responsibility of their prevalence, can decide whether the charges of "J. N." are too severe.

With regard to Gift Concerts, we will just remark that it is to us a new idea, that a trader who simply offers an article for sale, thereby "pretends friendship" for the buyers. We are sure the Gift Concerts which have been given here, have been "of the right kind," and unexceptionable, so far as the music was concerned, at least; and (judging from the programme, which we publish this morning) we have no doubt the one to take place next week will be fully equal if not superior to them. And we are no less sure that the music is more than half the attraction; and that the same list of gifts, if offered alone, would not receive the notice of one-tenth the people who now delight to participate in these pleasant entertainments—the price of tickets to which, after all, is not more than is frequently charged for first-class concerts.

F.

NEWSPAPER THIEVES — we mean those who steal the paper itself, and not those who only steal the *reading* of it: that is, who enjoy the paper their neighbor pays for—we say, the newspaper thieves (who pilfer papers from the doors of subscribers) are an intolerable nuisance, both to subscribers and publishers. And there is a great deal more of this thieving (of both sorts) than there should be, or than most people are aware of. Almost daily we are called upon to supply papers to subscribers from whom they have been stolen; and sometimes several in a day. To such an unendurable extent has this been carried, in some instances, that we have lost more than one good subscriber, who, living in exposed situations, have found it almost impossible to secure our paper—which is circulated early in the morning. A box fitted into a door or gate, similar to that in a post-office, renders all secure.

☞ Any person taking a paper from the door of a subscriber, is by law, liable to a heavy fine. And we will gladly pay $10 reward to any one who will bring evidence sufficient to convict any person of the offence.

☞ We are requested to state that subscribers to the Herald of Gospel Liberty, who have of late been served with their paper at their doors, will in future find them at the book-store of J. H. Head.

For the Chronicle.

THE SKATING PONDS.

What boy or girl, what man or woman, in this city, has not been a sharer in these delights, either by partaking in the pleasures which they afford, or by witnessing the enjoyment of those who do?

Having had the opportunity of spending one or two hours there, I think I received benefit physically, mentally, morally, and spiritually—and witnessing the same influence on others, I was confirmed in the belief which I had for a long time entertained, that one of the first and greatest needs of compact towns is, a common, out-door place of resort, and play ground.

We find that we do enjoy the advantages of *two* good *winter commons*, indicating the greater need and the vast benefits that would result, from one or more *summer commons*.

To enumerate in full these benefits and advantages would be difficult; but we may refer to the leading and most important of them, viz.: their bearing indirectly for the moral and religious well being of the community, and especially of the young; affording them a constant place of pleasant resort, where their physical powers, as well as their youthful spirits, may be invigorated by wholesome natural influences, and where a mingling of all the different neighborhoods of people and children should have the effect to prevent the growth of clannish prejudices, as well as to promote mutual improvement.

Is there not room for the question whether we have enough native sentiment on which to graft higher knowledge and religious sentiments, or whether our present system of intellectual and religious training may not become too much of a hot bed culture?

P. Q.

☞ A spirited youngster, one of those whose petition for leave to use the State Street School House for a debating room, the Aldermen deemed it inexpedient to grant, the other evening, says:

The members of the Granite State Debating Club never condescend to "pray" to the City Fathers, for any favor whatever; and their request was not a prayer, but a simple petition—"which will probably be granted next March."

D.

We would recommend to our young friends, that their next question for debate, be, whether a petition is not a prayer; and that they study our City Charter, and ascertain the time the City year commences.

Pending this, the House adjourned.

☞ Rev. Mr. Fanton, late Pastor of the Pleasant Street Christian Society, after a residence in Portsmouth of upwards of two years, this morning leaves our city with his family. He is to be stationed, for a time at least, in Trenton, N. Y.; whither the best wishes of a host of Portsmouth friends will follow him—and the ill-feelings of none.

The larger portion of the Pleasant Street Christian Society have formed an "Independent Christian Society," (as we advertised a few days ago) and are at present worshipping in Hanover Street Chapel—which would be filled by them were it much larger. They have no regular minister, but will have their pulpit regularly supplied.

☞ The fugitives Herbert and Happenny, who escaped from our jail, but who were returned before they had got far, were captured with difficulty. The Ballot says they were captured at Kingston by Deputy Sheriff Currier of East Kingston, and assistants. They fought desperately before they could be put in irons, and then, after being put into the sleigh, kicked the vehicle to pieces, and were lashed to the runners and conveyed to Exeter. They made the passage from Exeter to this city quietly, and related good naturedly the particulars of their escape and journeyings.

MAGIC AND FUN.—See advertisement of Prof. Dave Woodward, the Wizard, who performs at the Temple to-night. He is the only man besides the Chinese, who attempts the "impalement" act—throwing knives at a fellow *without* hitting him, yet planting them thickly about him, *so* near that there is no room for safety between. This is only one of a hundred feats he performs. The Boston Ledger says "wherever Prof. Dave Woodward puts up his name, people may depend on getting the worth of their dimes."

☞ The lecture announced for Tuesday evening, before the Mechanics' Lyceum, was postponed on account of the illness of the lecturer, and the audience was dismissed.

☞ There is to be a public Fremont Supper at the New Town Hall in Exeter, to-morrow (Thursday) evening, at 7 o'clock. Music, toasts, speeches, &c. Tickets 25 cts.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The torture was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

PARLOR OVEN STOVE.

JUST received, (per schooner Carpo,) another lot of those favorite Parlor Stoves. Customers who have been waiting for them can now be supplied.

To those who are unacquainted with them, I would say, that they combine the two qualities of a truly good and ornamental Stove, and at the same time can be relied upon to bake and boil when required. The demand for, and convenience of such a desideratum has been the cause of much and continued effort among manufacturers, and now the universal satisfaction the stove gives proves it to be the best Parlor Oven Stove ever manufactured. MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves.

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of premature very injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions, which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 1031 Post Office, New York City, can have them sent to their respective addresses by return of mail.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It purifies *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

National Monument

TO THE PILGRIM FATHERS,

TO BE ERECTED

AT PLYMOUTH, MASS.

THE Pilgrim Society, of Plymouth, having decided to erect a Monument at Plymouth, to commemorate the virtues of our "Forefathers," desire to announce to the American people, that they have accepted a design presented by the undersigned, and respectfully request all who cherish the memory of those who laid the foundations of the Civil and Religious Liberties of our Country, to aid by contribution in the erection of said Monument.

JOHN CHRISTIE, Esq., of Portsmouth, is duly authorized to collect subscriptions for this object, in New Hampshire.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIDGFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, if I take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGVILLE, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my chest and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALMON, MORGAN CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid she could procure gave her much relief. She was rapidly failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. She blows his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, of BETHEVILLE.

Consumption, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear out the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are mild and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and now distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Scaurdgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly **NINETEEN THOUSAND.** Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either cotton or woolen, or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $100 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a light and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. Nearly all our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine, of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

THE CONFESSION BOX.

BY FANNY FERN.

I confess to being nervous. I don't admire the individual who places a foot upon the rounds of the chair on which I am sitting; or beats a prolonged tattoo with his fingers on the table; or stands with his hand on a creaking door, moving it backwards and forwards, while he performs an interminable leave-taking; or spins napkin-rings, while he waits for the dessert; or tips his chair back on its hind legs, in the warmth of debate; or tells jokes as old as Noah's ark; or levels volleys of puns at me when I am not in the laughing mood.

Yes, I'm nervous. I would rather not hear a dog bark more than half the night. The scissors-grinder's eternal bell-tinkle, and the soap-fat man's long-drawn whoop, sends me out of my chair like a pop gun. I break down under the best minister after 'forty-ninthly;' and am prepared to scream out any minute after every seat in a street car is filled, and everybody is holding somebody in their laps; and sombody is treading on everybody's toes in the isle; and onions and musk, and tobacco and jockey club, and whisky and pachouli are mingling their sweets; and the unconscionable conductor continues to beckon to misguided females upon the sidewalk, with whole families of babies, (every one of whom is sucking oranges or sugar-candy,) to crowd in, and add the last drop of agony to my brimming cup.

Yes, I think I may say I am nervous. I prefer, when the windows of an omnibus are open, and the wind 'sets that way,' that the driver would not ex-spit-orate any oftener than is necessary.—If the skirt of my dress must be torn from my belt by hasty feet on the sidewalk, I prefer it to be done by a man's boot rather than a woman's unapologizing slipper; if the fringe of my mantle is fore-ordained 'to catch,' the gods grant it may be in a surtout button rather than on a feminine watch-chain. If women shopkeepers were less lavish of cross looks and crossed sixpences I might have more faith in the predicted millenium.

I don't wish any Irish woman any harm who tortures me by grinding on her accordeon in the cars, but if I thought she had settled her little account with the priest, I should be happy to peruse her obituary. I had rather not exchange a pleasant parlor circle for the company of a huge bundle of 'proof, to be called for by seven o'clock next morning;' and I had rather not have the pianos, in five different houses near, each playing five different tunes, while I am revising it. I don't wish to interfere with the infant boys who are fond of bonfires, but if they could make them of something besides dried leaves, it would be a saving to my bronchial apparatus. If people who address me would spell 'Fanny' with two *n*'s, I should be more likely to answer their letters. If the little cherub, in jacket and trousers, who blows the organ at a Sunday, would stand behind the screen, it would materially assist my devotions. If all the men in New York had as handsome a beard as the editor of the ———, I would not object to see them h—air 'em. I rather like the excitement of a Presidential election; but to be doomed to endure for four years the fat, unmeaning doughface, suspended by the ears on that stiffly starched collar, is too much for any Republican woman. I should rather the New Yorker would not say that such and such a paragraph would 'go all over,' instead of 'everywhere.' I should rather the Connecticuter, when he does not understand me, would not startle me out of my chair, with a sharp *which?* I should rather the Yankee would not say 'he was going to wash *him*,' or speak of the 'back *side* of the church.'—And, lastly, if all the people who are born with seven fingers on one hand, or feet minus toes, or two noses, would not select me in the street to inspect their monstrosities, my epitaph might possibly be deferred a while longer. —*N. Y. Ledger.*

HOW AN ASTROLOGER MISSED HIS FIGURE. An old French gentleman, named or nicknamed Monsieur Fricandeau, was arrested for an assault and battery on Herr Jacob Mitnacht, a German gentleman lately arrived in Philadelphia, who condescends to tell fortunes by astrological observations. The cause of the quarrel was thus related by Monsieur Fricandeau:

"I 'ave lost my leetle dog female Heloise; I hear Monsieur Mitnacht know something about every ting, and I go to him and say:

"'Sare, I vill give you von dollare if you vill tell me my Heloise's fortune, and vare I find her.'

"He V'say, 'at is dat Heloise? Is she your vife?'

"I say 'No—but I lufs her much better than six, seven vifes, or I vould not give you von dollare for bring her back.'

"Den he say, 'You must tell me ven Heloise was born, and I kalkelate her nativitee.'

"So I tell him dat, and pay him ze dollare, and he make figure on ze papier and tell me Heloise vas gone off wid autre man, and vould come back nevare no more.—And I ask him vat dat toder man vould do vid Heloise; vould he make sausage? He say no, he vould marry her ven he got toder side ze vattare.

"Den I laugh, he! haw! and tell him Heloise vas von dog female. So he got mad, and call me von French homebug, and say I vant to cheat him, and vy I not tell him sooner dat Heloise was not von voman.

"I say, 'vy ze star not tell you dat?—You 'ave got my dollare on ze false pretense, and I vill give you ze law suit.'

"Den ve make ze fight, and he 'ave call ze vatch, and zey 'ave put me in ze dark cellare; and I 'ave done nothing for break ze law—only broke ze head of ze rascale star man vot sheat me."

It appeared that Monsieur Fricandeau had been sharply dealt with, and had suffered enough by the loss of his dollar and his night's imprisonment. So the astrologer's complaint was dismissed, and Mons. F. was set at liberty.—*Philadelphia Mercury.*

Morning Chronicle.

THURSDAY, DECEMBER 18. 1856.

DOLEFUL.—The Saco, Me., Democrat of the 16th says: "Since the women and the preachers have carried politics to our firesides and churches—have dragged the *tea parties*, and like occasions, into the service of political abolitionism, thereare very few occasions for old fashioned social meetings of men and women for an evening's entertainment. The *concert* has hitherto escaped the destroying hand of the black Vandals; but the Hutchinsons are now doing their utmost to take away this innocent source of amusement and improvement. Shame on them: they are overturning that which has made them all they are that's worth naming! If they intend to pursue this course, they ought to have the honesty to advertise their concerts as *abolition entertainments*, in which want of taste and common sense would be made up by vile abuse of their country and the defenders of her laws."

There must be a dreadful conspiracy under ground somewhere, against the blessed institution of slavery, and against old fogydom generally. At the South we hear of suspected insurrections of negro fanatics who cry out like Patrick Henry, and rebel like the white rebels of '75 and '76.—At the North, there are complaints against songsters and jokers who crack their jokes and snap their fiddle strings in abolition doggerel. And in Washington, the grave and reverend seignoirs are even now skinning doe-faces and passing anti-slavery resolutions.

Hark! what was that said about a *finality*? Oh: that was in 1850—we were to have a sweet quiet time of it forever after a certain bill was passed. We protested against the bill then, and laughed at the finality whenever it was named. Will any body now look us soberly in the face and pronounce the word finality?

AFRICAN COTTON.—Within a few years, says the Traveler, the French government has turned its attention to the cultivation of cotton in its African colonies. It has offered yearly prizes to the amount of 20,000 francs. In 1853, says the Moniteur, The Ministry announces that these measures have already produced most excellent results; notwithstanding the unfavorable condition of the climate, or rather atmosphere, the business of cotton-planting has been, relatively, considerably developed, and colonists and natives have rivalled each other in their zeal and efforts, and the prizes have been contended for in the most lively manner by numbers of disputants." The quality of cotton raised is said to be good, and brings a fair price in the French markets. A letter writer from Tunis to the department at Washington tells us the climate in Algiers is favorable for the cultivation of cotton. The frosts are rare and light. Irrigation or rain supplies moisture. The soil is very fertile, and the ground, having remained untilled for centuries, needs no breaking up, but is ready for the farmer's hand. France now uses eighteen million dollar's worth of the raw material; Spain, Portugal, Sicily and Italy at least three millions more. These are at the very door, while England, the world's manufacturer, is within a few days' sail. The matter as yet is an experiment. The future alone will determine its success or failure.

DRED.—At Washington, in the Supreme Court of the United States on Monday, the case of Dred Scott, a colored man, against his master, which has occupied the courts for some time, was brought up again for trial. Scott was taken by his master into Illinois, and this act, according to the Constitution of that State, served to emancipate him. Some delicate law questions arise, however, involving the question of the power of Congress to prohibit slavery in the Territories of the United States. A general and deep interest is felt in the result. Mr. Montgomery Blair, as counsel, brings the suit for Dred.

☞ On Thursday, an ox was stolen from Moody Hobbs, Esq., of Pelham, N. H., being led away with a halter by the thief. On Friday the ox was recovered in Lowell, where the thief had left him tied.

☞ The gas works at Washington, D. C. were burnt on the morning of the 16th, together with two adjoining dwellings. James Sullivan perished in the flames.

TRIAL OF TUCKERMAN.— The trial of Wm. S. Tuckerman, late Treasurer of the Eastern Railroad Corporation, for embezzlement of the funds of that Company, is assigned to take place in the Municipal Court on the 22d inst.—*Boston Journal.*

☞ The Portland incendiaries, seven in number, are convicted. The Advertiser says, Samuel Burns and Isaac B. Pendergast retracted their plea of "not guilty" to the indictment charging them with setting fire to the barn of Walter Skillin in Cape Elizabeth, on the 2d day of August, and plead guilty to the same.

Luke Makin retracted his plea of "not guilty" to the third count of the indictment, charging him with firing the barn of Orrin Ring, and plead guilty to it.

This finishes the prosecution in these cases for the present. All the persons arrested have been convicted on some one of the charges against them. Sentence of the prisoners was deferred by request of the counsel.

THE SLAVE INSURRECTIONS.—*Baltimore*, 16th.—Texas papers received here state that the reported insurrection in Harrison county, in that State, has been greatly exaggerated. A committee report that there is no evidence of concert among the negroes, nor is any white man implicated.

The Alexandria Gazette says the rumors of insurrection there are also exaggerated.

ARMING OF THE WHITES.—*Arrest of Many Slaves.*—The people of Alexandria, Va., have been greatly alarmed for several days past in consequence of a threatened insurrection among the slaves. The military were called out last night, and thirty-two slaves were arrested at a ball, where they had assembled without permission, against the laws of the State. Gov. Wise supplied arms and ammunition, and the people throughout the counties of Alexandria and Fairfax are arming themselves in fear of a general outbreak. No evidence has been found against any of the slaves arrested.—I learned from one of the patrol of last night that each piece of property will be fined and whipped for violating the law by attending the ball. About twenty valuable slaves have escaped from this district recently.—*Traveller Letter from Washington.*

"The wicked fleeth when no man pursueth."

WASHINGTON, Dec. 16.—(Tribune Correspondence.)—The Judiciary Committee are investigating the charges of malfeasance brought against Judge Watrous, of the U. S. District Court, by the people of Texas. The evidence against him is said to be overwhelming, and glaring. The petitions for his impeachment are numerous.

The insurrectionary movement in Tennessee obtained more headway than is known to the public, important facts being suppressed in order to check the spread of the contagion and prevent the true condition of affairs from being understood elsewhere. Upwards of 60 slaves in the Iron Works belonging to John Bell, were implicated, and nine hung, four by the decision of a Court, and five by the mob.

Mr. Bell was absent at the time, and is now detained from Washington, owing to this cause. These slaves were treated with care and humanity, under strict directions from Mr. Bell, who habitually visited the works where they were employed, during the recess of Congress.

LOUISVILLE, 15th.—Rev. Wm. Anderson, a negro preacher of the Methodist Church North, was captured on Saturday on board steamer Telegraph, with a carpet bag filled with incendiary documents.

He has been engaged in running off slaves in the vicinity of Carrolton, and documents in his possession implicated several distinguished Northerners. Anderson was yesterday taken to Carrolton, where a large reward has been offered for him.

In the matter of the complaint against Capt. Jacob W. Plummer, of ship John N. Cushing, for imprisoning five seamen, the Commissioner, Woodbury, of the U. S. Circuit Court, held, upon the hearing, in Boston, on Saturday, that he considered the punishment administered to three of the men as not excessive or improper, on the circumstances, but that, in regard to the other two, he thought Capt. Plummer, however strongly he may have been persuaded that such a course as he adopted was necessary for the discipline of his ship, went further than the law would allow and failed to comply with the strict requirements of the law in his attentions to the men while in custody, and therefore as to these two he held him to answer at the March term of the District Court.

"THAT BARREL OF ALE."—A year ago last June, Police Officer Blaisdell of Lowell seized a barrel of ale in a wagon in Central street, under the provisions of the liquor law. The matter was tried in our courts and the process slumped through. Meantime the ale leaked out of the cask and was lost. Thereupon a suit for false imprisonment—damages laid at $500—was commenced against Blaisdell by a New Yorker who claimed to be the owner, and also another suit against the same party to recover the value of the barrel. The cases were tried, last week, in the Court of Common Pleas at Cambridge, and resulted in verdicts for the defendant in both instances.—*Lowell News.*

☞ The sleighing is good above Manchester, to Canada. At Concord, on Tuesday morning the thermometer stood at 8 above.

A ladies' seamless skirt is advertised.—Good Anything which will make them *seem less*, is welcome.

CONGRESS.

TUESDAY, Dec. 16.

SENATE.—A resolution was adopted calling for Col. Sumner's correspondence with the Secretary of War, as well as with Gov. Shannon, relative to Kansas matters.

Mr. Brown of Missouri gave notice of a bill for a Pacific Railroad.

Mr. Wilson of Massachusetts introduced a bill amendatory of the Kansas Nebraska bill.

The subject was debated at some considerable length, but no final action was taken.

Mr. Fessenden introduced a bill in addition to the act to more effectually provide for the punishment of certain crimes against the United States.

HOUSE.—Mr. Whitefield of Kansas introduced a bill for paying losses by the recent disturbances in Kansas, and for establishing a District Court at Leavenworth City.

Mr. Campbell of Ohio reported several appropriation bills; also a bill amending the 28th section of tariff of 1842, so as to prevent the importation of obscene prints, stationery, etc. The bill was passed.

The House then resumed debate on the President's Message.

Mr. Nichols of Ohio contended, notwithstanding the aspersions of the Presidents that the agitation of the slavery question is the legitimate consequence of the repeal of the Missouri Compromise. It ill becomes the executive in the face of the policy endorsed by him, to make use of such language as he had done in condemnation of those who differed from him. It was said that those who oppose the policy of the administration are Abolitionists. He held, in the broadest sense, that Congress may govern the territories, and exclude slavery or any other institution it may deem injurious to their prosperity. If this made him an Abolitionist, he was one. His object was that of supplying some pages in politics which had been omitted by the Democrats in this discussion. He would refer to the articles in newspapers, and the proceedings of Democratic conventions and legislatures, to show that in the Democratic party there is much difference of opinion relative to the slavery question, a large portion advocating the exclusion of slavery from the territories. Notwithstanding this, those who, as a party, hold similar opinions, are denounced in offensive terms by the President who has added insult to the injury. The very men who opposed Fremont's election charged his friends with hostility to the prevention of slavery; and this was done to conciliate popular sentiment in the free states. As to the threat of disunion (in the event of Fremont's election) by the Democrats, such fears existed only in the heated and disordered brain of politicians, and not in the hearts of the people.

Mr. Crawford of Georgia approved of every word in the President's message. He believed, notwithstanding their denials, that the Republicans were prepared to interfere with the institutions of the slave states.

Mr. Jones of Tennessee argued in favor of the Kansas Nebraska bill—against the Republican party—and in general support of slavery.

FROM EUROPE—4 DAYS LATER.

PHILADELPHIA, Dec. 17.—Steamer City of Baltimore, arrived off Cape Island at 8 o'clock last evening. Her dates are to Dec. 3, noon.

Neither the political or the commercial news by this arrival are of any exciting interest.

Cotton is reported steady.

Breadstuffs not materially changed.

Money Market unchanged.

The Manchester market is steady at improved prices.

It was reported in London that England had agreed with the other powers to the re-assembling of the Peace Conference in Paris.

An insurrection had broken out in Sicily.

FIRE AT KEENE.—The saw mill about one mile from the village, was totally destroyed by fire Monday night. Nothing was saved. It was a newly modelled mill, and machinery new. The loss is probably about $2000.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine.*" and is for sale by all apothecaries. 2w77 FnT&hS 6m

SWEETSER'S COMPOUND

Iceland Moss Candy,

an old established and effectual remedy for RECENT COLDS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both tonic and nutritious powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

THE MISSING NEWSPAPERS.

Messrs. Editors:—I have just read your article on "Newspaper Thieves," and will now give you all the information I can on the subject; and if you will arrest the "*individual*," I will appear in evidence against him,— provided you will guarantee me against all damage or hurt from his "*blowing*" his spite at me.

The other morning I was going through Market street, when a very venerable old gentleman *flew* by me "on the wings of the morning," nearly took my hat off, and seizing the "Morning Chronicle" on the door step of N. T. Moulton & Son, carried it off with speed; and it was soon lost to sight. He passed me several times after- but I did not see him commit any more depredations; but this one is enough for your purpose, and will, if *he* is convicted, entitle me to the reward of ten dollars.— The name of this "newspaper thief" is *Mr. Boreas*—so please put the City Marshal on on his track.

But to the point.—I do not believe your papers are stolen as often as you think for. Your carriers are careless and merely throw them down on the door-step,—not stopping to open the door, or to put them into the door handle, as they might when the door is fastened.

An elderly friend told me the other day, that the boy that brings his paper, left it on the steps, after he had been to the door several times in expectation of finding it. At last he espied it, on the third step from the door: and being too infirm to go over the steps, he had to reach it with a pair of tongs. Now if Mr. Boreas had been about, that time, he would certainly have *stolen* that old gentleman's newspaper.

Please lecture your carriers, and we shall not hear so much of "*newspaper thieves*."

Yours truly, JIM.

Much obliged for Jim's attention, information and good counsel. Hope our carriers, if the charge of carelessness is just in any case, will be more particular. But though the news-boys may be blameable, and old Boreas & Co. doubtless cause some of the mischief; yet we are sure that many of our (subscribers') papers are stolen. 'Tis true, and pity 'tis 'tis true. Several times have we *known* subscribers to hasten to their doors, at the carrier's ring, only to find that the paper was gone—and must have been instantly seized by some thief, who was lying in wait or knew just when to be "round."

MERCANTILE LYCEUM.—There will be no lecture before this Society to-night, but on to-morrow evening, Rt. Rev. Thomas M. Clark, of Providence, will appear. Bishop Clark is one of the finest scholars and best writers of this country, and our citizens may be sure of a rich treat in listening to his lecture. We have before us at this moment, a newspaper containing a two-column notice of a lecture delivered by this gentleman before the Blackstone, R. I. lyceum, on the subject of "Fifty Years Hence," in which article the lecture is characterised as a splendid production and the lecturer as the finest reader and orator that had ever appeared before them.

The committee announce that a few evening tickets to Bp. Clark's lectures, may be obtained at the Ticket Office of the Temple.

☞ Respecting the site selected for our new Post Office Building, the Ballot says:

The lot is a very good one, but its selection shows that the Secretary cares nothing for the wishes of our citizens, inasmuch as three-quarters of those who expressed any preference were in favor of the market lot. We never supposed the wishes of our citizens would be regarded at all in the selection.

To this, a correspondent sends us a reply, entirely exculpating the Secretary from all blame, and charging the City Government with being at fault in the matter, in asking "more than the real value" for the Market lot."

It is more than probable that the limitations of the deed of conveyance of the *Market* lot to the city or town—and the liability to trouble from reverting heirs who cannot be got at, may have had influence in deciding the matter.

Probably no immediate action will be taken in the matter of building; as it is understood that the purchase will not be completed until after the June session of our Legislature, in order that the State may relinguish its right of taxation to the property in question.

☞ A special train on the Concord Railroad, will leave this city this afternoon at a quarter past two o'clock, for the accommodation of persons attending the funeral of Mr. John T. Parrott, at Greenland. The train will return immediately after the services.

MUSIC IN PORTSMOUTH.

We are pleased to learn that Mr. Pearson has accepted the invitation of the wardens of the Methodist Society in this city, to take charge of the organ and choir of that Society. His services are needed to aid in improving church music in our city; and no one will labor with more devotion and earnestness, and few with so much success, to instruct and improve a choir. He was for several months organist at the Episcopal Church—where his services gave universal satisfaction; and he has been offered the situation of organist at several other churches—but has preferred to be at liberty until now. We mention Mr. P. at this time, more particularly to commend the public spirit he has evinced during his residence among us — in being ever ready to give his services for the general good. We are sure he has lost nothing by it—and we hope that the new musical connection referred to will result in benefit to both parties, as we have no doubt it must.

Mr. H. C. Crane, a young man of considerable ability, has recently assumed the charge of the organ and choir at the Universalist Church; and is spoken of very highly by the members of that Society best qualified to judge in such matters. He displays much taste as an organist—which is the only capacity in which we have had an opportunity of judging of him. The Concert given at the church, a few evenings since, under his direction, was not so generously patronized as his exertions merited; and the members of the Society were present in far less numbers than we had expected. It is not often that a religious society does too much for their organist or choir—the balance of service is generally largely the other way; but we like the motto, "Encourage your own."

Mr. J. W. Clark continues to preside at the organ and conduct the singing at the North Church — with his usual skill and satisfaction to the Society. The fine organ was much improved by an addition to the sub-bass, when the new church was erected; and the singing, which has for a year or two been performed by a volunteer choir, is highly creditable both to the singers and the conductor.

The organ at the Stone Church is played with much skill and taste by the young lady who has creditably filled the place for a year or two. The choir, which has been increased by "volunteer" accessions within a year, is under direction of Mr. W. N. Ilsley—Mr. Preston, who had long conducted the music there, having retired to a less laborious position below stairs.

A young lady also plays the organ at the Middle Street Church — and remarkably well, for one so young. There is also a young lady player at the Episcopal Church —where is the only quartet choir in the city; and another young lady plays the organ at the Hanover Street Chapel—the only "volunteer" organist in this vicinity, we guess. We believe a lady also plays the organ at the Catholic Church.

So much for church music—which we wish was better, and that we had more of it: larger choirs, and more thoroughly drilled. And the most effective means of producing singers, is to fill up the juvenile and evening singing schools. Why should not as many children be taught Do, Ra, Me, as are taught A, B, C? and why should not the public do one as much as the other? There are at present but two small juvenile schools, and one small evening class, in this city—not a tenth of the number who ought to be studying music socially here. More anon—it's getting late.

PROF. WOODWARD'S

Entertainment, at the Temple, last evening, was the best performance of the kind which we have attended for years, and fairly equalled the wonder-workings of the great Macallister. We hope and expect to see a full house this evening — the last appearance of the Professor in this city. Don't fail to go, if you would be amused and astonished.

☞ Traces of blood and tracks of bloody feet were seen in and near Water street on Wednesday morning, by milkmen and others; and stories were plenty, of dreadful stabbing and almost murder there, the night before—but on careful enquiry we learn that one man stabbed another in the hand and got stabbed in the foot, making much show of blood, but not killing anybody, nor coming very near it. The origin of the muss was probably the fact that the combatants were not exactly total abstinents.

☞ Samuel D. Wingate of Exeter, and Calvin May, Jr., of Gilsum, have been appointed Registers of Probate for Rockingham and Grafton counties.

Adam had one great advantage, says a wag, over all others married, an advantage which has been lost to us with Paradise—he had no mother-in-law.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4 531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away wha ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

POLITICAL PREACHING.—Some years since—So the story runs—a substantial farmer in the state, who was a federalist, had a servant who was a violent democrat. The farmer, wont to attend church himself, tried hard to prevail upon his servant to do the same. But in vain. He persisted in spending his Sabbaths at home. On being asked why he was so opposed to going to church, his answer was, because the parson is forever preaching politics. The farmer thinking that that argument would be overcome, if he could only get his servant to hear his minister, hired him on a certain Sabbath morning to go. On returning home, the servant said,

'There, it was just as I told you it would be; all politics from beginning to end.'

'No,' said the farmer, 'not so, there was not one word of politics in the whole discourse.'

'Yes,' said the servant: 'there was; the text was politics.'

'Why, what was it?' said the farmer.

'This,' said the servant: 'If the federalists scarcely be saved, where will the cursed democrats appear?'

'No, it was not,' was the reply. 'On the contrary it was—'If the righteous scarcely be saved, where shall the ungodly and the sinner appear!'

'I know it,' was the answer, 'but darn him, I *knew what he meant*.'—*Christian Secretary.*

If you want a GOOD PAPER subscribe for

"THE NATION,"

The most popular Weekly in America, which has immediately upon its issue, sprung into an IMMENSE CIRCULATION.

This rapid success is CENTRECENTRED in the history of Journalism, and can only be accounted for by the fact that the Proprietors have employed, without regard to expense, the

STAR WRITERS OF AMERICA.

The NATION is the *only* paper which contains the witty, humorous and side-splitting sketches of that comical genius, and UNRIVALLED HUMORIST,

KNIGHT RUSS OCKSIDE, M. D.,

of which series, one sketch alone is worth the whole years subscription.

THE NATION

is edited by

S. M. BIGELOW, AND

MRS. E. D. E. N. SOUTHWORTH,

who is WELL KNOWN as one of the MOST POPULAR WRITERS IN AMERICA.

In addition to the above we have engaged as Contributors:

Clara Moreton, Henry W Herbert,
Alice Cary, W. W. Fosdick,
Mrs. A. F. Law, C. A. Page,
Mrs. E. F. Eliot, Ben Caseday,
Park Benjamin, W. P. Brannan,
and numerous others

TO THE FAIR SEX

we particularly commend our sheet. Their department will be Edited with the utmost care and no expense or labor spared to render the columns devoted to their especial benefit, unusually BRILLIANT, ATTRACTIVE, INSTRUCTIVE AND ORNAMENTAL.

The Farmers' and Planters' Corner

Will contain Practical Suggestions and Agricultural Hints, contributed and culled from sources the most reliable, and containing information which will prove to them in the course of a single year, of almost incalculable benefit.

The other departments of our paper will receive the attention they respectively demand, each being especially and carefully prepared to meet the varied tastes of the several classes of its readers. Among those we may mention

Original Stories and Poems, Editorial Ramblings and Sketchings, Spicy City News, Washington Gossip, New York Chit Chat, the Latest Paris Fashions, Practical Receipts for the Household and Toilet, "The Little One's" Department, Gems from Prose and Poetry, Reader's Guide, Translations, Historical Sketches, &c., &c.

The NATION is issued in Quarto Form, (eight pages,) and each number will contain at least 2 original engravings, thus furnishing our subscribers at the end of the year with a volume containing 416 large size, beautifully printed pages of

UNSURPASSED NOVELLETTES, SKETCHES, &c., together with

OVER 100 ORIGINAL ILLUSTRATIONS.

The NATION is sent at the following remarkably low Subscription and Clubbing TERMS: invariably in advance.

Single Copies,	$2 00	per annum
Two " (to one address),	3 50	"
Three "	5 00	"
Six "	9 00	"
Ten "	15 00	"

☞ And one copy free to the getter up of the Club of TEN.

All those sending us subscriptions from the British Provinces, must enclose, in addition to the subscription price, 25 cents for each subscriber, as we are compelled to prepay the United States postage.

All letters containing money should be registered, and directed plainly, and they will come at our risk, otherwise we are not responsible for them.

Specimen copies will be sent free to Post Masters, Agents, and all who wish to get a club;—to all others, on receipt of four cents in stamps. The expense of registering is only 5 cents. Address

Among hundreds of complimentary notices, we have received from newspapers in every section of the country, we quote the following extracts:

"The Nation appears in clear large type on snow white paper, and is richly adorned with illustrations."—*N. Y. Sun.*

"It will attain a high position in the literary world."—*Philadelphia Daily News.*

"It is one of the best weeklies now published, and we take pleasure in bringing it to the notice of the reading public."—*Harrisburg, Pa. Herald.*

"The talent and energy of the proprietors, its original and interesting contents, and the beauty of the typography cannot fail to secure for it a general circulation."—*Williamsburg, Pa. Ind. Press.*

"As a literary and family journal, we have no hesitation in pronouncing it the best among our exchanges. We advise the Ladies to procure it without delay."—*Fulton, Pa. Republican.*

"We dislike puffing city emanations, but in this case we are bound to give way to merit. Unlike many city cotemporaries, the Nation is composed of sound substantial and useful matter, and is not filled up with an overdose of flimsy, wishy-washy stuff from the hands of crack brained authors."—*Erie City Dispatch.*

"It has the most beautiful engraved head we ever saw, and are deeply entertaining, truly delicious and soul-absorbing." *Williamsburg, Va, Gaz.*

"There is room for just such a paper, and it has secured two as true hands and hearts to control its columns as the literary and social world holds."—*Wilkesborough, Pa. Agitator.*

"It will soon become a leading paper at the fireside."—*Boonville, Mo. Observer.*

"We seldom endorse northern papers, but in this instance we are forced to overcome our prejudice, and commend the "Nation" to our readers."—*Troy, Ala. Bulletin.* d13 w4t

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves. Cylinders of different patterns and sizes: in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture"

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have purchased some of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Dock, Hodges, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis.

PETER CARTWRIGHT.

Mr. Cartwright was once waited on by a worthy clergyman of another church, who lectured him for his alleged ignorance of Hebrew and Greek.

"And pray, sir, who informed you," said Mr. Cartwright, "that I was unacquainted with the Greek and Hebrew languages?"

"Well, I do not remember that I have been told so by any one, but presumed it was so, as Methodist preachers generally, I believe, are without classic education."

"Ah, well, sir, you should not take things on presumption, without having very good grounds therefor, especially in so grave a charge as that which you have just uttered against me. You, I suppose, understand these languages."

"Yes; I profess to know something of them."

"Well, for aught I know, I have as good a right to doubt your knowledge of Greek and Hebrew as you have to call in question my acquaintance with them. Allow me, sir, to examine you concerning your knowledge of the Greek." Then taking up from the table by which he was seated, a book like a Testament, he opened it and appearing to read therefrom, he uttered a few words in Dutch, of which he had a little smattering, and continued, "Will you be good enough to translate into English that verse from the Greek of the Gospel of St. John?"

"Indeed, sir," replied the clergyman, a little embarrassed by the unexpected turn to the conversation, "my time has been so much occupied for many years with professional duties, that I have no time to look into the Greek Testament, and have probably got a little rusty in the language."

"Very probable. Well, I suppose we must excuse you, as I know something of the laborious nature of the pastoral office. But, doubtless, you have been more careful in preserving your knowledge of the Hebrew; and taking up and opening another book about as large as a Bible, he continued, "and if you please, sir, I will thank you to translate a passage from the Hebrew Pentateuch," uttering another sentence in Dutch.

The reverend gentleman by this time became quite confused, and seeming to think he had "got into the wrong box," he abruptly arose and retired.

"WHERE ARE YOU GOING?"—An anecdote is told of Finney, the "revivalist," and a canaler, to the following effect:

He was "holding forth" in Rochester, and in walking along the canal one day came across a boatman who was swearing furiously. Marching up he confronted him, and rather abruptly asked:

"Sir, do you know where you are going?"

The unsuspecting man, innocently replied that he was going up the canal on the boat "Jenny Sands."

No, sir, you are not," continued Finney, "You are going to hell faster than a canal boat can carry you."

The boatman looked at him with astonishment for a moment, and then returned the question:

"Sir, do you know where you are going?"

"I expect to go to heaven."

"No, sir! you are going *right into the canal.*"

And, suiting the action to the word, he took Finney into his arms and tossed him into the murky waters, where he would have drowned had not the boatman relented and fished him out

NOT DEAD—BUT GONE BEFORE.

It cannot be that thou art dead; that now
I watch beside thy grave, and with my tears
Water the hated earth that now conceals thee,
I cannot think that thou art dead and gone,
That naught remains to me of what thou wert,
Save that which lieth here,—dust unto dust:

When the bright sun arises, and its rays
Pass noiseless through my chamber; then methinks
That thou art with me still; that I can see
Thy form beloved; and thy bright glancing eye
Beams on me with a look none other can.
And when at times, unumbered troubles come
To harass me, and I almost despair,
Thou com'st to me and I am cheered again—
Thine own bright smile illuminates my way,
And one by one the gathered clouds depart,
Till not a shadow lies upon my path.

Night, with its long and sombre shadows, treads
Upon the steps that morn and noon have trod;
And, as our Fannie comes around my knee,
To lisp those evening prayers thy lips helped teach,
I cannot but believe that thou art near.
But when she speaks of 'father,' when she says,
"'T is a long time since my dear father died;"
And when she asks, in her soft childish tones,
When she again shall meet thee,—then I feel
A sudden sadness o'er my spirit come.
And when sleep holds her in its silken bonds
I wander here, to this dear spot we call
Thy grave (as though this feeble earth could hold
Thee in its cold embrace), and weep and sigh:
Yet, trusting, look above to yon bright sphere,
And feel thou art not dead, but living there.

It is not thou that fills this spot of earth,
It is not thou o'er whom these branches wave:
These faded flowers only mark the spot
Where but remaineth that thou could'st not wear
Amidst immortal scenes.
Thou livest yet!
Thy feet do tread the golden courts of heaven;
Thy hands have touched the harps that angels use;
Thine eyes have seen the glory of our Lord;
Thine ears have listened to that song of praise
That angels utter, and which God accepts.

FRIDAY, DECEMBER 19, 1856.

A RICH ARTICLE.

We copy verbatim the following article from the Portsmouth (Virginia) Transcript. We *italicise* a few words, to show up the full meaning of some sentences. The idea that the abolitionists, being the white slaves at the North, are moved with *envy* at the happiness of the black slave, is peculiarly rich! Read—but don't laugh.

We have already published accounts of the result of the late attempted servile insurrection in Tennessee, and from which it appears that the ringleaders, both white and black, have all been put to death. We see that, in one case, the citizens condemned a leading spirit in the affair to receive nine hundred lashes, but the scoundrel could not stand this *light* punishment and *died* before he had received more than six hundred stripes. We regard the summary punishment of the instigators of such outbreaks as entirely consistent with *mercy* and justice, and highly *essential* to the peace and *safety* of Southern society. There can be no doubt that white men, from the North, with their abolition heresies, have been instrumental in deluding the negroes into this insurrectionary demonstration, but it is passing strange to our comprehension that the negroes themselves are silly enough to be misled by the misrepresentations of these arch fiends. The slaves have had melancholy examples enough to satisfy them that the white man is supreme here and elsewhere—that all such attempts are sure to fail,—and that they are as good for the gallows, whenever they try such experiment, as is punishment sure to follow crime. All this illustrates the *God ordained* superiority of the white over the black race.

But, the agency of the abolitionists, in this matter, and in all other schemes of this character, fails most signally to accomplish what they have in view. Instead of alleviating the *imaginary* severities of slavery, their mock philanthropy only has the effect of rendering more severe the restrictions on, and *less pleasant* the condition of the negro race. In seeking to loosen, they only tighten the bonds which bind them. It is time that this truth was understood. The whole sum and substance of this matter is, however, that the *abolitionists hate the negro race* as the devil does holy water, and they are *envious* that the condition of the black slave South is so much more elevated and comfortable than that of the *white slave* North. This is nothing but simple truth, for it is not *pretended* that abolition hostility to domestic slavery, as it exists at the South, is based on love for the African, but on the desire to expel the race from the *advantages* here enjoyed and compel them to toils, hardships and exposures of a less propitious clime and less humane condition.

The real feeling of the abolitionists,—though they conceal their designs, and thus deceive and entangle the poor negroes in difficulties by which they lose their lives—is eternal enmity to the best interests of the African race in the United States. This is conclusively proven by the manner in which they are treated at the North, where they are not cared for any more than if they were part and parcel of the brute creation.

The mixture of fear and bluster—of the blessedness of slavery and the certainty of hanging, are quite interesting to outsiders,—but all these little items are nothing to be compared with our *envy* of the slave, which is here alleged as the *motive* of northern abolitionists.

It is quite manifest the article was written to frighten and bamboozle the negroes.

NATIONAL RACING.—Mr. Ten Broeck, a Southern sporting man, who has taken three American horses to England, has offered to match one of his horses against any English horse, four—mile heats, for $20,000 a side. Porter's Spirit predicts "that when this race is made, it will command more interest in this country, and occasion more excitement throughout its length and breadth, than any event which has ever pitted the energies of the two nations against each other, since the two wars."

☞ Merry's Book of Puzzles is just received by A. Williams & Co., Boston, and J. H. Foster Portsmouth. It is a collection of curious Hieroglyphical Rebuses, Riddles, Conundrums, &c., with a Key of Answers. A very amusing book for a large class of juveniles, who like to rack their brains over a puzzle.

BRUTAL ASSAULT WITH INTENT TO ROB.—Tuesday evening, as Mr. Edwin Bassett was proceeding from his shop in Reading, Mass. to his residence, he was attacked by two men and beaten over the head in a brutal manner. His assailants, after having disabled him by their blows, were proceeding to rifle his pockets, when they heard Mr. Wadleigh, whose attention had been called to the spot by the outcries of the victim, and they decamped without accomplishing their object. Mr. Bassett had about two hundred dollars in his pocket, to obtain which was doubtless the intention of the highwaymen. Mr. Bassett was taken to his residence, and found to be very badly beaten. The villians succeeded in making their escape.

ELECTIONEERING.

The late City election at Newburyport, was very strongly contested. Elder D. P. Pike, a radical reformer, was the Republican candidate for Mayor—having been twice defeated before; against Mr. William Cushing, the present incumbent, and a more conservative man, so called. The vote was very large, and many people wondered where the votes all came from. But the Herald says if they knew the means used and the efforts put forth to secure voters, no wonder would be felt. After stating that some of the proceedings were disgraceful, the Herald says:

But while there were some matters lamentable, there were others very amusing. The following will give an Irishman's idea of legal voting. The opposition had qualified one gallant son of the Emerald Isle for the duties of citizenship, by the payment of his poll tax. When he appeared at the ward room, his retainers happened not to know him—perhaps it was owing to his having on a clean shirt; and approaching a Cushing man whom he knew, in great simplicity he asked if the Cushing vote was the right one. "Certainly," said the respondent; "and go right up and put it in at once. It is your turn to vote now." Patrick acted accordingly. Immediatly after, his Pike tax-payer asked him if he was ready to vote, and when he learned that he had voted with the other side, upbraided him with playing false; whereupon he came to the Cushing vigilant again, saying—"Mr. P., I have done wrong. I have voted the *illegal* ticket.—I must take it out again—It was the other side paid for me." When Patrick found the vote in, and could not be withdrawn, he went away shaking his head in a thoughtful manner over his illegal voting.

The same party that had paid for the Irishman, also paid for a weak-minded Yankee, to come from Portsmouth; but he was seized by two of the other side at the depot, and though the man who had expended five dollars in his behalf, kept hold of his coat tail all the way down, his side friends so bamboozled him, that when he reached the polls, he said he did not know which side was right, and went back in the return train without voting at all.

Our Cushing man who obtained the Irishman's vote, was not quite so successful with one Timothy O'Flarety, who was reported to be a voter. He called at Timothy's residence inquiring,—'Does Mr. Timoth O'Flarety live here?" The Irishman straightened up: he had never been called Mister before in his life, and probably never will be again, except on 'lection day—and replied, "yes, your honor, I's the man." Mr. O'Flarety, said the smooth politician, in a subdued voice, we want you to take part in the election. Tim looked more surprised; he had never taken part before with anybody except in digging gravel. And sure he should like to vote, if they'd let him. He said he had his naturalization papers, and when he held them in his hand, the pleased politician thinking he had a bite, told him to jump into the sleigh. He took him to the City Treasurer and paid his poll tax, and then to the Warden, saying, as he handed the papers, "here's a good citizen that wants to vote—as good a Cushing man as any of them; he counts one!"

"But stop, stop, said the warden, these are his *first* papers; he has no vote!" "Good ——! Nine shillings out!" and the canvasser began to whistle a tune—he had been a musician in his younger days, and goes for the music of the Union now—when waking up suddenly he said—"jump into the sleigh again before anybody sees us; we'll lay you on the shelf for two years, when you will come out bright and new, as good as any of them"—and off he drove at a quick rate, for the laugh was on him, and the joke began to be understood by the bystanders.

Concerning this election, at which Mr Cushing was re-elected, a Newburyport correspondent says,—"Inasmuch as all the old fogies voted for Cushing, and all the young men for Pike, we live in hopes that the grave-yard will one day turn the scale."

☞ The trial of Huntington, the forger, commenced in New York, on Thursday.—Judge Capron made a sensible remark in relation to one of the jurors, who was objected to because he had read a newspaper account of the forgeries. He said that the rule in regard to the indifference of jurors had been spun down as low as it could bear. If it should be carried any further, intelligent men would be excluded from juries in all important cases, for they will read the papers. The juror was, in his judgment, competent.

WASHINGTON, Dec. 17.—The new Kansas appointments, and that of J. W. H. Underwood of Georgia, as associate of the U. S. Court in Nebraska, vice Baden resigned, were, by the Senate in executive session to-day, referred to the Committee on Judiciary.

The President transmitted to the Senate the treaty between the United States and Great Britain relating to Central America, which was ordered to be printed for the information of the Senate only.

Thalberg, the eminent pianist, met with a most cordial reception at the White House to-day, when the President presented him with a beautifully bound copy of Perry's Japan Expedition.

☞ The Union Church in Portland, Me., was dedicated on Thursday. Sermon by Rev. Henry. D. Moore, pastor. It is an elegant and commodious edifice.

LIFE'S SEASONS.

☞ We are allowed, by the author, to publish the following Lines, primarily contributed to "The Coronal," a paper kept by the young ladies of the High School.

The sunlit tints have faded from the leaves;
The smile of death is on the withered flowers;
And winter's wind, in mournful music, grieves
The flight of summer's golden-winged hours.

The feathered songsters fled, with summer's glow,
To seek the shores of never fading green.
The woods are wrapped in solemn silence, now,
And all is drear, where life and joy has been.

The brilliant blue of heaven is changed to grey;
The sunny glow has left the mountain's brow;
No gush of music ushers in the day—
No crimson glory crowns its closing, now.

But see! how, falling from the sombre sky,
In noiseless gracefulness, those pearly things,
So pure, so fragile too, come floating by,
Like tiny feathers, from an angel's wings:

And myriads, now, are floating calmly down,
To clothe the fields, so desolate and bare,
Each withered blossom wears a crystal crown—
Each leafless bough, a robe of ermine rare:

The wood, that looked so gloomy, now appears,
As if by magic, tastefully arrayed;
From every twig are pendant frozen tears—
And wreaths of white are hung in every glade.

O! softly, softly falls this gentle snow,
Upon the quiet graves of some we love—
Pure, as the robes of light they're wearing now,
In peaceful happiness, we trust, above.—

There falls no snow on Heaven's glorious hills—
But ever there a golden summer reigns;
Immortal flowers their fragrance there distil,
And life's pure river feeds these happy plains.

A few more summers, with their gentle rains,
A few more winters, with their fleecy snows—
A few more tempests, on these earthly plains—
A few more struggles with our sins and woes;

And then shall break the day of endless rest—
The raptured soul forget its stormy past—
The shades of sorrow flee the tranquil breast—
Exchanged for joys that shall forever last!

Dec. 1856. M. E. B. M.

AN OLD SOLDIER DEAD.

The Salem Register announces the death of Mr. Thomas Norsworhy, at the advanced age of 98 years, 7 months and 6 days,—almost a century. He was the oldest man in Salem; was born in Devonshire county, England, May 7, 1758; and his funeral services were attended at St. Peter's, Episcopal Church, on Monday last.

He came to this country in 1816, previously to which, according to his own account, he had served twenty years in the British army, under Lord Wellington and other officers, in In ia, Russia, Prussia, Spain, and the West Indies; and for eleven years in the British Navy, under Admiral Dockworth and other officers. He was engaged in *sixty-five battles* during these thirty one years, and escaped without the loss of a limb; but his sufferings and those of his comrades were awful in the extreme.

In his conversations with Mr. Ball, who saw much of him in his last years, he was accustomed to say, in reply to inquiries, that the soldiers, after battle, would dig a large trench and put in the dead officers and men without distinction. On asking him if he and others who buried them usually took from the bodies what was valuable, he replied *no*: that not a man was allowed to take an article, but that the women who followed the army had the privilege of taking epaulets, money, and whatever else they pleased, from the dead bodies; and that his wife, who was with him in the army, obtained in this way over £200 sterling, and was enabled to loan the Commissary a thousand dollars at a time, for which the latter gave a government draft, which was promptly paid in London.

THE SLAVE TROUBLE.—*Cincinnati, Dec. 17.*—The latest advices from Cumberland river, Tennessee, state that 25 iron furnaces in that region had stopped operation, in consequence of the negro troubles.

THE SLAVE EXCITEMENT.—*Louisville, Dec. 17.*—The City Council of Clarksville, Tenn., instructed the Recorder to notify iron masters and other owners of slaves, that no slaves will be permitted to come to the city to remain more than two hours, unless accompanied by a respectable white person, under a penalty of twenty lashes. Slaves having wives, and their masters' passes, are exempted. Persons having slaves going to or from Christmas festivities, are not to allow them to pass through Clarksville, unless a respectable white person will keep them together, and not allow them to mingle with the negroes of Clarksville.

GALLATIN, Tenn., Dec. 17.—Thirty negroes have been arrested here, on suspicion of being concerned in the conspiracy. The citizens have appointed a committee to examine into the matter.

NEW YORK, Dec. 18.—A call has been issued in this city for a Nicaragua sympathy meeting, to be held in the Tabernacle on Saturday evening. The names of Gov. Price of New York, ex Gov. Smith of Virginia, Brown of Mississippi, and Jones of Tennessee, and Senators Cass, Douglas, Mason, etc., are announced to speak.

LOST—A Gold stone SLEEVE BUTTON.—A suitable reward will be paid the finder on leaving it at the Chronicle office.

SWEETSER'S COMPOUND
Iceland Moss Candy,

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy SENSATIONS in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

MUSIC IN PORTSMOUTH.

NO. TWO.

We took our composing-stick in hand, on Wednesday evening, to set up a few remarks which we had no time to write, relative to the above subject; and only discontinued our type-sticking when the clock struck 11. We now resume.

We have more than once stated our regrets that there are not more good singers,—in fact, more singers of any sort, among us. Formerly, and for many years, there were maintained in Portsmouth, Musical Societies—a means of improvement to any who desired to cultivate their talents, and a source of much enjoyment to all who had any music in their souls—if, indeed, a man can be said to *have* a whole soul, who lacks all musical appreciation. But for several years we have had no such Society—the business of the last, the Sacred Music Society, having been managed in such a way as to lose a considerable sum for those who took the responsibility.

The Rockingham County Musical Association has done and will do much good, and should receive the attention of all interested in music. Their third Convention, advertised to be held here in January, will be an occasion of great interest; and will doubtless be largely attended. These Conventions, or Mass Meetings of Singers, are of as much benefit and importance to the cause, as are similar gatherings of political, educational, mechanical or agricultural interests to their respective objects. Socially, too, these Musical Conventions are particularly attractive. In Massachusetts, where they flourish greatly, and are held alternately in the different towns in the county; it is the custom for the members living in the place where the Convention is held, to entertain as guests, the members who come from abroad—which custom is the source of much social enjoyment.—We should be glad to see this plan adopted by our County Association—why not at the coming Convention?

In another column, we advertise a Fair in aid of the Portsmouth Cornet Band—which we hope will net the cause $500. The establishment of a good Band will be an important step in musical progress.

The Gift Concert, by a Union Glee Club under direction of Mr. H. S. Thompson; and Mr. Satter, the distinguished pianist: will be one of the most attractive entertainments of the season. See programme in another column.

The Hutchinsons are to give another Concert here, about New Year's.

The Old Folk's Choir have kept rather quiet of late; but we guess they'll be heard from before winter is out.

We also hear rumors of other sacred and secular concerts. More anon.

POLICE COURT—Wednesday.

Before Justice Odell.—James Barry was arraigned for making a brawl and tumult on the 16th,—found guilty and fined $3. Costs $3.86.

☞ For the benefit (or at least the information) of the large number of pleasure and health seekers, who annually visit Portsmouth as a "watering" place,—we would state that the bathing season here is not yet over. A professional gentleman of this city, a stockholder and patron of the floating Piscataqua Bath, on Noble's Island, has not failed to enjoy a daily morning ablution there, since the first of May. He was largely accompanied and countenanced in his practice, all through the warm weather; and was not without a few companions up to the first of September—the last who dropped off, asserting that our hero couldn't stand it much longer than the first of October.

On Thursday morning, at half past 7, with the thermometer at 8° below zero, this persistent bather was met on his way to the Island, by a man who informed him that he had come to watch him, if he would allow it, and settle a bet which had been made, that he would not go into the water on that occasion. On they went, and in *he* went—jumping through ice which had been formed within the enclosure of the bath. So that bet was lost—and if the Dr. could stand it *that* morning, he probably won't back out till the snow blocks up the passage-way to the bath-house, so that he can't get to it.

COLD WEATHER.—The mercury in this city on Thursday morning, in many thermometers, stood at 10 below. Some stood at 6, others at 12, but most at 9 and 10.

Our ship builders inform us that the celebrated *Burden's Pressed Boat, Ship, Brad and Countersunk Railroad spike* surpasses anything of the kind in durability and strength, that they have seen. These Spikes are sold at the well known hardware house of Blodget, Brown & Co., 82 Pearl st., Boston.

CONGRESS.

WEDNESDAY, Dec. 17.

SENATE.—Mr. Weller gave notice that immediately after the holidays he should call up the Pacific Railroad bill, which was under discussion last session, and indulged in the hope that it would command the vote of a majority of the Senate.

Mr. Seward introduced a resolution, which was adopted, requesting the Secretary of the Navy to report whether, in his opinion, it is practicable and expedient to cause steam vessels to be so constructed as to afford greater security against accidents by fire, than now exists, and to submit such suggestions as he may think proper for legislation on that subject. Adjourned.

HOUSE.—The debate on the President's message was resumed,—and the session wholly occupied by an earnest debate on slavery, based on the Presidents message.

Mr. Bully Brooks said he, as a Democrat and South Carolinian, would vote for the admission of a state excluding slavery, provided this was agreed upon by a majority of the actual settlers. He *repudiated squatter sovereignty* in a territory as affecting Southern rights, and did not wish to lose the *benefit* of the Kansas-Nebraska bill.

Mr. Weller, in the Senate, to-day, presented a memorial from the Penny Post of California, praying for indemnity for the losses sustained in consequence of the unlawful detention of letters at the San Francisco Post office, by the direction and sanction of the Postmaster General.

The following is the bill introduced in the Senate yesterday by Senator Wilson of Massachusetts:—

Be it enacted—That the one hundred and fifty-first chapter of the alleged laws of the territory of Kansas, entitled "An act to punish offences against slave property," with all such, and other provisions of that code as recognize and protect slavery in that territory, and all provisions which establish official oaths other than those specified in the organic act, or which require any test in regard to slavery or the fugitive slave law, to be applied to attorneys, jurors or voters,—or which suspend the writ of habeas corpus,—or which allow any other than actual residents of said territory to vote,—or which allow jurors to be selected in any other manner than by lot,—or which punish citizens of said territory by chaining them together and exposing them to labor on the public works, with irons, chains, and balls attached to them;—be, and the same are hereby declared inoperative and void.

SERIOUS ACCIDENT.—A ship-keeper named Knowlton, fell from the mainmast of the ship Sabine, lying in Fort Hill Dry Dock, Boston, Wednesday evening, and received severe injuries. He was taken to the Massachusetts General Hospital.

We learn that the gale on Monday, was very severe at Dover, N. H. The steeple of the Catholic Church was blown down, and chimnies and fences demolished.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ Dr. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use.* It is call'd "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuT&h8 6m

PARLOR OVEN STOVE.

JUST received, (per schooner Carpo,) another lot of those favorite Parlor Stoves. Customers who have been waiting for them can now be supplied.

To those who are unacquainted with them, I would say, that they combine the two qualities of a truly good and ornamental Stove, and at the same time can be relied upon to bake and boil when required. The demand for, and convenience of such a desideratum has been the cause of much and continued effort among manufacturers, and now the universal satisfaction the stove gives proves it to be the best Parlor Oven Stove ever manufactured. G. N CARLETON,

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves.

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,

BURDEN'S

Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

many other MAGAZINES, and a large assortment of

Newspapers,

Cheap Books, Annuals, TOY BOOKS, Fancy Goods, Stationery, &c.,

may be found at the Subscriber's store.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all those, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps. If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,
d8 corner of High and Congress sts.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysteries, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

DR. LAROOKAH, a Celebrated Indian, has discovered in the combination of four ninds of Common Roots and Herbs, a remedy that is warranted to cure *CONSUMPTION* in all cases where the lungs are not mostly consumed, and sufficient left to sustain life; and every disease of whatever name, having seat in the lungs or bronchial tubes.

A YOUNG PRINTER.—A little daughter of ours, aged 2 years and 10 months, one day this week turned the crank used in "distributing the roller," while we worked off fifty handbills. The same little girl went to church last Sunday for the first time, and when asked upon her return home what the minister said, answered, that "he went up on the top of a mountain and hurrahed for somebody."—*Kinderhook Rough Notes.*

A FEMALE IMPOSTER.—A woman named Hannah Murphy, who for the past two years has been imposing upon the good nature of the Overseers of the poor of Boston, by representing herself as "a poor widdy wid tree small childer," was Thursday detected and exposed by officer Shute to the Overseers. The woman is the wife Jeremiah Murphy, who is employed at the Custom House at a salary of two dollars per day.—*Boston Journal.*

WELL ANSWERED.—What form of government is the best? "That which is best administered." This answer, says the "German Grit," is about as just as it would be to answer the question, "Which is the most perfect of living creatures? by saying, *the healthiest*,—from which it would follow that a sound puppy is better than a sick man. So far is this from being true, that even a sick philosopher is more than a sound fool; for the wise man may get well, but a fool can never grow wise.

If you want a GOOD PAPER subscribe for

"THE NATION,"

The most popular Weekly in America, which has immediately upon its issue, sprung into an IMMENSE CIRCULATION.

This rapid success is unprecedented in the history of Journalism, and can only be accounted for by the fact that the Proprietors have employed, without regard to expense, the

STAR WRITERS OF AMERICA.

The NATION is the *only* paper which contains the witty, humorous and side splitting sketches of that comical genius, and UNRIVALLED HUMORIST, KNIGHT RUSS OCKSIDE, M. D., of which series, one sketch alone is worth the whole years subscription.

THE NATION

is edited by

S. M. BIGELOW, AND

MRS. E. D. E. N. SOUTHWORTH,

who is WELL KNOWN as one of the MOST POPULAR WRITERS IN AMERICA.

In addition to the above we have engaged as Contributors:

Clara Moreton, Henry W. Herbert,
Alice Cary, W. W. Fosdick,
Mrs. A. P. Law, C. A. Page,
Mrs. E. F. Ellet, Ben Casseday,
Park Benjamin, W. P. Brannan
and numerous others.

TO THE FAIR SEX

we particularly commend our sheet. Their department will be Edited with the utmost care and no expense or labor spared to render the columns devoted to their especial benefit, unusually BRILLIANT, ATTRACTIVE, INSTRUCTIVE AND ORNAMENTAL.

The Farmers' and Planters' Corner

Will contain Practical Suggestions and Agricultural Hints, contributed and culled from sources the most reliable, and containing information which will prove to them in the course of a single year, of almost incalculable benefit.

The other departments of our paper will receive the attention they respectively demand, each being especially and carefully prepared to meet the varied tastes of the several classes of its readers. Among those we may mention

Original Stories and Poems, Editorial Ramblings and Sketchings, Spicy City News, Washington Gossip, New York Chit Chat, the Latest Paris Fashions, Practical Receipts for the Household and Toilet, "The Little One's" Department, Gems from Prose and Poetry, Reader's Guide, Translations, Historical Sketches, &c., &c.

The NATION is issued in Quarto Form, (eight pages,) and each number will contain at least 2 original engravings, thus furnishing our subscribers at the end of the year with a volume containing 416 large size, beautifully printed pages of

UNSURPASSED NOVELLETTES, SKETCHES, &c., together with

OVER 100 ORIGINAL ILLUSTRATIONS.

The NATION is sent at the following remarkably low Subscription and Clubbing TERMS: invariably in advance.

Single Copies,	$2 00 per annum
Two " (to one address),	3 50 "
Three "	5 00 "
Six "	9 00 "
Ten "	15 00 "

☞ And one copy free to the getter up of the Club of TEN.

All those sending us subscriptions from the British Provinces, must enclose, in addition to the subscription price, 25 cents for each subscriber, as we are compelled to prepay the United States postage.

All letters containing money should be registered, and directed plainly, and they will come at our risk; otherwise we are not responsible for them.

Specimen copies will be sent free to Post Masters, Agents, and all who wish to get a club, on application, on receipt of four cents in stamps. The expense of registering is only 5 cents. Address

Among hundreds of complimentary notices, we have received from newspapers in every section of the country, we quote the following extracts:

"The Nation appears in clear large type on snow white paper, and is richly adorned with illustrations."—*N. Y. Sun.*

"It will attain a high position in the literary world."—*Philadelphia Daily News.*

"It is one of the best weeklies now published, and we take pleasure in bringing it to the notice of the reading public."—*Harrisburg, Pa. Herald.*

"The talent and energy of the proprietors, its original and interesting contents, and the beauty of the typography cannot fail to secure for it a general circulation."—*Williamsburg, Pa. Ind. Press.*

"As a literary and family journal, we have no hesitation in pronouncing it the best among our exchanges. We advise the ladies to procure it without delay."—*Fulton, Pa. Republican.*

"We dislike puffing city emanations, but in this case we are bound to give way to merit. Unlike many city cotemporaries, the Nation is composed of sound substantial and useful matter, and is not filled up with an overdose of flimsy, wishy-washy stuff from the hands of crack brained authors."—*Erie City Dispatch.*

"It has the most beautiful engraved head we ever saw, and are deeply entertaining, truly delicious and soul-absorbing." *Williamsburg, Va, Gaz.*

"There is room for just such a paper, and it has secured two as true heads and hearts to control its columns as the literary and social world holds."—*Wellsborough, Pa. Agitator.*

"It will soon become a leading paper at the fireside."—*Boonville, Mo. Observer.*

"We seldom endorse northern papers, but in this instance we are forced to overcome our prejudice, and commend the "Nation" to our readers."—*Troy, Ala. Bulletin.* d13 wtf

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft. Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in the market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without Ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the largest assortment of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is softened and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have since erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doet, Hoffman, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	100

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire superiority of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, and to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machine, of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I M SINGER & CO.

SPICY DEBATE.

In the U. S. House of Representatives on Wednesday, the debate on the President's Message was quite sharp and stirring; Mr. Washburn of Me., defended the Republican party against the assaults of the President. He said:

"All heresies and sins of opinion, if not of practice, may be tolerable, tolerated and excused, if we may judge from the language and conduct of the President and his party, except the enormous crime of loving liberty and hating slavery. Why, sir, old line Whigs—Whigs of the straightest sect—high-tariff men, bank men, have but to bow their knee to slavery and worship it, and they are hailed as good members of the modern Democratic party, put forward to places of leadership, and nominated to important offices. Third degree Know Nothings, in all their toggery, fresh from fulminations against the Pope, and hoarse with denouncing those who constitute if not a majority, a very large proportion of the Democratic voters—I mean our adopted citizens—declare that the triumph of freedom in a national election should be tantamount to a dissolution of the Union, and would justify it, and are joyfully received as the willing and welcome allies and loving co-adjutors of the sham democracy. Nullifiers and fire-eaters, red with uncommon wrath—the men against whom Jackson thundered in 1832—no sooner pronounce slavery a blessing, and the very corner-stone of republican institutions, than they are made the oracles, law-givers, and platform-builders of the party."

He was interrupted by Mr. Smith of Virginia, who asked him how he should vote on the application of a new State to be admitted into the Union with the right "to form her own institutions," i. e. with a constitution establishing slavery.

"Mr. Washburn—When that question comes up, I shall meet it and vote as circumstances guide me. Now, I will ask the gentleman from Virginia a question; If Utah should apply for admission into the Union, with a constitution establishing polygamy, will she receive his vote. [Laughter.]

Mr Smith—When the gentleman answers my question, I will reply to his. [Laughter.]

Mr. Cobb of Alabama—Good! That is Yankee eat Yankee! [Continued Laughter.]

Mr. Smith—I repeat the question.

Mr. Washburn—And I repeat mine. [Roars of Laughter.]

The correspondent of the New York Tribune gives the following account of a speech by Mr. Giddings:

"Mr. Giddings now took the floor, which fact soon filled the galleries and crowded the lobbies. He showed that the Declaration of Independence was one of the rich fruits of the Revolution, and asked the member from South Carolina, Mr. Keitt, if he was prepared to stand by that instrument; but Mr. Giddings got no answer. The Republican party have responded to this question. They have re-affirmed the great truth written by the inspired pen of Jefferson, that 'all men are by their Creator endowed with certain inalienable rights, among which are life, liberty and the pursuit of happiness. He put the question to the member from South Carolina again, if he would stand by the principle of the Declaration of Independence, and getting no answer he said, 'I ask any member of the Democratic party, North or South, whether that party is ready to stand by those principles—I pause for an answer, I hear no reply. Sir, such is the response I always get to my well-defined interrogatories. Men from the South unequivocally deny this truth. Men of that party in the North dare not speak in the affirmative. There they sit. If they were to answer in the negative they would be cast off by their constituents if; in the affirmative, they will be repudiated by the South. There they vibrate between heaven and hell.' (Great Laughter.)

He said the self-evident truth of the Declaration of Independence was pronounced, by a prominent Democrat in the other end of the Capitol, to be a self-evident lie; and that the members of the Democratic party now tacitly sanction the correctness of that libel. He said Mr. Stephens of Georgia, had endeavored to show that Abraham was a slaveholder and dealer; and Brigham Young, with his retinue of three score wives, vindicated his doctrines by reference to Abraham also. Both he and the gentleman from Georgia, with great gusto appealed to the civilized world, saying: 'Have we not Abraham to our father.' (Laughter.)

He showed that the Republican party were pledged to support the Constitution. He repudiated the lecture of the President on the Fugitive Slave law, and said he should rather obey God. He has seen at one time, nine fugitive slaves dining in his own house—fathers, mothers, husbands, wifes and children—fleeing for their liberty, and in spite of any law he obeyed the divine mandate to feed the hungry and clothe the naked. He did both, and gave them money and sent them on their way rejoicing. Was that treason?

Mr. Bennett of Miss., wanted to know if the gentleman would'nt have gone one step further.

'Yes,' was the prompt reply of the gallant old man; 'I would have driven their captor from my door-yard, if he had made his appearance.'

Mr. Bennett pressed the matter still further, and asked if the gentleman would not have justified the taking of the fugitive by force in the first instance?

Mr. Giddings (walking indignantly out into the arena in front of the Speaker, in a voice of thunder, that made every member feel that he meant what he said) answered 'I would smite down the infamous slave-catcher, if he crossed my path in pursuit of his traffic.''

In the course of the debate there was a passage at arms between two of the Illinois members, which engaged some interest and produced considerable merriment. Mr. Morrison, successor to Mr. Richardson, followed Mr. Giddings, and undertook to prove that the Republican party is "sectional in principle and organization." He was brought to in the midst of his career by his colleague, who asked him if he was not a member of the Senate of Illinois in 1855.

"Mr. Morrison—I was.

Mr. Norton—Did you not offer a series of resolutions in favor of a repeal of the Kansas Nebraska bill, instructing Senator Douglas and other members of Congress to vote against it, against the further extension of slave Territory, and in favor of free Kansas?

Mr. Morrison—I did. I was a member of the Whig party, and as such I did what I could to defeat the objects of the Democrats. I voted for Mr. Trumbull when he was a candidate for Congress, but, after offering the resolution, while yet a member of the Senate, an appeal was made for all national men to rally under the Democratic banner, and, believing that Anti-Nebraskaism was leading directly to Abolitionism, I became a Democrat.

At this confession an Ohio member cried out "Take him away, he is a dead cock in the pit."

Mr. Norton was appealed to not to be so severe, but that gentleman put another question.

Mr. Norton—When you offered those resolutions did you believe the sentiments they contained to be sectional or national?

Mr. Morrison replied he thought it was good stock for the Whig party to embarrass and beat the Democracy; but at the time he introduced the resolutions the Republican party was not born. He announced that he was not a Yankee, nor the son of a Yankee. This brought responses of "good," "good," "good," "thank God for that." One Southern gentleman, a slaveholder, remarked: "I am a Southerner, but he may take the front seat."

DISCRIMINATING CHARITY.

Mr. Editor,—A friend has sent me the first annual report of the Providence Aid Society, in the city of Providence. It was formed a year since, with Rev. Dr. Wayland for President and with influential citizens to fill the remaining offices. The aim of the Society is to *prevent* as well as to relieve pauperism. In reading the report I have been struck with the resemblance, almost identity of the plan, with that adopted by the General Charitable Association, recently organized in this city, at the suggestion of Mrs. Medbury, the wife of our City Missionary. In both cases the city is divided into districts, and committees appointed for each district, who are to make themselves acquainted by actual visits, with the pauperism in their districts. The success of this Society in Providence in this first year of its operations, may encourage us to hope much from the similar Society in our city. It has been especially efficient in preventing street-begging and in detecting the impositions which have hitherto been practised on the benevolent. The following cases, selected from the report, show some of the means which are resorted to, to deceive the charitable. Is it not wise, as a matter of economy, to support such a Society?

*

One reported that a woman was directed to her for aid by several ladies who had helped her for a length of time. The woman had represented herself as a widow having a family of helpless children, one or two of whom were now sick,—that she was in great distress, without food or fuel, and was anxious to get some money to buy medicine. The visitor asked her where she lived, saying that she would call and attend to her wants in the course of the day.—She told the street and number of the house, after some hesitation, but remarked that her wants were so pressing she could not wait, but must have some relief immediately. The visitor then told her to sit down a moment and she would put on her shawl and accompany her to her home. The woman seemed uneasy, and after sitting a short time, said she had left something in a house near by, and would go and get it and then call for the visitor. She went out but did not return. It was found afterwards that she did not live in the street she had mentioned, nor was she a widow. She had a husband who was in steady work, having good wages. The ladies who had aided her as a poor widow were relieved from any further application from her.

A gentleman informed me that a few evenings since, as he passed through Broad street on his way to the cars, nearly opposite to the City Hotel, a girl about 10 years of age sat weeping on the door steps of Mr. F.'s house. He asked her what was the matter. Sobbing deeply, she said her mother, who was a widow, had sent her out to sell shavings,—that she had sold some, but had lost the money she had received for them, and that she dare not return home without it, for if she did her mother would whip her dreadfully. The gentleman put his hand into his pocket to give her some change, but did not have any with him. He took the child with him to a store near the place, and asked the store-keeper to loan him some change, stating to him what he wanted to do with it. The store-keeper came around the counter, and throwing back the hood from the face of the girl, at once recognized her, saying that on the previous evening she was in the same place, telling the same story, and that he had given her some money himself, and collected a considerable sum for her from the passers by. These are only illustrations of the different methods of deception constantly being practised upon the community.

TEMPERANCE MEETINGS.

The first of a series of Temperance meetings will be held at the Temple on Monday evening next, Dec. 22d, at 7 o'clock. Addresses by the Clergymen of the city.

A gentleman whose business in the course of the last year has led him to travel over 10,000 miles and to visit all the principal places in this state, has spent a week or two in Portsmouth recently.—He says that no where in the course of his long travels has he seen so much intemperance, so many individuals among the young men and men of middle age, who practice drinking, as he has seen in Portsmouth. If such is the state of things, it is time the *credit* of our city is looked after, if nothing else.

CONCERT.—We are informed that several ladies and gentlemen have in contemplation and are now rehearsing for a concert of songs, duets and glees, the proceeds of which are to be equally divided between the Howard Benevolent Society and the City Missionary, for the benefit of the poor of our city. The music will be of a high order, and we hope to see as full a house as greeted the Hutchisons; and we have no doubt the selections for performance will be equal to any concert ever given in this city.

From the Boston Evening Gazette.

A LAMENT.

O mournful rain! O mournful rain!
Thy tears, thou sorrow-stricken Night!
Thou moanest with a secret pain;
Thou callest for the morning light.

Together in the dark we sit;
Together in the dark we weep!
The Morning will not waken yet,
And One I love is still asleep.

A few short hours the chilly tears
Have fallen from thy eyes, O Night!
But mine have flown through weary years;
The cold grave hides her from my sight.

The world is too unkind for her:
The world is full of wrongs and snares:
So let her sleep; I would not stir
The foldings of the shroud she wears!

Thou callest for the blue-eyed Day,
To come and charm away thy pain:
There are who mourn, but only say
"O, come not back to Earth again!"

Thou sighest for the blue-eyed Day,
Calling in accents loud and wild!
There are who weep, but only pray
"O God! take pity on thy child!"

HARRIET McEWEN KIMBALL.

PORTSMOUTH, N. H. Nov. 1856

Morning Chronicle.

SATURDAY, DECEMBER 20, 1856.

☞ Senator Fessenden of Maine says, in a late speech in Congress,—

It is part of our creed that Congress ought, in all cases, to provide against the extension of the institution of slavery over the free territories of the United States. We claim that there is no right on the part of the slave states to carry it there. We argue it *here*, as my friend from Ohio has said, not on the ground of humanity, not on the question whether slavery is right or wrong in itself—with that, *here*, I do not choose to deal—but on the question of political power.

On this, a correspondent of the Boston Courier remarks:

If this was the *only* issue of the late canvass, as asserted by Senators Fessenden and Wade, speaking for "the great Republican party," what ground is left for the argument, that the question at issue w s a *moral* and not a *political* one, in which the clergy, who carried it into the pulpit, justify their course? We are getting light on some points at last, and if the discussion in the Senate shall show the clergy their mistake in supposing that politicians of any party regard *any* question other than a question of "political power," it will not be without benefit?

We have *italicised* the words *here*, *only*, and *any*, to call the reader's attention to two or three points, easy to be apprehended. Wade and Fessenden do not say there is no moral ground to be taken against slavery,—but that *here*, in Congress and in this argument, they would discuss only the political power.

On the other hand, if any clergyman chose to say that the question of slavery, as he discussed it in his pulpit, was moral and not political,—what then? Can not every man approach any subject from his own point of view?

Let us take the subject of incendiary fires, and discuss that. The clergymen preaches against the sin, the awful depravity which prompts a man to burn his neighbor's house and family together. This is the moral view.

The politician calls for legislation, and the legislature enacts a new law, not to punish the sin, but to protect the State.—This is the political view of it,—and the legislator might say, I will not stop *here*, to ask whether the laws of Moses or the precepts of Jesus forbids arson,—but we *can't have it*,—we will use all the *political* power we have to stop the fires. The clergyman may have dealt *only* with the moral view, and the statesman *only* with the political,—and yet both have acted well their parts against one common enemy.

We need not stop to make the application.

MR. BENTON ON TEMPERANCE. — Hon. Thos. H. Benton delivered his lecture on "The Union," before the Boston Mechanic Apprentices' Library Association, last week. In the course of his remarks, he counselled the young men of the Association to sobriety and temperance, stating as an example of what temperance and sobriety would do to help the young man, that during all his life he had never indulged in spirituous or fermented liquors—that he had never spent a night in carousing, and that he could not tell one card from another. It was to his abstemiousness from all intoxicating liquors, and his careful observance of the laws of health, that he owed much of his success in life and his vigorous constitution.

☞ The drunkard's wife and children are always sufferers; yet they often suffer in silence, unseen and unknown, except by the Omniscient Eye. Now and then, however, a case comes out, which shocks all who see it, and the recital of which makes both the ears of him that heareth it to tingle In Boston, on Tuesday afternoon, says the Telegraph, "a young woman with three children—one aged six years, another four, and the third an infant—was found wandering homeless in the streets by officer Cole of the Second Police Station. She had been turned into the streets by the landlord of the house where she had resided, at No. 6 Lancaster street. Her husband, who is a man of intemperate habits, has for sometime past neglected to provide for her wants and those of her children. The attention of several merchants was called to the case by Mr. Cole, and a considerable sum of money was immediately raised. The proper authorities were notified and these destitute ones will be provided for."

Wandering in the streets on a bitter cold December day! What young woman would not wish to be a drunkard's wife? If any, let her beware of the nice young men who sip around the bowl.

☞ Hon. George W. Morrison of Manchester, was on Thursday nominated by the Democrats, to represent the second district of New Hampshire in Congress.

CONGRESS.

THURSDAY, Dec. 18.

SENATE.—Mr. Hale of N. H. offered a resolution directing the Committee on Military Affairs to enquire into the expediency of discontinuing further appropriations for the Military Asylums in the District of Columbia, and what is the annual expense and manner of supporting soldiers there; and whether a more comfortable mode may not be adopted, at much less expense, by direct payment in money, or by boarding them at private establishments, or by affording relief in some other way. He had understood that the Military Asylum in this District supported 70 or 80 soldiers, at a cost of about $500 each, giving them nothing but pork and beans, and the usual army rations, together with such vegetables as were raised on the place. The soldiers were likewise separated from their families, whereas a much smaller amount of money would enable better care to be taken of them at their respective homes.

Mr. Thompson of Ky. suggested an amendment, which Mr. Hale accepted, extending a similar inquiry to the Military Asylums at Harrodsburg, Ky., and to report if desirable to retain either, and which; and further, whether the Asylum at Harrodsburg may not be beneficially removed to California.

The resolution passed.

Mr. Pearce, from the Library Committee, reported the House resolution, striking out the section authorizing the purchase of Kane's Narrative, but reserving the following, which passed:—

Resolved, That the Secretary of the Navy cause to be struck off and presented to Dr. Kane, his officers and men, such appropriate medals as, in the judgment of the Secretary, shall express the high estimation in which Congress holds their respective merits and services.

Mr. Stuart presented the memorial of Edward K. Collins, asking Congress to terminate his mail contract, and take his steamers on such terms as will save him from actual loss from his services to the American marine and postal affairs.

The memorial was referred to the Post Office Committee.

The President's Message was then considered, and an old fashioned discussion held, such as Messrs. Garrison, Goodell, Wright, Root, and others in New England used to get up twenty years ago.

The House did likewise.

RAINS AT THE SOUTH.—The last Apalachicola paper says:—"After a long spell of dry weather, which caused nearly all the wells and cisterns in the city to become dry, on Wednesday night last the floodgates of heaven were opened, and another such a rain we have not had in the memory of the "oldest inhabitants." It continued to rain incessantly for about forty-eight hours, accompanied on Thursday night with heavy thunder, lightning and wind. The weather for the last or three days has been lowery and unseasonably warm, indicating more rain."

☞ Mr. Guthrie, Secretary of the Treasury, advertises for Proposals for erecting the new Custom House, Post Office, and Court Room in this city. Proposals to be sent to the Treasury Department at Washington, before February 16, and to be opened at 10 A. M. on that day. No proposals will be received by the lump—but must be specific and detailed, for labor and materials.

UNBANKABLE BILLS.—The bills of the following banks are not received at the Suffolk Bank:

Massachusetts.—Cochituate and Grocers', of Boston; Manufacturers', of Georgetown.

Maine.—Maritime, of Bangor; Hallowell and Central, of Hallowell; Shipbuilders', of Rockland; Ellsworth, of Ellsworth;—China and Canton, of China.

New Hampshire.—Exeter, of Exeter;—Lancaster, of Lancaster.

Vermont.—Stark, of Bennington; South Royalton, of South Royalton.

Rhode Island.—Bank of the Republic and Mount Vernon, of Providence; Tiverton, of Tiverton; Farmers', of Wickford; R. I. Central, of East Greenwich.

Connecticut.—Eastern, of West Killingly: Woodbury, of Woodbury; Wooster, of Danbury.

☞ Installed at Brookline, N.H., on the 11th inst., Rev. T. P. Sawin, late City Missionary at Manchester. The Sermon was preached by Rev. E. E. Adams, of Nashua.

☞ The receiving ship Union, anchored off the Navy Yard, Philadelphia, was stove in by floating ice, Friday morning. Crew and stores saved by the Preble. The Union will probably be a total loss.

☞ The New York Evening Post understands that Mr. Jacob Little proposes to pay 25 per cent. in cash and 75 per cent. on time with interest to all his creditors, provided they all come in.

THE INDIAN TROUBLES.—*Baltimore, 18th*. The Savannah papers state that Gen. Harney has suspended hostilities against the Seminoles, in order to communicate to them the intentions of government toward them. It is believed at Tallahassee that the war will be concluded by negotiation.

ALBANY, N. Y., 18th.—The State Temperance Convention met at the capitol this morning, E. C. Delevan presiding. The meeting was fair in numbers and highly retpectable in character, many of the oldest and most influential temperance men in the State being present.

PARTIAL DEAFNESS AND DISCHARGES FROM THE EAR.—Dr. Hartley, Principal and Proprietor of the Philadelphia Ear Institution, is now in New York City, and generously offers to attend all persons suffering from affections of the Ear, without charge, until cured, thereby proving his success unequalled, and protecting the deaf from being swindled by paying self-styled Aurists exorbitant fees in advance, and the infliction of still more serious evils, by permitting the application of dangerous remedies by inexperienced and unskillful hands.

Dr. H. may here state, that he has no connection whatever with any person advertising to cure deafness. Neither has he given permission for the publication of a certificate, purporting to come from him, and cannot therefore, be responsible for any alarming consequences resulting from rashness and desperation. The loss of money may not be material to some persons, but the deprivation of one of the most important of the senses, ought to be regarded and treated with more than ordinary solicitude.

Deafness, noise in the head, and all disagreable discharges from the ear, speedily and permanently removed, without causing the least pain or inconvenience. A cure in all cases guaranteed where malformation does not exist.

Thirteen years' close and almost undivided attention to this branch of special practice, has enabled him to reduce his treatment to such a degree of sucess as to find the most obstinate cases yield by a steady attention to the means prescribed.

The destruction by fire of the Institution of which Dr Hartley was the head, having temporarily released him from his duties in Philadelphia, he will receive calls during each morning at 29 GREEN STREET, for one month only.

Treatment forwarded by Express to any part of the United States.

SWEETSER'S COMPOUND
Iceland Moss Candy,

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

LOCAL.

☞ Rt. Rev, Bishop Clark of Rhode Island, delivered the lecture before the Mercantile Lyceum on Friday evening.

It was on Man, as a soul or spirit—and was a Philosophical and Logical Essay, in opposition to the Materialist or Sadducee.

The orator describes the Body as the most curious, complicated, and perfect Machine; and the soul or spirit as the motive power, the living principle, the real force.

It was an interesting and popular lecture, evincing considerable research, great ingenuity, and ready and easy adaptation of thought and language.

It was delivered with the same good elocution and emphasis which have given the orator so much favor as a reader and speaker in the clerical office.

☞ The Journal devotes half a column to misrepresentation of Gift Concerts, and to blackguarding all who are connected therewith—including even those who buy tickets, to hear a capital musical performance, and get a valuable gift besides, if they should be so lucky. Now we notice this tirade, only to correct its mis-state-statements.

In the first place, the statement of the Journal, that we "seem to take in high dudgeon" their last week's article denouncing these entertainments—is false, as it stands; we cared nothing for that 'notice,' and barely alluded to it, except to deny the sweeping statement that all the music offered at these concerts had been inferior—when everybody here whose opinion in musical matters is worth a straw, knows that the very opposite is the case, and that these concerts have hardly been equalled by any others given here during the same time. Mr. Satter's equal, as a pianist, has probably never appeared in Portsmouth—and the grand piano upon which he performs here—always to the delight and astonishment of hundreds, of the most respectable ladies and gentlemen in this and the neighboring towns—is the only instrument of the kind in New Hampshire, if indeed there is another this side of Boston. And Mr. Thompson is one of the most, if not *the* most popular singer in New England. The former concerts are matters of record with all who attended them; the programme for the coming one, speaks for itself.

Uncle Toby has had nothing whatever to say, in these columns, concerning this subject—the junior editor is alone responsible.

We don't see any material difference in "the lot" which is fairly "cast into the lap"—whether in bible or modern times. If the object or accompanying circumstances make the odds — this case is certainly as free from objection as any other.

The Journal sees a resemblance between Jonah's case and "all lottery dupes," in their getting "sucked in." Perhaps the editor has forgotton that Jonah was spued up again—probably because he officiously meddled with the business of his subterranean neighbors. We are informed by a gentleman of reliability, who always improves the opportunity to enjoy gift concerts, that he has had tickets for a lottery printed at the Journal office, and no questions asked — no public bitter denouncement. Why not?

The Journal does not know who are the managers of this concert. Well, we can tell them that the same individual who started the Old Folks' Concerts here, and was one of the first to start Musical Conventions, has successfully, with able assistance, carried through the four Gift Concerts—and is alone responsible for the success and fairness of the one under consideration: viz., the writer hereof. Mr. Thompson and Mr. Satter have charge of the music only—and what they can't do, needn't be done. We have no fears for the success of the thing, in any particular.

No, there is no more truth than we intended, in the statement that "the music is more than half the attraction,"—we meant just what we said. To be sure, the five splendid Pianos distributed about here have been somewhat attractive—as doubtless the fine instrument to be given away next Tuesday night, will prove.

As to getting all the ticket-holders into the temple—probably they are competent to look out for their own interests. We have, however, seen 1400 persons in the Temple. And besides, nobody ever pretended that the music is *all* the attraction—the list of gifts will not fail to interest many.

Last but no least, is the statement of the Journal, that no moral or law-abiding men, or "women who would not be found in a nest of gamblers," attend these concerts. We will close by stating that no concerts here have larger or better audiences—and that the insult applies to many of our best citizens, including the entire family of the editor of the Journal. P.

FIRE INSURANCE.—The promptness with which the Home Insurance Company of New York, (of which John S. Harvey & Son are agents in this city) settles and pays its losses, is worthy the consideration of all who wish to be insured in a good and reliable company. The loss and damage to Mr. Herman Remick's house and furniture, on Islington street, Dec. 1st, has been paid. The heavy loss that occurred on Sunday evening last, to the shop and stock of Mr. Thomas S. Nowell, on McDonough street, has been promptly and satisfactorily adjusted, and was paid yesterday,—which enables Mr. Nowell to resume his business again almost without interruption.

☞ Rev. N. Medberry, City Missionary, will preach at Hanover Street Chapel to-morrow.

☞ See Auction column, for sales to-day of a House, a Pew, and miscellaneous articles.

THE MINNESOTA INDIANS.—*Washington, Dec.* 18.—Frequent complaints being made of neglect by federal agents, of the interests of the Indians in Minnesota, Gen. Shields's visit to Washington has some connection with that subject.

The Message.—Mr. Campbell of Ohio in vain endeavored to-day to rid the House of debate on the President's message, in order to proceed to the consideration of the appropriation bills. Many members desire to speak on topics contained in the message.

ARREST.—*Louisville, Dec.* 18.—Officer Bligh arrested, while at Superior last evening, on board the Cincinnati mail boat Superior, Elijah Anderson, a negro blacksmith, having shops at Cleaveland, Ohio, and Madison, Indiana, who is charged with enticing negroes from Carrollton, Kentucky. Anderson was going to Cincinnati, but was brought here and lodged in jail. To-day he was taken to Carrollton. He is said to be a brother of the Rev. Mr. Anderson, who was arrested a few days ago.

CINCINNATI, Dec. 18.—A railroad Accident occurred on the Pitsburg, Fort Wayne and Chicago Railroad, on Friday last, near Lima, Ohio. One passenger car was precipitated down an embankment by the breaking of an axle. A lady from Iowa was instantly killed, and 8 or 10 other persons seriously injured.

Navigation Suspended.—The Missouri, Upper Mississipi, and Illinois rivers are gorged with ice, and navigation is suspended.

THE NEGRO MANIA.—*Gallatin, Tenn., 17th.*—Thirty negroes have been arrested on suspicion of being concerned in the conspiracy. The citizens have appointed a committee to examine into the matter.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In fitting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it, the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuT&hS 6m

Sunny Side
PARLOR OVEN STOVE

JUST received, (per schooner Carpo,) another lot of those favorite Parlor Stoves. Customers who have been waiting for them can now be supplied.

To those who are unacquainted with them, I would say, that they combine the two qualities of a truly good and ornamental Stove, and at the same time can be relied upon to bake and boil when required. The demand for, and convenience of such a desideratum has been the cause of much and continued effort among manufacturers, and now the universal satisfaction the stove gives proves it to be the best Parlor Oven Stove ever manufactured. G. N. CARLETON,
d14 15 Daniel street.

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves.

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,
d1 46 Market street.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

may be found at the Subscriber's store.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING
Gas Lamp!
PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps. If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from any thing injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. H. CHEESEMAN, Box No. 4531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

If you want a GOOD PAPER subscribe for

"THE NATION,"

The most popular Weekly in America, which has immediately upon its issue, sprung into an IMMENSE CIRCULATION.

This rapid success is unprecedented in the history of Journalism, and can only be accounted for by the fact that the Proprietors have employed, without regard to expense, the

STAR WRITERS OF AMERICA.

The NATION is the *only* paper which contains the witty, humorous and side-splitting sketches of that comical genius, and CHRIVALLED HUMORIST, KNIGHT RUSS OCKSIDE, M. D., of which series, one sketch alone is worth the whole years subscription.

THE NATION

is edited by

S. M. BIGELOW, AND

MRS. E. D. E. N. SOUTHWORTH,

WHO IS WELL KNOWN as one of the MOST POPULAR WRITERS IN AMERICA.

In addition to the above we have engaged as Contributors;

Clara Moreton, Henry W. Herbert,
Alice Cary, W. W. Fosdick,
Mrs. A. E. Law, C. A. Page,
Mrs. E. F. Ellet, Ben Casseday,
Park Benjamin, W. P. Brannan,
and numerous others.

TO THE FAIR SEX

we particularly commend our sheet. Their department will be Edited with the utmost care and no expense or labor spared to render the columns devoted to their especial benefit, unusually BRILLIANT, ATTRACTIVE, INSTRUCTIVE AND ORNAMENTAL.

The Farmers' and Planters' Corner

Will contain Practical Suggestions and Agricultural Hints, contributed and culled from sources the most reliable, and containing information which will prove to them in the course of a single year, of almost incalculable benefit.

The other departments of our paper will receive the attention they respectively demand, each being especially and carefully prepared to meet the varied tastes of the several classes of its readers. Among these we may mention

Original Stories and Poems, Editorial Ramblings and Sketchings, Spicy City News, Washington Gossip, New York Chit Chat, the Latest Paris Fashions, Practical Receipts for the Household and Toilet, "The Little Ones" Department, Gems from Prose and Poetry, Reader's Guide, Translations, Historical Sketches, &c., &c.

The NATION is issued in Quarto Form, (eight pages,) and each number will contain at least 2 original engravings, thus furnishing our subscribers at the end of the year with a volume containing 416 large size, beautifully printed pages of

UNSURPASSED NOVELLETTES, SKETCHES, &c., together with

OVER 100 ORIGINAL ILLUSTRATIONS.

The NATION is sent at the following remarkably low Subscription and Clubbing TERMS: invariably in advance.

Single Copies,		$3 00 per annum
Two	(to one address,)	5 00 "
Three "		5 00 "
Six "		9 00 "
Ten "		15 00 "

☞ And one copy free to the getter up of the Club of TEN.

All those sending us subscriptions from the British Provinces, must enclose, in addition to the subscription price, 25 cents for each subscriber, as we are compelled to prepay the United States postage

All letters containing money should be registered, and directed plainly, and they will come at our risk, otherwise we are not responsable for them.

Specimen copies will be sent free to Post Masters, Agents, and all who wish to get a club;—to all others, on receipt of four cents in stamps. The expense of registering is only 5 cents. Address

Among hundreds of complimentary notices, we have received from newspapers in every section of the country, we quote the following extracts:

"The Nation appears in clear large type on snow white paper, and is richly adorned with illustrations."—*N. Y. Sun.*

"It will attain a high position in the literary world."—*Philadelphia Daily News.*

"It is one of the best weeklies now published, and we take pleasure in bringing it to the notice of the reading public."—*Harrisburg, Pa. Herald.*

"The talent and energy of the proprietors, its original and interesting contents, and the beauty of the typography cannot fail to secure for it a general circulation."—*Williamsburg, Pa. Ind. Press.*

"As a literary and family journal, we have no hesitation in pronouncing it the best among our exchanges. We advise the Ladies to procure it without delay."—*Patton, Pa. Republican.*

"We dislike puffing city emanations, but in this case we are bound to give way to merit. Unlike many city cotemporaries, the Nation is composed of sound substantial and useful matter, and is not filled up with an overdose of flimsy, wishy-washy stuff from the hands of crack brained authors."—*Erie City Dispatch.*

"It has the most beautiful engraved head we ever saw, and are deeply entertaining, truly delicious and soul-absorbing." *Williamsburg, Va., Gaz.*

"There is room for just such a paper, and it has secured two as true heads and hearts to control its columns as the literary and social world holds."—*Wellborough, Pa. Agitator.*

"It will soon becom a leading paper at the fire side."—*Boonville, Mo. Observer.*

"We seldom endorse northern papers, but in this instance we are forced to overcome our prejudice, and commend the "Nation" to our readers"—*Troy, Ala. Bulletin.* d13 w4t

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for severs years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls Stoves. Also, Shop and Box Stoves. Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove, for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the largest assortment, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tested and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire reliability of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING,

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. In truth, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

MANUFACTURED WINES.

The rigors of the Maine Law have fallen lightly upon the heads of the wine drinkers, and there are many who daily stretch their limbs beneath the table after dinner, and sipping the contents of their glasses, discourse learnedly of the qualities of their exhilairting beverages. They charm themselves with the pleasing delusion that they are drinking choice and rare varieties of genuine and delicate wines, when in fact they are not drinking genuine wine of any sort. The New York Times, in an interesting article upon the subject, observes that one may procure at any of our hotels or large eating houses, wine which purports to be Clos Vougeot, Romanee Conte, Mont Rachet, Johannisberg, Rudesheisuer or Steinberg, at rates varying from three to fifteen dollars a bottle; and as for choice Sherry, Madeira and Port, they are supplied *ad libitum* at every saloon. Now it is a fact that all the Clos Vougeot wine in the world is grown upon a single farm of fifty acres in Burgundy. The farm is owned by a nobleman who uses a great deal himself, gives a great deal away, and sells the residue. The most of this residue is probably consumed by the wealthy residents of the continent—and still, if we may believe the wine lists of our own country, there is enough left to keep all the hotels, private houses and drinking saloons of the western continent constantly supplied with it!

The Romanee Contee wine grows on a single farm of *six acres and a half*. The south side of a single hill in Germany produces all the Johannisberg in the world; and yet anybody who chooses to order Johannisberg at any hotel, or of any wine-dealer in the city, will have it delivered at very short notice. A single small valley of Madeira produces all the Malmsey wine. Steinberg wine grows exclusively in the vineyard of a suppressed monastery. The district of Xeres, from which Sherry is produced, is of very small extent, and its limits are accurately defined. Genuine Port wine is produced only within comparatively narrow limits. And the same things held true of Champagne.

The Times thinks that there would be no risk in declaring that there never was a bottle of Clos Vougeot, Romanee Contee, or Johannisberg wine, within the limits of the United States. It says that not one bottle in ten thousand of the Champagne drank in this country is genuine vineyard grown Champagne, and not one-tenth of the Sherry consumed is Sherry.

The fact is that nineteen-twentieths of all the wines and brandies drank in this country—and nine hundred and ninety-nine thousandths of all the rare and costly wines over which our high livers smack their lips and roll their eyes and astonish their epicurean friends, are manufactured for the market—made up by a skilful compounding of drugs, with infusions of flavoring matter and a basis of alcoholic or vinous material, so as to resemble any brand or sort of liquid that may be desired. England and France are the great fields of this manufacture, though it is beginning to be prosecuted in this country to a very considerable extent. But an order for any kind of wine that may be wanted—for Clos Vougeot, Johannisberg, or delicate Sherry, with directions for a particular flavor, a specific aroma, or a specially delicate *bouquet*—sent to England will be filled promptly and to any extent. More of any brand can be brought over in a single cargo, than the entire region where alone it grows can produce in years.

A little more than a month ago, we copied from a London police force report, the evidence of a famous wine dealer named Osborne, in which he stated that it was his *practice* to buy up all the spoiled, sour French wines he could get at low prices—pay duties on them as vinegar—store them in the London Docks—take them out and pour them all into vats—mix with them a certain quantity of French brandy—*put into them also certain preparations of his own*—put them up into hogsheads marked Old Port, and sell them as the choicest Port wines at from $100 to $140 a hogshead. This, there is no doubt at all, is very extensively practiced by large dealers in France and England; and those who buy from them to supply the American market, when they are not their accomplices are their victims. And the wine-drinkers of the United States, from the lowest to the highest, swig the decoctions of these wine fabricators in ninety-nine cases out of a hundred, instead of the juice of the grape, over which they grow so rapturously and poetically eloquent.

CANADIAN FUGITIVE SLAVE LAW.—It is an old saying, that to hear the news, one has to go away from home. We find this exemplified in the following paragraph, which we notice has been going the rounds of the American press:

"We see it stated in the Canada papers, that a movement is on foot in Canada to secure the passage of an Act of Parliament, by which fugitives may be sent back to the United States."

How such a story could have got into circulation, we are at a loss to imagine.—Certain, however, we are, that it was never "stated in Canada papers."—*Montreal Pilot, Nov. 15.*

We can very easily "imagine" that the story was made for circulation, by some ingenious apologist for slavery, who, not finding facts to suit him, set up the manufacture of fabrication.

THE LUXURY OF DOING GOOD.—Dr. Johnson, who carried a cripple on his back along Cheapside, has found a rival. The Countess of Ellesmere was in Worsley the other day, when she saw an old woman, named Margaret Berry who had been to the coalpit for a barrowful of coals (about a hundred weight), and was then resting with her load. The noble Countess, who, (we quote the Liverpool Albion) is one of those truly noble women who delight in the "gentle luxury of doing good," stepped up to the poor woman, and, accosting her with the words, "You seem rather fatigued—I will give you a lift," forthwith took up the barrow, and wheeled it a distance of at least a hundred and fifty yards.

UNION CHURCH, PORTLAND.

The Dedication of this house, built for a new society, under the ministry of Rev. H. D. Moore, late of this city, took place on Thursday, Dec. 10. The Advertiser says:

The sermon preached by the Pastor was from 1 Timothy, 3; 14-15. It was an exposition of the preacher's idea of the Christian Church under the following heads: What is the Church? What is it *to* the World? What is it *in* the World? What is it *for* the World? The several points were presented and enforced with a clearness of statement, precision of analysis, force of logic and warmth and glow of eloquent utterance, which we have seldom heard equaled. At the close of his sermon, Mr. Moore referred in a few feeling and appropriate words to the building of the new church and the general sympathy with which the enterprise had been providentially favored.

We congratulate the Union Congregation on the happy auspices which have thus far attended their course, and which still seem to increase about them as they settle down in their beautiful place of worship.

Though a small matter, we gladly take this occasion to commend a method which was adopted at the services yesterday. We observed that those gentlemen who seated the congregation, did it, without regard to sex, just in the order of arrival. If a gentleman was shown into an empty pew, he took his seat at the farther end, and if a lady was shown next, he was requested not to move, and she seated herself next to him. This is *right*. In the House of God one end of the pew is as good as the other—and to have four or five stalwart men, in the most solemn part of the services, clatter out into the aisle that a lady may push past them to the "head," is unseemly and cannot be "polite."—We are glad to see this beginning of a needed reform.

While on a visit down East, a few weeks ago, we were favored with an opportunity to examine this elegant new church edifice—the speedy construction of which is an example of the enterprise of Portland. The ground was broke on the 29th of April last, and on the 18th of December—in eight months, the building is all completed. The style is the Lombard-Gothic—the comparatively low tower, of brick, with freestone trimmings—reminding us of the pictures of heathen temples. The building is large, having 140 pews on the floor—which are upholstered, and furnished with crickets, book-racks, and four books (temple melodies—the music with the words of the hymns) each.

There is a gallery only in the end opposite the pulpit—which last sets low, and the organ (a large and excellent instrument) is behind the minister. The singing is to be "congregational," with only a single voice near the organ to direct.—Dr. Dwight's church in Portland has already adopted this method, and several other societies there are making arrangements for congregational singing.

The building, which is of brick, with freestone finish, is very handsome; and the interior arrangements most complete—having a spacious vestry and several other fine rooms for church use, &c., under the body of the house. The cost of the house was, we think, about $30,000—the chime of bells with which it is surmounted, costing $6000 more; and the organ $4000.

The object of most interest to the public, is the chime of nine bells, the weight of the largest of which is 2492 lbs., and of the whole 8589 lbs. The voice of the Big Bell is E Natural as the keynote of the chime, and it is played on 4 sharps and 3 sharps. The society and city are indebted for this peal of bells to the subscriptions from citizens of all denominations. Good judges pronounce this chime equal to any in the country.

The windows are of stained glass, and the interior of the whole building is beautifully frescoed;—the outside is to be covered with mastick.

The Society worshipping there, (and over which Rev. Mr. Moore is to be installed at an early day,) is large and flourishing; and, as its name indicates, is a sort of "independent" body. We congratulate our friend Moore, and the Union Church, on their fine prospects—and trust the new relation may be beneficial to all parties.

LAWRENCE ITEMS.—In Lawrence on Tuesday, says the Lawrence Courier, Owen Brady dashed out his brains by falling headlong from the roof of the City Hall. He leaves a family. He was a man of considerable influence among his Irish countrymen.

In a row on Monday night, a sailor named Hickey inflicted several severe wounds on an Irishman named Kenney and an Englishman named Haney with a sheath knife. They had interfered to quiet the disturbance. Kenney will probably recover, but the case of Haney is doubtful.

Correspondence of the Chronicle.

VARIETIES IN EXETER.

EXETER, Dec. 20, 1856.

Dear Chronicle:—This week has been quite a lively one for old Exeter, which is generally not over bustling. On Tuesday, the U. S. District Court held a session, Judge Harvey presiding. The Grand Jury not being present, no indictments were brought in; and the criminal cases will probably be tried at Portsmouth at the next session of the Court.

The winter term of Phillips' Academy commenced on Wednesday, with a very full attendance. This old and favorite institution still maintains its deservedly high reputation.

During the week, the Rockingham Conference of Congregational Ministers, have held meetings at the First Congregational Church, which have been well attended.

"Old Folks' Concerts," it seems, have not entirely gone out of fashion—for one came off at our Town Hall on Tuesday evening, the proceeds to be given to the poor. The audience was quite large, and the receipts must have been considerable. Will the venerables at Portsmouth give more of their popular Concerts this winter? [We think yes.—*Ed. Chron.*]

The great affair of the week, however, was the Fremont Supper, which took place at the new Town Hall on Thursday evening. Five tables loaded with good things, were set, the length of the Hall, and it is estimated that five hundred persons were present. Hon. Amos Tuck presided, assisted by eight Vice Presidents. If the Fremonters were not "down in the mouth" over the election, it is pretty certain that the eatables were in that condition, at the close of the exercises. Speeches were made by citizens of Exeter and vicinity, and all agree in saying they had a good time.

Everybody hereabouts called Thursday one of the coldest days of the season—the thermometer at 10° below zero—and Mr. Merriam's certificate to that effect, only is wanting, to put down the 18th as a "stiff one." More anon. F. G.

JUVENILE INTEMPERANCE.

The disastrous Wells and Rum campaign will not soon cease to be felt, in its influences on New Hampshire. The mixing of Temperance with politics is far worse than mixing politics with Temperance. One party only made the mixture last spring, and in such a way, as to damage equally their own future respectability and the morals of the community. For months a daily paper was circulated in immense quantities, and often gratuitously, filled with really able arguments, to show the wickedness, folly and impracticability of one of the best laws I ever read. The immediate result was, that the men who so lavishly spent their money lost it and the election, and the next succeeding.

Secondly, they fixed it so that their political opponents could do nothing to enforce the law, without injuring their party.—Thirdly, I am told that many men, before abstinent, then began drinking, out of defiance to the law, and have not left off since. Fourthly, clergymen can now make no move in the cause of Temperance, without being charged with "meddling with politics;" and the same may be said of preaching against slavery, lying, and I fear, soon, polygamy.

But another feature has recently forced itself on my notice. I learn now, that the same class of lads that smoke because it is manly, are extensively taking to drink, from the same motive. The name of a large boy, the son of a judge, was given me, who is occasionally seen the worse for liquor. But I have just learned a case worthy of the palmiest days of the monster. A teacher noticed a peculiarity in the manner of a scholar, every day, towards the close of school. Watching him one day, he thought he saw him slip something into his pocket, as he was going out at recess; he called him back, telling him he had now time to show him a sum in which he had wanted aid. He sat down by him, and soon succeeded in pulling out of his pocket a bottle of spirits!

What shall be the end of these things? A new crop of drunkards seems springing up in our midst. Shall we have the temperance war to wage over again, with the patronage of the Federal Government arrayed against us? Or will the party whose false move last winter has endangered their chances of ever carrying the State again, themselves re-consider the step, and set the example of enforcing wholesome laws.

Yours, ELACHISTOS.

☞ Judge Smith, Police Magistrate of Manchester, having recently formed a copartnership with Daniel Clark, Esq., in the law business, will resign his office, the emoluments of which are $800 per year.

WASHINGTON NEWS.

PACIFIC RAILROAD, &c.—The Washington correspondent of the Boston Advertiser under date of Dec. 19, says:

Quite a number of railroad men are here, including some from New England, to see what can be done about the construction of a railroad to the Pacific by aid of the general government. The chief difficulty is to keep the measure clear of the dishonest schemes of outside parties who seek to make the initiation of this great work the means of enriching themselves at the public expense. The presence here, upon the business of a legitimate railroad bill, of men of high standing in the community, gives much promise that a measure may be may be matured, alike practical, honorable and successful. If *such* a bill can be arranged it will pass; if the thieves get the upper hand, the good men will retire from it, and the whole thing will again fall through.

In the Senate, Mr. Wilson having the floor, quoted the remarks of Mr. Webster in eulogy of the ordinance of 1787, and denied that Massachusetts had ever attempted to interfere with the constitutional rights of the people of the Southern States.

Mr. Wilson commented upon the language of the President's message as applied to the republican party, and said that the charge that they were engaged in a revolutionary movement which could only lead to civil war, was full of partizan malignity. There was no truth or justice in it. Mr. Pierce came into power almost unanimously, but would go out with the bitter hatred of thousands of men who voted for him. Like one of the early Dutch Governors of New York, he came in with very little opposition, and would go out with none at all.

In the House, the Senate bill of last session authorizing the people of Kansas to form a constitution and State government, was referred to the Committee on Territories.

The other Senate bills, lying over from the first session, were referred to the appropriate committees, including many relative to Harbor and River Improvements.

Three days, commencing from the third Tuesday in January, were set apart for the consideration of territorial business.

We have a report from Washington, that a bill will be reported to equalize the mileage, which now ranges from $17 to $5960 a session; also a bill to subtract $25 or $30 per day from the pay of members who voluntarily absent. It is rumored that the petition of the inhabitants of Arizonia for a territorial government will be refused.

A LIVE YANKEE.—We learn that our old friend Mr. Thomas Richardson, for years employed at and latterly joint partner in the tailoring establishment of Fernald & Co., Portland—one of the largest and best conducted, and most successful custom clothing houses in New England, has accepted a tempting offer to go to New Orleans, and engage in a new and lucrative business there; and will speedily take up his residence in that city. Now that Tom has relinquished the *woollen* 'rag business,' we hope he will have the handling of a many 'rags" of another sort, as his industry and enterprise merit; and that the "cabbage"-head he may exchange for the head of the largest "Liberty"—and that his only bonds be chains of gold, or good paper at 1 per cent a month. Mr. R. is a Portsmouth boy, almost—that is, he *would* have been, if his mother hadn't moved away from here prior to his appearance on this sublunary sphere; and we wish success to all such—and to Tom, at all events.

A HERMIT'S IDEA OF BLISS.

BY DR. JOHNSON.

Hermit hoar, in solemn cell,
Wearing out life's evening gray,
Strike thy bosom, sage, and tell
What is bliss, and which the way.

Thus I spoke, and speaking si h'd,
Scarce repress'd the starting tear,
When the hoary sage replied,
Come, my lad, and drink some beer.

MAKING A FORTUNE BY ONE NUMBER.—In old times the lotteries with combination numbers perplexed the whole community. They were never comprehended. S. Swan & Co., Atalanta, Ga., and S. Swan, Montgomery, Ala., managers of "The Fort Gaines Academy Lottery," Atalanta, Ga., drawing on the 20th of December, and "The Southern Military Academy Lottery," at Mobile, Ala., drawing on the 30th of December, have introduced the simple plan of having only one number on their tickets, as they number them from one to thirty thousand. These are placed in a wheel, and a thousand or more are drawn out, one after another, while from another wheel the prizes are drawn out to meet them. Thus, if a person held a ticket numbered nine hundred and sixty-three, and that number were drawn, if, at the same time, from another wheel the prize of fifty thousand dollars were taken, the capital prize would be due to that person. This is very plain to any one; and it accounts for the fact that these lotteries are so very popular. A lady or gentleman can send to these honorable managers ten dollars (shares of halves and quarters in proportion), and they will receive tickets and the money for the prizes won. They do their business in this way because any one may purchase tickets legally in States where lotteries are authorized, the order by mail being equivalent to a purchase on the spot to which the letter is addressed. Making a fortune by one number is, therefore, quite possible, and, indeed, probable, for several persons recently have received sums of twenty and thirty thousand dollars from the above named gentlemen, after having risked only a few dollars, for a lucky number.—[Adv.

SWEETSER'S COMPOUND

Iceland Moss Candy,

an old established and effectual remedy for RECENT COLDS, COUGHS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs with find this Candy a pleasant, convenient and effectual agent for relief

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE CASES and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

LOCAL.

☞ The Gazette states that on Wednesday evening, a party of young ladies and gentlemen belonging to this city, attended a social gathering two or three miles out of town. On returning home, the weather was so severe, that a young lady of their number fainted away while crossing Sagamore Bridge, and could not proceed without the assistance of her companions, who were finally obliged to carry her some distance in their arms. At one house, the party report that they were positively refused admittance. but MR. JOSEPH FULLER, who resides near the South Cemetery, opened his house to the party, and himself and family exerted themselves to the utmost to relieve the sufferings of the young lady, until her friends could be summoned. She was carried home, and a physician attended her all night. The young lady has since somewhat recovered from the effects of the exposure and fatigue.

☞ The Gazette understands that the house of I. Goodwin, Esq., narrowly escaped conflagration a few evenings since. A curtain at one of the upper windows was set on fire by a lamp burning near it, the room being occupied at the time. A lady in the street sounded the cry of fire, and it was speedily extinguished.

Also, that an ineffectual attempt was made to fire the barn of Mr. Samuel Hall, on Sagamore Road, on Wednesday night last. It would seem rather easy work to fire a barn with a hay-mow in it, if "attempted."

For the Chronicle.

EEL HOLES.

PORTSMOUTH, Dec. 20, 1856.

Messrs. Editors:—The season has now arrived when old and young, male and female, enjoy themselves in the pleasant exercise of skating. For several evenings, both the North and South ponds have been visited by hundreds of both sexes, as on all pleasant moonlight evenings, when there is good skating.

Now a question that I wish to ask: Is there no way in which people could be made to stop cutting eel holes and endangering the lives of so many? I hope our City Fathers will take the matter in hand and will make a law prohibiting the cutting of these holes. Yours, in haste,

SKATER.

Answer.—The City Fa hers have no power in the premises. The Mill Ponds are not a highway.

☞ On the P. & C. Railroad, the passenger train will leave this city at 10 A.M. —and leave Concord at 3.30 P. M.

A freight train, with passenger car, will leave this city at 4 P. M., and Concord at 6.45, A. M.

☞ The alarm of fire, on Saturday evening, was occasioned by the burning of a chimney in the house of Mrs. Wm. Shillaber, No. 10 Ann Street.

☞ Temperance Meeting at the Temple this (Monday) evening, at 7 o'clock. Addresses by clergymen of the city.

☞ For the *best* places to buy Presents, see the advertising columns of the Daily and Weekly Chronicle.

FOREFATHER'S DAY.—To-day, being Dec. 22, is the anniversary of the landing from the Mayflower, at Plymouth—an event memorable for New. England, and auspicious for human liberty, conscience, and the right of private judgment, all over the world. Then and there was the foundation laid of free churches, free schools, and free speech,—often violated since, in acts that speak louder than words,—yet never to be forgotten, or lost sight off.

WHAT NEXT?—They are playing Uncle Tom's Cabin at the Wheeling (Va.) Theatre, and the papers of that city say that it draws "crowds of admiring auditors."

☞ Harper's Magazine for January is received by Jos. H. Foster; and our copy is promptly on hand from A. Williams & Co., Boston. A capital number.

A PRIME ASSORTMENT JUST RECEIVED and for sale by JONES & MENDUM, d22 at 29 Market St.

ALBANY, Dec. 19.—*New York State Temperance Convention.*—At the Temperance Convention, last evening, J. A. Wilder, from the committee reported a series of resolutions of which the following were adopted:—

That in the opinion of this society the provisions of the Constitution of the State are in no wise inconsistent with a comprehensive prohibitory law, and that such a law may be framed and receive the judiciary sanction of the Court of Appeals; calling upon all counties and districts to reorganize Temperance Societies and subscribe for the 'Prohibitionist' or other temperance papers; condemning the attempts to force upon the State a license system: declaring that the question is between prohibition and license, and that liquor as a beverage should be no more licensed than gambling.

The committee also reported in favor of urging Mr. Delavan to continue President of the society, but it was not acted on at the evening session. A long discussion was had, in which a strong determination to adhere to prohibition was expressed.

There was an excited discussion in the Convention this morning, over a motion to censure the Court of Appeals, for its actions on the Liquor Law. The motion was finally passed, in a modified form.

A resolution was adopted, repudiating all party alliances.

Mr. Delavan sent a letter to the Convention, declining the nomination for the Presidency, but he was subsequently induced to accept it. The Convention then nominated him for President of the State society, with a full list of other officers, and adjourned *sine die*.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The torture was unbearable. It was an awful sight. * * * The Mustang Liniment stpeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists, everywhere, and at my office, No. 51 Hanover St., Boston. au5*6m

WOOD'S HAIR RESTORATIVE.

We cannot refrain from calling the attention of our readers to the Hair Restorative of Prof. O. J. Wood & Co., of St. Louis. It will be seen that he has numerous certificates from persons of the highest character, to the merits of his Restorative. From positive knowledge we are also enabled to say, that it is in every sense what it professes to be, and we do not hesitate to pronounce it the finest preparation for the head and hair which has so far been devised by human ingenuity. We have seen it arrest threatened baldness, and restore to the head its original profusion of natural and glossy hair, and when the latter has been prematurely tinged with gray, we have seen it, like magic, restore the colors of youth and health. The distinguished property of this, we might truly say, miraculous "Restorative," is that it gives to the person who uses it the same head of hair that they wore in youth, thus acting in strict compliance with the rules of the first and greatest of all toilet makers—Nature. No one who has used it will hesitate to unite with us in this testimony to its peculiar merit.—[Covington (Ia.) People's Friend.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. n27 TuThs8 6m

PARLOR OVEN STOVE.

JUST received, (per schooner Carpo,) another lot of those favorite Parlor Stoves. Customers who have been waiting for them can now be supplied.

To those who are unacquainted with them, I would say, that they combine the two qualities of a truly good and ornamental Stove, and at the same time can be relied upon to bake and boil when required. The demand for, and convenience of such a desideratum has been the cause of much and continued effort among manufacturers, and now the universal satisfaction the stove gives proves it to be the best Parlor Oven Stove ever manufactured. G. N. CARLETON,

MacGregor Stoves.

THE subscriber has for sale all sizes of this long tried and justly celebrated Coal Stove, combining more good qualities than any stove ever made.

It will well heat more space with one ton of coal than any other stove. It will keep fire from 24 to 36 hours at a time, without renewing the fire or adding any fuel. It is a very handsome stove, and the heat from it is very agreeable—not a dry, suffocating air, such as is often generated by coal stoves.

Any one wishing to buy a Parlor Stove, should not fail to try a MacGregor. Please call and examine at E. A. STEVENS,

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town. —Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1856, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.

For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

RARE BENEFIT OF LAZINESS.—It has been common to sneer at the lazy man as one destined never to prosper, and an example to be shunned by those who would avoid misfortune and ill tides in this world's affairs. But the Cincinnati Enquirer tells a story of a fellow, the laziest dog for miles around in the country, who a few years ago, became possessed of certain property in Chicago. Too indolent to take care of it, he gave directions to have it sold, and did actually dispose of it at various times, but was too lazy to make out the deeds. Meantime the property increased enormously in value, and the delays caused by the man's laziness placed him, at the end of a few years, in the possession of an estate worth some $200,000, for which at the first he would gladly have accepted $20,000. There are men in these parts, who with his chance, have laziness enough to be worth untold millions.—*Hartford Press.*

EQUALITY OF REPRESENTATION.—At the late election, the District in Iowa represented in Congress by Hon. James Thorington, cast nearly 55,000 votes. The 1st District of South Carolina, represented by the Hon John McQueen, polled in all about 7540 votes. Mr. Thorington's District polled more votes than there are in the whole State of South Carolina.

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BERNARDSTON, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last seven years has shown it to possess superior virtues for the treatment of those complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for the purpose ever put out. With a bad cold I should scorn to pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup,* and the chief diseases of children. We know your friendship in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAL, IL., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has laboured under an affection of the lungs for the last forty years. HENRY L. PARKES, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IND., writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Scarce no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months labouring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily falling, until Dr. Stone, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and throw disturbed, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directories for their use and testimonials of their cures, of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove will many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $100 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trifling and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are stronger. Sales of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

TURKISH WOMEN.

Until lately, the East has remained covered with a thin veil from the view of the Western nations. Intercourse was difficult, and was confined to a few tourists, who ventured to the mouth of the straits of the Dardanelles. Travellers who occasionally dared to penetrate into the Ottoman empire, found everywhere the gates closed, so that their investigations were limited to what was exterior. They saw nothing of the domestic life of the Turks.

Now it is otherwise. Constantinople is hardly four or five days' sail from France. Every week, thousands of Europeans are conveyed by water to the banks of the Bosphorus; and the Mahometans, though not very communicative, are obliged to submit to the observation of strangers, some of their customs and modes of life. European women, in particular, have been admitted into the harem; and on their return to the West, have published their observations. Among others, is a work entitled, Present State of Turkey, by Mr. Ubicini, containing information on the opinions, character and manners of the Mahometan people.—From this book I shall cull a good part of what I shall say concerning Turkish women.

Mahomet had little regard to the female sex. Relying on physical force, and accustomed to savage life, he treated woman as an inferior being to man. Hence the unjust laws which direct the education of women among the Mussulmans. Girls, even of the best educated families, grow up in the harem without any development of the intellectual and moral faculties.

Rarely does a young Turkish woman know how to read. Her religious creed is only superficial. All that she learns is how to be beautiful, and to please the master who will one day appoint her destiny. Some travellers say that the Mussulmans treat, in general, their wives gently and kindly. But the female sex here, is not in the place God assigned. Woman is not regarded as a human creature, but simply an instrument, a means, a living thing.—Where is her moral liberty and her dignity?

Another fact also contributes to make almost null the education of girls. As a Mahometan woman is always shut up in the house, she has no employment. Occupations which, in the West, belong to women, are attended to by men in Turkey—such as needle work and embroidery.—Woman, in the East, has only to superintend the household, and take care of the small children. Mahomet regarded woman as the chief of domestic animals: and why then inspire in her a taste for study?

Polygamy is less general in Turkey than many suppose. The Koran says, indeed, "Marry such women as please you, to the number of two, three, and even four."—But the husband must give a dowry to his wife; he also owes her an honorable maintenance, with attendants suited to her birth. Except the Sultan, public officers, and some opulent proprietors, few Turks are rich enough to have the four wives authorised by their prophet. Yet woman in this country is not the true companion of man; her competitors are servants and slaves. "Whoever is not rich enough," says the Koran, "to take lawful wives, let him take faithful slaves."

The young girl is sometimes promised by her parents or tutors at the age of three or four years. Then she is married at twelve or thirteen years, and passes from her mother's harem to her husband's—exchanging one prison for another. The parties rarely see each other before marriage. All is done without them; their part is passive. Marriages are not attended with religious sanction. The *iman* who performs the ceremony is not there as a priest, but as civil magistrate. He inscribes on his register the marriage, with the conditions made by the relatives; witnesses append their seals instead of their signatures; and this simple form is binding. Marriage feasts are held apart—the women being separated from the men—and this lasts for three or four days. The poor—we do this justice to the Turks—are not forgotten on these occasions. "When the young lady is led to the bath," says Mr. Ubicini, "all the poor of the quarter are invited also.—On arriving, they lay off their ragged clothes in the ante room, and take, on going out of the bath, new clothes, with a sum of money proportioned to the rank and fortune of the maaried pair. * *

* These donations are sometimes large.—In 1849, at the marriage of the son of Rifaat Pasha, they amounted to a half a million of francs."

The condition of the women in the harem depends somewhat on her own and her husband's character. If she was previously in an elevated situation; if her parents were influential; if, in the matrimonial contract, her personal property was reserved to her; if, lastly, she has strong natural qualities of mind and a resolute will, she can preserve authority in her house; but she is never regared as the equal of her husband. She often remains standing in his presence, serves him at table, and must show him all deference and submision.

The life of women in the house of the rich is indolent. How can the day be filled up? No reading—I have already explained why; little or no music; no sewing with the needle. All her occupation is to dress, to load herself with ornaments, to go to the bath, to play childish games, to wander from one chamber to another, to receive female visitors; in this monotonous circle the hours of the harem are passed. The bath is the favorite pastime of the female sex in Turkey. It is exacted by law on Friday of each week. On other days, the women of several harems invite one another to partake together of this pleasure. Every well-furnished house contains one or more magnificently decorated bathing-rooms.

The women sometimes go out of their apartments, but with minute precautions. "What frightful disguises," says Mr. Ubicini. "Fancy a domino of large size—cloth in winter, silk in summer—with a collar falling upon the sholders, under which the woman wholly disappears. This is called *feredge*. The form of this cloak, the kind of stuff, is almost uniformly the same; the only difference is in the color.

To the *feredge* must be added the *yachmak*. This is a veil or bandage of white muslin, composed of two pieces, one covering the throat and lower part of the face to half the nose, while the other reaches from the eye-brows to the top of the head so as to leave only a narrow opening for the eyes. When you meet in the street a woman thus veiled, it is almost impossible to divine if she is young or old. * * Her husband may pass ten times by her side without recognizing her.

In spite of this state of constraint within the harem and abroad, the Turkish women do not complain of their lot, so accustomed are they to it. On the contrary, they pity the lot of the Christian ladies. One day the French ambassador's wife, visiting the wife of the pasha, the latter addressed her many questions upon the kind of life of the Western women, and at every answer, she cried out, "Alas! alas! must a woman in your country bring a dowry to her husband? Must she help him to his labors? She sews, embroiders, sells in shops, exercises a trade, like the wives of *Jehudi* (Jews.) And you say that your women can endure such a life? alas! alas!"

"But," said the French ambassador's wife, "do you feel, then, no desire to travel, to see other countries, other manners?

"No."

"But how do you pass the time? Are you not weary."

"Why?"

The Turkish woman did not understand even what weariness was, being so utterly destitute of ideas; for she saw nothing, read nothing—her thought never went beyond the narrow circle of domestic life.

The law of the Koran authorizes repudiation; the husband can break the conjugal tie at pleasure, providing he leaves to the repudiated woman her dowry. The wife, on her part, can ask for separation or divorce, but only in a case determined beforehand, and for reasons assigned. The Mussulman code goes into strange and disgusting details in this respect. The husband can take back the repudiated wife, but only after she has been married to another, and this other is dead, or has repudiated her in his turn. The Eastern legislator evidently intended to give the female sex some securities, but the barriers he provided are feeble against the passions of men.

The absence of women from society in the East, produces sad effects. The men do not feel the need of being polite in their speech and behavior, as among Christians. The art of conversation is not known among the Turks. They are grave, ceremonious, kind in their intercourse, but dull and taciturn. They have violated towards the female sex the law of God, and they are punished for it. It is impolite to ask an Osmanli news of his wife or daughters.

Some changes begin to appear in Eastern customs. Last year at the marriage of a pasha with the Sultan's daughter, some of the women invited, adopted the European fashions of clothing and head-dress. It would seem that these ladies were ambitious of the honor of copying the women of London and Paris. This seems unimportant at first sight; but the least innovation in the domestic habits of Turkey may have serious consequences. We await the effects of time and of European supremacy in the Ottoman Empire. The breach is made, and Western civilization will not retreat.—*N. Y. Observer.*

TUESDAY, DECEMBER 23, 1856.

GEN. WALKER.

The sympathizers with Gen. Walker in in New York, held a large meeting on Saturday evening, passed resolutions pledging their aid, and raised a subscription. Statements of proffered aid were also made. The President has issued an order for the arrest of Gen. Walker and others for a trespass upon the property of the Accessory Transit Company, and it is rumored that he has also given orders for the arrest of all shipments from New York for the aid of Walker.

At the fillibuster meeting above mentioned, Gen Ward B. Burnett, Colonel of the New York Regiment of Volunteers in the Mexican war, presided. Speeches were made by him, Mr. Oaksmith, Gen. Duff Green, Gen. Wheat, a distinguished officer of our army in the Mexican war, Gen. Green of Texas and others. Letters of sympathy were read from Gen. Quitman of Mississippi, Senator Jones of Tennessee, Gen. Walbridge of New York, and others. A series of resolutions, pledging aid to Walker, calling on the government to send national vessels to San Juan Del Norte and San Juan Del Sur, and endorsing Minister Wheeler's course in Nicaragua, was adopted. A collection was afterwards made, amounting to $1307. The committee were also notified that 1000 rifles were ready to be placed at their service, that the St. Nicholas Hotel would send by the steamer on Wednesday 100 barrels of bread, and the Metropolitan Hotel 5000 pounds of bacon, for the use of his army. It was also announced by Gen. Wheat that 2000 volunteers were ready to start from New Orleans, and that hundreds would leave New York on Wednesday next.

On the other hand, New York dispatches of Sunday tell us that—

The President of the United States has issued an order for the arrest of Cornelius K. Garrison, Chas. Morgan, and Gen. Wm. Walker, to answer to the Accessory Transit Co., in a plea for trespass, for converting and disposing of the goods and chattels of the Company to the value of $1,000,000; and also a further sum of $1,000,000 damages for interrupting their business.

The Herald Washington correspondent states that orders have been sent to the government officers in New York to stop all shipments of men, arms and provisions to Gen. Walker.

So it seems that President Pierce and the other great men here named are not exactly united on the Walker or fillibuster question, at the present time.

TITLES.—The Old Folks' Choir, in Exeter, advertise a Concert in this way—"The Musical *Faculty* of Exeter have the honor to announce," &c. Mr. Webster gives several and various definitions of the word "faculty"—the only one of which that will apply in this case, is, "the individuals constituting a scientific profession, or a branch of one, taken collectively." As the "Ode on *Science*" is contained in the collection of Ancient Harmony Revived, and sometimes in the programmes of Old Folks' Choirs,—their title may not be so far out of the way, after all.

☞ The Manchester papers kick up considerable of a dust about the union of the Concord and the Manchester & Lawrence Railroads—and the Mirror says, "no man can be elected Governor of New Hampshire who is not opposed to the union lease scheme. That is a plank that will stick out."

ROBBERY IN NORTH STREET.—In the Police Court, Boston, Manuel Joyce was charged with robbing Peter Nooley of gold coin and bills to the amount of $64, Friday night. Joyce keeps a drinking saloon in North street, and Nooley went in to get a drink, when Joyce knocked him down and robbed him. Joyce was held in $4000 for trial in the Municipal Court.

ACCIDENT.—A man named James McLaughlin fell in Ferry street, Boston, on Thursday night, while intoxicated, and was severely injured. When found by the Police he had nearly perished with cold. He was taken to the Station House and properly cared for.

☞ Stories for Christmas and Winter Evenings, is a fine collection of about a dozen stories, published by G. P. Putnam & Co., New Pork, and sold by A. Wilkins & Co., Boston, and by J. F. Shores, Jr., Portsmouth. Twelve lively romantic tales for 50 cts., in paper, 75 in cloth.

THE CASE OF DRED SCOTT.

The Washington correspondent of the New York Journal of Commerce gives the following clear account of the circumstances of the slave case which is now occupying the attention of the Supreme Court at Washington:

The slavery case now pending before the Supreme Court, attracts more attention, for the moment, than anything in Congress. The case of Dred Scott v. Sanford is the case referred to. It was argued at the last term of the Supreme Court, and a decision was deferred, and the case ordered to be re-argued at this term. This case was generally considered, at the late term, as a made up case,—and made up by politicians with a view to obtain a decision on prominent political questions. This may not, however, be the fact. When the case was first made in Missouri, and there argued and decided adversely to the claim of the parties for freedom; the point now brought up relative to the constitutionality of the 7th section af the act admitting Missouri, prohibiting slavery north of the line of 36° 30 was not made. It was brought by the defendant's counsel here. The facts of the case can be better understood by the following statement, than by the imperfect statement made in my letter yesterday.

Dr. Emerson, of the U. S. Army, took with him from Missouri, a slave named Dred Scott, as a body servant, to a military post at Rock Island, in the State of Illinois. After remaining there two years, he removed to Fort Snelling, which post is north of the line of 36° 30. At this last post a slave woman, brought there by Major Taliaferro, and owned by him, was married to Dred Scott, and they had two children, one of whom was born at this post, and another after these parties had returned to Missouri. Neither of these slaves were ever manumitted by their owners. But, under the Constitution of Illinois, slavery is prohibited, and Dred Scott could have asserted their right to freedom in that State. The other post where Scott and his wife resided, was in a territory from which slavery is excluded by the Missouri act of 1820.

Scott and his wife were sold by their owners to Sanford, against whom the suit was brought for their freedom. Scott claimed that, having been voluntarily carried by his owner into a free State, and having been there domiciled, he was, upon his voluntary return with his master, to Missouri, a free man there, in virtue of his temporary residence in free territory. The same claim was made in behalf of his wife. The Missouri Court decided adversely to the claim, on the ground that the temporary residence in a free State did not make them free in the State of Missouri, unless their owners had signified by some act an intention to manumit them by taking them into free territory,—which did not appear to be the fact in this case.—Dred Scott appeals to the U. S. Supreme Court.

One of the points now made is, that slavery was not constitutionally prohibited north of 36° 30, and that, therefore, the residence at Fort Snelling did not make slaves free. The case involves the right to travel with slaves through free territory, as in the Lemmon and Wheeler cases.

In the Supreme Court of the U. S., on the 18th, Mr. George P. Curtis appeared with Mr. Montgomery Blair as Dred's counsel, and argued in favor of the Missouri Compromise as Constitutional.

Mr. Blair said:

The Missouri Compromise was a sectional question, such as calls up the passions of sections in all countries. Nobody ever questioned its constitutionality until within a brief period. Mr. Calhoun, in 1830, though believing it a dangerous measure, did not say it was unconstitutional. That record continued until 1847, when that distinguished man broached the idea that slavery might extend into the territories.—The Court is now called upon to restrain an institution which, by act contemporaneous with the Constitution, is declared utterly violative of the institutions upon which republics are founded. We are now asked to change a policy, and upon the construction of a word in the Constitution—"territory"—decide whether this shall be a slave or free continent, and whether Congress has general sovereignty over this territory. His friends on the other side of the case say that Judge Marshall was an inspired man. But in this language he was loose. The looseness is not with the Judge's words, but with those who impeached them. Judge Marshall says;—"Upon the words 'rules and regulations' is founded the right to govern the territories." Does not this language warrant such a conclusion? If any man can conceive of any other territory separated from political government over it, his vision is clearer than mine. Judge Marshall says the power of Congress is unlimited, supreme—subject only to certain limitations imposed by the Constitution. It is known that there are no limitations forbidding the prohibition of slavery.

THE COBURN AND DALTON CASE.—The Lowell News says it is reported on good authority, that a majority of the Executive Council have been induced to recommend the pardon of Edward O. Coburn, now in Boston Jail, for the fatal assault on young Sumner, and that Gov. Gardner has declined to grant the pardon they recommend. The Boston Journal believes the report.

The Presidential electors of Alabama, on the occasion of giving their vote for President, unanimously recommended William L. Yancy for a place in the cabinet.

The South Carolina Legislature adjourned *sine die* on Saturday.

VOICES.

A voice, o'erburdened with a low, wild moaning,
Sighs out in sadness on the midnight air,
Like a lost spirit for its sins atoning—
Whose only whisper is the word "Despair."
The waves of sound throb wildly 'gainst the shutter,
And fast recede into the darksome night;
Trembling with sadness, like the partial flutter
Of white-winged doves in their uncertain flight

The Frost King is abroad, with magic finger
Twining in Earth's damp tresses icy curls;
While on her brow his icy kisses linger,
Till morn shall change them to a crown of pearls.
The naked trees fling out their quivering branches,
Like spectral fingers clasping shadowy forms,
While each hail-smitten crest in fury launches
A proud defiance to the hissing storms.

The foam tipped waves of Ocean far rebounding,—
The white keyed organ of the universe,—
In their wild, eager joy seem ever sounding
Their Maker's praises in majestic verse.
Far, far through rocky halls the anthem pealing,
Fills the vast caverns with the floods of song;
And on the listening ear comes softly stealing,
Like sighs of flowerets borne the breeze along.

O winds and waves! with a tumultuous thronging
Sad memories come on sorrow-laden wing;
Memories of one, who, with an earnest longing,
Drinks deep the inspiration which ye bring.
Your trembling lips pronounced a benediction,
Morning and evening, on her youthful pride;
And when bowed down beneath the great affliction,
Like a poor wounded dove she drooped her wings and died.

W. F. B. JACKSON.

CHAS. MESSER.—The Lowell News says: "About thirty years ago, one *Charles Messer*, who is supposed to be the oldest child of *Dudley Messer* and his wife *Phebe*, left his parents in the vicinity of Lowell and went to sea. Afterwards he settled in Texas, where he became the owner of some *three or four thousand acres of land*, and has recently died, leaving no issue. His parents or surviving relatives, if they can be found, are entitled to this property;—otherwise it will go to the State of Texas. If any of Charles Messer's heirs are now living, we can furnish them with the means of learning more about the property, and perhaps of getting possession of it. Such persons formerly did live in Hudson, N H., and at one time in Tyngsborough, Mass.

TIME'S CHANGES.—A creadable correspondent of Dwight's Boston Journal of Music, writing last week from Natick, forcibly illustrates the almost imperceptible fact, that we grow old. Though but a young man, a return to his native town, after several years' absence, and finding those who were children with him, occupying all the places of trust, honor and responsibility, causes him to moralize thus:

"Then I felt, 'I am growing old, John,' alas, and alack-a-day! and that the children already sit in the seats of their fathers. Speaking of children, the little ones, whose name is legion, are a constant marvel to me. I know that in the order of nature, children, like offences, must needs come, and that there is no woe denounced against those by whom they come. But when they go trooping by in squads, and I inquire, 'The fathers, where are they?' and learn that they for their pa and ma-ternity, go back only to the boys and girls of my school days, here comes in the wonder. You remember the pious epitaph upon the infant:

'She sprang up as a hoppergrass,
And was cut down as a sparrowgrass.'

The multitude of little folks seems to me to have sprung up like the hoppergrasses. Heaven forefend that they be cut down like the sparrowgrasses!!"

☞ Packet ship New York, from Liverpool for New York, with an assorted cargo and 300 passengers, went ashore near Barnegat, in the storm of Saturday night, and is full of water. An unknown ship also went ashore 3 miles south of Barnegat.

The ship *City* of New York, Capt. Salter, is reported as arriving at New York on Sunday. (See ship news.)

Both these ships, so nearly alike in name, sailed from Liverpool on the same day, with passengers, for New York.

☞ Not quite a freeman is he who willfully smothers a free sentiment. We copied, (at second hand) from the Montreal Herald, part of an article, going to show that the Canada papers have not proposed the enactment of a fugitive law.—We copied all we saw of the piece, at that time. Now we copy the remainder, which was cut off by some tender footed editor in New England.

No doubt there are many in the United States, who would delight in the passage of such an act, but we can assure them that such a statute will never disgrace the pages of Canadian history. A fugitive slave, when he has once reached the shores of Canada, is free, and it will ever remain so, though it does grate hard on the feelings of some of our American neighbors.

A Mr. Chapman, of Plainfield, Conn., while driving across the track of the Providence and Hartford Railroad, near that town, was thrown from his wagon by the cars, having his legs broken and his head badly bruised. It is feared he will not recover. He was an elderly man, and was so muffled that he did not hear the train.

LOCAL.

BUSINESS.—As we are frequently inquired of as to our charges for Advertising, we publish to-day a scale of prices for the insertion of notices of various sorts.

Our charges, it will be remembered, are for inserti n in *both the Daily and Weekly Chronicle*—by which the advertiser gets seven issues per week of his notices, instead of only one, as in weekly papers.

We have not much to say concerning the utility of advertising—if any business man does not appreciate it at this day, we pity him. A learned political economist has said, that the time will come when any man who pays more for store-rent than for advertising, will be considered an "old fogy." And why not? when a five-dollar advertisement will bring his wares to the notice of more eyes, than ten times that amount, if expended in paying the difference between the rent of a store where passers are thickest, and of another where they are few.

Granting, then, that the public know how to value advertising, and the Chronicle as a medium for communicating with each other—we ask the attention of all interested to our rates; and while acknowledging with thanks the liberal patronage we have ever enjoyed, we would just remind advertisers that there is always room for one more.

Contracts will commence with Jan. 1,—and may be for a month, a quarter, or a year.

JOB PRINTING.—We have just received several fonts of new and fashionable types, for Job Printing—and are constantly improving our facilities for Printing Posters, Handbills, Bill Heads, Labels, Cards, &c. Foster's Card Press can't be beat, for all work in its line.

☞ We are pleased to learn that Capt. A. L. Knowlton, who was injured by falling down a mast-hole, in the ship Sabine, at Boston, last week; was not so badly hurt as at first reported, and that he had sufficiently recovered to be able to return to his home in this city, on Saturday last.

ENTERTAINMENTS. — Gift Concert, this evening, at the Temple. A capital programme, to be performed by capital performers—and a list of Gifts as attractive.

The Fair in aid of the Portsmouth Cornet Band, commences at Jefferson Hall this evening. We wish them a rush.

☞ An Adjourned Term of the Court of Common Pleas commences in this city today at 10 o'clock.

CHRISTMAS.—We trust that all will enjoy a "Merrie Christmas," and that the day which is at hand, will be observed by us as a community; although in times past it has not been honored with all the outward pomp and ceremony which characterise its celebration in the ancestral land. Yet still it has been observed in a quiet way, and has been welcomed by us with heartfelt joy.

It is a day which tradition and long observance has designated as the Anniversary of Him who came to preach "peace on earth, and good will to men;" and as such it never should be over-looked and passed by, without observance by sincere believers in the divine mission of the Messiah. s.w.c.

☞ Mr. Joseph P. Morse is agent for Mrs. Stephens' New Monthly, a very neat and popular periodical, of which the January No. is before us; 12 1-2 cents per No., $1.50 per annum.

WILL CAMPHENE EXPLODE?—A well-informed writer in Fowler's "Life Illustrated," has an article on this subject—of which he assumes the negative. He does "not believe an explosion can be produced by camphene;" but says there are few who make any distinction between camphene and burning fluid—the former constituted chiefly of turpentine, and the latter of alcohol explosions of burning fluid are heralded as camphene accidents, until the great majority of the people, have become impressed with the idea that camphene is a material scarcely less explosive than gunpowder. "Camphene is a very inflammable material, and will ignite almost as readily as powder; and of course every thing of a combustible nature in close proximity, is then liable to take fire also. With any thing like ordinary care, no *such* disasters will ever transpire—and as for an *explosion*, that he regards as out of the question."

☞ The ladies of the First Unitarian Society, in Newmarket, will hold a Social Festival at the Town Hall in that town, on the evenings of the 24th and 25th inst., to which they invite their friends from the adjoining towns.

CONGRESS.

SATURDAY, Dec. 20.

The Senate not in session.

HOUSE.—Mr. Mace asked, but did not obtain leave, to report a bill prepared at the Post Office Department, and approved by the Post Office Committee, taxing lottery circulars and such classes of mail matter, with letter postage. Adjourned.

THE SLAVE EXCITEMENT.—*Louisville, Dec. 20.*—The Russellville Herald says the insurrection excitement still exists in the neighborhood of Volney and Gordonsville. A number of negroes had been arrested; one of whom pretended to know all about the plot, but said he would die before betraying it. He was ordered to be whipped, and received 750 lashes, when he died.

At Cadiz, Trigg Co., Ky., a free negro was hung yesterday, in accordance with the sentence of a Vigilance Committee.

A number of other negroes are in jail, some of whom will be hung. The excitement runs very high, and Judge Cook had called the Court for Christmas day.

All who are in want of spikes should send their orders to Blodgett, Brown, & Co., 80 and 82 Pearl St., for the celebrated *Burden's Pressed Boat, Ship, Brad and Countersunk Railroad Spike*, which is as cheap as it is excellent.

John Ross, President of the Cherokee Nation, represents in his Annual Message, that refinement, education and religion are steadily progressing among his people.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized th n any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. n27 TuT&hS 6m

SWEETSER'S COMPOUND

Iceland Moss Candy,

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs with find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in COMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

BURDEN'S

Pressed Boat. Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1860, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

SHEFFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of those complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should scorn pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough. Influenza.

BRATTLEBORO, MASS., Feb. 7, 1856.

DR. AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We and your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTREAL, L., writes, 26 Jan., 1856. "I had a bad Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKE, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done myself. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid. No could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO STEELEY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs have shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they will unprecedentedly upon the stomach of all men. They are safe and pleasant to take, but powerful to cure. The purgative properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and rear diseases, stimulate sluggish or disordered organs into their natural action, and impart health and tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls in Stoves. Also, Shop and Box Stoves. Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the low est prices.

Our Stock of Stoves comprises the *largest assortment,* of the best patterns, ever brought into this market, which I am determined to sell low or than can be bought at any other establishment in the State, wholesale and retail.

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the DIVIDED SWELL, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855.

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a more charming Instrument it is. It has been played on by Wallace, Doet, Hodges, Wm Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very truly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family sewing, and they are. The demand of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

LOTTERIES—GAMBLING—SPECULATION.—Lotteries have for many years been condemned by statute in New England; but yet in our principal cities there never has been a time probably when the sale of tickets has been entirely suppressed, and thousands of dollars are yearly given to the managers of lotteries in states where they are recognized as lawful, by the people of this state, in which the establishment of a lottery is a penal offence. Of late years there has been quite a revival of lottery enterprises under different names; and we have art distributions, prize sales, gift concerts, &c., without number. We scarcely ever have a Fair for the aid of a religious society or benevolent institution without prize cakes, grab bags, quilt lotteries, or other similar games of chance; and yet these are liberally patronized by the moral and religious ortion of the community. We have had several book sales here within a few years, when many were induced to buy books by the attraction of the prizes that were attached to them; and Major Ross, the soap man, was here recently, and disposed of hundreds of dollars' worth of soap, or rather he pocketed hundreds of dollars in exchange for a certain quantity of that article, by offering the chance of a prize to the purchaser. None of the participants in these schemes have been molested by the officers whose duty it is to execute the laws, probably for the reason that public sentiment generally does not condemn them; and although some in the community occasionally declaim against them, none do so where their complaints would be heeded—in the courts.

There are many kinds of lotteries which are not expressly forbidden by statute. One of the meanest of these is office-seeking, in which the blanks are out of all proportion to the prizes. Some sour, ill-natured husbands tell us that matrimony is a lottery, and that the chance of a prize is about equal to that of being swallowed in an earthquake; but we would not have our readers believe that such representations have caused us to refrain from taking a ticket. We are impressed with the belief that publishing newspapers may be classed among lotteries; and although the Ballot is the fifth we have engaged in, we have not yet drawn a fortune; but if we stick to it as long as some of our contemporaries have done, our investment of money, time and labor may perhaps prove profitable in the end.

All gambling is deemed immoral. All are gamblers, as we understand the term, who engage in games of chance. There will be radical differences of opinion in community as to what constitutes gambling; but on one point there is no dispute: it is unpardonable to lose. The man of wealth, no matter by what means obtained, whether by prize in lottery, strictly so called, or whether by smuggling, privateering, (we had almost said piraceering,) slave trading, or other alike honorable speculation, is countenanced and respected, while he who has been "broken" on the "wheel of fortune" meets only contumely and reproach from his fellow men. In our opinion there is just as much criminality in drawing lots for a certain advantage, as in shaking props for the same or its equivalent in money; and we cannot satisfy our mind that the speculator in stocks who, being posted up, sells to a greenhorn at the ruling rate today stocks that he knows will be almost valueless tomorrow, is more honorable than he who stakes his money on the throw of the dice or the turn of a card; or that the millionaire who enters into a combination to buy up and speculate upon the necessaries of life, by which the poor laboring millions are despoiled of their hard earnings, deserves the esteem and reverence of the community, while the poor dupe who loses his last shilling, to some expert thimble-rig operator is regarded with scorn and contempt. Horse-racing is becoming popular at agricultural fairs, and thousands of dollars are lost and won by betting on the result, and nobody is thought less of in the community on account of pocketing a hundred or two on the result of an election; and yet who will pretend that this species of gambling is any less reprehensible than staking the amount on any other game of chance; or in any rash mercantile adventure, such for instance as "Lord Dexter's" shipment of a cargo of warming pans to the West Indies?

It seems to us a nice point to decide where legitimate speculation ends and gambling begins, and we question whether gaming can be entirely suppressed by legal enactments, however stringent, and prosecuted, however vigorously. The evils of gambling, we think, may best be checked by moral means; by showing the evils a participation in it entails upon the gambler; by demonstrating that money obtained without toil rarely brings a blessing with it, and that in all schemes of a gambling character the chances are in favor of the schemer and against the players. Men who get up lotteries, establish faro banks, set up roulette tables, or embark in any other scheme of the kind, do so for profit; and the chances for the player to win are not equal to his liability to lose, and therefore whoever is entrapped into their schemes plays against odds, and where one wins, hundreds lose; and in nine cases out of ten the money won by such means is anything but a blessing to the winner. It almost invariably creates a distaste for useful labor, leads the *lucky* individual deeper into play, which almost inevitably ends in dissipation and penury. These facts should serve to deter men from the fascination of gaming of every description, and if they do not, we do not believe they will be deterred from it by legislative enactments. We shall at all times feel bound to exert what little influence we possess to discourage gambling and to commend honest industry as the most honorable and safe road to competence and respectability; but we shall not join with our neighbor of the Journal in calling upon the police to break up a gift concert and seize the property which belongs to the ticket-holders, so long as games of chance are tolerated at fairs to raise funds for religious purposes, and horse-racing and betting on elections is countenanced by the community.

"Our rallying cry will be disunion! Disunion! whenever we are threatened with such a fate. *The danger for the present has passed.*—OUR REMEDY HAS SUCCEEDED. WE WILL PRESERVE AND CHERISH THE REMEDY TO BE USED WHENEVER SIMILAR DANGERS OCCUR."—[Richmond (Va.) Enquirer.

Thus the slaveholders, after election, boast of the scheme by which northern doughfaces are frightened. We hope the threat to resort to it again when necessary will not be forgotten by those who have heretofore been duped by it.

Morning Chronicle.

WEDNESDAY, DECEMBER 24, 1856.

WASHINGTON DISPATCHES, of the 21st Dec., say, the House was engaged on Saturday on private bills. Quite a sectional fight was made in Committee of the Whole on the bill for the relief of the owner and crew of the fishing schooner Florilla, which was wrecked on the back side of Cape Cod, on the 3d of June, 1840, with a cargo of fish.

The case was not quite within the provisions of the general law, and the question was whether it was one of those special cases where Congress would grant relief.

The petitioners for relief belonged to Massachusetts, and the bill was ably advocated and engineered through the Committee by Mr. Hall of Massachusetts; and seemingly for this reason the South made a desperate fight upon it. They attempted to stave off action by filibustering; but it was no use, for the bill was reported to the House and passed.

Dispatches from Washington of the 22d say, the Court of Claims made a favorable decision in Captain Ericsson's case, giving him over $13,000, for his application of a ship propeller and steam machinery, and superintendence in the building of the steamer Princeton.

In private conversation, Secretary Marcy says the neutrality laws shall be rigidly enforced against those recruiting for Walker, as they were against Mr. Crampton and the British consuls.

Although Mr. Bernbeissel, the delegate from Utah, has had in his possession for months past, an application from the people of that territory for admission as a State into the Union, he will not present it this session.

The President gave a dinner party this afternoon, to Generals Shields, Quitman, Lane, Cushing, Col. Weller, and other officers associated with him in the Mexican War.

Mr. Frederick Perkins, an American literary gentleman, lately died in London. He was in his usual health on the morning of his decease, and went to the reading room of the British Museum. While there he complained of being unwell, and was conveyed to his hotel, where he died in a short time. He was a young man of fine talents and very agreeable address. He was a contributor to Putnam's Magazine, and one of his communications having attracted much attention, the author was called to the assistant editor's chair, which post he filled until the magazine passed into the hands of the present proprietors. Among his contributions were an account of a trip to the White Mountains, called "Wood Notes," "Connecticut Georgics," and "My Three Conversations with Miss Chester." Mr. Perkins was a native of Hartford, a grandson of Dr. Lyman Beecher, and 25 to 27 years of age.

THE LATEST ANECDOTE OF ROSSINI.—A few days ago, a poor organ grinder stopped on the Boulevard, at Paris, and began playing the air "Di Tanti Palpiti." A crowd collected round him, and all at once an old gentleman pushed forward and cries out "Quicker, quicker, I tell you it is *allegro*." "Sir," said the lad, "I do not know what you mean." "Then I will show you," and seizing the handle of the organ he turned it more rapidly. The day after the lad again stopped at the same spot and played the same air in much quicker time, just as he had been told. "Bravo,!" cried a voice from the balcony of a house, and at the same moment a piece of money wrapped up in paper was thrown out to recompense the organ-grinder. The paper, instead of a simple sou, contained a double Napoleon, and the old gentleman who had acted thus was Rossini himself.

ARMY OF LOCUSTS.—Letters from Shanghai mention an extraordinary flight of locusts which had passed over the city, continuing for several days, and coming apparently from the northwest. On the afternoon of the 17th of September they literally darkened the air for about an hour, but all day it was one continued flight. Millions upon millions fell into the river. The French frigate Virginie saw them, it is said, fifty miles out at sea. There had been plentiful falls of rain, but locusts had committed frightful ravages upon the grain crop; and, altogether, the season had been a most unfortunate one for the Chinese—first, the long drought, and then this plague of locusts. The natives say such a sight has not been witnessed these fifty years.

It is remarkable that the only State in the Union which voted for the Know Nothing candidate for the Presidency was founded by Roman Catholics.

BLEEDING KANSAS.—A letter from Lawrence, K. T., Nov. 24, complains of sundry Committee men of the Kansas Aid Societies. The letter is signed by Col. J. A. Harvey, of free Kansas," and endorsed by a hundred others, including one young man from this city, and one other from this State.

The letter says:

I would say to those who intend coming to Kansas, come on your own responsibility, and then you know what to depend upon, for you cannot depend upon the assistance which is promised you, if you start under the promise of the Kansas Aid Society. * * * What are those to do this winter who now belong to the militia, which will be disbanded in a short time? What are the prisoners to do, if they have the good luck to get free from bondage? Can they get employment?—No! Can they go upon claims? No!—Will they be provided for? That is to be seen; or will they be left to shift for themselves and turn bandits for their support, which has already commenced, and which has been one cause of the difficulties in the Territory? For instance, the colonies from the South were sent in with the same guarantee as those of the north, with the addition of their claims being paid for when coming into market; and *their* committees have also proved faithless and dishonest.—And what was the result? Why, they were forced to rob and plunder for subsistence, and to raise means to get out of the Territory, and a war followed with Missouri, as she was charged with many of these crimes.

THE WRECKS.—Ship New York, ashore at Barnegat, is an old vessel, of about 800 tons, valued at $30,000, and owned by John B. Sardy; insured in Wall street. Her cargo is valued at $60,000, and is also insured principally in Wall st.

The passengers landed from the wreck of the ship New York are in a destitute condition. One man died on Sunday night, from hunger and exposure. Seven of the cabin passengers, who have arrived at Squan, report that Captain McKinnon, after setting them ashore in the long-boat, returned to the ship, and found the cabin in possession of the crew, who fell upon and beat him so badly that it is doubtful whether he survives.

The reported unknown vessel ashore at Barnegat is the British bark Tasso, of St. Johns. N. F., with a cargo of coffee and logwood. Four of the crew and two shoremen who went to their assistance were drowned in their attempts to reach shore.

RUN'S DOINGS.—Barney McCalligan, wife and two children were found on Friday night by the police in a cellar at No. 69 Salem street, Boston, without food, fire, and with but scanty clothing. Both parents were drunk. The family were properly cared for by the police.

NO ACCOUNTING FOR TASTES.—The Richmond Enquirer styles Wm. Cullen Bryant a "whining perpetrator of doggerel rhymes." Wordsworth said he was "the most finished poet in America." Opinions and tastes differ.

Cornelius Hughes of Conn., an agent of the underground railroad, has been arrested in Alexandria county, Va., for attempting to induce a slave to run away. The slaves informed against him.

☞ There has been formed in Dover the past season, a company of singers, called the Appolloneans, who are to start this week on a concert tour.

GREAT SNOW STORM AT THE WEST.—A late letter from Grinnell, Iowa, states that a snow storm commenced at 3 o'clock, P. M., the 1st inst., and lasted till noon on the 3d, and was very severe. The snow was blown into the buildings—hogs were buried out of sight in their pens—travelling was almost impossible. Many cattle were fairly driven by the severity of the storm to a long distance from the settlement, going helplessly before the wind. The storms in the prairie country are like storms at sea, the wind blowing with unbroken violence.

A despatch dated Potsville, Dec. 18, says that a shocking accident occurred on the previous evening, at the house of Mr. Kimmer, at that place. A fluid lamp exploded, and the flames communicating to the dress of Miss Kimmer, she was burnt to death in about five minutes. Her father and mother, in endeavoring to extinguish the flames, were badly burned in the hands.

A KANSAS OUTRAGE IN PROVIDENCE.—A monster, whose name we withhold, for the present, from the just indignation of our fair readers, says that if women were turned out of doors in Kansas with no more clothes on than his wife and daughters wore when they went to a party, one cold night last week, it would have been an "outrage," and the Journal would have had two leaders about it.—*Prov. Jour.*

MURDERERS ARRESTED.—*Louisville, Dec. 22.*—Three slaves were arrested on suspicion of being implicated in the murder of the Joyce family, and confessed to murdering the family, and then firing the house.

CONGRESS.

MONDAY, 22d.

In the Senate, the House bill appropriating $150,000 for the purchase of a steam revenue cutter, to be stationed at New York for the relief of vessels in distress, was taken up and discussed at considerable length. On motion of Mr. Seward, it was so amended as not to limit its use to the relief of vessels; on motion of Mr. Hale, it was so amended as not to limit its station to New York; in this state it passed, 28 to 13.

The reference of the President's Message was then discussed, giving an opportunity to resume the political discussions which have thus far characterized the session.

The House adopted the resolution calling upon the President for a statement of the expense which has been incurred in the various methods of "maintaining peace in Kansas."

Rev. Daniel Waldo, the venerable chaplain of the last session, was re-elected to that post.

A bill explanatory of the resolution making general Scott Lieutenant General by brevet, so as to give him the same rate of pay that was allowed to Gen. Washington, was passed.

ST. ANTHONY'S FISH SERMON.

(*Translated from the German.*)

BY C. T. B.

Saint Anthony, one day,
Found the church empty, Sunday;
So he goes to the river,
A discourse to deliver;
They 're ready to listen,
Their tails flap and glisten.

The Carps, the old spawners,
Come out of their corners,
Their mouths widely reaching,
To swallow the preaching;
No sermon had ever
With carps found such favor.

The Pikes, sharp nosed smiters,
Who love to be fighters,
Came swimming and squirming,
In schools, to the sermon;
No preaching had ever
With pikes found such favor.

Then those Fantasts, whose pastime
Is mostly in feast time,
Came to the sermon—those odd fish
The people call codfish—
No preaching found ever
With codfish such favor.

Eels and sturgeons, best livers
Of all in the rivers,
E'en they condescended,
And the sermon attended;
No preaching had ever
With eels found such favor.

Crabs and mud-turtles also,
Who generally crawl so,
From the bottom did hasten
For this once to listen;
No sermon had ever
With crabs found such favor.

Both great fish and small fish,
High, low, in short, all fish,
Their heads were seen rearing.
By God's will, and hearing
Like rational creatures,
That greatest of preachers.

When sermon was ended,
To his business each wended;
The pikes to their thieving,
The eels to good living;
The sermon found favor,
They remained just as ever.

The crab still walks crooked,
The codfish is stupid,
And carps love good eating,
The sermon forgetting;
The sermon finds favor,
They remain just as ever.

—*Christian Inquirer.*

DANGEROUS IMPORTATION.—The complaint of Mr. B. F. Perry, in the South Carolina Legislature is a very natural one. He said in the course of debate on the slave trade, that "the importation of hordes of such barbarians as those Africans were, would diminish the value of our slaves more than one half. Many of them were chiefs and heroes, accustomed to rule and receive homage. Such characters as these would do more to cause insurrections than anything else."

A CHRISTMAS GIFT FOR 1856.—A silver communion set has been received as a gift to St. James Church, Amesbury, Mass., from the Rev Benjamin Dorr, D. D. Rector of Christ Church, Philadelphia, and Esther K. Odin, his wife; a memorial of their father, Edward Dorr, Esq., a communicant of that church, who died in Salisbury, Mass., March 27th., 1844, aged 86 years and 6 months.

Hon. Horace Mann, President of Antioch College, preached yesterday at the Unitarian Church in Cincinnati, to a very full congregation. At the conclusion of the services, a letter was read from the Rev. Mr. Conway, late of Washington, accepting the call given him to become their pastor. He will enter upon his duties next Sunday.—*Ohio State Jour.*

The Point Pleasant, Mason County., Va., Republican, states that negro property is becoming so precarious, owing to the machinations of the abolitionists, that the slaveholders of Western Virginia are generally taking measures to guard against their loss by disposing of them to those who will carry them beyond the reach of the underground railroad.

The soundings for the new Atlantic telegraph route have been taken about every thirty miles from St. Johns to the west coast of Ireland. The figures beginning at St. Johns, show an average depth for the first 250 miles of about 2500 feet; the remaining distance about 8000 feet.

An old man named John C. Stanford, more than 60 years of age, belonging to Oneida Co., New York, has been arrested for mail robbery. On examination, the proof was of the most positive character, and he was committed for want of bail. He has always borne an excellent character, and had for sometime past been acting magistrate of the town in which he lived.

Arnold's Vital Fluid

PURIFIES and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine cannot cure Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID*

are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

COURT OF COMMON PLEAS.

An adjourned term of the Court of Common Pleas commenced its session in this city on Tuesday. Chief Justice Kittredge presiding.

Charles H. Bell, Esq., Solicitor.
Charles G. Connor, Clerk.
Hon. John S. Brown, Sheriff.
Jos. P. Morse, Crier.

The first Jury was empanelled.

Case No. 31—Dow, Appellee, *v.* Goodwin, Appellant—was commenced on Tuesday afternoon.

Wells for Appellee—Wood for App't.

☞ Quite a sharp legal game was played in this city on Tuesday. A horse, wagon, harness, and other property was attached, and a keeper appointed. The keeper went to his dinner; in steps another deputy sheriff, attaches again, and appoints another keeper, — thus ousting the first claimant.

STORM.—There was a severe snow storm on the coast on Saturday night, from which we have already heard accounts of damage, a New York packet ship, with passengers, and another vessel, having gone ashore at Barnegat. The Sound steamers were all delayed. Though the blow was sensibly felt in this vicinity, we had no snow, while it fell both east and west of us,—The Halifax telegraph reported six feet of snow, and that the storm had broken the line between there and Sackville.—It snowed at Halifax on Sunday till 7 P. M. when it turned to rain, though it is reported it was snowing again at 10 o'clock;

☞ We invite attention to an article on gambling, which we have copied on our outside to-day, from the Ballot. The views of the writer, in the main we agree with; though we would include under the head of gaming, many if not all kinds of business, where there is a chance for gain or loss. It is very easy to run any abstract principle into the ground—though it is by no means so easy to settle satisfactorily any point of political economy.—While the Chronicle does not and never has upheld or commended gambling—not even Gift Concerts—we are not sure that much, if not all the world's system of trade, does not come under the ban, as really as when the lot is brought directly into use. Let us see things as they are—and not shape our moral code by the statute-book.

Neither do we allow so much difference between the influence of one kind of gaming and another,—nor between the effect of wealth gained in the different ways.

☞ We learn that the new Ship-Yard about to be established on the Piscataqua River, by Messrs. Pettigrew and Marcy, will probably be located on Noble's Island, and not on the old site at the foot of Pickering street. The South End needs the new yard—and somebody ought to have energy and enterprise enough to extend the P. & C. Railroad to that part of the city, so that lumber could be conveyed there more easily and cheaply. It would richly pay the holders of property below State street, to do it.

CHRISTMAS EVE.—Services are to be held this evening, in the Stone Church. The North Church and their pastor, Rev. Mr. Whiting, are to unite in the services, with the South Church and their pastor, the Rev. Dr. Peabody.

☞ The Fair at Jefferson Hall, for the new Cornet Band, was well conducted and well attended last evening. It is to be open this evening also.

☞ The Bank of New Hampshire, in this city, has declared a Dividend of 3 1-2 per cent.,—payable Jan. 1, 1857—making six and one half per cent. for the thirteen months it will then have been in operation.

PHILADELPHIA, 23d.—There were three dest uctive fires in the city last night.—John Tunst n,s brush factory was totally consumed, throwing 300 hands out of employment. The Omnibus stables of Mills & Olgan, West Philadelphia, were also totally consumed, and 140 horses and 50 omnibusses. Wilson's planing mill, near the Navy Yard, was also burnt.

Total loss $100,000.

ARRIVAL OF THE CANADA.

HALIFAX, Dec. 23.—Steamship Canada, from Liverpool 13th, arrived here about noon to-day. She is in place of the America, which put back to Liverpool.

Carson Valley, which lies between California and Utah, where the boundary has not yet been settled, is inhabited principally by emigrants from the Eastern States, who are greatly incensed against the Mormon Polygamists, and have formed a Vigilance Committee, after the manner of San Francisco. Carson Valley has territory enough for a government independent of both California and Utah.

THE GIFT CONCERT, Friday evening, was in every way successful. Mr. Satter and Mr. Thompson were *there*—which is enough to say about them, and their part of the performance. Miss Janvrin, a young lady pupil of Mr. Thompson's, sings a magnificent alto,—deep, rich, heavy and correct,—and did credit to herself and teacher. Little Miss George, also a pupil of Mr. T., decidedly brought down the house, in "Topsy" and other songs. She brought out high E with ease, and *can* do a G. She was in danger of being stolen,—for we heard several gentlemen coveting her—with her bright, speaking face, and beautiful clustering curls. These two young ladies will both make excellent vocalists, with such a capital instructor as Thompson.

Mr. Ilsley, bass, and Mr. Jackson, tenor, sustained their parts admirably—and considering that the club had but a single rehersal together, they did remarkably well.

Mr. Pearson accompanied on the piano, with his usual good taste and accuracy.

The audience was large and highly respectable; and the greatest interest was manifested in the performances throughout.

Hon. John S. Brown of Chester, Wm. Crawford, Esq., of Sandown, and Mr. C. Hiram Hayes of this city, were chosen to distribute the Gifts—Mr. Chas. F. Adams being Secretary. They performed that duty with dispatch and accuracy.

We shall publish the Secretary's record to-morrow.

Articles may be had at Exchange Hall, in the rear of the Chronicle Office, on Monday, Dec. 29.

FAMILY MURDERED.—*Cincinnati Dec. 22.*—An entire family named Joyce consisting of four persons, living near the mouth of the Salt River, were murdered on Friday by parties unknown. Their house was subsequently burned to the ground.

GRANDFATHER'S WATCH.

Grandfather's watch is batter'd and old,
Innocent quite of jewel or gold;
Poor, and common, and worn, and crack'd—
Much like Grandfather's self, in fact.
Yet its wheezy voice has a cheerful sound,
And the child, as she listens in wonder bound
To its mystic tales of departed time,
Is smiling as though at a pleasant rhyme.

What are the tales the old watch tells?
Of seventy years it counts the knells;
Years, whose every setting sun
Was marked by labor faithfully done.
With primitive form and clumsy skill,
And clumsier help when the works went ill;
Yet serving their time as best they can—
This is the story of Watch and man!

Many a fall has the old watch hushed,
Many a blow has the old man crushed.
Meddled with, tinkered, and sorely tried,
At last rejected and thrown aside
For modern rivals, all science and gold,—
Useless, crippled, despised and old,
Under a cloud and under a ban—
This is the story of watch and man!

But there's a reverse to the picture sad,
Human hearts they can still make glad.
The watch in its dinted silver case
Can bring a smile to the fair child's face.
The man all battered and silvery too,
With a moral can cheer both me and you—
"Mark our time as well as we can"—
This is the lesson of watch and man!

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough but it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuTh&S 6m

SWEETSER'S COMPOUND
Iceland Moss Candy,

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

PATENT SELF-GENERATING
Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.

For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

POLITICAL PREACHING.—The N. Y. Tribune, in a long editorial on this subject, in which the co-operation of the clergy in all political questions having a moral aspect, or involving great moral questions, is shown to have been put forth ever since the formation of the government, closes with the following eloquent and truthful passage :—

"It is an undeniable fact that in every great national crisis in England and this country—in the revolution of 1688 and 1776, the abolition of the slave trade and of slavery in the British Islands and the Northern States of the Union—the influence of an intelligent, philanthropic and pious clergy has been powerfully felt, while it has excited the displeasure only of that class whose interests were to suffer by the reforms in question. For our part, we contend for an independent and unmuzzled pulpit. It will be the saddest indication of national corruption when the American clergy, as a body, consult their pews to learn what they may preach, instead of listening reverently to the teachings of God's Word, and speaking like honest men to the people the great truths of humanity and practical religion therein set forth."

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BENNINGTON, MASS., 20th Dec., 1854.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I would sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MASS., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL to the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IL., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.
DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have gone for advice, recommended a trial of your medicine. It has his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have lent their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and now distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of the afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and testimonials of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stov

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *price*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained, by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very res'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES
ALWAYS OPERATE PERFECTLY,
being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $100 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are simpler. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the first three months of Pregnancy, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas. Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES,

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz.:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb. Java "	.90
5 lb. Y. Hyson "	2.25	6 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cages, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1¼ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trademark, "*Chinaman grinding coffee*," may be relied upon as the German Article. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warrented to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey so Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office; I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

LIFE OF CONVERS FRANCIS.

We find the following delightful Biographical Sketch of Convers Francis, the honest baker of Medford, Mass., written by David Lee Child, and published in the Boston Telegraph. Mrs. Lucy Maria Child, wife of the writer, is a daughter of the venerable Convers Francis.

In the unobtrusive life, and obscure toils of this venerable man, who died at Wayland, Mass., on Thanksgiving morning, aged upwards of 90, there were some things worthy of mention b yond the narrow limits to which for the most part they have been confined.

Mr. Francis was a poor boy, and had a hard battle of life. If the battle was of less duration in this case than in many, it was because he marched forward with more promptitude and courage to the encounter, and struck with better aim and more energy than most others. His father, *Benj. Francis* of Medford, was an excellent mechanic, a zealous patriot, and valiant soldier of the Revolution. He fought from *Concord* to *Yorktown*, having taken his gun from the accustomed hooks in the kitchen on the morning of the Lexington fight, and never suspended it there again till the close of the war. He was an uncommon marksman, and in that first conflict killed five of the invaders with his own hand. He was a sagacious person, and was consulted by some of the leading patriots of the time. Col. Isaac Royall, a Councillor of the Colony, and afterward an absentee, from timidity and not from enmity to his country, of which, though his property was confiscated by it, he was a benefactor to the last, was speaking with him on the wrongs of the Colony, and exclaimed, "But what can we do?" "Fight 'em, sir," was the laconic reply, uttered some time before the celebrated outburst of Patrick Henry in the House of Burgesses. This worthy soldier was a genuine type of what the Northern rank and file of the American army were at that time. He died long before the era of Pensions. He was affectionately cared for by his son, the subject of this tribute, who almost from childhood was thrown, by his father's absence in the army, on his own resources. The Free Schools of Medford were suspended during the period of the Revolutionary War, and after it was over, Mr. Francis had only one winter's term of three months, at which his diligence and improvement were most specially remarked.

He was noted for simple honesty, and great success in his business,—that of a baker. At the outset, and at the age of 19, *he fixed for himself a standard of charging, not according to what could be obtained, but according to what he deemed just to others, and reasonably remunerative to himself: and from this he never swerved.* Accordingly his prices were always moderate, and cheerfully paid, as equitable prices will be. It was then very difficult to obtain good flour, and by minute and careful observation, he acquired such skill in judging of its quality, as never to be deceived, and never to be guided by popular brands. *He invariably used the best of this and every other material.* Success answered to his skill and pains. The reputation of his products extended from the then small village of Medford to Europe and Asia.

Orders for his ship crackers, as they were named, came from St. Petersburg and Calcutta. In his humble calling, he displayed an originality and ingenuity, which brought him into custom and almost fame. He invented the household bread known at home and abroad as Medford Crackers. Under that sign, and as "from America," it was advertised and sold in London and Havre, as well as in the most remote cities of this continent.—Bread is said to be still sold quite extensively by the same name.

At the age of fifty-two, he retired with an estate comfortable and sufficient, but proportioned to the moderation of his wishes, and to his inflexible adherence to justice and equity in all his transactions, rather than to his facilities for amassing; for such was his reputation for integrity and capability, that he could command capital and stock to an unlimited amount. He never failed in his life to pay a debt the day he promised it. He never sued anybody but in one, and that was a flagrant instance, and was never sued.

It was with his generosity and his charities, as with his justice. They were measured by his kindness of heart, his commiseration of the unfortunate and needy, and his occasional desire to testify his approval and admiration of useful public examples, and not by his pecuniary ability. The latter was an interesting trait, and evinced the true nobility of his soul. A learned and excellent young clergyman, a native, and until near manhood, a resident of an extreme Southern State, felt impelled to bear his testimony to a Boston Congregation, against the sin and misery of slave holding. It gave offence, and he was dismissed quite as sternly, though not so savagely as the admirable George Simmons from Mobile. His family was considerable, and his means very small. An aged stranger, of most respectable appearance, rung at this clergyman's door, and in his absence was received there by the lady. His errand was simply to express his approbation and thanks to her husband for his disinterested and intrepid service to the cause of justice and freedom, and to request his acceptance of a small testimonial of respect, handing to her a liberal one, and retiring without giving his name. The description casually given by the lady of his person and dress to one of Mr. Francis' intimate friends, identified him as the donor. Through his long life, even before he was able to accumulate, he gave much in the same delicate and unostentatious manner.

As a member of the old Light Infantry Company of Medford and Charlestown, and some neighboring towns, he performed escort duty on the occasion of Washington's visit to Cambridge in 1789, and retained a vivid and proud recollection of his noble person and bearing. Washington went to Medford to visit his gallant fellow soldier and friend, Col. John Brooks, afterwards Governor of Massachusetts, when Mr. Fransis "feasted his eyes," as he expressed it, again. An incident occurred which impressed him very pleasantly, and he often related it with fresh satisfaction. As Washington approached the house of his host, surrounded by an affectionate population, he saw a woman looking from her door, and improving the time with distaff and spindle, spinning flax. He turned towards her, *took off his hat and made a low bow.*

Though his early educational advantages were so slight, Mr. Francis was all his life a diligent reader, and acquired a store of useful and entertaining knowledge.—Books were an unfailing source of enjoyment, till a few weeks before his death. The Tribune for several years was thoroughly perused by him, and he came to esteem it so highly for large and various intelligence, honesty, plainness and independence, that he regarded it almost as an institution, indispensable to the correction of most alarming abuses, and to the ultimate salvation of the country. When at the commencement of the memorable first session of this Congress, its founder and principal editor went to Washington, with the avowed purpose of remaining, he remarked that "he felt the country was safer for it." His weekly Tribune was the last reading he attempted a few days before the close, but he laid it down mournfully, saying, "I cannot read it any more." The only desire that he expressed for several years was, that his long life, of which he was really weary, might be protracted a little, that he might see the cruel and deplorable persecution in Kansas, which awakened his deepest sympathy and indignation, terminate in the triumph of justice and liberty, and security for the future. To that cause he gave liberally at an early day without solicitation. The last time he went forth was to deposit his vote on the 4th of November. Though extremely feeble, and requiring to be lifted in and out of the carriage, he went spontaneously, remarking that he gave his first vote for Washington at his first election, and would give his last for Fremont.

He died of no disease. The light went gradually out, from exhaustion, amidst frequent expressions of gratitude and contentment, that he had had the care and society of his daughter. A few months ago he spoke to the writer these touching and suggestive words: "My father said in his last days—'Convers, I am sure God will bless you, you have been so good to your old father.' *And he does bless me.*"

D. L. C.

ANOTHER OF BUTLER'S "LOOSE EXPECTORATIONS OF SPEECH." In the course of a debate in the Senate as late as Thursday, 18th Dec., Mr. Butler of South Carolina showed himself true to his character.—Here is a small specimen:

Mr. Butler—To whom did you make it? To South Carolina?

Mr. Wade—No.

Mr. Jones of Tenn.—To some senator.

Mr. Butler—*It was not me; or he would have got something else besides that.*

☞ Some days ago, a lad named Flynn, who is a cripple, had an altercation with a little girl named Casey, while going home from school, in Hingham, Mass, and struck her several blows with his crutch, so that she died a few days afterwards.

ANNUAL MESSAGE OF THE GOVERNOR OF MISSISSIPPI.—The annual message of Gov. McRae of Mississippi was transmitted to the Legislature of that State on the the 1st inst. The New Orleans Delta says:

It is exclusively devoted to a review of the abolition movement at the North. He enumerates the following from the measures of the compromise, in 1850, in Mississippi, as acts which would justify a resort to resistance.

First—The interference by Congressional legislation with the institution of slavery in the States.

Second — Interference in the trade in slaves between the States.

Third—Any action of Congress on the subject of slavery in the District of Columbia, or in those places subject to the jurisdiction of Congress, incompatible with the safety and domestic tranquillity of the rights and honor of the slaveholding States.

Fourth—The refusal by Congress to admit a new State into the Union on the ground of her tolerating slavery within her limits.

Fifth—The passage of any law by Congress prohibiting slavery in any of the territories.

Sixth—The repeal of the Fugitive Slave law, and the neglect or refusal of the general government to enforce the constitutional provisions for the reclamation of fugitive slaves.

He recommends the Legislature to send to the Governors of the non-slaveholding States, to be laid before their Legislatures, and through them before their people, "resolutions re affirming the position of Mississippi, with a calm, temperate, and dignified exposition of our rights, and our determination to maintain them at all hazards."

This seems to us a most dangerous and incendiary document, to be circulated among the slaves of Mississippi. And really there appears to be a sort of insanity on the whole subject, among southern governors, legislators and politicians generally.—The world is not about to travel backward at anybody's bidding,—and the day of peaceful slavery in the United States has evidently gone by, no more to return.

The men who keep saying Be still! be still!! make a terrible noise, and wake up those who otherwise might slumber.

Mr. Pierce said he would discourage agitation,—Mr. Cushing was going to crush out something dreadful,—and now Governor McRae is going to resist all horrible legislation in Congress and elsewhere. But though they all cry Peace, yet there is no peace.

CONGRESS.

TUESDAY, Dec. 23.

The Senate adopted resolutions requesting the President to communicate such information as he possesses concerning the prospects of the Atlantic submarine telegraph,—and relative to the pay of Lieut. Gen. Scott and staff, under the resolution of February, 1855. The bill relative to the claims of heirs of Revolutionary officers was then discussed, and the Senate adjourned till Friday, with the understanding that they should then adjourn until Monday.

In the House, Mr. Letcher reported a minority substitute for the bill reviving the tariff; our own correspondent furnishes an abstract of this substitute. The Navy and Fortification appropriation bills were reported. The Senate resolution extending the time for presentation of claims of creditors of Texas, was passed. The House, in Committee of the Whole, passed the navy, fortification, and Indian appropriations.

☞ Mr. Frederick Beecher Perkins is not dead.—but was living in New York when that announcement appeared, and is, as we trust, still alive. Mr. Charles Perkins of Litchfield, Conn., who has been travelling in Europe, died suddenly in London on the 18th of November.

SWEETSER'S COMPOUND

Iceland Moss Candy,

AN old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy SENSATIONS in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any complaints of the Lungs with find this Candy a pleasant, convenient and effectual agent for relief

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in consumptive cases and affections of the Lungs, as it combines with the qualities both NUTRIENT and TONIC powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

LOCAL.

CHRISTMAS.—In accordance with our custom for these four years, Christmas will this year be kept as a holiday by the printers of the Chronicle. No paper will be issued from this office on Friday.

St. John's Church will be open and service performed as it has been without failure during the pastorship of the Rector, Rev. Dr. Burroughs. Service will commence at 10 o'clock.

CATHOLIC CHURCH.—To-day being Christmas Day, the Church of St. Rose of Lima, in this city, is decorated, according to the custom of the Roman Church, and services will be held there at 10 A. M.

☞ We understand that the stores in Market Street, and elsewhere in the city generally, will probably be closed to-day, being Christmas. It is coming to be more and more observed in this region.

A CHRISTMAS GIFT.

We have just seen, at Mr. Preston's store, Congress Block, a large and complete Medicine Chest, bearing the following inscription, which explains the destination and object of the valuable gift.

"Medicine Chest, Gift of Rev. Daniel Austin of Portsmouth N. H., together with a fund for replenishing it annually forever — To the Selectmen of Gosport, Isles of Shoals, for the use and benefit of the permanent residents on said Isles and of persons who may be shipwrecked there. Subject to the direction of Wm. R. Preston, Esq., Trustee.

"Portsmouth, Dec. 25, 1856.

"Put up by Wm. R. Preston, Apothecary, Ports., N. H. R. Gray, Engr."

We have seen no present for a long time, which seemed to us more judiciously chosen than this,—in which the expenditure of about $200 secures such a permanent benefit of so great value, to a people who can never in any way reward the donor, and to most of whom, in the nature of the case, he must ever be only an unseen or historical Good Samaritan.

☞ The Temperance Meeting at the Temple, on Monday evening, Dec. 22, was well attended. The opening prayer was offered by Rev. Mr. Medbery, and short addresses made by Rev. Dr. Lamson, and Rev. Messrs. Whiting and Holman. At the close, the sense of the meeting was taken as to future meetings;—and it was voted to have a similar meeting on Monday evening next: The meeting however will not be holden at that time, as the Temple will be occupied by the Hutchinsons for a concert on that evening: But the Temperance Meeting will probably be held on the Monday evening following.

One word in this place, as to the order of the House. Last Monday evening a few persons came in, evidently to disturb. A magistrate of this city assures us that all he asks is *the name* of any offender of this kind, to bring him up.

☞ We noticed, a few days since, at the store of Mr. Chas. T. Emery, a splendid Ebony Cane, with a gold head, which has been presented to Mr. Wm. S. Chase, formerly the efficient and gentlemanly Chairman of the Mercantile Reading Room, and Secretary of the Mercantile Library Association. Mr. Chase has lately been confined to his room by lameness; and his friends, in consideration of his services in sustaining and advancing the M. L. Association, have in this manner testified their approbation and gratitude. The presentation was made by the Vice President, Mr. Wm H. Sise, and Mr. Wm. O. Head, who was elected to fill the place of Mr. C. in the Reading Room Committee.

☞ We are informed that our statement, on Wednesday, respecting the double attachment case in this city, was not entirely correct. The keeper of the property, appointed a substitute for a little time, as he could legally do; but having employed a person who was in the service of the man whose property was under attachment—the temporary keeper soon after disappeared, and has not been seen since. *He* is said to be the one really responsible. for deserting his trust—immediately on which, the second attachment was laid.

☞ The publication of the distribution of Gifts made at the Concert on Tuesday evening, is again deferred from this morning,—on account of the non-receipt of returns from several agents out of the city, by reason of the storm. We shall doubtless publish it on Saturday morning.

☞ The Rockingham Bank has made its semi-annual dividend of 5 per cent, payable to Stockholders, January 1st, 1857.

☞ Poultry for Christmas, in this city, was sold on Tuesday for 17 to 18 cts: and on Wednesday for 17.

COURT OF COMMON PLEAS.

WEDNESDAY, Dec. 24.

Chief Justice Kittridge presiding.

FIRST JURY.

Edward Ballou, *Derry*, Foreman,
Moses E. Noyes, *Atkinson*,
Jacob B. Lang, *Candia*,
Nathl. Hanscom, *Portsmouth*,
Chase Wiggin, *Exeter*,
John Mason, *Hampton*,
Jere. Currier, *East Kingston*,
Silas Griffin, *Hampstead*,
Frederick Woodman, *Newton*,
Daniel Flanders, *Plaistow*,
George Wingate, *Stratham*,
Abram Woodbury, *Windham*.

The case Dow *vs.* Goodwin was decided by a verdict of *Six Dollars*—for—we forget which side—but *n'importe*—the suit was a silly one, both in the attack and defence, having lasted through many terms, to the benefit of the lawyers and of nobody else. A little dispute about 50 cts. or so per head, in the pasturing of some cattle. It was a sorry sight, said Uncle Toby, to see two able lawyers impleading one another over a case so trifling.

The case Locke *vs* Woodbury was put on trial.

The Court adjourns over Christmas to meet on Friday morning.

☞ The *foul* weather we hope will not operate against the *Fair* at Jefferson Hall. The attractions inside are all the more pleasing, from contrast. The Tableaux are fine, and the whole arrangements bespeak the industry and good taste of those concerned in the success of the Portsmouth Cornet Band. The Hall will be open this (Thursday) afternoon, from 2 to 5 o'clock. Admittance 10 cents. The Fair will also be continued this evening—and offers a chance for a pleasant visit on either occasion.

In the South Carolina House of Representatives a bill was recently introduced to increase the pay of the members from three to five dollars a day. After due consideration it was passed by acclamation by a large majority; but some waggish member insisted upon the yeas and nays being called, upon which vote the bill was rejected, seventy-one to forty.

FOREIGN NEWS.

The America has not arrived at Halifax, for the reason that this staunch and favorite steamer met with a disaster and was obliged to put back to Liverpool; but the Canada, with her mails and passengers, and nearly a week's later news than she would have brought, has arrived at Halifax. The Canada also brings the welcome news that the captain of the unfortunate Lyonnais, with fifteen persons, whose names are not given, have been picked up at sea, and landed in France. The Baltic (Collins steamer) sailed on the 10th, her regular day.

The political news is not important—that with regard to Prussia and Switzerland is ind finite, and the commercial and monetary intelligence shows that cotton was steady and firm in price in the Liverpool market, that breadstuffs were quite dull, as well as provisions, and the single day's news reported with regard to the London money market is unimportant, consols being a shade lower than previously reported.

The steamer America sailed from Liverpool Dec. 6, for Halifax and Boston, but met with very heavy weather, and when lying to 50 miles west of Cape Clear, was struck by a sea, which swept deck, carried away bulwarks and three boats, and completely gutted the forward saloon. One man was badly injured. The America put back to Liverpool, where she arrived at 2 A. M., on Thursday, Dec. 11th.

There are, besides, several casualties at sea.

The captain and fifteen persons, picked up from the steamer Lyonnais, have arrived at Bordeaux, but the name of the ship rescuing them is not given. A subscription has been offered in London for the widows and children of those who perished.

Ship Adriatic, Coombs, from Liverpool for New York, was wrecked on the 8th near Dungaroon. Three men were drowned; not reported whether they were passengers or crew. The Adriatic is likely to be a complete wreck. She had a full cargo, and 200 persons on board, passengers and crew.

There has been a succession of severe gales along the British coasts, with numerous casualties in the Channel. The steamer Troubadour, arrived at Dublin, was caught in the gale short of fuel, and burned 150 pigs in furnaces.

Father Matthew died at Cork on the 9th.

Felice Orsini, the Italian exile, was lecturing in London on Italian tyranny.

The corporation and citizens of Portsmouth, have subscribed one thousand pounds to give a banquet to the American officers in command of the British ship Resolute. The naval service at Portsmouth contemplate a similar compliment.

An exchange says that Mr. Jacob Wolf, aged 103 years, was recently on a visit to his son in Smythe County, Va. He was was in perfect health, and husked his son's corn with the vigor and animation of youth.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 1uT & h 6m

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

PATENT SELF-GENERATING
Gas Lamp!
PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for a cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

Bedford, Mass., 20th Dec., 1855.

Dr. J. C. Ayer: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. Eben Knight, M. D.

A. B. Mortley, Esq., of Utica, N. Y., writes: "I have used your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I would cheerfully pay twenty-five dollars for a bottle than do without it, if I could not buy other remedy."

Croup, Whooping Cough, Influenza.

Spartanburg, Miss., Feb. 7, 1856.

Respected Ayer: I will cheerfully certify your Pectoral is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

Yours, WILLIAM M. CONKLIN, M. D.

Amos Lee, Esq., Monterey, Ia., writes, 3d Jan., 1856. "I had a tedious Influenza, which confined me to my room six weeks; took many medicines without relief; finally tried your Pectoral by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

West Manchester, Pa., Feb. 4, 1856.

Sir: Your Cherry Pectoral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. Henry L. Parks, Merchant.

A. A. Ramsey, M. D., Albion, Monroe Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your Cherry Pectoral for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry Pectoral affords relief and comfort.

Astor House, New York City, March 3, 1856.

Doctor Ayer, Lowell: I feel it a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no medicine could procure her much relief. She was steadily failing, until Dr. Strong, of this city, where we have gone for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from this day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and respect,
ORLANDO SHELBY, of Sumpter, S. C.

Consumptives, do not despair till you have tried Ayer's Cherry Pectoral. It is made by one of the best medical chemists in the world, and its cures all around us testify to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have bestowed their utmost to produce this best and most purgative pill which is known to man. Innumerable trials are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they work unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and now discompose, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to bear testimony to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of the afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles arising therefrom, Flatulency, Loss of Appetite, all Eruptions and Cutaneous Diseases which require an expectant Medicine, Scrofula or Kings Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with something else they make more profit on. Ask for Ayer's Pills, and take nothing else. No other they can give you comprises with this in its intrinsic value or curative power. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into the market, has proved itself to be, large as it is, one of the cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction when ever used, that this is thought by those who have been so long used to it, to be the best.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Wells, glass top.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves. Cylinder of different patterns and sizes, and all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use about vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment,* of the best patterns, ever brought into this market, which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U. S.,
Employing Two Hundred Men,
and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,**

secured to us by Letters Patent 12d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Medical Instrument, during which time we have finished and sold nearly **FIFTEEN THOUSAND.** Volunteering testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have now reached one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very respectfully, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and one-half octave, " C to F	60

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cotton or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $100 a year; but an imperfect one is a source of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye of the inexperienced. But the truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are adapted to the speed of our machines fully been doubled. No other can compare with them in quantity of work.

☞ New machine of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis by I. M. SINGER & CO.

A FANTASY.

BY P. W. M.

'Tis told somewhere in Eastern story,
That those whose love once bloomed as flowers
On the same stem, amid the glory
Of Eden's green and fragrant bowers;
And that, though parted here by Fate,
Yet when the glow of life has ended,
Each soul again shall find its mate,
And in one bloom again be blended.

If this be true, how sweet the vision
Which Fancy sometimes weaves for me,
That *thou*, amid those bowers elysian,
My lovely flower mate will be.
And Oh! how oft, when time and distance,
Perchance, may part thee from my side,
Will I repine for that existence
Where Fate can ne'er our lives divide.

THE REFUGEES: AN INDIAN TALE OF 1812.

BY EMERSON BENNETT,

AUTHOR OF THE "PRAIRIE FLOWER," "ARTIST'S BRIDE," "BORDER ROVER," "FOREST ROSE," ETC., ETC.

CHAPTER I.

THE MESSENGER.

As the setting sun of the 20th of August, 1812, threw a broad sheet of burnished gold over the western heavens, from the horizon almost to the zenith, a horseman, in a green hunting frock, with a rifle resting on the pommel of his saddle, and tightly grasped with one hand, while the other held the reins of his panting and foam-covered beast, dashed swiftly through the great, dark, gloomy forest which then stretched over a vast tract of country in the north-western portion of the State of Ohio. Guiding his gallant steed over the moist, level ground, through a dense growth of ash, elm, oak, beech, cotton-wood and poplar trees, whose thickly matted branches made twilight of noonday, and darkness of twilight, he soon reached the banks of a dark, deep river, known as the Maumee, or Miami of the Lakes. Here he reined his travel-worn beast to a halt, threw himself from his back, and ran up and down the bank for the space of three hundred yards, in eager search for the ford, which he did not find. Then he looked up and down the dark stream, over which the shadows of night were fast settling, and re-mounting his horse, rode him into the water, and swam him across to the opposite shore. On reaching the right bank of the river, he again urged his weary beast forward through a gloomy wood—where night had already spread her Plutonian pall, and a solemn, awful silence brooded, disturbed only by the dismal howl of the prowling wolf, or the hideous screech of the ominous owl—and in fifteen minutes more he gained an opening, and drew rein at the door of an humble log-hut, through whose crevices a faint light glimmered. Throwing the reins upon the neck of his drooping beast, and tightly grasping his rifle, he dismounted quickly, and tapped lightly on the slab door.

'Who's there?' demanded a voice from within, with the intonation peculiar to the natives of New England.

'Eden Stanforth,' was the reply of the horseman.

Almost instantly the door was thrown open and exclamations of pleasure broke from two of the four persons present.

These four persons consisted of a tall, large, strong, hard-featured, muscular man, of middle age—a small, pale, sharp-featured, thin-lipped woman, of forty—a long, lank, awkward youth of twenty, with pocked face, flaxen hair, light blue eyes, and freckled skin—and a plump, fair, brown-haired, hazel-eyed, comely maiden of nineteen.

'Why, Eden Stanforth, be you back already? Who on earth thought of seeing you here to-night?' said the elderly female, who had opened the door, which she still held with one hand, while with the other she took the hand of the young horseman.

For young he was, and handsome, possessing a fine, manly form, in the full flush and vigor of early manhood, with an open, frank, honest, intelligent countenance, an eye clear, bright and expressive, and with waving locks rolling back from a broad, high, smooth forehead, and clustering around healthy-hued cheeks and temples.

'I hoped to surprise you, aunt,' he said quickly, as he pushed in and closed the door; 'for had I failed in doing so, I fear you soon would have received a surprise of a more terrible nature.'

'Mercy on us! what's happened?' cried the aunt in alarm, while the others held their breaths to listen to the reply.

'First,' said Eden Stanforth, 'do you know that war has been declared between our country and Great Britain?'

'No!' exclaimed the uncle of the young messenger, starting up from his seat: 'Is such the fact?'

'Such is the fact,' pursued Eden hurriedly; 'war was formally proclaimed by our government against Great Britain on the eighteenth of last June—though it is said that when the imbecile, treacherous, and cowardly old Hull marched through here, on the last of the same month, he did not know it.'

'Eden, what do you mean, by speaking in such disrespectful terms of General Hull?' inquired the brother of the young man's father.

'Would that my words were daggers, to let out his heart's blood!' cried Eden, fiercely.—'Oh! woe the day that such a man was appointed to command such a gallant band as he has basely betrayed and sacrificed!'

'Eden, speak! explain!' demanded the uncle, who was a man of few words.

'He has surrendered Detroit, his army, and all the forts, garrisons and military stores within his jurisdiction, into the hands of the British, without so much as permitting a single blow to be struck in our defence!'

'You don't tell me so!' exclaimed the elder Stanforth, turning slightly pale, and involuntarily clenching his hand.

'Mercy on us!' cried Mrs. Stanforth, clasping her hands in alarm: what'll this do to us, Eden?'

'Put us to flight, aunt, to save our lives!'—cried the young man, excitedly. 'The horde of Indians, collected under the leadership of Tecumseh, having now no check at the North, will soon be upon these defenceless borders—to slaughter, pillage, and burn, and lay waste the country—even now I fear they are on their way hither.

'This is indeed startling news,' said the uncle, musingly; 'war declared and Hull surrendered! Eden, you haven't made any mistake?'

'No, uncle—no mistake—for even I was one of the parties surrendered,'

'You, Eden—you?'

'Yes, uncle.'

'Tell me all about it as quick as you can!' said the uncle.

'I must be very brief, then, uncle,' replied Eden, 'for I have not yet been home. Here, Peleg,' he continued, turning to the young man before mentioned, who, with blanched features, open mouth, dilated eyes, and trembling limbs, stood listening to every word, and looking from one to another, in terror:—'here, run over to our house, and tell the news and set them at making preparations to leave at once—say I will be with them in a few minutes.'

'I—I—don't want to,' said Peleg, shrinking back, and looking fearfully around him. 'I'd rather not.'

'Are you afraid to go?' said Eden.

'No, I aint,' replied Peleg; 'but I don't see no use in going, when you are going right along yourself.'

'You are afraid, Peleg! so do not deny it,' exclaimed Mabel, catching up a sun bonnet, and putting it upon her head. 'I will go, Eden.'

'No, no, Mabel,' cried the young man, taking hold of her, 'you shall not go. I will go myself in a few minutes, and Peleg White can remain, to boast some other day of what he would have done had he ever been placed in a situation of peril.' And then he added in a lower tone, and one that brought a deeper blush to the cheeks of the brave girl: 'Mabel, your life is to precious to be risked without absolute necessity. Hasten to prepare everything for our voyage, for aunt is so nervous that we cannot depend upon her forethought. I must explain this matter to uncle before I go home, for you know how slow he is to act till everything is understood.'

Saying this, Eden turned from Mabel Duncan to his kinsman, and resumed:

'I was about to tell you, uncle, of Hull's disgraceful surrender. On visiting Detroit, some ten days ago, with Macy and Walbridge with the intention, as you know, of locating some lands on a branch of the Huron River, we learned with surprise that hostilities had actually commenced between the United States and Great Britain; and that Hull had just returned from Canada with his army, where he had thrown away some good opportunities of conquest; and that it was expected as he had not attacked and destroyed Malden, that the British would shortly attack Detroit. You know, uncle, I have always had some strong military predilections, and the moment I heard there was likely to be a fight within a reasonable time, in which I could participate, I resolved to attach myself as a temporary volunteer to the company of Capt. Wilson, with whom I had some slight acquaintance.

'Well, to be brief, the enemy soon appeared in force, erected batteries, demanded the surrender of the fort, and, being refused, began a bombardment, which they continued all one night, with little effect. The next day, through the sheer carelessness and neglect of Hull, they effected a landing, and were marching up to attack us—and we, in glorious anticipation of victory, were eagerly waiting the signal to begin the work of chastisement—when, to our utter amazement chagrin and indignation, we were ordered to stack our arms, and prepare to surrender ourselves prisoners of war.'

'What! without firing a gun?' cried the uncle, in astonishment.

'Yes, uncle, without one single, solitary discharge of our rifles and muskets!'

'The old scoundrel!' exclaimed the uncle.

'He deserves hanging!' cried the young man. 'Is he a traitor, or coward, Eden?'

'Both, I think! Oh, uncle, just fancy the feelings of the brave American soldiers at being thus basely deprived of their arms, by their own General, and surrendered prisoners of war, to a foe they could easily have conquered!'

'The man's mad, or else we've got a successful Benedict Arnold among us!' said the other. 'How did you get away, Eden?'

'The British General gave the volunteers liberty to return home, but took old Hull and the regulars over to Canada. As soon as I got permission to leave, I made a search for my horse, which I found in possession of an orderly sergeant, who returned him to me for a small compensation. I then bought back my rifle, mounted my horse, and here I am, happily in time to give you all warning of danger.'

'This isn't a safe place, just now,' that's a fact,' said the uncle, with a serious shake of his head.

'Come mother—come aunt—and you, Carrie—I am astonished you should permit such a cowardly jackanapes as Peleg White to frighten you all out of your senses. Let me entreat you to lie down again, and get what rest you can, for really I do not think there is any danger. The Indians have not reached this quarter yet, or we should have heard something of them.'

'From what I've heard of them, they generally move about pretty quiet, replied the father.'

'Until they make an attack,' said Eden, 'and then they give vent to their most terrific yells. If they were about to-night in this vicinity, it is quite likely they would have attacked some of our neighbors before this, and we should have heard their death-signal.'

'I don't feel altogether at ease,' said the father, drawing his son aside, and speaking in a low tone, which reached no ear but Eden's; 'I feel strangely oppressed with something like a presentiment of danger; but keep this to yourself—not a word of it to the women folks, or we shall have Bedlam over again. There is Peleg! That boy ought to gagged to keep him quiet; and if any harm comes to us to-night, I shall blame him for it.'

'I never yet saw a boaster that was not at heart a coward,' said Eden, 'and Peleg has often annoyed me by boasting what he would do in case he should ever be so fortunate as to be placed in a position of danger.'

'There is danger, uncle, go which way we may; but it strikes me we should be safer on the river and lake, in our barge, than in journeying through the forest, which I have reason to beleive will soon be swarming with Indians, if indeed it is not at this moment. We will endeavor to reach some American settlement, further to the eastward, along the southern shore of the lake—but even if compelled to take refuge under a British flag, it will be far beter than falling into the hands of the savages.'

'And our horses, cattle, hogs and sheep—what of them?' querried the uncle seriously.

'We shall have to leave them to the tender mercies of the wild beasts and savages,' answered Eeden with a sigh; if we can even save our household goods and ourselves. it is all we can hope to do at present.'

'You're right, Eden,' pursued the uncle in a tone of decision, addressing his young kinsman; 'you're right. and there's no help for it. It'll certainly be best for us to take to the barge, and drop down into Lake Erie. Now hasten to get your father, aad sister ready for the voyage. Come, Esther—come Peleg—come, Mabel—let's set to work at once.'

'I will soon rejoin you,' said Eden.

And hurrying out he mounted his horse, and rode quickly away.

CHAPTER II.

THE MIDNIGHT DEPARTURE.

A little before midnight of the same day our story opens, a party of eight persons, four of either sex, were slowly and silently moving across a small opening to the right bank of the Maumee, where a clumsily built barge of middle size was fastened to the shore. Seven of this party of eight were laden with different household articles, which they immediately deposited among numerous others of a similar character which had been previously brought off to the boat from their dwelling; and being now all collected on board, and having with them all they intended taking from their deserted homes, they forthwith loosed the boat, and pushed it out into the middle of the stream, where, for the time being, it was allowed to float quietly down on the bosom of the current.

This party, as the reader has doubtless conjectured, consisted of our young hero, Eden Standforth, and his father, mother, sister, uncle and aunt, and Mabel Duncan and Peleg White.

Having floated a short distance down the stream, Eden took counsel with his father and uncle, and it was decided the boat should be brought to an anchor some little distance from the shore, and that one should remain on the watch till morning—when, should there be no signs of the enemy, a warning message should could be sent to the inhabitants above, which, their haste to effect their own safety, our voyagers had neglected to do at first.

'I take shame to myself,' said Eden, in a whisper, for it was not deemed prudent to speak in a loud tone, lest a lurking enemy might hear the sound, and so be attracted to their place of concealment: 'I take shame to myself that I did not ride over to Major Spofford's and give him warning, so that he might convey the news to the next, and thus put all on their guard.'

'It ought to have been done, Eden,' replied his father, 'and if it can be done without too great a risk, we musn't neglect it in the morning.'

'If you think best, I will attend to it to-night.

'No, my son, no; you've done enough to need rest. Two days on horseback, and only one night's fitful sleep on the bare ground! Go and lie down at once, and trust your uncle Amos to watch the boat.'

Eden did not require much urging to induce him to seek rest for the night; and speak a few quieting words to his mother, sister and aunt, and Mabel—all of whom were more or less nervous and excited—he threw himself down on a loose pile of bedding, and was soon fast asleep.

Not so the others, who were not so fatigued as Eden, and upon whom the exciting news produced an effect calculated to banish sleep for several hours. At the request of David Stanforth, the father of Eden, who had been for years an invalid, and whose constitution was so broken and impaired as to render him unable to bear any great fatigue, they all repaired to their places of rest, where they conversed in whispers for a long time, conjecturing as to the future, and narrating occurrences of the past, till each was prepared to hear an Indian in every sound, or see one in every shadow, or in everything having motion.

But as the night wore slowly away, without presenting in a tangible shape, the object of their fears, they all at last gradually yielded to the requirements of nature; and even Peleg White, the most frightened one of the party, fell into a doze and began to dream.

Suddenly he started up with a wild, terrified shriek; and dropping down on his knees, and clasping his head with his hands, began to beg for his life in a most pitiful manner. His shriek aroused all parties, and was echoed by the females, who fully believed the Indians were upon them; and for a few minutes the wildest confusion prevailed.

"Fool,' cried Amos Stanforth, Peleg's guardian, who reached him first—and who, seizing him by the collar of his hunting shirt' jerked him to his feet, and shook him till all the teeth in his head rattled: "Fool! coward! what dy'e mean by making all this fuss for nothing?'

By this time, Peleg had become fairly awakened: and as he feared his guardian in anger almost as much as he did the savages themselves, he slunk away, without uttering a word in his defence.

But further sleep for any of the parties was out of the question; and Eden Stanforth—who at the first sound of alarm had started up and grasped his rifle, ready to sell his life dearly in defence of those he loved—now turned his whole attention to quieting the nervous excitement of the females, all of whom, except Mabel Duncan, were still trembling from their late fright and apprehension for the future.

'This is very gloomy work,' said the father, 'sitting here, in this old boat, on the river, on a dark night, watching for an unknown foe! I wonder how long it is from daybreak?'

'The dawn cannot be far off,' replied Eden, 'Look yonder, over the tree tops to the eastward! I think I see the first streak of day now.'

'The sky looks red in that direction, but I'm not sure it's morning,' said the other. 'What do you think, Amos,' he continued, addressing his brother, who was standing within a few feet of him, apparently trying to peer into the darkness, which the thick shadows of the heavy trees on the nearest bank rendered almost impenetrable to the eye.

'It is not the dawn, David, if I'm a judge was the answer, in a low cautious tone.

'What do you think it is, uncle?' asked Eden.

'Fire!' was the laconic reply.

'Ha!' said Eden with a start; then the Indians must certainly be about—perhaps have already began their horrible work! had we not better take up our anchor and drop farther down the stream?'

'Hush! listen!' returned the uncle, in a whisper: 'your ears are younger than mine, and ought to be better—do you hear anything?'

All listen, each holding his breath to catch the slightest sound. Each, too, turned his eyes upon the nearest shore, and strove in vain to distinguish a single object in the awful blackness, which, in that direction, seemed to rise like a wall before them. It was a starlight night, but slightly hazy; and looking directly upward, a line of the heavens could be perceived; and this line, and this only, could be traced for some distance either way, showing the course of the dark river, which made the opening in the grand old gloomy forest, whose giant trees and thick undergrowth lined its banks on either side. From the position of the boat—being fairly in the dim light of the opening, it was impossible for it to be seen by any one on the nearest bank who had become accustomed to the deeper darkness of the wooded shore—but for the same reason it was impossible for any one on the boat, looking in that direction, to see ten feet in the gloomy shadows of that mighty shadows of the mighty forest.

'I hear only the slight rippling of the water,' said Eden at length in the same cautious whisper.

'I thought I once or twice heard the snapping of a stick on the bank,' rejoined his uncle, 'though it might have been only fancy.'

'Would it not be well to lift our anchor and drop further down the stream?' again suggested the young man, with not a little anxiety as he thought of the precious lives aboard the boat, which might possibly fall a sacrifice to an unseen enemy, even then silently preparing to begin their work of death.

'I'm of that opinion,' answered his uncle.—'Come, let us lift it at once.'

Eden and his uncle repaired to the windlass and were just in the act of giving it a turn, when a loud shriek from one of the females followed by some half a dozen in quick succession, caused them to desist, and grasp their rifles in fearful apprehension; but ere they had time to spring forward to ascertain the cause of the second alarm, three of the terrified parties were at their sides, clinging to them with trembling eagerness.

'Speak, Ester—what is it?' said Amos Stanforth to his half-fainting wife.

'Oh!' replied her sister-in-law, 'we all saw the head of an Indian come peeping over the side of the boat.

The above is all of this beautiful and highly interesting story that will be published in our columns. We give it as a sample. The continuation of it can be found only in the New York Ledger, the great family weekly paper, for which the most popular writers in country contribute; and which can be obtained at all the stores throughout the city and country, where papers are sold. Remember to ask for the New York Ledger of January 3rd, and you will get the continuation of the story from where it leaves off here. If you cannot get a copy at any news office, the publisher of the Ledger will mail you a copy on the receipt of five cents. FANNY FERN writes only for the New York Ledger; SYLVANUS COBB, Jr., writes only for it; EMERSON BENNETT writes only for it; and nearly all the eminent writers in the country, such as MRS. SIGOURNEY and ALICE CAREY, contribute regularly to its columns. It is mailed to subscribers at $2 a year; or two copies for $3. It is one of the handsomest, best family papers in the country, and is characterised by a high moral tone.—Adv.

WALKER, THE FREEBOOTER.

One account last week represents the fortunes of Walker as rapidly declining; another exhibited him as on the flood-tide of success. Additional intelligence confirm the losses his army has sustained by want and sickness. It is now reduced to a great disparity of numbers. The popularity of this freebooter is waning, and recruits will be had with greater difficulty than heretofore. He is shut up to a few miles of territory, and his defeat is confidently predicted. Much of the glorification of this fillibustering expedition has come from newspaper correspondents there, who had no alternative but to eulogize Walker and magnify his sucesses. Several of these have fallen victims to their master's ruthless ambition, so that their harps are hung on the willows. Before carrying out his fiendish project of burning Granada, Walker had embarked his sick, wounded and women, on the Island of Ometepe, lying nearly opposite Virgin Bay. The terrible news has transpired that the natives had arisen and massacred them. The island is inhabited principally by Indians. When the sick and wounded were landed there, there were no provisions, no beds and no medicines provided for them. Several of the patients were for days without food. The larger part of the sick and wounded lay on the beach all night. The next day all of them were distributed except some twenty who lay out in the rain. Two died on the steamer and several on the beach. The village was filled with the sick and wounded, the women and children.—During the first five days thirty-six died. Then one night the enemy crept into the village and surprised the Americans. Some twenty persons escaped in three boats. Whether the rest were slaughtered was not known. All the American women in Nicaragua were on the Island with their children, perhaps forty in number. A number of officers were on the island, but there was no organized military force. The sick and wounded had only miserable reed huts to shelter them, and no provisions but beef and plantains. There was a promiscuous burying of men, women and children in a common hole. Subsequent night attacks and probable massacre or captivity of three hundred persons, of all ranks and ages, and of both sexes, ensued.

It is stated that immediately after the surprise of Grenada, "the city was plundered, its inhabitants were insulted, and many of them were arrested and thrown into prison. One of these, Don Chamorro, was compelled to see the sack of his home, his fair young wife in the power of merciless freebooters, who cut her fingers to take off her rings, and subjected her to other outrages. The unhappy husband was thrown into prison, and threatened to be shot at every moment; and his wife at last died of her sufferings." This is indeed a lamentable picture of the conduct of the fillibusteros, and if it is correct, the miscreants who were engaged in such inhuman cruelties deserve the execrations of civilized mankind. The statement is made on the authority of a correspondent of the New-York Tribune.

His original object, remarks the Providence Journal, was bad, his conduct has been bad, and everything has shown throughout a purpose to gratify his personal ambition, in disregard of the wishes or the interests of the people. He has enticed numerous recruits from the United States, who have gone there deluded by promises that were made only to be broken; and a large number of whom have died miserably of disease, and exposure and neglect, in a cause where success would have gained no glory, and where defeat excites no sympathy.

THE SLAVE TRADE.—The South Carolinian, alluding to the suggestion made by Governor Adams for the renewal of the Slave Trade, says:

Our first impressions were that the subject should be passed over in silence, but we incline now to the belief that some expression of opinion from our legislature should be given, as best calculated to allay strife likely to arise both abroad and at home in relation to the matter. We are very confident that the policy of the measure will not be endorsed by the representatives of our people, who, we are sure, value too highly their present slave property to approve any measure which will weaken and ultimately destroy its value. The rapid increase in numbers of those we have will keep pace fully with the demand for the staples they produce.

An exciting incident took place at Ancona a few days ago, in connection with Austrian martial law. Two Italians were condemned to be shot by the military tribunal, but, whilst being marched to the place of execution, one of the men flung himself on his knees, protested his innocence, and refused to move from the spot. His energetic asseverations produced a great impressions on all around, but orders were at length given for him to be dragged forcibly to the fatal ground. At this juncture, his companion requested permission to be again confessed by the father confessor in attendence; his demand was granted, when he revealed to the priest that he had sworn falsely against his companion, out of a spirit of revenge, for an occurrence which had taken place some time before, in which a woman had afforded cause for dispute. The declaration appeared sufficiently important to warrant a suspension of the execution; and an immediate investigation confirming the truth of the statement, the innocent man was liberated without further ceremony, and the criminal marched alone to execution, in the presence of an expectant crowd without, who received him with reprobative hisses and yells. Rather a narrow escape.

THE HUTCHINSONS.—We are gratified to learn that these acceptable singers will again visit Portsmouth and give a concert at the Temple on Monday evening, Jan 4th. And also learn another interesting feature of the concert, which will be, leaving one half of the net proceeds to aid the Portsmouth Cornet Band in procuring their instruments. There is no need of inviting people to attend—the difficulty will be to find seats for the audience.

B. H. Hill of Georgia, who has been posted as a coward, for declining to accept the challenge of A. H. Stevens, member of Congress, is spoken of as a man of exemplary character, and much beloved by all who know him. He probably has as much physical courage, and infinitely more moral courage than the bantam cock who infamously posts himself by this proceeding.

"Grace Greenwood," (now Mrs. Lippencot,) editor of the Little Pilgrim, writes in the last number that the past year has brought to her "the most profound and sweet, the most solemn and sacred happiness of womanhood—for within this year I have been joined to the great and noble army of *mothers*." It's a girl.

SATURDAY, DECEMBER 27, 1856.

☞ The Tuckerman—Eastern Railroad—trial has been postponed till next Tuesday, at the request of Messrs. Choate and Bowles, the defendant's counsel, to give them time to prepare for the defence. They had expected that the admissions of Tuckerman about the time of his arrest, would be ruled out in the testimony, and the way would then be clear for his escape. Judge Abbott has decided to admit that as evidence, and it has thrown both Choate and Bowles off the track. They say they are taken by surprise—their client is surrounded by new and unexpected perils, and they ask time. The Newburyport Herald thinks it looks more now as though justice might have its due. It will depend upon the magnetic and mesmeric powers of Choate over the Jury.

EXCHANGE IS NO ROBBERY.—We in common with all the craft, frequently receive information from publishers of newspapers, books, periodicals, &c., that if we will print half a column or so of laudatory advertisements of their publications, they will send us copies of said books or papers—that is, will pay us a dollar or two for ten or fifteen dollars' worth of advertising. This is about as impudent as a self-important agent of the Independent newspaper, who was in our office a few weeks since, and was almost offended because we declined to pay "boot" for an exchange of that paper with ours. No, gentlemen publishers, *our* advertising columns are worth something to us—if they are to you, why see our terms in another place.

MORGAN HORSES, as a distinct and remarkable breed, originating in Vermont, and principally bred there, have long been well known to the horsemen of New England; and within a few years, to the people of the West and South, who, having become acquainted with them, have manifested a strong desire to introduce them into their sections of the country.

Black Hawk, the famous stallion of Bridgeport, Vt., that died recently, 23 years old, was foaled in 1833, and was then the property of Wingate Twombly, of Greenland (formerly of Durham), N. H. His sire was the "Sherman Morgan" horse, his grand-sire the Justin Morgan, famed as the progenitor of the Morgan horses. His dam was a half-blood English mare. When four years old he was purchased by Benjamin Thurston, of Lowell, and was used as a family horse until 1844, when Mr. Hill purchased him, and in the hands of this gentleman he soon became famous. Black Hawk was a little less than fifteen hands high, and weighed about 1000 pounds. He could trot his single mile in two minutes and forty seconds (2.40), and exhibited considerable bottom in longer races. In 1842 he won a match for $1000, by trotting on the Cambridge Track five miles inside of sixteen minutes. October 3d, 1843, he won a race of two mile heats, beating two competitors easily in 5.43—5.43—5.47. Black Hawk was the sire of several of the fastest trotting horses on the turf, among which are "Ethan Allen," the fastest trotting stallion in the world;" and "Lancet," who has beaten the best time of Lady Suffolk.

KANSAS.—Col. Harvey of Lawrence, who headed the statements of the complainants respecting the action of the agents of the *Kansas Aid Societies*, has written to the Missouri Democrat to say that his statement was *not* intended to apply to the *National* Kansas Committee, and he accompanies his letter with the subjoined manifesto:

To the Free North.—In behalf of the National Kansas Committee, the undersigned beg leave to state that they are now in Kansas investigating the expenditures and proceedings of the agents of the National Committee. A full report will be published immediately after their return to the states on the assembling of the National Committee in New York. All grievances are being redressed. THADDEUS HYATT,
President National Committee.
W. F. M. ARNY,
General Agent National Committee.
Lawrence, K. T., Dec. 14, 1856.

KANSAS. A letter from Kansas states that Judge Elmore and some others of the more decent Pro-Slavery men have made overtures to the free State men, their object being to secure an agreement and a "peaceful settlement" of all difficulties. They wish to have the free State men drop the Topeka constitution, and unite with them in measures to elect another Constitutional Convention. It was conceded that the bogus laws ought to be repealed. But the question is, would the border ruffians be kept out of Kansas? The letter says this overture "looks Gearyish."—*Boston Chronicle.*

Toast for 1857: "Here's to lovely woman, and may her shadow (as far as her dress goes) decidedly be less!"

CONGRESS.

WEDNESDAY, Dec. 24.

HOUSE.—Mr. Campbell of Ohio, from the Committee of Ways and Means, reported Post office, Mail steamer, and Deficiency Appropriation bills.

Mr. Phelps, from the same committee, reported, with amendments, the Senate bill relative to foreign coinage and the coinage of new cent pieces.

After debate, Mr. Jones of Tennesee moved to table the bill.

The motion received only twelve affirmative votes.

The further consideration of the bill was then postponed for two weeks.

Mr. *Herbert* made an *hour's speech* in reply to Mr. Dewey, on the subject of the California Land Patents.

Mr. Rice, delegate from Minnesota, introduced a bill authorizing the people of that territory to form a constitution and state government, preparatory to admission into the Union, on a footing with the original states. Adjourned.

WASHINGTON, Dec. 24.—The House Committee on Naval Affairs have concluded to report the bill amendatory of the act to promote the efficiency of the Navy, precisely as it passed the Senate.

A delegation of Kaw Indians, from Kansas, have arrived here, but being without an interpreter, were unable to make their business known to the Commissioner on Indian Affairs.

Many of the members of Congress have left for home to enjoy the holidays.

The Rhode Island case, decided in the Supreme Court to day, embraces a series of events for near a century. The lands are covered by manufacturing establishments and flourishing villages, and have been, throughout past generations, without question of legal ownership. The bill alleging frauds and claims, was deemed by the Court defective, and the presumption being in favor of the present occupants, the decree of the Circuit Court of Rhode Island was affirmed.

WALKER'S CONDITION.—An intelligent German writes to the New Orleans Deutsche Zeitung, the following particulars which we find translated in the Evening Post "for the benefit of enthusiastic young gentlemen out of occupation and in search of glory."

"VIRGIN BAY, December, 1, 1856.

Within the last thirty days our army has lost 400 men by death in the hospital, 100 have been shot, 50 have deserted, and over 300 are now on the sick list. We have little medicine, but poor physicians are plenty. We can muster all told, but 300 men fit for service. The enemy number at least 5000 men, among whom are many Europeans—Englishmen' Germans and Frenchmen. From this you may judge what are our hopes and anticipations. Such of us as are not carried off by disease, have the pleasant prospect ahead of being shot down by the enemy In a word our number has been reduced to 180 able-bodied men, including civilians. Our only hope lies in an early and large accession of recruits—otherwise we are totally lost."

ST. LOUIS, Dec. 24.—The correspondent of the Republican, writing from Westport, says that Major Buford has published a statement, in which he shows his loss by the Southern emigrant enterprise to have been upwards of $100,000.

THE ELECTORAL VOTE OF WISCONSIN LOST.—The Buffalo Express of the 24th. says:

"The electoral vote of Wisconsin was lost by the intervention of a snow storm, as we learn from the papers in that State. Though as the facts stand, the loss was not one of any serious importance. The first Wednesday of December being the day for the assembling of the Electors of the several States at their respective State capitals, the Electors of Wisconsin started in time, from their homes, to reach Madison, under ordinary conditions of weather and roads, on the day. But a snow storm on the Tuesday previous, shut in the capital, and prevented all ingress. The legal day passing over without any action of the College, of course the functions of the Electors no longer continued, and all they had to do was to return home, private citizens. Consequently, Wisconsin had no voice in the election."

FIRE IN WHITEFIELD.—On the 17th inst., the White Mountain Lumber Co.'s steam mill, pail and box factory, in Whitefield, was destroyed by fire, with 50,000 feet of pine boards and 5000 pails nearly completed. Loss from $30,000 to $50,000. No insurance.

☞ There were built in Newburyport, last year, sixteen vessels, having a tonnage of 13,399 tons.

☞ Dr. Jewett, the well known temperance lecturer, has settled upon a farm near St. Paul, Minnesota, where he proposes to quietly spend the remainder of his days.

It has been found that improved drainage in only twenty streets in Manchester, Eng., diminished the annual mortality of the town twenty per cent.

☞ The Boston Chronicle and Telegraph are to be united and published three times a day; the editors all remain attached,—and will make a very strong paper.

LOUISVILLE, Dec. 24.—The Mayor of Louisville, has issued a proclamation, stating that, in consequence of information which shows a disposition on the part of the colored people to rise against the whites all slaves will be imprisoned during the holidays, who are absent from home after half past 8 in the evening.

The Hopkinsville Mercury says that Ned Jones, a celebrated negro preacher there, had been put in jail by a Vigilance Committee.

A free negro preacher named Sol Young, was hung at Cadiz, Ky., on Tuesday, and another at Pembroke on Wednesday last.

UNEQUALLED AUDACITY.—It is reported that Col. Spencer, the newly appointed United States Marshal of Kansas, has expressed the opinion that the statements made by Mr. Sherman of Ohio, relative to outrages in that territory were true. He is still in Washington, where, according to a letter writer, there is some talk of throwing him overboard on account of his temerity.—*Boston Chron.*

☞ Ship Morning Glory, Capt. Hobbs, arrived in the river at Liverpool on the 8th of December, having left the South West Pass, New Orleans, on the 10th of November; laid by the ship Adriatic off the coast of Ireland eight hours—making the passage in twenty-eight days.

What is the difference between filling a pitcher with water and throwing a woman overboard? One is "water in the pitcher," and the other "pitch her in the water."

A good ship cannot be built if her builders use bad spikes. We take pleasure in referring our readers to the advertisement of Burden's celebrated Pressed Boat, Ship, Brad & Countersunk Railroad Spikes, which are acknowledged, by all who have tested their qualities, to be more desirable than any others known. They are for sale by Blodget, Brown & Co., 80 and 82 Pearl Street, Boston.

LOCAL.

CHRISTMAS passed off very quietly, and yet cheerfully and pleasantly, in our city. The morning was a little cloudy and unpromising; but about noon the sun shone out, fair and light—and we had a pretty good specimen of a clear cold winter's afternoon.

The storm had left snow enough for good sleighing, and the teams were all brought into requisition; and the sleigh-bells told many a merry tale—though the wind did occasionally silt the snow into blooming faces with almost too much familiarity for a new acquaintance.

The Fair at Jefferson Hall was pretty well attended in the afternoon; and there was a complete jam in the evening. The managers may send in our guess cake, as we couldn't well attend on the last evening to get it ourselves. We believe our guess was 7 pounds 11, or vica versa. We offered the lady in charge a quarter to *tell* us the weight—but she didn't know herself.

We hope the Band will realize "notes" enough from this Fair, to pay for many a more valuable *note*, on a different key from 1 per cent a month.

☞ We did not intend to say on Thursday, that the two gentlemen we named had just presented to Mr. William S. Chase, late the efficient Secretary of the M. L. Association, with a Gold Headed Cane; but rather that numerous members of the Society had made up a purse for the purpose, and that the gentlemen alluded to together with Mr. G. F. Melcher, had been active in the procurement and presentation of this token of the universal esteem in which Mr. Chase has been held as an officer of the Society.

Our article was the language of a correspondent, somewhat abridged.

☞ One of the smallest and most amusing tempests ever seen in a teapot, blew from the N. H. Gazette towards the know-nothings, which it assumes to be interested in the Gift Concert, from the fact that certain county officers, being called upon by the audience, inspected the drawing, as to its fairness. It may change the wind somewhat, to state that these officers were nominated and brought forward by some of the sleekest hunker demagogues in the county, to serve as Committee at the Concert.

The same paper understands that "the Co. Treasurer, received a complimentary ticket to the Concert, and was in no wise interested in the lottery, which he aided in drawing simply as an accommodation to the parties concerned."

This complimentary ticket was not given by a manager of the concert, but by a hunker 'friend' of the Treasurer.

At least one of his illustrious predecessors in the same office, of opposite politics, has acted in the capacity of Inspector, on former occasions. Mr. Adams, Clerk of Ward 3, in Portsmouth, the banner ward, is surely not a K. N. These items show may that the management was fair and impartial,—but they don't make one copper's worth of partizan capital for any body.

☞ The Journal devotes considerable space to talking of lotteries, &c., but brings out nothing new or startling, that we see. We think it will be full time for the editor of that paper to find fault with the civil officers for not breaking up the Gift Concert—when *he* has entered a complaint against it himself. Why don't he—instead of all this blowing at everybody else? And why don't he denounce Ross, the soap man?—and the men for whom he (the Journal) prints lottery tickets? and *all* the Fairs? and the Cosmopolitan Art Association?—and the Printer's lottery?

And why won't the Journal point out the paragraph in the Chronicle, defending or recommending gambling in any way—even Gift Concerts?

And perhaps it was no worse for a law officer to participate in the drawing at the Gift Concert, almost "before he knew it," than for the Journal to advertise the *first* entertainment of this sort, before *he* found out that they were so dreadful wicked. O consistency! is not thy name Journal?

☞ Rev. S. Norton (recently of Oberlin Institute, now of Andover Theological Institution) is expected to preach at the Hanover Street Chapel to-morrow.

There are to be public Spiritual Meetings at Academy Hall, to-morrow at the usual hours of worship; and a Spiritual Lecture at the Temple in the evening. See notices in advertising columns.

COURT COMMON PLEAS.

FRIDAY, Dec. 26.

CHRISTMAS SERVICES.

Messsrs. Editors:—So delightful an evening as that passed on "Christmas eve" at the Stone Church, deserves notice.

The union of the two churches, the "North" and the "South," with the friendly division of the services by their respective pastors, added not a little to the enjoyment always attending an anniversary like that. The services were all of the highest order, a deep vein of solemnity pervading each part. Long may these true pastors abide in our midst, keeping watch over the flocks committed to their charge.

The singing was in true taste, and did credit to the choir, whose hearts appeared deeply interested. And who could enter that church, so tastefully decorated, and not feel that "Christmas" was indeed a day to be celebrated? The evergreen words ornamenting the front of the gallery, "Unto to you is born this day a Savior," suggested many thoughts, and raised the heart in silent prayer that He might indeed prove a Savior, a Redeemer.

The delicate bouquet of white flowers on the altar, the graceful festoons, the wreaths of evergreen, all spoke of the taste of those who so earnestly wished to adorn "The House of God."

We could hardly credit that all this was accomplished in less than three days.

Would that this holy anniversary was observed by all Christians. Once more would we express our gratification at being present at the services, and our regret that all our friends did not avail themselves of the privilege of attending. Y. ***

☞ The Hutchinsons are to sing at the Temple in this city, on Monday evening, January 5,—and not next Monday evening.—The Temperance Meeting voted to be held next Monday evening, will be attended at that time, provided the proper arrangements can be made for speakers.

LAKE DISASTER.—*Oswego, Dec.* 24.—Schooner Lenox left Kingston for Toronto three weeks ago, and has not been heard of since. Besides her own crew, she had on board five sailors belonging to another vessel. The Lenox is undoubtedly lost, with all on board.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8*6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine*," and is for sale by all apothecaries. au27 TuTh&w 6m

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all those, and pay your money to those whom you know to be responsible.

PATENT SELF-GENERATING

Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flames. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner.

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Steam ine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4 531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

SWEETSER'S COMPOUND

Iceland Moss Candy,

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs with find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with those qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRENTFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I would sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify that your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chief diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 24 Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKER, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative, which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Piles, Scrofula or Kings Evil. They also, by purifying the blood and stimulating the system, cure many complaints to which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with something else that they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such universal satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves, Cylinder and different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000 of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent, 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an Instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four and a half octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....100

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they get into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Arnold's Vital Fluid

PURIFIES and trengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed*. It eradicates and cleanses away wha ever clogs and thickens the blood

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons

ARNOLD'S GLOBULES AND VITAL FLUID

are enabled to cure them so that they *stay cured*.

VITAL FLUID 50 cents per bottle; GLOBULES 25 cents per box.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has inspe arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal throu h him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate — The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington — Patents secured in Great Britian, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in saying inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoa Spices, &c.

WHOLESALE,—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.

(Sign of the Chinaman grinding coffee,)

141 Washington St., Boston,

SUPPLY the best, finest and purest articles, at *lowest Cash prices*. Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmeg, Cinnamon, Cloves, Cream Tartar; Taraxacum, or Prepared Dandelion Root, &c., &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely upon having them *pure and genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give consumers some idea of our sales, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	1.50	5 lb. Mocha Coffee,	1.00
5 lb. Oolong "	1.75	5 lb Java "	90
5 lb Y. Hyson "	2.25	8 lb. good "	1.00

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of customers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lb. of any other.

DANDELION COFFEE.—This article is carefully prepared at our Mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, *or Prepared Dandelion Root.*—This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee*," may be relied upon as the GENUINE ARTICLE. The proportion used is about one-half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by Druggists.

The medical properties of Dandelion are well-known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee It is prescribed by many eminent physicians to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections &c.

☞ Be careful to observe that all our *Coffees* have our trade mark, "*Chinaman grinding coffee.*"

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rate.

☞ TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Morning Chronicle.

MONDAY, DECEMBER 29, 1856.

THE "CONTENTED" NEGROES.—Just before the rumors came of the insurrectionary movements among the slaves in the Southwest, Senator Butler of South Carolina, "the uncle of his nephew," made a speech, in the course of which he said:

"The institution of slavery in South Carolina, Virginia, and the other slaveholding States now is no more the institution it was when our forefathers condemned it, than the condition of the native African is equal to the elevated position of this people. Our slaves, of whom you speak so much, are *intelligent workmen*. Many of them receive two and a half pounds and three pounds of food a week, with plenty of clothing. It is the interest of the master that they shall be clothed and fed.—They make their little crops and are *perfectly happy*. Some of them run away, and they have got to coming back. That is the worst of it with those slaves.—(Laughter.) They cannot stay away.—They have actually got to coming back. The best fugitive slave law is the fact that they cannot get any work or anything to eat when they go to the North; and they come back."

We are glad to see the testimony of the South Carolina Senator, that the institution of Slavery as it now exists is not what it was when our forefathers condemned it. This is undoubtedly true. It has been an old, stupid and hackneyed lie of the Doughfaces, that the agitation of the Slavery question had wrought a change *for the worse* in the condition of the negroes.—This is not true, and never has been true. Their condition has been constantly made better. The eyes of civilized and Christian men throughout the world have been fixed upon the institution, not without excellent effect. But Mr. Butler is wrong when he says that his "intelligent workmen" are "perfectly happy." The more *intelligent* they are, the *less* contented and happy they are; the more food and clothing and money they have, the more they appreciate their deprivations of other essential things. We have the testimony of Mr. Chase, Member of Congress of Tennessee, that the mechanics and laborers who have been engaged in the recent "insurrection," are men who have obtained some considerable political knowledge by listening to the discussions of the white men. The more they *knew*, the more *uneasy* they became.

Let Mr. Chase and Mr. Butler settle this little discrepancy as best they can.

AN INSTITUTION NOT FIT TO BE EXPANDED. The Washington correspondent of the Independent relates a sad story of injustice done to a colored free man by a pious slaveholding steward of the Methodist Episcopal Church. The colored man was once a slave, but was manumitted by the will of his owner, a lady. The will was broken and Charles remanded to servitude. Some Quakers procured his release on his paying five hundred dollars, but his wife and three children remained in slavery. The scoundrel before referred to, agreed to purchase the family and hold them until the husband and father should pay him six hundred dollars. Charles went to Washington to labor for the money. He visited his family four times a year, and carried them clothing to keep them comfortable. In the meantime the family increased to six children. When Charles offered to pay the price stipulated, the old sinner coolly asked him *four thousand dollars*. After a while this offer was accepted, and the possessor of the family was asked to give a writing to the effect that he would stand by *this* bargain. He refused, and then made complaint against Charles, that he was engaged in running off slaves. Charles, however, escaped and returned to Washington, where he now is. The laws which allow such villany as this, are considered worthy of "expansion" into all the Territories of the United States, and the man who dares to object is summarily set down as a fanatic and a disunionist.

KANSAS ITEMS.—The proposed railroad in Kansas is meeting with unexpected success. Thirty thousand dollars was subscribed a short time since, at a meeting held in the new town of Linnboro. The proprietors of Wyandotte, a new town at the confluence of the Kansas and the Missouri, and the inhabitants of Kansas City, are co-operating zealously in favor of the enterprise. But what adds chiefly to the prospects of its success, is the proposition of the Delaware Indians to invest in its stock the proceeds arising from the sales of their lands, amounting to half a million of dollars.—*Atlas.*

The suspicious character arrested at Wells was discharged at Portland, nothing implicating him in the attempted robbery of Judge Potter. Barney Jordon, the other person arrested, had a sister who lived with Judge Potter as a servant two years ago.

SEVERE GALE.—The telegraph has already given an account of a terrific gale which occurred at Buffalo on Sunday, causing much damage to property. The water in the lake was raised some nine feet above its usual level. The waves lifted several warehouses bodily from their foundations and let them down with a crash which ruined them.

The same gale was also experienced in the region of Auburn, N. Y., and of Alleghany, Pa. At Auburn the telegraph lines were blown down in all directions.—Trees, fences, chimneys, &c., were prostrated, and many buildings were injured.—Walls were blown down and roofs torn off. A hack containing four persons was blown over in the street. In the neighboring towns much damage was done by the wind.

At Alleghany the windows of the Presbyterian Church were blown in during the morning service, and the congregation fled in alarm, many of them being bruised in their haste to escape. The building was propped up, or it would have been entirely ruined. The congregation of the Methodist Church became alarmed and fled, but the building was not harmed. Considerable damage was done by the prostration of chimneys, fences, trees, &c., and the destruction of roofs.

THE HUNTINGTON TRIAL.—The trial of Chas. B. Huntington for forgery, continues to engross a large share of public attention in New York. The testimony recently taken had reference to the career of the accused as a business man. Numerous inquiries were also put in relation to his style of living, the number of horses which he kept, the quantities of plate in his house, etc. The Herald has the following caption to its report of the evidence:

More evidence for the defence—Huntington's tailor's bill—he wants to adulterate liquor—eats off silver dishes—has a band of music to while away the hours—smokes all the time—redeems a woman from slavery—objects to a plea of insanity—wants to pay $5000 for a team of horses—pays $700 for a pair of vases—purchases a dog weighing two pounds, and another weighing 150—employs men servants, maid servants and grooms—curious developments about Wall street, &c.

The evidence reveals that while Huntington squandered money with the most reckless profusion, like most men of his class, he only supplied his wife's purse with small sums. He had pews in three different churches—Baptist, Presbyterian and Episcopalian.

A livery stable keeper testified that "Huntington bought a pair of gray horses for $4000, and gave a check of $500 to a man to pay for them, and told him to keep the balance; he bought another pair with out seeing them, and paid more than the owner wanted; he was no judge of horses; the horses would generally be returned to the stable in a bad condition; he paid $14000 or $15000 for one gray horse, without looking at it; his carriages were silver mounted and got up in the best style; he had seven or eight carriages, was in the habit of exchanging them for others; he had three men to look after his horses at my stable; it is customary for gentlemen to leave grooming to the stable keeper; in one instance he gave $20 to a man for holding his team."

The Newark Mercury mentions a serious accident which occurred on Monday evening to a man named Robert Forrester, a native of Scotland, who fell in with a woman of abandoned character at a beer shop. After spending some time in carousing together they started out for a walk, and when near the Center street Freight Depot they both fell down the embankment, the man breaking his thigh, the woman being considerably bruised about the head and limbs. She was partially drunk at the time, and after being conveyed to the police office had two or three drunken fits, during which she raved violently, using the most profane language. The woman it is said hails from Trenton, and is evidently far gone in the road that leads to destruction. The sufferers were taken to the Poor House. The man is represented to be possessed of more than ordinary intelligence.

PENNSYLVANIA.—Washington letter writers state that Mr. Buchanan is urging the election of the notorious Forney, of the Philadelphia Pennsylvanian, to the United States Senate, to succeed Mr. Brodhead!—His intervention has caused quite a commotion, and it is thought by many that it may lead to the success of General Cameron, the Republican and American candidate.—*Atlas.*

☞ A zealous temperance correspondent at Raymond tells us that there was more drunkenness in that town during Thanksgiving week, than in any other week for years—and wishes the Selectmen to do their duty in enforcing the Law for the Suppression of Intemperance.

THE SERVILE INSURRECTION.—The following is taken from the Memphis (Tennessee) Eagle of Dec. 11,—

A negro preacher at Paducha, guilty of incendiary sermons, fled to Chicago, (a fit place,) but if he ever puts his foot in Paducha again, he will be hung without judge or jury. All negro schools and churches have been closed, and notices given that no holiday will be allowed between Christmas and New Year's day. People are deserting plantations and flocking into the towns, and everything is alarm and confusion. We advise every one to watch their negroes closely.

The Murfreesboro' News has the following item on the same subject: On last Thursday evening there was some excitement in town, which increased after dark and continued throughout the next day. It was not caused by a resurrection nor an insurrection of the slaves, nor by any well grounded apprehension of either at this time, but by a self constituted sort of Vigilance Committee or mob, that whipped, as we are told, nearly every male free negro to be found in town, and ordered each one to leave the corporation and return no more.

LAW VS. RELIGION.—*Louisville, Dec.* 26.—The annual Christmas Eve negro Love Feast was forcibly broken up, in conformity with the Mayor's insurrectionry proclamation. This proclamation is satirized by the press, and derided by the people. All was quiet in the city and vicinity, yesterday.

DEATH OF A PEDESTRIAN WOMAN.—Died in Beverly, Dec. 9, Lydia, wife of Alexander Buchanan. This old hard working woman has traveled from the eastern boundary of Beverly to Salem, three times a week, on an average, a distance of six miles, carrying always two, and oftentimes three bundles, weighing forty and fifty pounds each,—and this task has been for thirty-five years, regularly performed. In the heat of summer—in the cold of winter—in the snow and in the mud—in the rain and in the shine—she has performed her arduous labor, offering for sale her herbs and roots. She had been four times married; her maiden name was Lydia Watt. She was married to John Allen in 1804; her second husband's name was Denis, the third was Tasker, and the fourth, Buchanan, who survives her.

LIQUOR SELLERS SENT TO THE HOUSE OF CORRECTION.—At a recent term of the Court of Common Pleas, held at Plymouth, Mass., the following liquor cases were disposed of:

"Joseph Coogan plead guilty to selling liquor at Bridgewater. Sentence, $50 and costs, and three months in the House of Correction. Margaret Coogan of Bridgewater, plead guilty; $50 and costs, and 3 months in the House of Correction—Terence McGrath of North Bridgewater, verdict, guilty; $20 and costs, and 40 days in House of Correction. Anna Donelly of North Bridgewater, verdict guilty; continued for sentence. J. E. Donelly of North Bridgewater, verdict, guilty; $10 and costs, and 20 days in House of Correction. Maurice Malumphy of Abington, two complaints, verdict guilty, in each; $20 and costs, and 40 days in House of Correction. David Burke of North Bridgewater, convicted at a former term; $20 and costs, and 40 days in House of Correction. Michael Scanlan of Bridgewater, plead guilty; continued for sentence.—Honora Scanlan of Bridgewater, plead guilty; continued for sentence. J. Scanlan of Bridgewater, plead guilty; $50 and costs, and three months in House of Correction. John McAlpine of Wareham, convicted at a former term; $200 and costs, and 6 months in House of Correction. Rufus Darling of Abington, convicted at a former term on four complaints; $20 and 20 days in House of Correction, on each; T. Wrightington Jr., of Carver; $10 and costs, and 20 days in House of Correction. M. Hendrick of Wareham. $50 and costs, and 3 months in House of Correction. J. Dugan of Plymouth, $50 and costs, and 3 months in the House of Correction."

☞ The Home Journal, New York, commences a new volume with 1857. $2 a year in advance. Besides Messrs Geo. P. Morris and N. P. Willis, publishers and editors; Mr. T. B. Aldrich of this city is now connected with this valuable journal, and has in preparation a prose poem, to be entitled "The Rose of Glen-Lodge," commencing with the new volume. The Home Journal is one of the best of the literary journals of the country.

The New Cent is a very pretty coin, and a great improvement on the present unweildy and filthy copper cent. It is about the size of a quarter eagle, but much thicker, and nearly the color of German silver. The obverse is a well executed figure of an eagle in flight, with the date underneath, and the words "United States of America" above. The converse is a finely executed wreath, representing all the principal staples of the country—cotton, corn, tobacco, wheat, grape, &c., with the words ONE CENT in the centre. The only objection we have to it is, it has no ringing sound.—*Gloucester Telegraph.*

Nine more of Bonaparte's victims have escaped from Cayenne, and are on board barque Amazon, which sailed from Demarara previous to Nov. 20 for Baltimore.

FOLLOWING FASHION.—Said a judicious father,—"Do not imagine, my daughter, that you are agreeable and attractive when your person is exposed, or when you aid nature by artificial means. Two classes of persons may gaze on you, to be sure—the immoral and licentious with familiarity;—the reflecting with sadness. Will you consent to such scrutiny? Follow fashion no farther than fashion follows propriety.—Never let your mantua-maker dictate to your morals."

THE NEW KANSAS MARSHAL.—Col. Spencer, the newly appointed Marshal of Kansas, is in Washington. He leaves for the Territory in a few days. He has not yet been confirmed by the Senate, and there is some talk of throwing him over, on the ground that he is not pro-slavery enough, he having expressed the opinion that the statements made by Mr. Sherman of Ohio, relative to outrages in Kansas, were true.

NEW YORK, Dec. 24.—The Steamship Tennessee sailed this afternoon for Nicaragua, *without hindrance* from the authorities. She took out a large number of passengers; and a bountiful supply of provisions for Walker's army.

WELL EARNED.—After having read Dr. Kane's "Arctic Explorations," and learned what humanity is capable of enduring, we are glad to learn that Childs & Peterson, Philadelphia, publishers, will pay over to the author the handsome sum of fifty thousand dollars—copyright per centage on the sale of the work.—*Pittsburg Gazette.*

COURT OF COMMON PLEAS.

SATURDAY, Dec. 27.

The case Burnham vs. Lucien Ayer, was on trial all day, and was given to the jury in the evening.

☞ Mr. George Peverly was found dead on Thursday morning, at Newington, only a few rods from the house where he lived. He had come to Portsmouth the day before, and returned in the evening,—calling at a house on the way,—but from a fit, or other cause, sat down on the ground and died. When found he was not frozen, but nearly covered with snow.

☞ The Temperance Meeting at the Temple this evening, will begin at half past 7.

CITY MISSIONARY SOCIETY.—The Annual Meeting of this Society will be holden at the house of Rev. Mr. Patterson, No. 5 Middle Street, this (Monday) evening at half-past 7 o'clock.

Dec. 29. JOS. M. EDMONDS, *Sec'y.*

THE FAIR.—The Ladies connected with the late Fair, are requested to meet at Washington Hall, on Market Street, this (Monday) evening, at half-past 7 o'clock.

Dec. 29. Per order.

CITY HOTEL, PORTSMOUTH.—The proprietors and former landlords of this well-known and popular hotel, have refitted and improved the house and furniture; and are to re-assume the direction of the establishment.

MRS. PARTINGTON ON COSMETICS.—"That's a new article for beautifying the complexion," said Mr. Bib, holding up a small bottle for Mrs. Partington to look at. She looked up from toeing out a woolen sock for Ike, and took the bottle in her hand. "Is it indeed?" said she, "well they may get up ever so many rostrums for beautifying the complexion, but depend upon it, the less people have to do with bottles for it, the better. My neighbor, Mrs. Blotch, has been using a bottle a good many years for her complexion, and her nose looks like a rupture of Mount Vociferous, with the burning lather running all over the contagious territory. You'd better not try the bottle as a beautifyer, Mr. Bib." Mr. Bib, with a smile informed her that this was simply a cosmetic, h rmless in its character, and intended to go upon the face, and not inside it, whereupon she subsided into the toe of Ike's stocking, murmuring something about "leaking in." Ike in the meantime, was amusing himself by rigging a martingale on Lion's tail, securing that waggish member to his collar, and making him look as though he was scudding before the wind.—*Sat. Eve. Gaz.*

SINGULAR FATALITY.—On Wednesday last, Mr. Edwin Thissel, of Beverly, went into the shop near his father's house, loaded his gun with buck shot, and shot himself, some of the missiles passing entirely through his body. He then quietly entered the house and went to bed, but his condition was not discovered until after some time, when he requested his mother to bring him a clean shirt. He died within twenty-four hours after the act; was about thirty-seven years old and unmarried. He was a very quiet and unobtrusive man, and, although possessed of some eccentricities of character, had not been considered by the community as insane, up to the time of this melancholy transaction.—*Salem Register.*

The new School House on Hancock st., in Ward One, Newburyport, took fire one day last week, between 12 and 1 o'clock, and if the school had been dismissed promptly on the hour it would probably have burnt up. The first known of its danger, except a slight smoke, was the blaze through the floor, over the furnace, which came up close to one of the children as she was sitting in her seat. It was speedily extinguished by men in the neighborhood.—*Herald.*

Gen. Wilson states a new fact, in his late speech in the Senate, respecting Professor Henrick, who was dismissed from the University of North Carolina for holding Fremont opinions. The Professor held a petty place under the government for the little stipend of $500 per annum, as computer on the Nautical Almanac. After he was driven from the South he went to Cambridge, and found that he had been removed from his two-penny place because he held *opinions opposed* to the administration!—*Boston Tel.*

FONTHILL.—A Society of Sisters of Charity in New York have purchased Mr. Edwin Forrest's estate at Fonthill for $100,000. The terms of the purchase are stated as follows: Two-thirds is paid in cash; the remaining $33,333 is secured by a bond and mortgage—payable in twenty years. Mr. Forrest obligates himself to protect the purchasers against the claim of Mrs. Forrest for right of dower—the mortgage being the security.

A Charleston paper says the law substituting the confinement to their ships of free colored seamen, instead of imprisonment, has passed both Houses of the South Carolina Legislature.

DEATH OF COMMODORE DULANY.—*Washington, Dec. 26.*—Com. Dulany, of the U. S. Navy, died here this morning, after a lingering illness.

CONGRESS.

FRIDAY, Dec. 26.

SENATE.—A resolution was adopted calling on the Secretary of the Treasury to report whether some means cannot be devised for the preservation of lives of seamen and passengers who may be wrecked on the coasts of New Jersey and Long Island; and also, whether relief should not be granted to the families of persons who lose their lives in endeavors to rescue others from shipwreck.

Adjourned till Tuesday.

HOUSE.—The House passed several private bills, and also the Senate bill providing for the compulsory prepayment of postage on all transient printed matter.

Adjourned till Monday.

A CHILD KILLED IN THE ARMS OF ITS MOTHER.—A heart-rending occurrence took place in Stockport, Columbia county, N. Y., in which a child was killed while in the arms of its mother. Mrs. Dickerman was sitting in a room with her child, a boy of two years of age, upon her lap, engaged in dressing it, while at the same time her sister, a Miss Platner, was cutting the wick of a candle with a pair of scissors. The sisters were engaged in an angry conversation, when Miss Platner, in a fit of rage, threw the scissors at her sister with great force; the point striking the child upon his breast, penetrated to the heart. The innocent little one exclaimed, "Oh, mother: mother!" and immediately expired. Mrs. Dickerman did not see her sister throw the scissors, and was not conscious of what had been done until she saw the instrument of death planted in his breast. Miss Platner is now confined in the Hudson jail to await the action of the grand jury—*Alb. Eve. Journal.*

She has been bailed for $5000—and is wretched indeed, not caring what becomes of her. She may die; and with her hasty violence of temper, perhaps it is best she should.

THE SHIPWRECKS AT SQUAM BEACH.—Our telegraphic despatches have given some account of the shipwrecks at Squan Beach, New Jersey, last Saturday morning. It seems that both vessels were wrecked in consequence of a mistake of their officers, who took the light at Barnegat for the light at Sandy Hook. The ship New York had 280 persons and a crew of 27. Of the passengers 39 were Germans and the rest Irish. There were small children. They suffered much from cold and starvation.—It is said that the owners refused to send down a steam tug to their relief, but we hope that this is not true. At last accounts they were all alive and endeavoring to reach New York. It is believed that the Captain will recover from the effects of the drunken and mutinous sailors who nearly killed him on the wreck. One of these mutineers had frozen to death, and three of the others have been arrested and lodged in jail. There are various accounts of the assault, but it is said that the most reliable is as follows: After the ship struck, the Captain went ashore in a life boat, for assistance. He could not return that night, and the sailors conceived the idea of plundering the vessel. They had actually broken open various boxes and chests stowed away between decks, robbed some of the passengers of money, clothing, &c., and were just proceeding to ransack the cabin when the Captain came on board, and was perhaps fatally injured in defending the property of the ship.

The other wrecked vessel was the Tasso of St. John. She had no passengers. By a disaster to a boat which went to the relief of the crew, two of the wreckers and four of the sailors were drowned. This disaster was occasioned by the insane behavior of the sailors, who, against remonstrance, insisted on lowering their chests and dunnage into the boat. One of the drowned wreckers leaves a wife and large family of children, and Capt. Goldsworthy of the Tasso, has written the British Consul at New York, to have him ask the British government to make some provision for this man's family.—*Boston Tel.*

GAMBLING IN PORK.—A case of peculiar interest has been decided in the Superior Court of New York. A party agrees to sell a quantity of pork, to be delivered at some future period specified in the contract. It is the understanding of both parties that no pork will be delivered, but that the difference between the market value of that commodity at the time of the sale and at the maturity of the contract, shall be made right between the parties. One party to such a bargain failed to meet the the terms of the implied contract and a suit was instituted to recover. The Court decided that it was a gambling transaction—a wager based on unforeseen fluctuations of the market, and therefore not enforceable in a Court of Law.—*Boston Chronicle.*

PALMETTO POLITICS.—In the South Carolina Legislature on Thursday last an act was passed by a small majority ameliorating some portions of the present law preventing free persons of color from entering the State. A rumor also prevailed in private circles at Columbia, S. C., that the Hon. W. T. De Saussure of that city, formerly U. S. Senator, will receive an appointment in the Cabinet of Mr. Buchanan.

George Mable, a marketman in Baltimore, was brutally stabbed Saturday afternoon, by a man named Rusk. The wretch was immediately placed under $2,500 bonds, to await the issue of the wound.—Mable died the ensuing morning, but his murderer had escaped.

Andrew Marshall, an old colored preacher, died at Richmond, Va., on the 9th, aged one hundred years. He was one of the most gifted of his race, and by many excellent traits of character, won the esteem of all who knew him.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only at yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by druggists everywhere, and at my office, No. 51 Hanover St., Boston. au8 6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 TuTu&h 6m

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business fourteen years, and will guarantee to furnish any publication as cheap as can be obtained.

PATENT SELF-GENERATING
Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is innocuous to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will *cost the consumer very much less than the above prices.* For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHESEMAN, Box No. 4531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

an old established and effectual remedy for RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIVE powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BARNFIELD, MASS., 29th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the consultant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MONTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best one for the purpose ever put out. With a bad cold I would willingly pay twenty-five dollars for a bottle than do without it, if I could not take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IL., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

SIR: YOUR CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the past forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which she could procure ease her much relief. She was steadily declining, until Dr. Strong, of this city, where she has come for advice, recommended a trial of your medicine. Regardless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,
ORLANDO SHELEY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bear witness to the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their purgating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any vitals of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints in which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look farther.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves. Cylinders of different patterns and sizes, in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 23d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Heretofore, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give one testimonial we have received.

NEW YORK, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doet, Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	63

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in variety of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

DEATH OF FATHER MATHEW.—The steamship Canada brings intelligence of the death of Rev. Theobald Mathew at Cork, on the 9th inst. So long as there is an unfortunate to be redeemed from the thraldom of the cup, so long will the memory of Father Mathew be venerated by the wise and virtuous in all lands. He was born at Thomastown, Ireland, in 1790, and at the age of twenty-four years was ordained at Dublin, first commencing his labors among the Irish poor, residing for some time at Cork. The pictures of misery produced by drunkenness constantly presented to his sight one great cause of Ireland's woes, and he at length determined to make the pledge of total abstinence from all intoxicating drinks, the lever with which to raise his degraded countrymen.

He commenced holding meetings at Cork, and hundreds of hardened drunkards enrolled themselves under the banners of total abstinence. He soon became an object of veneration to the excitable people, and the pledge received from his hands became of almost sacramental virtue. He visited every considerable town in Ireland, and his fame was such that tens of thousands welcomed him; the authorities paid him honor, and the pledge, with his blessing, was universally demanded. It is said that at Nenagh he administered the pledge to 20,000 persons in one day; at Galway 200,000 persons received it in two days;—and between Galway and Loughrea, and on the road to Portumna, between 180,000 and 200,000 persons vowed to drink no more of the intoxicating cup. He subsequently visited England, and his tour in the United States is remembered by all. He was received with open arms by his countrymen, who flocked to him for his blessing and the pledge. He was welcomed and encouraged by the friends of temperance everywhere, and his journey was a series of ovations. He returned to Ireland in 1851, and has since been in quite poor health. His benevolent exertions had reduced him to poverty, and as a tribute to his worth, the British government settled an annuity of £300 upon him. At the time Father Mathew entered upon his work of reform, his brother was proprietor of a large distillery, but he was reduced to bankruptcy by the success of the reformer's labors.

Lola Montez was one of the passengers from California by the Tennessee. She intends to take up her residence in New York city—perhaps to run another career of adventures. A fellow traveler tells a very pleasant story of Lola's kindness to one of Gen. Walker's starvelings when they crossed the Isthmus; giving up her own horse to the tired and tender-footed filibuster, while herself trudged behind on foot.

The British United Service Gazette understands that an expedition will be prepared forthwith, to proceed in search of further traces of Sir John Franklin's party, via Behring's Straits. The command will, it is said, be conferred upon Captain George H. Richards.

RUMSHOPS MULTIPLYING.—A correspondent of the Morning Star, having recently taken a tour through a part of *Maine*, says, "travel which way you will in our State of Maine, and you will find the most conclusive evidence that intemperance is fearfully increasing in every town through which you pass—rumshops are multiplying within a twelve month to an alarming and unprecedented extent. At least the statement is all true so far as personal observation and conversation with travellers qualify us to judge in the premises. Being just returned from a tour through several towns, we are made sad again by the constant assurances of the fearful ravages of intemperance among the people. Men you would never have mistrusted, are drinking—men you never would have thought of, are selling pernicious mad poisons."

The same remarks (says the Christian Era) would apply to other localities than in Maine. The increase of the same traffic in Massachusetts, and especially in Boston, is truly alarming. Go where you may, and you will find liquor shops as thick as were the idol gods in Ephesus of old. It is sold openly, fearlessly, and in bold defiance of all laws pertaining to it. It is not simply in the oyster shops, beer saloons and wine cellars that it is dealt out, but in the grocery stores—the places where almost all families send their children for the necessaries of life. They go there to buy bread and they see brandy sold. Thus are they made to witness that which the fond parent most wishes them to shun—rum traffic and drinking. What may be expected of a generation thus educated?

And what is true of Boston, we learn to be true of New York and other maritime cities. Unless the friends of humanity arouse, we may expect to be, at no remote day, a nation of drunkards. O how long shall this soul destroying fountain be suffered to send forth its desolating streams?

The Gloucester Telegraph says that an attempt was made on Sunday evening last, about 7 o'clock, to destroy the Collins School House, by fire. It was fortunately discovered in season to prevent any danger. A large quantity of hay and other combustible material was placed in the air hole left in the underpinning on the eastern side of the house, and set fire to.

TUESDAY, DECEMBER 30, 1856.

INTERESTING JUDICIAL DECISION. — The Supreme Court of the United States has decided the question raised by a retired member of the Rappite Association, near Pittsburg, whether he was entitled to his share of the property and effects of said Association. This Association was on the community principle, in which all the members agreed that all the property of the society was to be joined and indivisible stock forever, and that any individual who should withdraw should not be entitled to anything. The complainant became disaffected, and finally withdrew from the Association of his own free will, receiving at the same time from George Rapp $200 as a gratuity, and $10 for travelling money, for which he receipted. He afterwards claimed that his services were of the annual value of two thousand dollars, and that he had been wrongfully and unjustly excluded and deprived of all share in the property and effects. His claim amounted to sixty thousand dollars. The respondents on the above agreement denied his claim to anything. The Circuit Court in which the question was first made, allowed complainant the sum of three thousand eight hundred and ninety dollars and costs. The Supreme Court of the United States, (Judge Campbell delivering the opinion) reversed the decree of the Circuit Court, with costs, and remanded the case with instructions to dismiss the bill, with costs.

The Washington Union is disturbed by what it calls the renewal of the sectional agitation at Washington. It predicts that "the Republican leaders will have cause to to regret the continued agitation of the sectional question involved in the late Presidential election, which they have unwisely and rashly provoked by their assaults on the President's message." The New York Eve. Post compares this complaint to the case of an Irishman who appeared with a bruised face before a magistrate to swear an assault and battery against one of his countrymen. "Did you do nothing to provoke the assault?" inquired the magistrate. "Not the least thing in life," anwered the Irishman,; "I just gave him a blow on the head with my shillaleh, bidding him be quiet and peaceable, and the dirty spalpeen, instead of minding me, knocked me into the gutter."

FOREIGN NEWS.—The Cunard steamship Europa, from Liverpool, Dec. 13, arrived at New York on Saturday afternoon. At London the money market was brisk at 6 1-4 to 6 1-2 per cent. Consols were a shade lower. Cotton was unchanged in price; breadstuffs were dull and declining, and there was no movement in provisions.

We regret to state that the English papers of the latest date do not make any mention of the arrival of the passengers of the Lyonnais at Bordeaux.

The political news includes the confirmation of the fall of Herat, and the announcement that the East Indian government at Calcutta had proclaimed war against Persia, and had sent forward a fleet and troops.

☞ Mr. Butler denounced the article in the Edinburg Review on the United States as the work of a Northern abolitionist.—It was at once declared that the Northern abolitionist was a South Carolinian; whereupon the Southern papers said that the great honor of South Carolina birth did not properly belong to him, but that he was the son of a Yankee schoolmaster, temporarily sojourning in that empire.—The fact is that Mr. Hurlbut's father was a citizen of Charleston for nearly thirty years, a slaveholder, and a prominent politician.

BOYS AND GIRLS TOGETHER.—The Springfield Republican is out against the practice of educating girls in boarding schools, where they cannot enjoy the society of boys, and the arrangements of our Colleges, where students are deprived of the elevating and refining influence of the ladies. Instances of scandal more frequently occur in those schools where but one sex is allowed to attend. Of course.

☞ The Portland Journal says that it is encouraging to witness the revival of the temperance interest in that city. It is really what may be called a revival. Recently two meetings have been held in two of the largest churches, and each time the houses were crowded, showing that the people of Portland are awake to this great interest of humanity.

APPOINTMENT.—S. P. Hanscom of Massachusetts has been appointed Clerk of the Committee on Territories.

NEW RELIGIOUS ENTERPRISE.—We learn from the Traveller that at the urgent solicitation of the American and Foreign Christian Union and many other friends of the movement, the Rev. Dr. Kirk of Boston has accepted the task of gathering together and organiziing an American Protestant Church, and to some extent, superintending the purchase of a piece of land and the erection of a suitable edifice for public worship in Paris. The importance of establishing a church in the capital of France, wherein all classes of Americans can worship God, presided over by an American, is becoming more and more obvious; the American population, resident and transient, is every year increasing. It is said upwards of two hundred young men, natives of our country, are now permanent residents of Paris.

Mr. Kirk's stay in Paris will not exceed six months. He will leave Boston in about a fortnight. Ample means have been provided to carry out the enterprise in view. Professors Phelps, Shedd and Park of Andover College are expected to supply Mr. Kirk's pulpit in his absence.

THE OLDEST MAN IN AMERICA.—Peter Nassau, a colored man, now a resident of Woodstock, Vt., has reached the extraordinary age of 126 years! and is doubtless the oldest living man in this country. His history has been traced out by N. Haskell, Esq., Town Clerk of Woodstock, and it appears he was born two years before Washington, was 46 years old at the date of the Declaration of Independence, and long before the second war with Great Britain broke out he had passed the scriptural limit of life—three score years and ten!

Peter's portrait is given in Ballou's Pictorial of last week, and he still appears quite hale and vigorous. There are some instances on record, of persons who have attained a greater age than Mr. Nassau, but they are not many. The following among other names are mentioned by Dr. J. W. Draper, in his admirable work on Human Physiology: Attila, 124 years;—Margaret Patten, 137; the Countess of Desmond, 145; Thomas Parr, 152; Thomas Damme, 154; John Rovin, 172; his wife, 164; and Peter Torton, 185. The Englishman, Parr, who was born in 1483, married at the age of 120, and was in the full enjoyment of his faculties, mental and physical, at the age of 140. Henry Jenkins, who died in Yorkshire, in 1670, lived 169 years.

THE RIDDLE SOLVED.—Many solutions have been proposed for the singular fact of the superior prosperity of Northern Free States. It has been thought by some that slavery possibly had something to do with it. It has been left to one of the New Orleans papers to solve the question. It tells us—

"That the invasions of that section of the Union by Yankee school teachers, as a dangerously serious matter; and points out the irreparable injury inflicted upon that admittedly unfortunate city by men from the Eastern and Northern cities, who annually hybernate among us and carry off for their accustomed estivation at Portland, Boston, New York and elsewhere, immense sums made by them in their several pursuits, to the great and permanent injury of New Orleans."

☞ The Phenix Hotel, in Concord, a large and well known hotel, kept by S. H. Dumas & Co, was totally destroyed by fire on Sunday morning. The furniture was saved, but several of the lodgers in the ell where the fire took, narrowly escaped with their lives, and lost their clothing.

It was burnt thirty-nine years ago, on the same spot. Loss $6000 or $7000; insured $3800.

☞ A State Temperance Convention was held in New Haven, Conn., last week. Resolutions were passed urging the re-organization of local Temperance Societies, and the use of increased moral effort to stay the progress of intemperance; also an abiding confidence in the ultimate wisdom of the Prohibitory Law. A State Convention was likewise recommended to be holden somewhere in Fairfield county, in January next.

"Cannibals All, or Slaves without Masters" is the title of a new work about to be published in Richmond, Va., from the pen of one George Fitzbrugh, Esq., author of the "Failure of Free Society"—a work which will make its author famous—when Free Society fails.

Mr Raynor said in a speech at Raleigh:

"A gentleman of his acquaintance was approached by an emissary from Forney, who told him if he would exert himself, not for the Democratic party, but for the straight Fillmore ticket, $100,000 *would be placed to his credit in any Bank he might select.*"

For the Chronicle and Phenix.

TEMPERANCE IN NEW YORK.

Messrs. Editors:—I have just returned from a trip to Albany, whither I went to attend the annual meeting of the New York State Temperance Society. The meeting was one of uncommon interest, and was composed not only of the members of the society but of delegates of the several organizations in the State. The number present was as large as on any former occasion, and members among the best and most influential in the State. The prohibitory law of New York has been stricken down by the Court of Sessions, which decided that some of its provisions were unconstitutional, but what particular parts it is not so easy to determine; nor is it clear that the court understand themselves, as they say the commonly received opinions of their decision are not correct. But whatever the decision of the court may be, the *people* know full well that they have the right by statute law to close every nuisance in the shape of a grog shop in the State; and this the meeting resolved unanimously to do, and if the men whom they have chosen to make these laws refuse to do it, they will elect others in their places who will do the work faithfully. The convention was perfectly agreed that *prohibition* is the only remedy to cure the great evil. To prosecute the war with new energy the coming year, the society resolved to raise $25,000, and the devoted Delavan headed the subscription with $4000. On the whole, we think the meeting was the best we have ever attended, and promises great good to our cause. All look with interest to the proud position of New Hampshire. You have not only the best law on this subject in the world, but courts that will sustain it. Will the temperance men of New Hampshire be true to themselves and the cause they represent? We hope so. The eyes of the world are upon you. So far as we hear, our cause is progressing everywhere—the political excitement over, good men are putting on the harness anew to fight the monster evil of rum selling.—So may it be in every town in New Hampshire. Yours truly,

Maine, Dec. 25. ELIPHAZ.

SENATOR DOUGLAS. — The Washington correspondent of the Traveller, writing on the 15th inst., says:

"Senator Douglas appeared in his seat to-day, for the first time this session. The greatest possible improvement is visible in his appearance since his marriage. Last session he wore ill-trimmed whiskers, long hair, turned down collar, seedy dress coat, and had a decidely shabby look. Now his face is clean shaved; his collar stands stiff and glossy; his linen looks decidely respectable; he wears his hair much shorter than usual; and, to crown all, he appears in a new suit of black, a neat fitting frock, instead of the shabby old dress-coat, and looks about ten years younger than ever. On coming into the Senate chamber, he was congratulated by all, and by none more warmly than by his political opponents."

COL. TITUS.

Before Col. Titus left Kansas, he offered to liberate any free State prisoner, who would join his command, and go with him to Central America.

This act shows a supercilious disregard for the legal authorities of Kansas, by Colonel Titus, or it shows that our men were imprisoned illegally, in the mere wantonness of tyranny, to gratify a deep-seated hatred against free State men.

Come to Kansas. You ask is not Kansas to be a Slave State?" Not at all. The free State men are now as ten to one of the pro-slavery men. Pro-slavery men say that the late troubles have driven out four pro slavery to one free State man. The pro-slavery men are in hopes Mr. Buchanan will do their work; but the free State men in the Territory, say that they will have it a free State, if it is nothing but a heap of sand.—*Kansas Herald.*

LOGIC.—The Boston Chronicle says:

That very amusing paper the New Orleans Delta, finds it easy to be logical in its arguments in favor of re-opening the slave trade. It can not well avoid being so, else it would certainly be otherwise, as usual. If slavery is a divine institution, the slave trade should be regarded as right and proper. The Richmond Enquirer having finally changed its position and taken ground against reviving the African slave trade, the Delta turns upon it as follows:

"The Richmond Enquirer seems to think that what is innocent in Virginia is a crime in Africa. We differ from it—rather. But the Virginians say that a Virginia thoroughbred negro can't be improved! He is the perfection of ebony. Why sell him then? If it is wrong to purchase a debased negro in Africa, it must be a serious crime to buy an educated one in Virginia; the logical conclusion is inevitable."

It is not likely that the Richmond paper will attempt a direct reply to this.

☞ A correspondent writing from Henderson, Minnesota, states that on the morning of Dec. 8th, the thermometer stood at 28° below zero. Decidedly cool!

COURT OF COMMON PLEAS.

MONDAY, Dec. 29

The Court came in at 11 o'clock. The first Jury was empanelled as follows:

Franklin Crombie, Auburn, Foreman.
Hazen Batchelder, Raymond.
Oliver Eaton, Seabrook.
James Frink, Greenland.
Ebenezer Hoyt, 2d, Sandown.
George Sumner, Plaistow.
Daniel Dow, North Hampton.
George N. Shepard, Epping.
John H. Fogg, So. Newmarket.
Israel Marden, Portsmouth.
Joseph G. Nelson, East Kingston.
Phineas B. Beede, Fremont.

In No. 95, Burnham, Admr. *vs.* Ayer, the Jury returned a verdict for the plff.

No. 97.—An action of assumpsit between the same parties was commenced.

PRESENTATION. — We understand that Mr. J. F. B. Jackson, the popular teacher of a private school in this city, on Christmas morning, received as a present from his scholars, a heavy gold pencil case. It was accompanied by a neatly written note from Wm. A. Rice, in behalf of his schoolmates. We are always pleased to chronicle such evidences of friendship as this, and hope Mr. J. will remain among us long enough to receive a great many such.

Mr. John P. Payson also received as a present from his school, "Kane's Arctic Expedition," enclosed in a fine silk scarf. A very appropriate and acceptable gift, to a most worthy and devoted teacher.

BEAUTIFUL CELESTIAL DISPLAY.—*Messrs. Editors:*—Venus, taking the leap year privilege, has been running after Mars for several weeks past. On Sunday evening last, they met within three fourths of a degree of each other, but Venus immediately, as if conscious of too much forwardness, began to shy off. The Man in the Moon, however, noticed them, and has destined for them a honey moon. This (Tuesday) evening, the Moon has made arrangements to be present, and at six o'clock, should the sky be clear, the two horned satellite will be seen with the god of war and queen of beauty—all within three degrees or four diameters of the moon of each other. The display will as as brilliant as rare. Yours, C. W. B.

☞ The New Hampshire Annual Register for 1857, has been published at Concord by G. Parker Lyon, and is for sale in this city at the bookstores of James F. Shores, jr., and Joseph H. Foster. It contains a list of all the State, County, and Town officers in New Hampshire, a table exhibiting the Governor vote of 1856, a complete ecclesiastical and business Directory of the State, and an Obituary Register, besides other valuable information;—making a convenient book.

We notice some odd blunders in the list of Clergymen for Portsmouth, such as giving Rev. Sullivan Holman a Chaplaincy in the Navy, instead of Rev. Dr. Watson,—and locating Rev. N. Medbery, our City Missionary, in Randolph, Coos, beyond the mountains.

"So you've been lecturizing," said Mrs. Partington, to our little junior on his return from a tour. "Were they much shocked by you?" continued she, as he answered her affirmatively. He was much vexed at the supposition that he had been simply on a tour, lecturing about details of science. "No, madam," said he loftily, "I am lecturing for humanity, and am doing a little towards elevating the species." "Indeed," replied she, smiling on him, kindly as an October sun, "and *do* you raise the specie?"—"That, madam," said he, "is not my object. Elevating the species and raising the specie are two things similar in sound, but vastly dissimilar in sense." "Ah," sighed the old lady, lectures are different now, from what they used to be, when prayers were wanted to be made and good men exerted themselves for the betterment of people. I dare say you don't ever have no singing or praying at all, do you?" He assured her that singing and praying did not enter much into the arrangement of literary lecture committees, but being annoyed by her questioning, he turned away just in season to save his immortal lecture and his immortal night garment from the hands of Ike, who was tampering with the lock of his carpet bag with an insane idea in his mind that it contained peanuts.—*Boston Sat. Eve. Gaz.*

☞ Mr. J. H. Foster, of this city, has just received Putnam's Monthly for January. The contents are:

Italians in America; Luna through a Lorgnette: Witching Times; Mrs. Browning's New Poem; Odors of Plants; Peter Flint's Story; The Jolly Hermitage; Young Ladyhood; A Dash at Cape Cod; Cornelius Agrippa—Doctor, Knight and Magician; A Love Chase; International Copyright; Editorial Notes.

George Green, residing near Gainsville, Virginia, was murdered, and his body burned, by his negroes, on Wednesday last.

FROM CALIFORNIA.

NEW YORK, Dec, 27. The steamer Illinois, from Aspinwall, arrived at this port, this morning, with California dates to Dec. 5. She also brings upwards of 300 passengers, and nearly $1,700,000 in treasure.

The Illinois connected with the Golden Gate and left Aspinwall on the 19th inst. The U. S. Steam frigate Wabash left on the 19th for New York via Havana. The sloop of war Cyane remained in port.

There is nothing interesting from Aspinwall.

The California news is of but little interest. The reports from the mining districts are good, though there was still a want of rain in some districts.

The money market was unchanged.

Business at San Francisco unusually dull.

Disbursements in the case of Adams & Co. have been allowed by the Supreme Court, bringing the state in debt to Mr. Cohen, the first receiver. The paper of Adams & Co. is selling at four and five cents.

George M. Pratt, formerly of Massachusetts, has been murdered at his ranche, by a man named Clark Stevens.

ADVICES FROM THE SANDWICH ISLANDS are to Nov. 9. An unusually large number of whaling ships had arrived, most of whom had been successful. The news from the whaling fleet is quite favorable. But few disasters are reported.

FROM OREGON AND WASHINGTON TERRITORIES the news is unimportant.

DATES FROM PANAMA are to Dec. 19. The Panama Star contains an account of the war in Nicaragua, confirmatory of the advices received here by the Tennessee, but gives nothing new.

SOUTH AMERICA.—Dates from Valparaiso are to Nov. 16, and Guayaquil Dec. 1.

Business at Valparaiso dull, and markets were supplied.

The revolution in Peru is on the increase. Two government vessels had gone over to the revolutionists, and President Castillo had denounced them as pirates, and sent three armed ships in pursuit, and had also authorized the vessels of any nation to seize them.

One of these insurgent vessels, the steamer Apatimac, has overhauled the British mail steamer Santiago, on her way from Callao, to Valparaiso, and taken from her all the Peruvian mails.

It was believed that Castello would be able to suppress the revolution, as the Convention would vote him extraordinary powers.

SHOCKING ACCIDNT. — About 9 o'clock this morning a shocking accident occurred at the Washington Spice Mill of L. W. Lathrop, on the east side of Crown street above Rice. A young man named Henry Jones, employed in the mill, was about fixing a two inch band upon a shaft, when by some mishap he was caught by the strap and whirled around the shaft. The latter was revolving at the rate of one hundred and twenty revolutions a minute and the man was carried around that number of times (striking the joist in the floor above with each revolution) before the machinery could be stopped. The body was of course crushed in a shocking manner, the limbs being broken and the brains dashed out. The deceased uttered no cry, and he was probably killed before time was afforded him to become sensible of his terrible situation. — *Philadelphia Eve. Bulletin, Dec.* 18.

We happened in at the immense hardware house of Blodget, Brown & Co., 80 and 82 Pearl Street, Boston, the other day, and found shipbuilders, from various parts of the country, in pursuit of Burden's celebrated Pressed Boat, Ship, Brad and Countersunk Railroad Spikes, which are coming into general use wherever known. SWEETSER'S COMPOUND
Iceland Moss Candy,
an old established and effectual remedy for
RECENT COUGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs will find this Candy a pleasant, convenient and effectual agent for relief

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY
Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cough that it will not cure*, unless *the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine.*" and is for sale by all apothecaries. au27 TuF&h 6m

In calling the attention of the public to my list of Magazines and Newspapers; I would CAUTION all against subscribing for Magazines, Newspapers, or other works, to irresponsible and transient persons, or travelling agents; for in nine cases out of ten you will be swindled and cheated.

If you wish to take any Magazine or Newspaper, subscribe of some responsible firm in Town.—Hundreds of dollars are lost every year by subscribing for works of strangers and travelling agents, and by being induced to subscribe by the thousands of contrivances to cheat the public—such as Art Unions, Premiums, Cosmopolitan Art Associations, and various humbugs to gull the unwary. Keep clear of all these, and pay your money to those whom you know to be responsible.

The subscriber has been in the business four teen years, and will guarantee to furnish any publication as cheap as can be obtained.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

PATENT SELF-GENERATING
Gas Lamp!
PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light—The Sun is all right for the day—we want something like it for night. Candles were invented in 1290, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1850, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

No Ear for Music. — "Do you hear that music, that heavenly music?" said an enthusiastic fox-hunter to a rather green companion, who rode beside him, as the pack opened in full cry. "No, I hear nothing," said verdant, inclining his ear, "I cannot hear anything, for the cussed noise made by those dogs." It may readily be supposed that after this, Old Sport and Young Sport soon parted company.—*Porter's Spirit.*

Twelve of the suberb capitals, which were to surround the great columns in the new custom house at New Orleans, La., costing $3000 each, were recently lost in the ship Oliphant.

We learn from the St John Courier that at Hillsborough, N. B., on Wednesday, a house was consumed by fire, and two men named Glen, and a Mrs. Allen and child, were burned and buried in the ruins.

Two trains on the Virginia Central Railroad, came in collision, Thursday, near Gordonsville. Both were smashed, four or five men were killed, and several others injured.

A green rose has recently been exhibited at Manheim, Germany.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 70 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) desires to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials herewith given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and humors. Hence its power to cure humors that mere medicine cannot cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes *to a certain extent, the element of which pure blood is composed.* It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *vitality.*

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air.* It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning.* It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES — AND VITAL FLUID* are enabled to cure them so that they *stay cured.*

Vital Fluid 50 cents per bottle; Globules 25 cents per box.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or price.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stores. Also, Shop and Box Stoves, Cylinders of different patterns and sizes; in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Prince & Co.'s

Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.
Employing Two Hundred Men, and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000
of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL,** secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55

"Messrs. Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture."

It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguished Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We there fore give one testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming Instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very really, JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C.....$45
Four octave hall octave, " C to F.....60
Five octave Melodeon, " F to F.....75
Five octave, double reed, " F to F.....130

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other companies merely because such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

HUNTINTON, THE FORGER.

The Huntington Trial was continued during Thursday. The evidence elicited no new or striking proofs of insanity.—Three witnesses testified to the recklessness of his business transactions, and to their knowledge of his forgeries. The testimony of his family physician, Dr. Otto Fulgroff, will be read with interest. Here is a portion of it:

I have often been called to visit Huntington while he was suffering from the effect of large doses of quinine, which he had taken for the cure of the Chagres fever; I treated him for general debility; he would not attend to my orders; he smoked fifteen or sixteen cigars; his smoking had a bad effect on his system; it would counteract the medical treatment, and derange his mind somewhat by the reflex action of the nervous system on the brain; the quinine affected his spinal cord, and produced confusion of thought and hypochondriasis; the hypochondriacal tendency displayed itself in contrary action to what we would suppose would be rational; he would say things at one time which he would contradict at another; they were not facts of business importance; I attended him during the present year in Twenty-second street; I attended more to his wife and children than to himself; I sometimes went and drew money from him on account; in 1855 he paid me $586 for services; in 1856, up to August, about $400; I attended him but few times in 1856; in 1855 he would send for me three times a day, and if I did not come he would be offended; I thought it was unnecessary expense to call upon me so often, as his disease did not require it; his wife last Summer wanted to go to Rockaway; I proposed to have her stay a few days longer, as she was not fit to go; he said he would hire a locomotive and car and put a hammock in it for her; I thought that a queer idea; he did not do it; I do not know why; I have been in his house when he had music there; the house was all lit up, and he had ten or twelve pieces of brass music in the parlor, when his wife was sick; I remonstrated with him, and he replied it would hasten her recovery; he kept it up twice a week for four or five weeks, with all the doors of the house open and all the gas in the house lit; sometimes he would come up where his wife was sick and whistle or sing with the music; in my opinion as a medical man, the condition of his mind was such that I never would place confidence in what he said.

DOUGHFACE LOGIC.—The Hartford Times says that an emancipated slave named Caroline Banks, recently applied to Mr. Hardgrove of Richmond, Va., to take her back into slavery, as she found it difficult to support herself and children in Boston. The Times says:

"This does not alter the principle that human slavery is wrong. But it shows, to some extent, the fact that is acknowledged by well informed persons, that the slaves of the South are as a general thing better cared for than the common black laborers of the North, and that they have a more comfortable subsistance, whilst they do not toil so uninterruptedly nor so hard; that the life of the slave is easier and more comfortable than that of the free black. It is a fact touching the condition, not the principle of slavery."

On this, the Boston Telegraph remarks:

If the voluntary return of *one* emancipated slave to slavery, shows that "the life of the slave is easier and more comfortable than that of the free black," the *refusal* of another to return, except by force, shows directly the contrary. And as not one in a hundred of the escaped or emancipated slaves desires to return, of course the logic of the doughface Times entirely fails.

We understand that the reason why Caroline Banks desired to return to Virginia was that *her husband was in possession of Mr. Hardgrove, and he refused to sell him upon any conditions.* The return of Mrs. Banks under such circumstaces does not bear out the argument of the Times. She went back because she loved her husband, and because she could not procure her husband's release from slavery.

THE "REV." MR. ANDERSON.—The telegraphic dispatches from the panic-stricken South announced that a negro preacher, the Rev. Mr. Anderson, had been arrested in Louisville for instigating the servile insurrection, and that letters from some of the most distinguished men of the North were found upon him. This arrest was thought of sufficient importance to be mentioned in Congress. A correspondent of the New York Tribune gives the following account of the man:

This "Rev.," if I am not sadly mistaken, is a drunken old negro, rather more than half idiot by nature, and admirably perfected by whiskey. He came to Indianapolis last winter to lecture on the services of the negroes during the Revolution, but getting no audiences, compensated himself by getting drunk, and was put in "quod" by the police. Subsequently he was roving about over the State making speeches for a "fip" a time, on any side the crowd called for. Both parties in Indiana hired him occasionally, for the fun of the thing, to make speeches; and once he spoke in Maurice, in opposition to Willard, our men say by the procurement of the Democrats, who wanted to have it to say that the niggers were out for the Republicans. The Democrats and Willard himself made a great fuss about it at the time, as you may have seen. The fellow is simply a silly, harmless old darkey, who hardly knows enough to go in when it rains; and the report that he is a leading abolitionist, preacher of the M. E. Church North, and all that, is rich enough to give an ostrich a sour stomach.

WEDNESDAY, DECEMBER 31, 1856.

THE PRISON MURDER.

On Monday afternoon, at the Massachusetts State Prison, in Charlestown, the Warden, Mr. Solon H. Tenney,—a young man, just married,—was murdered in the upholstery department of the prison, by a convict named Charles L. Decatur, as the Boston papers have it. But the murderer's real name is Cater, as De was a mere assumption.

The Warden entered the shop at the west door, conversed a moment with the overseer, Mr. Thomas Dearing, and had passed on almost to the east door, when Cater jumped upon his back, and thrust a sharp-pointed shoe-knife, about four inches in length, through his neck, severing at once the principal arteries. Mr. Dearing ran to seize Cater, who instantly withdrew the knife and threw it from him. When Mr. Dearing approached him, he extended his arms. The overseer seized them, placed his knee against the murderer's breast, and threw him over on his back. He resisted; but the overseer threatening to strike him with a hammer, he became calm. The tragedy took place in the presence of forty-five men, who, upon seeing the warden fall, dropped their tools, as if amazed; but upon the command of the overseer they at once returned to their respective benches, and Cater was conveyed to a solitary cell. He was reproached for the murder, and replied—"I have been watching my chance for two days."

About six weeks ago, Cater asked for a new knife, saying that that which he had been using had been misplaced or lost.—The murderous weapon, it now turns out, was the same knife which he said he had lost. He had sharpened it for the purpose, and secreted it somewhere about his bench. The other evidence of premeditation is found in the facts that on Monday morning he asked Mullen, a convict, "If the warden would come through to-day "and said to Thayer, also a convict, "You'll see fun before night." Other convicts report other language, to the same general purport.

Mr. Tenney never spoke after he was stabbed. He reeled, drew his revolver and fell upon his knees. He muttered and gasped, and died in the arms of Mr. Crowther within fifteen minutes after the assault. The suddenness and violence of his death, coupled with the recent death of the deputy warden,—Galen C. Walker, who was stabbed on the 15th instant, in the prison chapel, by the convict James Magee,—together with other circumstances of late date, combine to make the murder of the warden a cause of more than common sorrow. On the 10th Dec. he was married to Miss Mary E. Bartlett, daughter of William S. Bartlett, superintendent of Suffolk county jail, and while yet on his marriage tour, he was summoned home, in consequence of the murder of his deputy. And now he, in the 33d year of his age and the first month of his marriage, is cut down. His mother and wife resided with him in the "warden's house," in the prison grounds. Their grief cannot be measured. Mrs. Walker, on hearing that Mr. Tenney had been killed, became frantic, and for an hour a feeling of insecurity and excitement prevailed throughout the premises.

As soon as possible the convicts were sent to their cells for the night. Generally they manifested sorrow; for the warden had been kind to them. He was a man of experience in prison matters. He served a long apprenticeship in the jail of Boston. He was appointed to superintend the State Prison in April last.

Cater is a native of Kittery, Me. He is about twenty-two years old. Five years ago he was sentenced to the House of Correction at South Boston, for stealing from his employer. At the expiration of his sentence, he went to work for Mr. A. H. Allen, Dock Square, stole damask from him, for which offence he was sentenced to the House of Correction for eighteen months. While there the second time, he assaulted one of the officers, Mr. Sawyer, with an axle-tree, and for this offence he entered the State Prison, April 24, 1856, on a term of three years. He has, up to this time, been an orderly prisoner, and did cheerfully whatever he was requested to do. The instructor on Monday requested him to make four alterations of some work which he had performed on a sofa, and he complied without complaint. He is of small stature, and insinuating address.—His mother died a short time since in this city,—and his father died about two years ago in California. Though a young man, he is an old offender.

Mr. Tenney was a native of Lebanon, N. H.

GEORGE WHITEFIELD.

CHAP. IV.

Some time since, we gave three chapters of incidents in relation to George Whitefield, the great revivalist of an hundred years ago. These were read with interest. There is material, new and old, for many more chapters. We give one to day.

In his own narrative of his life, Franklin has given an interesting sketch of that celebrated popular preacher, the Rev. George Whitefield, who made his first appearance in this country in the year 1739. As Whitefield, including his various visits, was a good deal in Philadelphia, Franklin became intimately acquainted with him; and though never one of his converts, he was deeply impressed by the earnest and exciting eloquence of the preacher, and held him in high esteem as a thoroughly sincere, honest, warm-hearted, benevolent man.

When Whitefield first presented himself in Philadelphia, the clergy of that city freely admitted him into their pulpits; but for some reason not specifically stated, they pretty soon took offence, and closed their churches against him, so that he was compelled for a time to address the people in the fields. This, however, being found not only inconvenient and uncomfortable, but hazardous to health, a proposal was started among some of his more zealous and active admirers to build an independent meeting-house, to which not only Whitefield, but any other preacher of whatever denomination, should have free access. The proposal instantly took, and subscriptions were speedily obtained sufficient to purchase ground and erect a plain, substantial edifice, a hundred feet in length by seventy in width. The work was soon done, and the whole property conveyed, in due legal form, to trustees, to be held for "the use of any preacher of any religious persuasion," who should wish to present to the public his views on any religious subject whatever; the purpose, in providing such a house, not being the accommodation of any particular sect, but the people generally.

After some time spent in Philadelphia, Whitefield proceeded southward as far as Georgia, preaching at all the principal places on his way. Georgia had been organized as a colony only about six years; and its first settlers, as described by Franklin, "instead of being hardy, industrious husbandmen, accustomed to labor—the only sort of people fit for such an enterprise—consisted chiefly of "families of broken shopkeepers and other insolvent debtors," unqualified both by character and habits for clearing away forests and converting a wilderness into a fruitful country, or for encountering the privations and the various exigencies of a new settlement. The natural consequences of such a beginning speedily followed. These first colonists rapidly perished, leaving a large number of helpless children, whose destitute and wretched condition so deeply moved the quick sympathies of Whitefield, that he straightway resolved upon the project of erecting, in the new colony, an asylum for the support and education of its numerous orphans; and again turning his face northward, he pressed the subject upon his hearers as he advanced, and everywhere so successfully, that, before reaching Philadelphia, he had gathered a large amount of contributions in behalf of the undertaking.

On reaching Philadelphia, Whitefield broached his plans and proceedings to Franklin. The latter, though concurring in the object proposed, showed his better judgment and more practical good sense, by advising that, inasmuch as neither mechanics nor materials for the work could be furnished in Georgia, instead of incurring the heavy and needless cost of sending everything to the new settlement, it would be wiser, in every respect, not only for the early completion of a suitable edifice, but for the proper management of the institution afterward, to erect the asylum in Philadelphia, and bring the children thither. But Whitefield rejected this judicious advice, and persisted in his preconceived course with such stubbornness, that Franklin, offended at his obstinacy, determined he would give nothing in aid of the undertaking. To this determination, however, he did not long adhere; and he has himself related the manner in which it was overcome, as an illustration of the power of Whitefield's preaching. The anecdote is too interesting to be omitted, and is best told in his own words.

"I happened soon after," says Franklin, "to attend one of his sermons, in the course of which I perceived he intended to finish with a collection, and I silently resolved he should get nothing from me. I had in my pocket a handful of copper money, three or four silver dollars, and five pistoles in gold. As he proceeded I began to soften, and concluded to give the copper. Another stroke of his oratory made me ashamed of that, and determined me to give the silver; and he finished so admirably, that I emptied my pocket wholly into the collector's dish, gold and all."

Another hearer who agreed with Franklin in relation to the asylum, no less a man than Thomas Hopkinson, the father of Francis, was swayed in like manner by the same person. To secure himself against the influence of the preacher, he had purposely omitted to bring any money with him; but as the discourse drew to an end, he became so warm with the desire to give, that he turned to a quaker standing by him, an old acquaintance, to borrow money for the purpose. The excitement of his feelings is well indicated by the answer of the Quaker. "At any other time, Friend Hopkinson," said he, "I would lend to thee freely, but not now, for thou seemest to be out of thy right senses."

Though Franklin and Hopkinson were both men of quick and generous feelings, yet were they also men of cultivated minds, and not likely to be much moved by coarse and spurious appeals to their sympathies; so that the testimony thus borne by them to the persuasive power of Whitefield's eloquence, may be considered unequivocal and conclusive.

In repelling some insinuations which had been thrown out against Whitefield's fidelity in applying the money he was collecting for the orphan asylum, Franklin, in the most explicit terms, has declared his conviction that "he was in all his conduct a perfectly honest man." No man, probably, knew Whitefield more thoroughly than did Franklin; who, besides having entertained him as a guest at his own house, and seen much of him in social intercourse, had also transacted a good deal of business with him, as the printer and publisher of four volumes of his sermons and journals; so that these facts, taken in connexion with Franklin's quick and clear insight into character, seem to render his testimony conclusive.

Franklin, moreover, fully confirms the traditionary statements respecting the vast multitudes, counted by thousands, which flocked together, on foot, on wheels, and on horseback, and not heeding the weather, remained for hours in the open air, to listen to the fervid eloquence of the man, who, for his power in swaying masses, must probably be regarded as the most remarkable preacher of modern times.

His voice was doubtless one of the means of his power. "Whitefield," says Franklin, "had a loud and clear voice, and he articulated his words so perfectly, that he might be heard and understood at a great distance." To test this distance, Franklin once took an opportunity, when Whitefield was preaching from the steps of the Philadelphia courthouse. These steps, it appears, stood on the line of one side of Second street, and fronted the middle of Market street; so that people to the right and left, in the former street, and in front in the latter, could both see and hear the speaker. By varying his distance to the front, in Market street, Franklin found that he could distinctly hear and understand all that was uttered, until he had receded very nearly to Front street. Taking that distance as the radius of a semi-circle filled with listeners, and allowing two square feet to each, he computes that the preacher "might be well heard by more than thirty thousand." This computation, it will be seen, makes no allowance for the number of persons, who, if in the open field, might hear distinctly, though back of the speaker; a number sufficient, probably, to balance the advantage gained, in point of distance, by the passage of the voice along a street compactly built on both sides; and Franklin adds that his experiment "reconciled him to the accounts of Whitefield's having preached to twenty-five thousand in the fields," as well as to what he had read of armies harangued by their leaders.

Franklin expresses his belief that Whitefield would not only have better consulted his reputation, but would have retained a stronger hold on the admiration of the world, and secured a larger body of followers, if he had never published any of his sermons or other writings, but had intrusted his opinions and his fame to oral tradition and the zeal of his proselytes.

☞ The Montreal Gazette announces the death of Mr. Warren, for 18 years organist of Christ Church Cathedral, the conflagration of which took place a few days since. He was considered one of the most accomplished members of his profession on this continent.

ARREST FOR MURDER.—*Auburn, Dec. 27.*—Allen Weld, a printer boy by trade, was arrested in this city this P. M., charged with the murder of Mr. Beadle, which occurred some three months since in this city. He will be examined on Monday.

COURT OF COMMON PLEAS.

TUESDAY, Dec. 30.

Court occupied all day with the case Burnham vs. Lucien Ayer, No. 97.

MUSIC.—It will be seen that we advertise the third Convention of our County Musical Association, to be held in this city, next week. The two, which have been held here, have proved the utility of such gatherings; and all interested in musical progress, will avail themselves of the advantages of the Convention.

It will also be seen that the Old Folk's are to take their harps from the willows, and treat us again to some of the ancient psalmody.

CHRISTMAS SERVICES.—We stated, some days ago, as matter of remembrance, that during the Rectorship of St. John's Church in this city, by Rev. Charles Burroughs, D. D., the Christmas service had been performed there without failure. On enquiry, we find this statement to be strictly accurate, yet not complete. It should be added that Dr. Burroughs, who was admitted to Deacon's orders, in Philadelphia, 10th Dec. 1810, and who was not back in this place in season to preach the Christmas sermon, that year, has preached in his own church on that joyous anniversary, every year since, forty six years, without intermission, and without the repetition of a single discourse;—every sermon of the series being written for the occasion.—We deem this item worthy of record, as a rare instance of stability, punctuality, and steadily protracted ministerial labor.

NICE BEEF.—A yoke of very large and fat Oxen were sold at auction by G. W. Towle, Esq., on the Navy Yard at this station, last Saturday, for $267—which is seven dollars more than any yoke ever brought here before. They were purchased by a butcher of this city, who is never second in his efforts to furnish *the best* in the market—but as he does not advertise these things, it is but fair for us to presume that he does not wish the public to know them; and so we won't expose him.

☞ The Mercantile Library Association announce as their lecturer this week, Geo. Edward Rice, Esq., of Boston, who will appear on Friday evening next, and deliver the Poem which he produced before the Boston Mercantile Association at its late commencement, and which has been so highly eulogised by the press.

THE SLAVE INSURRECTION.—The Newport (Kentucky) News has the following in relation to the late alleged plot of the slaves of the South to rise against their owners:—

"We learn from the Russelville Herald of Wednesday last, (by telegraph) that great excitement exists in the neighborhood of Volney and Gordensville. A negro, belonging to one of the iron works of Tennessee, who knew something about their plan for liberty, died by the torture of the lash, rather than tell of his brethren who had conversed with him on the subject of their freedom. He received 750 lashes at the hands of white savages, (too lazy to do their own work) before he expired.

At Cadiz, Trigg county, Ky., yesterday says the Herald of Wednesday last, a free negro was hung, after being tried by the Vigilance Committee, and that a number more are in jail, some of whom will be hung.

A white man was hung not long before this for denouncing this inhumanity to man, and another whipped because his heart was moved with sympathy to witness the horrid abuse of the negro guilty of no crime but that of a love of liberty.

This, fellow-freemen, is a most horrid state of things to exist in this free country. The black man is robbed of his labor by *law*, and the white man of his by dread; and not a press in the whole South (save the Newport News) dares to demonstrate against it, lest some tyrant would say, "stop my paper." Both black and white, that labor for a living, are viewed as animals of like calibre and low grovelling nature, by the wealthy man owner, except that the cringing white man, who reduces his own wages, and those of his neighbor, by fondling around the slave master, is least respected. And such as these are used to set on chase after runaway negroes, to bring them back to work for nothing, that white men may also be compelled to beg for a job, and then, like the negro, get only enough to feed and clothe them for it. Oh, sweet institution of Slavery! Oh, sweet barbarity! Sweet brutality and murder! Sweet wealth and poverty! Sweet learning and sweet ignorance! Oh, sweet trifling humanity!

You that dare speak out in Kentucky, let us hear your voice! Speak over your own signatures like freemen, or ask for yourself a rope for the gallows! The time has come when we should know a skulking Tory from a patriot of liberty; and to know whether we must live by acting the tyrant, or die for imitating a Washington."

TERRIBLE RIOT.—A terrible riot occurred on Christmas Day, among the Philadelphia oystermen in Patuxent River. One man was killed and buried at Drum Point, and three others taken ashore badly wounded. These boats were lashed together, and the fight continued between them all night.

CONGRESS.

WEDNESDAY, 30th.

SENATE.—The Senate adopted a motion of inquiry into the expediency of settling the boundary of Utah. Adj. to Friday.

HOUSE.—The House is discussing the President's annual message.

WASHINGTON, Dec. 29.—The House Committee on Public Lands have agreed to report the Pacific Railroad bill gotten up by T. Butler King and Robert J. Walker, both of whom are here. The bill will be matured in a day or two. Persifer F. Smith has been appointed to a Brigadier Generalship, created two years ago, and since remaining vacant, with the view of elevating Jefferson Davis, who, in the meantime, has been elevated to the Senate.

THE BURNING FLUID TRAGEDY AT POTTSVILLE PA.—The Pottsville Journal of the 18th inst., gives the particulars of the burning to death of a young girl from the use of burning fluid:—

A fluid lamp in the hands of Miss Sarah Kimmel, 18 years of age, exploded from some unknown cause. The burning fluid communicated to her clothing, and in an instant she was a mass of flame. At the time of the occurrence she was in the second story front room with a child four years of age. She raised a front window and tearing a portion of the burning clothing from her person, threw it into the street. Finding this ineffectual, she next sprang for the stairs communicating with the front room of the first story, down which she fell head first, and rolled a burning mass at the foot.

Frantic with agony, she gained her feet, and running rapidly past several members of the family, who were in the back room, she reached the yard, down which she staggered until she fell powerless and overcome at the rear end. Her father, mother, and brother followed, and, in endeavoring to rescue her, were severely burned. The poor girl died in five minutes after, undoubtedly from the effects of inhaling the flames. Her body presented a shocking spectacle. The skin peeled from it, her hair was completely burned off, and her features were so distorted and blackened as to defy recognition. Miss Kimmel was shortly to have been married.

☞ Of the grand festivities at Montreal, the N. Y. Tribune's correspondent says:—"Of the wine nearly the whole quantity provided was consumed, making more than a bottle to a man; of the edibles—which were all most excellent—a large portion remained untouched. A hundred and fifty waiters attended the tables. It is hardly necessary to state that the dishes were served cold, or that that the company separated in a state of becoming enjoyment. For the gratification of those concerned in culinary statistics, I would state that the expense of the banquet was about $18,000, or a little more than $3 50 per head."

THE LAST DAY OF THE YEAR.—Is it really so? How we come to another annual period? Even so. Then let us number our days, so as to apply our hearts unto wisdom. The year, as we look back upon it, seems crowded with important events, political, national, commercial, and social. Many of them were intensely exciting, as they occurred. But in the review they become mellowed down, as the glare of sunlight melts away into the golden hues of twilight. And when we look for some, who were actors in many of the scenes, but who have left the stage of life,—we then see them and the events through the shadow of death,—and perceive the transitory nature and frail texture of those objects which men are prone to pursue. As Watts has it, in a hymn now mostly laid aside, they "look downward as they run." But we would look upward, and thus let the years run out in hope and confidence, that

"When we quit this dying world,
We'll rise above the sky."

SONG OF THE FLOWERS.

BY EMELINE S SMITH.

We come with smiles of gladness,
Tho' we're followed by decay;
And we claim a kindly welcome,
For have not long to stay.
Grant us a gleam of sunshine,
A kiss from summer's breeze,
A few of heaven's dew drops—
We ask no more than these.

Then, in your daily pathways,
So cheerfully we'll bloom,
And 'round your pleasant dwellings
We'll lavish rich perfume;
Your hours of toil we'll sweeten,
We'll smile away your care;
And we'll even bid your sorrows
A holy aspect wear.

There are many human blossoms
With natures like our own,
Whose bloom, from earth's fair bowers,
May be as quickly gone.
Such pure, pale buds of beauty,
Are the angels of life's way,
O, cherish them with kindness,
While in your homes they stay!

Give them plenty of Love's sunshine,
With Pity's gentle dew;
And let the breath of tenderness
Their every step pursue.
Then, while they dwell among you,
They'll brighten all your hours;
And when they pass to heaven,
They'll go gently, like the flowers.

WOOD'S HAIR RESTORATIVE.

We have never known any other medicine win as large a share of public confidence in so short a time as this has done. It has not been more than a year since we first heard of it, and it now stands at the head of all remedies of the kind. We have never used any of it ourselves, having had no occasion, as our "crown of glory," not only as yet retains its original color, but gets more so—but some of our friends have, and we have never known it fail of restoring the hair to its original color. We advise such as are becoming prematurely gray, to give the "Restorative" a trial.—Chester (Illinois) Herald, June, 1854.

NO FAMILY

Can afford to be without Mustang Liniment in their house. The many accidents we are liable to, may render it necessary any moment, and nothing is capable of performing such a certain cure. (Extract.)—"In lifting the kettle from the fire it caught and scalded my hands and person severely—one hand almost to a crisp. The fortune was unbearable. It was an awful sight. * * * The Mustang Liniment appeared to extract the pain almost immediately. It healed rapidly and left no scar of account. CHAS. FOSTER, 420 Broad street, Philadelphia." It is truly a wonderful article. It will cure any case of Swelling, Burns, Stiff Joints, Eruptions or Rheumatism. For Horses it should never be dispensed with. One Dollar's worth of Mustang has frequently saved a valuable horse. It cures Galls, Sprains, Ringbone, Spavin and Founders. Beware of imitations. Sold in all parts of the habitable Globe.

HEALTH AND STRENGTH.

☞ DR. S. O. RICHARDSON'S SHERRY WINE BITTERS is the best Medicine ever used, for Summer Complaints. It has been more liberally patronized than any other ever established in this country. It is the same Richardson's Bitters which has restored so many invalids to health throughout New England during the past thirty years.

N. B.—Beware of imitations called Sherry Wine Bitters. The genuine have a fac simile of my signature upon the outer envelope. For sale by Druggists everywhere, and at my office, No. 51 Hanover St., Boston. aug6m

THE GREAT DISCOVERY.

Many years ago, Doctor Burleigh Smart, of Kennebunk, Me., discovered that a simple article *never before used as a medicine*, was a never failing cure for coughs of every description, and an excellent blood purifier. By its use in his private practice, he acquired the reputation of being the best physician in New England, for all diseases of the lungs. After his death, Messrs. Shaw & Clark of Biddeford, Me., obtained a Copy Right from Government, for its exclusive manufacture, and now have it carefully prepared strictly according to the original recipe. *There is no cow; that it will not cure, unless the patient is past all human aid before commencing its use!* It is called "*Doctor Burleigh Smart's Cough Medicine,*" and is for sale by all apothecaries. au27 1uTuTh 6m

SWEETSER'S COMPOUND

Iceland Moss Candy,

an old established and effectual remedy for RECENT COFGHS, COLDS, INFLUENZA, BRONCHITIS, TICKLINGS and uneasy Sensations in the THROAT, ASTHMA, and AFFECTIONS of the PULMONARY ORGANS generally.

THOSE suffering under any Complaints of the Lungs with find this Candy a pleasant, convenient and effectual agent for relief.

The Healing and Curative powers of the Iceland Moss (Lichen Islandicus) have long been recognized by medical Practitioners—particularly in CONSUMPTIVE cases and affections of the Lungs, as it combines with these qualities both TONIC and NUTRITIOUS powers. Numerous cases are recorded in which cures have been effected by the use of ICELAND MOSS, alone.

Prepared in this form, it is rendered more pleasant and convenient, without being deprived of its medicinal virtues; while it is wholly free from the unpleasant flavor which attends its usual preparation.

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4 581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

A Tour of a Wedding Dress.—Some few days since a lady residing in Warren street, who had been recently married, had her wedding dress, a very handsome and costly article, as we should judge by its appearance, stolen from her residence, and of course felt the loss severely. On the evening of the 16th inst., a woman named Sarah Smith was brought into the 4th Station House, in a very drunken state but very richly dressed. In the morning she was discharged, and shortly after the theft of the dress was make known by the loser. The officers suspected Sarah to be the thief, and yesterday afternoon was found at Deer Island with the same dress and fixings on her person, having been on a continual drunk ever since the theft she had committed. The dress being once worth about $75 is now materially lessened in value by the unusual wear and tear of its hymenial tour. Sarah will end her journey in the House of Correction. The dress goes home. —*Boston Chronicle.*

Awful Death.—"Found dead in his woodshed, on the 18th inst., Mr. John Doyon, of Avon, Me., aged about 74 years, supposed to have frozen to death in the night. It appears that he attempted to get some wood in the evening, as there was found near him part of a candle and a candle stick. He was found lying upon his face, with quite a wound upon the forehead, with the appearance of some struggling in the attempt to arise. There were none in his family capable of giving the alarm. He was found sometime in the forenoon, by a neighbor."—*Portland Tran.*

Mr. Doyen was the father of the noted Helen Jewett, who was murdered in New York many years ago.—*Boston Chron.*

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents superior to those offered inventors by others, has prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal thereof by him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The Immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides an extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britian, France and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Arnold's Vital Fluid

PURIFIES and strengthens the blood by eradicating, through a nice chemical action, the causes of impurities and *humors*. Hence its power to cure humors that mere medicine *cannot* cure. Hence its power of *strengthening and vitalizing* the blood. It furnishes to a certain extent, *the element of which pure blood is composed*. It eradicates and cleanses away what ever clogs and thickens the blood.

ARNOLD'S VITAL FLUID

Renders the system strong and healthy, by freeing the blood and stomach from objectionable materials. It nerves and vivifies the system, by furnishing the elements which give *stability*.

ARNOLD'S VITAL FLUID

Gives to the system an influence and effect similar to that produced by exercise in the *free open air*. It *exhilarates* by strengthening the blood to brighter and better action—doing its work by beginning at the *beginning*. It is pleasant to the taste, and becomes a favorite wherever known.

ARNOLD'S VITAL FLUID

Removes *Biliousness* in the most direct and easy manner, by *neutralizing* the cause. This is the principle of its action in removing illness generally. It *neutralizes the cause*, by freeing the blood from impediments to its proper fulfilment of its life-giving functions.

This principle of neutralizing the cause is why ARNOLD'S VITAL FLUID CURES HUMORS that mere medicine cannot sensibly affect, and why it cures other diseases.

Resulting from Poisons in the Blood, that mere medicinal preparations cannot alleviate. *Humors* are poisons in the blood, and it is by their chemical action in neutralizing those poisons that *ARNOLD'S GLOBULES AND VITAL FLUID* are enabled to cure them so that they *stay cured*.

Vital Fluid 50 cents per bottle; Globules 25 cents per box.

Burr, Foster & Co., 1 Cornhill, General Agents. Weeks & Potter, 154 Washington street, and Geo. Goodwin, 99 Union street, Wholesale dealers. Mansfield & Co., 11 City wharf, Special Agents, Boston.

STOVES! STOVES!

Frank Jones' Improved.

THIS Cooking Stove, from the rapid sale which it has had since its first introduction into this market, has proved itself to be far superior to all other cooking stoves yet made, in point of durability, economy, perfection in cooking, and draft.

Those about purchasing, will find it for their interest to examine this, and they will be convinced that it is useless to look further.

Every Stove warranted to give perfect satisfaction, in every particular, or no sale.

The Improved Empire State.

This Stove has been so long in the market, and so extensively used, and has given such unparalleled satisfaction, that it hardly necessary to say anything further, than that we have a large invoice of all the different sizes, for wood or coal.

Also, Repairing Pieces, of every description, which we are enabled to sell at prices that shall satisfy all.

The White Mountain

has been the favorite stove with many, for several years,—it having given such universal satisfaction wherever used, that it is thought by those who use them to have no superior.

To those who are in search of the White Mountain, I would say that I have the heaviest stock, of all sizes, to be found in this market, from which to make their selections—at prices that cannot fail to suit.

OUR STOCK OF

Parlor Stoves

comprises all the various kinds, among which may be found the Favorite, Villa, Star, &c.

Also, a large variety of Open Parlor GRATES, of all sizes, which cannot be surpassed for elegance or *parlor*.

Oven Parlor Stoves, some very beautiful patterns, for either wood or coal.

Also, Sheet Iron Stoves, of different sizes, with and without ovens.—Pyramid stoves for Halls or Stoves. Also, Shop and Box Stoves. Cylinders of different patterns and sizes in fact all kinds of Stoves, for all purposes, to suit every customer.

Cabooses.

We have many different sizes of this kind of stove for use aboard vessels, which we offer at the lowest prices.

Our Stock of Stoves comprises the *largest assortment*, of the best patterns, ever brought into this market which I am determined to sell lower than can be bought at any other establishment in the State, wholesale and retail.

Give us a call.

Burning Fluid

OF EXTRA quality constantly on hand at retail; Also, by the barrel, at the manufacturer's prices, at the Grocery Store of

S. DONNELL,
Congress street.

PATENT SELF-GENERATING Gas Lamp!

PARTICULARLY ADAPTED TO CHURCHES, HALLS, HOTELS, FACTORIES, STORES, PARLORS AND FAMILIES.

THERE is nothing more desirable, when engaged in any avocation, than a good light.—The Sun is all right for the day—we want something like it for night. Candles were invented in 1295, and have ever been denounced in consequence of prematurely injuring the eyes by their pernicious flame. We desire a more natural light, and it was discovered and patented in 1856, and has been tested by thousands since that time. The brilliancy of its flame is unequalled by any other artificial burner

SOME OF ITS GOOD QUALITIES.

It is perfectly safe.
No chance for explosion.
It is not extinguished by an ordinary wind.
It requires re-wicking only once in six months
It will not get out of order.
A child may take care of it.
It is unequalled for reading or sewing.
The light is uninjurious to the eyes.
For Economy, Cleanliness and Comfort, it defies competition, and it is the best and cheapest light in the world.

☞ We wish it understood that the Gas Lamp will give the same amount of light as three Stearine Candles, for half a cent an hour, and the light of seven candles for 1 cent.

All Fluid and Oil Lamps altered to Gas Lamps.

If Fluid is bought at wholesale prices it will cost the consumer very much less than the above prices. For sale by R. N. BODGE,

Prince & Co.'s Improved Melodeons.

THE OLDEST ESTABLISHMENT IN THE U.S.

Employing Two Hundred Men; and finishing

Eighty Instruments per Week.

BETWEEN 18,000 AND 19,000

of these instruments have been finished and are now in use.

THE latest improvement in our Melodeons is the **DIVIDED SWELL**, secured to us by Letters Patent 22d May, 1855.—By means of this Swell Solo Passages may be played with the full power of the Instrument, while the Accompaniment is soft and subdued.—Hereafter, all Melodeons made by us, will be furnished with this attachment *without extra charge.*

Extract from the Commercial Advertiser, July 27, '55.

"Messrs Prince & Co could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement; but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufactures.

"It is now eight years since we commenced the manufacture of this new celebrated Musical Instrument, during which time we have finished and sold nearly NINETEEN THOUSAND. Voluntary testimonials to the excellence of our Instruments, from the most distinguised Professors of Music in different parts of the United States, have from time to time been received. Thus far we have said but little, and our advertisements were seldom seen for the reason that we could not supply the demand. We have lately erected one of the largest and most perfect Manufacturing Establishments in the United States, and we now think that we can fill orders promptly. We therefore give our testimonial we have received.

New York, 15th Oct., 1855

"G. A. Prince & Co.: Gentlemen—The Double Reed Melodeon has arrived, and a most charming instrument it is. It has been played on by Wallace, Doct. Hodges, Wm. Mason, and a host of others, and they all pronounce it one of the most beautiful toned reed instruments they have ever touched. Very resp'ly. JAMES F. HALL."

We are not aware that the above mentioned Melodeon is in any particular superior to those we are daily finishing, and we can assure those who are inclined to favor us with their orders, that they will be furnished with an instrument equally as good. Our Instruments are all finished in Rosewood Cases, and the workmanship is of the very best quality. The styles and prices are—

IN PORTABLE CASE:

Four octave Melodeon, from C to C	$45
Four and a half octave, " C to F	60
Five octave Melodeon, " F to F	75
Five octave, double reed, " F to F	130

IN PIANO CASE:

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES

ALWAYS OPERATE PERFECTLY,

being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a trail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to be performs substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skilful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The model of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N B.—All persons desiring full information about sewing machines can obtain it by applying for a copy of "I. M Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

Clark's Female Pills.

The Great English Remedy.

Prepared from a prescription of Sir Jas Clarke, M.D., Physician Extraordinary to the Queen.

THIS Invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females during the first three months of Pregnancy, as they are sure to bring on miscarriage, but at every other time and in every other case they are perfectly safe.

Sole Agents for the United States and Canada, I. C. BALLWIN & CO., Rochester, N. Y. Tuttle & Moss, Auburn, N. Y., General Agents.

N. B.—81 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.
